The finest coffee can be found at Haffenden Bros. It not only possesses the finest flavor, it is what one wants early in the morning, and is deservedly praised for its aromatic qualities, but in the end is the cheapest. We have tried it.

"A thing of beauty, is a joy forever," Dr. Swift, the famous dermatologist, crowded with work; and is putting up some magnificent sets of teeth on the patent plate. Anyone wishing first-class work, we would advise them to patronize the Doctor, as he is a fine workman.

We have heard of "bull in a china shop," but one in a tin store never before. A wild one came near taking in E. E. J. C. Sheridan's establishment while on its way to the slaughter pen the other day. The boys valiantly came to the rescue of the store and tinware and the steer beat a hasty retreat.

We have received the prospectus of the Lake County Examiner, the publication of which will commence at Lakeway, Lake County, December. The prospectus informs us that it will be a "well-directed, democratic journal," and is so well written we are compelled to believe the Examiner will be a first-class newspaper worthy a patronage of all.

HANDSOME PRESENTATION.

A Masonic Testimonial to a Brother.

There was a pleasant incident in the Lodge room of Umpqua Chapter No. 11, last Wednesday evening—or rather Thursday morning, for the ceremonies of conferring degrees extended into Thursday morning. After the degrees had been conferred, and the new members invested with the title of Royal Arch Masons, Hon. Brother Hermann stepped forward and presented Mr. W. L. Friedlander with a gold-headed cane and a silver pitcher and low-hood. B. Hermann, H. P., made the following address in presentation, which we only summarize to our readers.

MOST EXCELLENT COMPANION!—Your companions of Umpqua Chapter of Royal Arch Masons have this night imposed upon me the pleasant duty of presenting to you these testimonials, in proof of their fraternal regard and recognition of your valuable labor as secretary of the Chapter. Masonic tradition informs us that in the building of the temple, the Masons received as nourishment, born, wine and oil, and that the workmen in the quarry, who were engaged in the quarry, and approval they received for their work, was the reward of their labor. For long years, indeed ever since the institution of Masonry here, you have faithfully performed the duties of your office, and served the archives—accurately and fully recorded all matters proper to be written, and by your industry, skill and fidelity as a Royal Arch Mason, and your upright and regular conduct ever since you have commanded yourself to the shrine and well-remembered and affection of your companions.

The record of this Grand High Priest now present will attest, have not only received the hearty approval of the Most Excellent Grand Chapter of Oregon, but as well as its express admiration. Thus you have reflected light and credit upon yourself, and a distinguished honor upon your entire Chapter.

But as it is an internal, not the external, qualifications of a man which specialise Masonry most esteem, so you have equally displayed to us in this tribute our humble appreciation of your social and moral worth, which we cannot fully express in words. When in the hour of refreshment your eyes rested upon these silver tokens, or in old age you shall feel the support of the case, your thoughts will doubtless revert to this pleasant memory, and to these companions, and may you then ever find comfort in the presence of you with a grateful heart, or in storm, in health or in infirmity, the courts of our Tabernacle will be ever open to you with a fraternal welcome; and now, companion, in last words of cordial parting we say: "PLACE US WITHIN THY WALLS!"

The presentation came upon Mr. Friedlander when he expected nothing of the kind. An secretary he had simply performed his duty, and the only reward he expected was an acknowledgment on the part of the members of the Chapter that what he had done he had done well. He had no prepared speech, and consequently whatever he spoke were the utterances of one doubly pleased, and who had found that his services had been appreciated.

Mr. Friedlander spoke with feeling when he said:

MOST HONORABLE PRESENT AND COMPANIONS!—The surprise the presentation of these beautiful presents causes me (and I do not know that I deserve them) rather glad; besides, my oratorical education having been so sadly neglected, I would fain try to make an attempt even to reply to the eloquent remarks of our Most Excellent High Priest. I will simply say that I receive these presents in the spirit that they are given, and I thank you for them.

