Christmas trees and literary programs in several of the rooms marked the closing of the Corvallis public schools for the holiday vacation, Friday. The pupils entered into the exercises with vim, and with the excellent program, the gift-giving and receiving and merry-making as the young people separated for the Christmas festivities, it was an afternoon of pleasure to linger in the memory when Time has changed brown locks to silver and smoothed wrinkles on foreheads now smooth and fair.

The Albany Herald came out the last of the week in holiday attire and went to its readers in a large and elegant 22-page edition. Besides an attractive colored cover it is profusely illustrated with scenes of Albany's business streets and buildings, pictures of leading business men, much useful and interesting matter regarding Albany and Linn county, and in addition are Christmas stories and sketches of various kinds. It is a very creditable production and a good advertisement both for the Herald and for the entire county of Linn.

The newer of the two Corvallis public school buildings is to be completed inside during the holiday vacation that is now on. Charles Heckart and his men began work Saturday morning and will complete two more rooms as they are badly needed to accommodate the pupils, the condition at present being one of congestion in all of the rooms. She is a young woman of high character and has many friends who join in good wishes. The groom is a worthy young man.

Miss Sadie Dixon was given a surprise party, Friday evening, in honor of her marriage which occurs today. The guests were the most prominent workers in the Congregational Endeavor society, of which the bride-elect has for years been a faithful and popular member, and numbered about 15. Refreshments were taken by the intruders, and Rev. Monosmith, in behalf of the society, presented the surprised hostess with a handsome silver salad set, as a token of the high esteem in which she has long been held by her young friends. Games and merriment filled the hours and upon departing although there was an undercurrent of sadness in that they will lose her from their midst, they showered Miss Dixon with best wishes for her future, and wish for her happiness she richly merits.

One slap on the back is worth three kicks in the shins. Remember that the men in your employ are as conscientious about their work as you are about the business in general. They have their set-backs and discouragements and one cheerful word from headquarters is often better than a hundred call-downs. The advertising manager of one of the big monthly magazines in the east makes it a point always to find something good in the daily reports of every one of his solicitors. He looks for something commendable in the day's work and never lets his man feel that he has failed entirely. If an employe fall down on his job dismiss him, without hesitation; but as long as he remains in your employ make him feel that his best efforts are appreciated. There are enough people to find fault and the whole world wears a big boot that is always ready to kick. Make every employe in your concern feel that the boss is back of him. Remember that every word of encouragement is worth dollars and cents to you. Slap your man on the back and don't send him on the job feeling like a spanked child.—Ex.

The following notice is sent out from the Department of the Interior, General Land Office, as an item of news; and is self explanatory. It is signed R. A. Mrs. Lewis Hartley and daughter, Miss Sophia, who are living on the little place that O. V. Hart leased near Waldport a year ago, had a harrowing experience with wind and waves over on the coast during the heavy rains and high wind of a week ago. The story is vouchered for by a young man named Howell, who came out from Waldport, Wednesday. He stated that the water was so high that it surrounded the place, and Mrs. Hartley and daughter decided to attempt to reach Waldport by boat. They pushed off from shore, only to discover to their horror that they had left their oars at the landing. The wind blew a gale and the tide was high, and they drifted about until chance enabled them to grasp a small piece of board and a piece of a tree limb, with which they struggled for two hours to keep from being swept any further from shore. It seems that O. V. Hart at Waldport suspected that the big water might cause trouble for the Hartleys and he secured the services of two experienced men and sent them down the beach. The men reached the scene in the nick of time and rescued the two frightened, drenched and chilled women whose two hours of labor had not succeeded in getting their little boat a foot nearer shore.
