Stop grumbling. Get up two hours earlier in the morning and do something out of your regular profession. Mind your own business and with all your might let other people's alone. Give away or sell your dog. Go to bed early. Talk less of your own peculiar gifts and virtues and more of those of your friends and neighbors. Be cheerful. Fulfill your promises. Pay your debts. The orchard has 12 acres in full bearing, with some 20 acres of young trees coming on, and the crop this year will pay ten per cent interest on \$50,000. Less than a year ago Mr. Norcross was asked to put a price on the property, and when he put it at \$25,000 some of his friends declared he was crazy for asking so much.—Engene Guard.

University of Oregon football men during the season just past have made good records in the class room as well as on the football field. The records of the Registrar's office show that of the twenty men composing the regular squad, only half a dozen have received grades as low as "D" in any of their subjects. There has been no failures and their work as a whole compares favorably with that of last year, when in the final examinations in February, the football team ranked slightly better than the average for the whole student body. The records show also that for the two months just past, football men have cut fewer classes than any other class of students.

There was fun at the farm home of Joel Pitney, northwest of here at an early hour Monday morning, says the Junction City Times. A disturbance was heard in the chicken roost and on investigation four 'coons were discovered in the top of a plum tree. His daughter, Mrs. J. A. Flanagan, shouldered a No. 10 shot gun and her father with a 16 hurried to the rescue. Inez shot into the bunch, wounding all four of them at one shot, bringing one of them to the ground. It required one shot each for the others. They were brought to town and proved quite an interesting sight. One of them weighed 19 pounds, two 14 and the other 12. Part of them were exchanged at Ballard's for shells to kill more 'coons, and the remainder were taken home to render out to grease the clock and grandpa's boots.

The military ball given by the OAC cadets at the armory Friday night was a delightful social affair from start to finish, pretty women in dainty evening dresses and handsome men in dignified apparel indulging in the graceful pastime of dancing. The management of the affair certainly displayed good judgment in selecting music for the occasion, the Peerless orchestra of Salem, an old favorite in Corvallis, being on hand. The music was excellent, in fact could not have been better, and much favorable comment has since been heard regarding it. The armory was prettily decorated with crepe paper, and punch was served throughout the evening.

"BROADHEAD FABRICS"

We take it for granted that upon entering the store you have decided upon the color you wish, it is satisfactory; next you ask "is it all wool?" and are satisfied that it is; how often do you ask the following most important question of the sales person? "Is the weft and warp of same weight? Is weft and warp of same quality yarn? Is the dye perfectly free from acids? Is the finish permanent so that it will retain its glossy appearance?" These questions can all be answered truthfully regarding our Broadhead Dress Materials