First, it may be said, Mr. Friedlander has been secretary of Umpqua Chapter No. 11, since its organization, about seven years ago. He has performed his duty well, but the presentation of the testimonials (for such they must be properly esteemed) amply testify to the head of the cane is beautifully carved and of heavy gold, embracing the entire crook. The staff of the organ is within the reach of all. Every pen is warranted to be of Edward Todd & Co's. manufacture, and they are the best of work in the world. Pens sold from 50 cents upwards.

A Ready-Made Family.

On the 11th day of November Mr. David Lennox was united to Mrs. M. A. Bolinger in the happy bands of matrimony by Rev. Martin. The happy couple were joined with a large family already in existence, and had reason to think they are saved of considerable trouble. Mr. Lennox is the father of six children and Mrs. Bolinger the mother of three. The marriage at once made a family of eleven members. We certainly wish the happy couple prosperity. With a large family and no helpmeet it is difficult for either man or woman to do much good work, but with two together there is but very little trouble when both do their part.

Accidents—Shooting.

Jimmy Stevenson, son of H. W. Stevenson, last week shot himself through the hand with a seven-shooter. The pistol belonged to another boy, and Jimmy borrowed it to show his good marks in his gun.

He fired at a target, and was in the act of passing the weapon back to its owner, when it was discharged, the ball passing through his left hand. The wounded boy is recovering rapidly, and the wound inflicted by the bullet will prove nothing more than a lesson against the careless use of firearms.

Abon Ready.

The work on Henry Beckley's new flouring mill at Elton is about completed, and will be finished about the commencement of the holidays. The mill is pronounced by those who see it to be first-class in every respect, and will be managed in a manner which will give general satisfaction. We wish Mr. Beckley success in his new enterprise, since the mill fills a want long felt in the section in which it is located.

Church Social.

There will be a church social held at the residence of Mrs. J. P. Watson next Tuesday evening (28th) for the purpose of providing means to procure wood, lights and other necessary expenses for the Presbyterian church of this city for the coming year. Such societies are held only once every year, and all interested in the church's welfare should attend.

Narrow Escape.

Mr. Charles Hall's house at Oakland caught fire in the roofing from a defective stove pipe last Sunday morning, and for a time there was considerable excitement. With the aid of ladders and a few buckets of cold water the fire was extinguished without serious damage. Charly has since built a new stove.

New Butcher Shop.

We are informed that the Messrs. Tipton Bros. will soon start a new butcher shop in the city. They will erect their slaughter house on Deer creek east of town. The boys have some mighty fine cattle.

FLAMMER HEARD FROM.

The Rascal Does Not Forget to Write.

Flammer, the swindler who robbed L. Stinger at Canyonville and afterwards other parties on Coos Bay, has again been heard from. After securing the male and the \$80 from the man to whom he had been recommended by G. Mehl, Flammer went in the direction of Crescent City. When about half way between that place and Empire City, Flammer sold the mule to an innocent party, and embarked on a vessel bound for San Francisco. Arrived there he had some cards printed and represented himself as a partner of Veit Schultz, of Jacksonville, who was the "mud-doo" of Jacksonville, and in San Francisco he has fine credit. Flammer, therefore, had easy sailing, and hobbled with the merchants and wholesale dealers. He had been content with this life in no getting where his rascality would have ended; but he thought the partner of Schultz should wear a fine gold watch, and accordingly he went to a jeweler who was acquainted with the look of the man, and told him that Schultz desired the jeweler to sell him a fine gold watch. The jeweler was willing to do this, but wanted to know what kind of movement Schultz desired, and he was told that Schultz desired the jeweler to sell him a fine gold watch. The jeweler was willing to do this, but wanted to know what kind of movement Schultz desired, and he was told that Schultz desired the jeweler to sell him a fine gold watch.

