Ayer's Ague Cure is the only medicine in existence which may be considered an absolute antidote for fever and ague and kindred diseases. It not only affords instant relief but eradicates the malarial poison which produces the disease without leaving any enervating or injurious affect as in the case with many of the ague medicines.

"Sozo" translated means to preserve and "Odontes" the teeth,—"Sozodont" a preserver of the teeth. And it is true to its name It beautifies and preserves the teeth hardens and invigorates the gums and corrects all impurities of the breath The odor of this pure preparation is so delightful that it is luxury to apply it. When just opposite a cliff below the Mountain House a blast was set off, and a tree was thrown directly upon the raft by the explosion. A HUMAN BAROMETER.

The Real Relation between the Human Body and the Weather Scientifically Explained.

(Scientific American.)

One of the most valuable developments of modern science along the line of human necessity is the National Weather Bureau at Washington. Experience has shown that eighty six per cent. of the predictions of the signal service observers; and these predictions are unquestionably of the greatest benefit to the farmer, the agriculturist and the entire commercial world. The service has proven its necessity by its usefulness, for in past times the facilities for telling the atmospheric tendencies were meagre indeed. The only indications our fathers had of coming changes of the weather were aching limbs, twinging joints or painful corns. These indications though crude were generally correct and hence naturally suggest the inquiry as to the relation between the human system has been fully understood explanation of what rheumatism, which seems in league with the atmosphere really is. It was originally thought by many to be a trouble in the joints and as such was treated in the most strange not to say the most ridiculous manner. The theory became dispelled when the same trouble attacked the muscles and the feeling then prevailed that it was purely a muscular disorder. But this idea was found to be too narrow and now it is universally conceded that rheumatism was a blood disease. And what a terrible disease it is. It often comes without warning and prostrates the system with agony. Again its beginning is gradual and its growth slow. In its acute form it manifests itself in every conceivable shape and always accompanied by intense pain. At one time it is inflammatory at another it is neuralgic. Sometimes it assumes the form of gout and again that of pleurisy or lombago but whatever manner it appears it is terribly painful and always to be dreaded. The pain and annoyance of rheumatism are increased by its great danger for it is liable at any moment to attack the brain or heart at any moment thereby causing instant death. In deed every case of heart disease with all its dreadful suddenness which has ever occurred can be traced more or less to rheumatic causes. In its chronic form it stiffens the joints contracts muscles undermines the health and ruins the life. It frequently attacks men and women who are apparently in perfect health. Indeed it is as much to be dreaded as any possible form of physical woe.

But however severe its effects may be the exact cause of this block trouble has has been an undecided question and it is only within the past year that any decision upon the subject has been reached In order to fully determine what the cause of the cause of rheumatic disorder really was, certain authorities sent letters of inquiry to Washington to the leading practicising physicians of the land and these inquiries were responded to quite generally thus furnishing data of great value to science and mankind. The view held by doctors are of a varied nature but so overwhelming a proportion hold to one belief as to leave but little doubt that it is the correct one. This belief is that uric acid in the blood causes rheumatic or neuralgic in all their terrible forms can be cured. "How does this poisonous uric acid get into the blood and how can it best be removed?" Uric acid is a waste material of the body which the kidneys should carry out but because they are weakened they cannot throw it from the system. Restore the kidneys and you will restore the power that will force the uric acid from the system and thus banish the rheumatic agonies which it causes The conclusion of this truth is inevitable perfect Kidneys means freedom from rheumatism.

When rheumatism has manifested itself in any special part of the body, attempts have usually been made to treat that part of the body. As a result the pain has departed but the disease has remained, lying subtly concealed and ready to break out at some unexpected moment. Checking the pain in any single locality only scatters the disease through the system, when, if the seat of the disorder, which are the kidneys, were reached, a complete cure would be the result. The way, therefore, to expel this rank and poisonous acid before it assumes an inflammatory or chronic form is by keeping the kidneys in absolute health. This is no easy thing to do, and no means has, until within the past two years, been known which would successfully reach and affect these great organs. At last, however, scientists have discovered that the leaves of a tropical plant, previously but little known to science and unknown to medicine, possessed marvelous qualities adapted for the kidneys. These leaves have been skillfully combined in the remedy now known as Warner's Safe Kidney and Liver Cure. It is up to the present time, the only known preparation that acts so directly upon the kidneys as to effectually cure the various dangerous forms of kidney disease, and hence remove all uric acid from the blood. As a result, the cures it has been the means of performing are really very remarkable. Indeed, there are thousands of persons in America to-day who owe their restoration to this simple yet powerful remedy, which is known universally, manufactured in Rochester, N. Y., and sold in every drug store in the land.

The theory of the doctors as above explained finds its confirmation in the fact that when the kidneys have been cured, rheumatism is completely removed. This is not, of course always accomplished instantly, for in a disease so subtle, the cure is often very slow, but under no other plan can any hope of permanent relief ever be found. There are hundreds of cases on record during the present spring of persons afflicted with rheumatic troubles of the worst order who have been entirely cured by following the theory above stated and using the remedy mentioned. Many of these persons had the worst possible symptoms. Vogue aches in different portions of the body were followed by agonies the most intense in some particular spot. Acute and throbbing pains succeeded each other and the coursing poisonous acid inflamed all the veins. Troubles which began with slight disorders increased to derangements the most serious. It is sad to think that all this suffering was endured when it could have been so easily relieved. Acting upon the theory and using the remedy above mentioned the kidneys could have been restored to their usual vigor, the uric poison expelled from the system, the inflammation removed and the pain entirely banished.

These are some of the real and scientific facts regarding rheumatism, attested by the highest authority and they are, beyon question, the only correct ones ever brought forth. We are aware they are advanced ideas, but ten years hence they will be the accepted belief and practice of the world. If people suffer from rheumatic troubles in the future and with these plain truths before them, they certainly can blame no one but themselves.
