Mr. Wills is erecting a new seven room house on his lot in the rear of Hielig Hall, to be occupied by himself and family when completed. He is hustling matters as rapidly as possible to get out of the way of the new landlord at the Heilig.

A sidewalk is now being considered from the Whiteside place across Oak Creek and may be continued out as far as Miller's chicken ranch, a distance of about 4000 feet. It will certainly be a great convenience to the numerous families living along the line during the rainy season.

The thought has been suggested that a new hitch rack on the north side of the court house square of a neat and durable pattern of iron would be very wise as well as convenient to those doing business at the county seat. The wooden ones soon rot off at the bottom and have to be replaced quite often.

The Nolans know how to cater to the trade and in this department the reputation of the home will be fully sustained under the management of this lady.

We really had no idea of giving offense, Mr. Moore. Simply called attention to the fact that the question of sex was not charged against the prisoner at large, hence it was irrelevant, immaterial, redundant, and calculated to prejudice the minds of the people before he, she or it had been called to trial. The people seem to know nothing about this phase of the case and you seem to have been the only one snooping around seeking information along this line; so tell, Moore—and tell us true—did the EXAMINATION fall to you? If he, she or it, really is a woman it would make another splendid sensational headline for the Times and give Mpoore news.
