

WHEAT.

The wheat crop this year will probably not reach the average in this county. As to what the price may be one can only judge from what it has been and is now. Even this is uncertain, but we feel assured the farmer will receive a fair profit. Farmers are careful that their wheat is cleaned and well prepared for market. There need be no apprehension that the grain shipped from this county will not stand competition in any market in the world. Mr. J. W. Strange brought to this office a small quantity of wheat, and each grain appeared as white and clean as if it had been carefully washed. The grains were small, but plump and full.

The San Francisco Bulletin contains some suggestive reflections on wheat exportation. It says: "The bulk of the wheat crop of California and Oregon is shipped to England at present as it comes from the hands of the harvesters. Occasionally a cargo of flour figures among the exports from San Francisco. But rare as this is, it occurs often enough to show the possibilities in that direction."

We can not give the paper's remarks in full, but it goes on to discuss these future possibilities in a clear and succinct manner. It may be in the years to come our foreign trade may change its character, and instead of wheat we will export Oregon flour. The principal objection to the idea is, expense of constructing mills. It may, however, be stated that the splendid water power of Oregon is unexcelled, and should these changes occur, will reduce the running expenses materially. Trade, of course, is governed by fixed laws—supply and demand—and to push forward or restrain is equally disastrous. We must wait.

Truthful Statement.

The man who bravely faces those who have defamed him during his absence deserves well of the people. Such a man is, at least, conscientious in all he does, and willing to abide the consequences of his acts. We have before us the speech of Senator Mitchell, delivered recently at Portland, in which he calls upon those who have misrepresented his acts during his absence to come forward and sustain their representations. There was not one response. The Senator gives a faithful account of his stewardship and those who are not blinded by prejudice can not otherwise than admit that he has made a truthful statement.

Captain Baughman dismissed on \$5,000 bonds to appear at the next Circuit Court at the Dalles to answer to the charge of manslaughter. He had his examination before Judge McArthur. The decision caused considerable excitement among the Dalles people, and so incensed them that they burned the Judge in effigy.

The yellow fever scourge continues to age throughout the Southern States. Hundreds of new cases are constantly being reported. The suffering is terrible, and is pouring in from all portions of the United States, and yet there are thousands who are dying for want.

Be honest.

THE UMATILLA COUNCIL.

The Indian Council, which convened at the reservation, Umatilla county, under the supervision of General Howard, met August the 26th. There were present Gen. Howard and his field staff, Gov. Chadwick and a large number of the citizens of Umatilla county. The result of this council is satisfactory to the citizens of Eastern Oregon, as the issue will teach the Indian that he is responsible for the violation of law. The Indians were represented by the chiefs and head men of the Umatilla tribe. They were requested to express themselves upon the situation, which they did, each professing great affection for the whites. The remarks of General Howard were extremely brief. He did not ask them to do anything, he told them what he required of them, and what he intended that they should do. He told the chiefs they must bring him every Indian who had committed any violence in the late outbreak; he was confident the chief knew the guilty men of the tribe; they must give hostages to him as a pledge that they would do what he required of them; and that if they did not do as directed he would march upon their reservation and force them to comply with his requirements. These remarks caused considerable confusion among the assembled Indians, but the firmness of General Howard convinced them that there was no alternative but to perform the requirements demanded. The hostages were given and further developments will be watched with interest.

It would appear that the right course has been taken to secure a peaceful solution of Indian difficulties. So long as Indians are not made responsible to the law, and so long as they avoid the penalty by surrendering themselves, the difficulties will never end.

After the Council Gen. Howard started north to interview Moses and his Indians, who have promised to meet him. Moses and his band have professed friendship for the whites, but as their practices have not been in accordance with their promises, the General has arranged all his soldiers within striking distance.

Dependent Upon Congress.

The aggregate cost for the entire Indian service for the fiscal year ending June 30, 1878, was \$4,741,075. Among the tribes who will receive their last installments next summer are the Flatheads, Kootenais and Upper Pend Oreilles, the Makans the Nespeles, the Quinaielts and Quilchutes, the Skallams, the Walla Walla, Cayuse and Umatilla tribes, the Yakimas and the confederate tribes and bands in middle Oregon, Tenino, Wasco and Warm Springs Indians. These Indians will be then entirely dependent upon the bounty of Congress.

Wheat Export.

The annexed table shows the monthly exports from Portland to San Francisco for nine months of 1877-78:

Months	180 lb sacks
August	30,075
September	118,539
October	92,442
November	28,275
December	31,247
January	26,822
February	1,287
March	311
April	1,420

Articles of incorporation have been filed for the purpose of constructing a narrow gauge railroad from Jackson county to the coast. The incorporators are the wealthiest men in Jackson county, headed by Hon. C. C. Beekman. The capital stock of the company is \$2,000,000, divided in shares of \$200 each. The road is proposed to run from Jacksonville to Ellensburg, at the mouth of Rogue river.

Dennis Kearney continues to exhort before Eastern audiences. He does not appear to gather a great deal of strength although crowds go out to hear him.

Ex-Governor Haight, of California, died a few days ago of heart disease. He was an honorable man and will be much regretted.

COMMENDABLE ACTION.

Roseburg Remembers Her Suffering Countrymen. The Board of Trustees of the Roseburg appeal to their fellow citizens in behalf of their suffering countrymen at the South, who are perishing from that terrible scourge—yellow fever. Blessed, as we are, with health and a climate unsuited to earth, and in abundance, such as few people enjoy, the Board deems it their duty to make an appeal to the citizens in behalf of the suffering brothers and sisters. Citizens of Roseburg, let us show our gratitude to the giver of all good by contributing to the abundance that he has given us, that we may thereby lessen the suffering of his people in those sorrow-stricken cities and villages of the South.

