It fell to the lot of Prof. Fulkerson and Superintendent Denman to solve a veritable Chinese puzzle, a few evenings ago, when all the library books for the various school districts in Benton county arrived. Instead of being shipped in order, each district's books in a separate parcel, the entire lot came together in a "jumble" and had to be segregated by the Corvallis people. Similar trouble has been experienced elsewhere, and those who have had to do the sorting were not at all flattering in their remarks about the state commission which shipped the books in such disorder. The books for the Corvallis school are now all in place.

HERE IS SOME SOUND ADVICE

Which Will Help You in the Purchase of that NEW DRESS

And a Little History Regarding the Merits of

"BROADHEAD FABRICS"

We take it for granted that upon entering the store you have decided upon the color you wish, it is satisfactory; next you ask "is it all wool?" and are satisfied that it is; how often do you ask the following most important question of the sales person? "Is the weft and warp of same weight? Is weft and warp of same quality yarn? Is the dye perfectly free from acids? Is the finish permanent so that it will retain its glossy appearance?" These questions can all be answered truthfully regarding our Broadhead Dress Materials

BROADHEADS Purify the Wool BROADHEADS Spin Their Own Yarn BROADHEADS Weave the Material BROADHEADS Use Their Own Dyes BROADHEADS Finish Their Own Goods

Thereby guaranteeing you a Perfect Garment at a lower price than you pay for shoddy goods. We have just received today, December 3rd, 340 yards of the above goods, consisting of Plain and Fancy weaves, in Serges and Panamas in Brown, Navy, Garnet and Black at price
