POLITICIANS AT WORK.

from lips quivering with unutters ble emotion, the story of hi It is stated that the Democracy will make the best fight possible in Southern Oregon at schievements. Notwithstanding time has the next election to secure control of the Su-preme and District Courts by the election of Discourse it. Southern Uregon at the Su-has weakened his manly form, yet he possenses integrity as immovable as the of Democratic Judges. Three of the organs are now laying plans to secure the nominaribbed mountains; courage as lotty as the another in this county, and the third in peak that towers above the world; truth Benton. The choice of these three for Supreme Judge is Primm, and for Circuit Judges of the first and second districts,
Hanns and John M Theorems. Hanus and John M. Thompson.

Why this laying of plans and concert Who does not admire his wisdom and his

Hanus and John M. Thompson.

Why this laying of plans and concert of action, when neither of the gentlemen named can urgo their claims because of their own individual popularity or demand on the past of the people, is difficult to integrate the view of their own individual popularity or demand on the past of the people, is difficult to integrate. Like Napoleon, he was born to be noted in every sphere of life-great in his triumphs and in retirement great. The bigotted politician may strive once held office. We might be unfair should we say they are putting up a job for their corn benefit. It would probably be considered unjust by a few should it be even intimated that some one behind the throne is pushing the organs forward with the hope of accomplishing a job through the Judges provided they are elected.

There is one important point to be considered when cleation day rolls round, and voters are about to cast their ballots for Judges—a Judge should remember that in this matter it chould not be with them whether a candidate is a Republican or a Democrat, but rather whether he will make the best Judges. Their interests demand this much, And they should beware of a political Judge. When a candidate of this kind is found—one that will lay plans as is reported some are doing will lay plans as is reported some are doing will lay plans as is reported some are doing will lay plans as is reported some are doing will lay plans as is reported some are doing will lay plans as is reported some are doing will lay plans as is reported some are doing will lay plans as is reported some are doing will lay plans as is reported some are doing will lay plans as is reported some are doing will lay plans as in reported some are doing will lay plans as in reported some are doing will lay plans as in reported some are doing will lay plans as in reported some are doing will lay plans as in reported some are doing will lay plans as in reported some are doing will lay plans as in reported some are doing will lay plans as in reported some

will lay plans as is reported some are doing is should be remembered that such a Judge is a politician and a trader for office, pert of Mr. Wasson, the City Chamberlain a political wire-puller, and the chances are of Glasgow, on the vital, social and economic statistics of that city for the past his hands have been dirtied by a scheming mind directing the setting-up of primaries and the stocking of conventions.

"MOTHER PEANUTS."

EDITOR INDEPENDENT:-In a recent issue | the question, Whence arises this infantile of your paper I read an article censuring the Oregenian for the animosity it shows to a man who has shown himself to be an active and most worthy public servant. I refer to ex-Senator J. H. Mitchell. It is always a sorry sight to see a great journal stentiely carried away by personal spite. The following is a copy of a letter which I wrote to the Oregonian and mailed March 24th, this year. It is needless to say that it never amounted:

This fact will be received with some discrete and the property of the control of the contro

er appeared:

Bd. Oregonian:—Will you kindly permit a subscriber to call attention to one side of two questions, how of great interest to a majority of your readers? I refer to the railroad question, so long and earnestly discussed, and also what points or advantages should be considered necessary to recommend any place as a site for the proposed harbor of refuge.

As regards the railroad question there is one side which I have never seen in print and which, I fear, disagrees with your views and which, I fear, disagrees with your views are supposed.

Pleasure by these who hold that tetotalism is a panacea for all evils; but it is at least worth their attention.

All business in this line shall receive our strict attention.

All goods consigned to our care should be marked, "G. B. A." Roseburg.

During some years past the operations of the saving banks in France have increased in a very remarkable manner. In December, 1875, they had received a capital of 667,000,000f; on the 31st of December, 1875. they had received a capital of 667,000,000f; on the 31st of December, 1878, the balance exceeded a million. The HOUSE

As regards the railroad question there is one side which I have never seen in print and which, I fear, disagrees with your views and those of Portlanders in general. You have frequently expressed the idea that Portland would become a great scaport in the event of the success of the N. P. R. R., notwithstanding that that road would have a line terminating at some place on the Sound. Such hope would never be realized. My opinion in the matter is based upon the following proposition: 1st. A ton of wheat raised in Idaho, or Eastern Oregon could be laid down on the Sound as cheaply sa at Portland, and not be subject to crossing a dangerous har and paying a high river pilotage and towage. 2d. No great overland railroad could presper and compete with the C. P. R. R. of California with no better sesport than Portland as its terminus. 3d. With the N. P. E. R. completed as an overland route, having a terminus on the Sound and another at Portland, that city would be placed in the same position as Sacramento occupies in California, The great distributing point would be at deep water on the Sound I suppose Eastern Oregon and Idaho

1878, the balance exceeded a million. The exact amoust was 1,026,459,000f. The increase in three years was consequently about 359,500,000f.

