Secretary Schurz to-day affirmed Commissioner Williamson's decision regarding lands in San Francisco district, entered by Patrick, closely involving the legal question whether lands excepted from the grant to the Pacific Railroad Company, because within claimed limits of a Mexican ranch at the date of the withdrawal, are subject to entry at one dollar and a quarter per acre. The secretary holds that two dollars and a half must be paid, regardless of the language of the act of March 3, 1853. This decision covers cases of settlers on lands excluded from Ranch Sipse by the final survey.

the military headquarters received several in-teresting documents bearing on the Cheyenne Indian troubles. The first is from Gen. Pope, who reports that the force of cavalry is too small to attend to the seceders, and that all the military are poorly armed with carbines as against Indian rifles. The cavalry are kept busy at Forts Sill and Reno. He urges kept busy at Forts Sill and Reno. He urges that more forces are essential to securing peace on the border. At the Cheyenne Indian agency he learns that there is an enormous deficiency in Indian supplies, as shown by the report of John D. Mills, agent at the Cheyenne and Arrapahoe agency. The latter says the primary cause of the Cheyennes leaving the reservation is that the daily ration promised them of one and a half pounds beef, half a pound of flour or corn, and four pounds of coffee, eight pounds of sugar and three pounds of beans to each 100 rations, have only been partially issued, supplies received being insufficient. None of the stock and aid in building houses which was promised has been afforded them. Another cause of the defection was that they objected to the manner of serving out their rations. Tariff Reduction on French Wines.

Washington, Oct. 21.—With reference to what has been generally styled the "proposed commercial treaty with France," threatening California interests by a reduction of fifty percent. of the present rate of duty on French wines and spirits, it can be stated on the best possible authority that no official overture or initiative has been taken by the French govtiative has been taken by the French gov ernment for a new commercial treaty with this country, nor has any been taken by our government. The whole agitation of the subject proceeds merely from outside pressure, and has not in any degree reached official circles, so far as is known to our department of state. It may be added that when

the general public is appraised of any such novement, the difficulty of negotiating a reaty will be immeasurably increased. The Halifax Award. A Washington special says, the probable uestion of the Halifax award will be revived is Winter. Whatever may be done about the ultimate payment of the money. A clair is made by those who have been examining the subject that the British bill of particular exactly as it was substituted, shows that the anadians were entitled only to \$120,000 an-Canadians were entitled only to \$120,000 annually, or to an aggregate of \$1,200,000 for ten years. This is less than \$1,500,000, instead of \$5,000,000, the amount of the Halifax award, and against this, it is claimed, it would be fair to deduct the special duties on fish and fish oil remitted by the United States for Canada. This amount of itself would amount in