Soon after this commendable action on the part of the Board, a subscription paper was started, \$25 being signed in a few minutes. Subscriptions will be received by J. S. Fitzgough, the City Recorder.

NOTES AND COMMENT.

It would be difficult to prove anything more clearly than the Potter committee has proved, that it was the determination of the Democratic leaders at the time of the electoral count, to inaugurate another general Southern rebellion. Hear Colonel Burke before that committee: "Therefore, with an attempt to inaugurate the Packard government, was bound to plunge Louisiana into anarchy and strife; we preferred to make a national issue, in which our national friends would be involved as well as ourselves."

There is a touch of pathos in Gen. Fremont's remarks upon appointment Governor of Arizona. He expresses himself as extremely gratified at this mark of favor from the President, and says that his has been a checkered career, filled with much honor and misfortune, and that he is convinced that the only course left for him is to begin life anew. Mrs. Fremont is said to fully sympathize with her husband's new ambition and she will share with him the honor this new position.

Private letters from Paris Exhibitors complain bitterly of the selfishness and unfairness of the Parisians. Foreigners are imposed on by every variety of rascaldom, and the awards to their own countrymen of the valuable medals of the Exposition, regardless of the merits, are so plain as to excite ill feeling. The French appear to think this is their only harvest and they are "making hay while sun shines."

It has been claimed for the railroad system of England that accidents are of rare occurrence in that country, especially those of a fatal character. But the facts do not support this claim. It appears that from official statistics published in that country that during the last year 1,174 persons were killed and 8,705 injured by railroad accidents in Great Britain.

Number of acres in the State, 1,575,000; number of acres under cultivation, 617,900. Estimated number of acres susceptible of cultivation, 40,000,000. Estimated population, 160,000. Number of votes cast at Presidential election, 1876, 29,850. Number cast at last State election was nearly 34,000 in round numbers—it may be set down at that.

When the late lamented eclipse was doing its level best in New Mexico, the Pueblo Indians, believing the sun god was angry, ordered the women to run around the race track naked, until the danger was over. They are now regarded as the Saviors of their race.

The pillory was used in Scotland within the present century. Its last victim in Glasgow received the oblations of the crowd, but when released from the crib, was violently tossed and assailed by the crowd, and was at last cast head long into the police manure wagon.

The Dayton Woolen Mills are running day and night. They have \$25,000 worth of blankets on hand.

BROWN CAPTURED.

Archie Brown, the Robber and Murderer Captured. Mr. Cain said that Brown had stopped at the house four nights, going out during the day on the excuse of hunting for work. Mr. Cain's daughter, who must be a reader of nature, told her father that the stranger was one of the murderers. The old gentleman studied over it but would not accuse a man without proof so time went on. The newspaper came to the house having in it a description of the men, and as Brown thought to prevent detection, tore out that portion which related to him. As soon as Mr. Cain's daughter called his attention to this fact, he became convinced that he was the man, and yesterday afternoon made arrangements to capture him. He lives about ten miles down the river near Sauvie's Island. He called to his assistance Joseph Riley, and last evening about 7 o'clock, after Brown returned to the house as usual, they stepped in upon him with four axes—or rather four barrels of shotgun—which was the winning hand, and he at once gave up. One of the party covered him with his gun, while the other made him fast, and doubly fast with a clothes line, meantime relieving him of two pistols. They then piled him into the wagon and hurried away as fast as possible to this city and placed him in a place of safety.

Blue Mountain Railroad.

Mr. Habbershaw, engineer on the Blue Mountain and Columbia River railroad, says that there are now twelve teams and fourteen men at work on the grade this side of Umatilla, and the Company expects to grade about thirty miles of road this summer. Work will now progress rapidly as eight miles of the heaviest grading will bring the road to about eight miles this side of the new Wells stage station. This road when completed, will facilitate the transportation of the products of Eastern Oregon and thereby add to the wealth of the whole State.

WASHINGTON TERRITORY.

The Walla Walla fair will open on Tuesday, Sept. 17th. Gen. Howard, in his visit to Moses, is attended by five companies of troops.

A Seattle paper says the vegetable crops in the White river valley will be only about half the usual yield.

A ten mile contract for grading on the Renton-Yakima extension was let by the Seattle and Walla Walla Company last week.

Lewiston letter: Since the steamer Northwest has the exclusive trade Walla Walla and Lewiston her owners charge five dollars a ton more for freight than the "big monopoly" ever did. Somebody help, ps, tow!

We have received September number of "The Resources of Oregon and Washington." It is a splendid edition, its mechanical execution is superior and contains a great variety of information. It should be well circulated.

Jeff Davis is talked of as Democratic Senator from Mississippi, and probably Wilkes Booth, if living, would also be similarly honored by the Chivalry Democracy of Mississippi, who believe in rebellion, repudiation and assassination.

He who loses his temper in an argument loses the argument also.

Notice.

Of Sale in the matter of the estate of Laren Davis. NOTICE IS HEREBY GIVEN THAT pursuant to an order heretofore made by the County Court of Douglas County Oregon, I will on the fifth day of October A. D. 1878, at one o'clock in the afternoon at the Court house door, in Roseburg Douglas County, Oregon, sell at public auction, for cash in hand to the highest bidder, subject to a widow's dower, the following described real estate belonging to the Estate of Laren Davis, deceased, to-wit: The Donation Land Claim of Robert McKee, containing 140 and 23 1/2 acres; all that part of the Donation Land Claim of Robert McKee, that lies north of the South Umpqua river, containing 120 acres more or less—the S.