ANNUAL EXHIBIT

Of the Financial Condition of Douglas County, Oregon, for the Year ending July 7th, 1879:

LIABILITIES:

Unpaid orders, counted July 2,
1878. \$ 11,757 67
Paid County Judge. \$ 600 00
Paid County Treasurer. 500 00
Paid County Assessor. 1,080 00
Paid County Assessor. 1,080 00
Paid Sheriff and Bailiffs Noble's administration. 2,466 78
Paid Sheriff & Bailiffs Hogan's administration. 2,466 78 occupies in California. The great distributing point would be at deep water on the Sound I suppose Eastern Oregon and Idaho cares but little for the individual success of either Portland or Seattle, but will ship by such route as their interests dictate. Now, if above propositions are correct, then Senator Mitchell's views are also correct, to-wit: Either a railway terminating at Portland only, or no railroad at all of a transcontinental character. My belief is that your city would do far better if the N. P. R. R. should not touch the Columbia at all at any navigable point, but that instead of it, a number of short local lines of railroad were reads to center there, with perhaps a line to number of short local lines of railroad were made to center there, with perhaps a line to the Coast at such piace as shall be selected for the harbor of refuge, to secure a shorter and swifter passenger route to San Francisco. Also build up your river trade and prevent the portage from being used as a lever of oppression.

The remarks made on harbor matter I will here omit, as the time for discussion on that head is about past. But it is well known if we ever have such a habor on our coast we may consider it largely owing to

BRAINS VS. MUSCLE,

BRAINS HAVE WON! And Come in Ahead Triumphantly With THE LITTLE JOKER

A Desperate Race for Life for Over One Hundred Years.

To make a machine that would wash, one that would not wear the clothing, or break off buttons; a machine that was Light, Sim. ple, Cheap and Durable; a machine that could be used in all part s of a washing; a machine that women could use, no matter if they were weak and sickly; in fact to make a successful clothes washer has been the study of inventors all over the world for centuries past. Thousands of experiments have been tried, and thousands or dollars spent in the hereto unsuccessful effoort to make a washer that would stand the test of actual trial. Nearly every family have purchased, tried and condemned from one to a dozen of those experiments until, at last, discouraged with so many failures, and so much expense, it has become almost a conviction that to the most disagreeable, unhealthy and tiresome work of the

household the ever returning weekly washing there was no help MOTHERS, WIVES, DAUGHTERS, And all the great army of Washers, take courage. There is a NEW washer made, and it will wash CLEAN. It will wash QUICK. It wil wash EASY, It is CHEAP, SIMPLE, DURABLE. TRY IT. A trial will convince the most skeptical. It is called the LITTE JOKER WHAT IT SAVES:

IT SAVES from one to three hours every week on wash day, of the hardest kind of labor. IT SAVES your money by saving the wear of rubbing cloths h is quite as much as their wear in use, or half the cash you pay for your clothing.

IT SAVES labor, doctor's bills, soap, fuel, cross babies, blue Mondays, cold dinners, cross wornen, sour men, weary, aching limbs, sickness, suffering, and death caused by overwork, exposure THE LITTLE JOKER

Will wash more at a time, large garments, small ones, few or many, and wash them clean; never tears off or breaks buttons, canno: wear the clothes a particle, will suds and rinse them better than any other process, and this makes them white and clean, and is the only thing that will prevent their becoming griminy and yellow. You can wash with the LITTLE JOKER in half the time that you can by hand, and best of all, A FRAIL WOMAN CAN USE IT. Boys and girls can help, or even do the entire washing and call it FUN. Price, \$7 00. Agents wanted. Manufactured by C. A. DODGE & CO., Pittsburg, Pa. P. B. JOHNSON and J. A. PFEK, General Agents, Roseburg, Oregon. All wishing a LIT-TLE JOKER call at J. W. Strange's Warehouse.

TESTIMONIALS:

Mrs Jas Wrig., t, Alice, Frankie, Lizzie and Roseburg, April 29, 1879.—I this day saw

the Little Joker washer is far superior to all washers for speed, clean washing and saving of clothers, and recommend it to all as the best washer in use, and really is a Little Joker as it does the washing so well and without any tiresome labor. Messell and washer I ever tried. It saves time, clothes and labor. Mrs Alice V Farquar.

Roseburg, May 21, 1879-Having tested the Little Joker washer I ever tried. It saves time, clothes and labor. Mrs Alice V Farquar. dames Whitney and Williams.

noseburg, April 25, 1875.—We have tested the Little Joker and find it to be the
best washer. It saves time and labor. Mrs
N Bowen, Mrs L E Minard, H C Slocum.
