A Lion's Skin for a Dollar.—An Arizona paper relates an exploit by a Mexican, which, for downright foolishness, puts to flight any of the daring performances of the heroes of Beadle's "valler-backs." It appears that the Mexican, accompanied by his dog, was on his way to Tempe to do some trading, when the dog treed a large California lion. The man was unarmed, save with a large butcher-knife, but, nothing daunted, and knowing where he could sell the skin for a dollar, he whipped out his knife and started up the tree after this specimen of the king of beasts. Slipping up within reaching distance, he plunged the knife into the animal just behind the shoulder, which so startled him that he leaped to the ground and was instantly bounced by the tree, sprang upon the beast, and planted a home-thrust through his heart, without further damage to himself than having his hat torn in pieces. The lion measured about eight feet from the tip of his nose to the tip of his tail, and, had he got one good blow at the man, he would have mashed him into a jelly. Mr.

Shut the window and door, the detestable flat notes drift down the chimney with perplexing perseverence. Do what you will, short of stopping your ears with wax, yon cannot escape those unsirenish sounds. Thus the musician is not only the direct means of destroying other people's comfort, but is indirectly the author of multitudinous evils, and consequently an object of universal execration. Would not the composer of "Home, Sweet Home," whoever he may be, turn in his grave if he knew that his innocent composition was daily torturing the most Christian souls into mingled thoughts of harred and revenge? The Persians have doubtless lived to curse the king who, in mistaken kindness, when he saw his subjects taken kindness, when he saw his subjects dancing without music, introduced 12,000 musicians and singers from abroad.—The

"Moses, you go over and tell Noah I want him!"

"Moses departed. He was absent ten minutes, and then lounged in and said:
"Says he is quite comfortable where he is. Guess he isn't very much on the marry."

"Judge," began the woman as she looked around for her bonnet, "you play a game of fox and geese with this thing. There's going to be a marriage to night, and I'll bet a new hoss-rake on it!"

She was absent about twenty minutes, and then returned in company with Noah. He had neither cost nor hat on, and only one boot, and both were panting for breath.

"Then why did you run away?"

The lady I have described as seen in the zenana, for a moment was certainly handsome, and was far lighter in complexion than a Spaniard; her eyes were really worthy of the praises sung by Hafiz, but the sensuous lips were a little too full and pouting. It was just such a face as one imagines in a harem, and would be in keeping with the languorous life of a voluptuary to whom sensuality is a guiding star. Such faces always lack character, and would soon prove insipid in the eyes of the West. prove insipid in the eyes of the West.