He thought he would go out and make a few dollars, and he thought he might secure the best, and while he was absent the jeweler telegraphed to Jacksonville. The answer came back at once that Flammer was an impostor, and that the jeweler returned to the jeweler store there was an officer ready to arrest him, and he was taken into custody. Flammer is now in jail in San Francisco, and will build up a new home in San Quentin. The rascal deserves warmer quarters.

THE NEW IRIAN COMPANY.

Important Negotiations About Concluded.

Negotiations have been pending for some time between the representatives of the New Irian Cinnabar Mining Company, of this county, and capitalists of Portland, looking to a financial arrangement whereby the company will be able to complete the plans already on foot, and, in the event of a meeting of the company at Oakland on Saturday 23d, to determine what will be done by both parties; and the outlook for a satisfactory agreement is bright. The mine is conceded by all to be a bonanza, and the only object of the meeting is to examine articles and papers of the company which will be found correct, will virtually settle the bargain. An arrival at this consummation will be the opening of a new vein of wealth into Douglas county, and a desired handsome return to the leading men of the company for the risks they have run, and the energy and bulion expended by them.

Wealth to Douglas county, and to the State, is bound to result in the opening of undeveloped mines. The cinnabar deposits at the New Irian are known to be very extensive and rich. The completion of the works already commenced at the mine will inspire in the minds of capitalists, in our resources, and infuse prosperity at home.

CALAPOOIA ITEMS.
Wild ducks and geese have made their appearance. They seem to be quite plentiful.
The heavy rain storm caused a stoppage in the farming business for a short time.
S. Leathergood is making preparations to commence farming in Green valley, and on a place recently rented of J. R. Dodge.

The average Calapoopia hoodlum thinks the evenings cool enough to get an arm and shoulder under a girl's coat.
A question frequently asked why the successful business men of the county advertise in the Independent? Because the Independent has the largest circulation of any paper in Southern Oregon.

On the evening, as one Calapoopia young man whistled loving thoughts in his dulciana's ear—a voice piped out near by from under a pair of dilapidated belted, and exclaimed, "Get out of here, you son-of-a-gun!" The young man has not returned since.

Miss Adia Mire, a highly esteemed and respectable young lady of this place, we are sorry to announce, is suffering ill with typhoid fever, but under the skillful treatment of Dr. Venables, of Oakland, and close attention served by fond and loving parents, she is convalescing.

We are called upon to notice some more of the Star's illogical slant which appeared in last week's issue. It is easily perceived by any intelligent and disinterested person that the correspondence that the order shall have no principles about him whatever, and we deem it useless to waste paper and ink regarding such low down, despicable character, who is respected no more than a brute in the community. We hope this will be the last time we shall be compelled to notice him.

High Signatures.
In attendance upon the last meeting of Umpqua Chapter No. 11 were J. B. Congle, G. H. P., and David P. Mason, G. L. Three members of the Order had degrees conferred upon them, and the members of the Chapter were taught many valuable lessons. They received much excellent advice as to their duties as Brethren of the Order. The gentlemen named returned home Thursday morning accompanied by their wives. We hope this will be the last time we shall be compelled to notice him.

Arm Broken.
Thursday afternoon Eddie, 3-year-old son of George Noah, fell from a fence, broke his left arm, dislocated the elbow, and besides received several bruises. Drs. Campbell and Ebert were called in attendance, and find the little sufferer doing as well as circumstances will admit of.

New Quarts Ledge.

Various Games.
Advancing years, care, sickness, disappointment and hereditary predisposition—all operate to turn the hair gray, and either of them incline it to shed prematurely. AYER'S Hair Vigor will restore a softness and cleanness the scalp, giving it a healthy action, and removes and cures dandruff. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or glands decayed. Its effects are beautifully shown on bristly, weak or sickly hair, to which a few applications will give a new growth, and the freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft, lustrous and richness of tone it imparts. It also acts on the scalp, and will cure all color white eruptions, and will cure long on the hair and kinks, it fresh and vigorous. Hodge, Davis & Co., Portland wholesale dealers.
