

THE INDEPENDENT

ROSEBURG, SATURDAY, AUG. 5.

A DAY DREAM.

We can conceive of many strange things. We can picture to ourselves how a people can become so indolent, so neglectful of their rights that they would submit to shameless, open robbery. In fact, to give our imagination wildest play, we could imagine a people that would choose for their rulers desperate and reckless men. A nation of men who would choose for their executive an individual of Jesse James' character, a bold, fearless, open robber and murderer, a man who would be expected to draw a pistol on whomsoever he might meet and demand "your money or your life." His appointees would expect to be men of the same stripe who would look upon the people as legitimate game for open robbery. We can conceive that this people would no sooner see one of their officials approaching than purses would be in ready hands to be delivered on demand. The more expert, the more bold and daring an officer would be, the higher we would expect the people to elevate him. In this we have given our imagination play. There are other kinds of thieves than the lion and the eagle, however. We have the coyote and the fox variety. The sneak thief and the pickpocket. It requires no stretch of imagination to discover the people that bow down and worship before this idol. The American people have for President a man charged by another President with being this kind of an individual. The American people have for their leader in the popular branch of congress a man of the same stripe, George M. Robeson. The dominant party of the United States retains for secretary of its national organization a \$3,000,000 man. A salary of \$5,000 for six years or less has made a thousand millionaires out of American officials. The people expect it. They expect to be robbed by one out of every two officials, and the man who steals is elevated and the other fellow is retired. Yet, this is the republic of Washington, of Adams, of Jefferson and of Franklin. Another century and our first picture would not be overdrawn, and why would not the people as soon give their money to Jack Shepherd as to Stephen Dorsey or George Robeson? Would it not be a good plan to hunt this country over and find an honest man and place him in the executive chair? Would it not be a good plan to hunt this country over and find an honest man and place him in the executive chair? Would it not be a good plan to hunt this country over and find an honest man and place him in the executive chair?

ON MITCHELL

The most important question before the people of Oregon to-day is the election of Senator. Of the many aspirants for this honorable position we are sorry to say there is no one worthy whom there is a chance of electing. Of Mr. Mitchell who has the best of the race thus far, no one knows any good. He has no quality which endears him to the better class of people in Oregon or elsewhere. He is a demagogue and a political trickster of the worst kind. He represents all that is bad and corrupt in American politics, which, God knows, is as low as a man can get. His election means bossism and stalwartism in Oregon. It means that every senseless donkey who has tied himself to the fortunes of the big game shall have an office. It means the kicking out of the few honest independent federal officials in this state and their replacement by the tools of this lobbyist. It means that the Republican party shall be wiped out of existence in this state and a Mitchell organization, with as despotic power as the Camerons maintain in Pennsylvania, take its place. We protest against this outrage. In the name of honesty, in the name of patriotism, in the name of common sense we protest against it. We call upon the dominant party to halt in this undertaking. We call upon the people to assert their rights. Let it be distinctly understood that no man who votes for Mitchell can have any political future. He deserves none. There is not a county in the state that does not contain an honest, intelligent, industrious gentleman in every way worthy the senatorship. Let such a man be chosen. It would be a disgrace to Oregon to elect Mitchell. It would be an insult to the senate of the United States, and could only be accounted for on the grounds that his merits, such as they are, exceed those of his Satanic Majesty; otherwise the legislature capable of electing him would prefer the Devil in person.

The Egyptian war is liable to prove a serious source of trouble to England. Arabi Pasha has established a complete system of government at Cairo and his army numbers over 100,000 strong backed by the sinews of war which that country affords, whilst France and the other European nations have determined to remain neutral, and Turkey declines to send assistance.

TARIFF AND THE COMMISSION.

The protective tariff which has been in force in this country for the twenty years past has been fully demonstrated, both by logic and experience, to be discriminating in its provisions in favor of the few at the expense of the many; to be unjust and subversive of free government and deleterious to the interests of an agricultural people. The twenty years' experience we have had has succeeded in closing our navy yard, in destroying our shipping, in driving our flag from the high seas, the great highway for all nations; in increasing the cost of transportation of our produce from the interior to the seaboard to double what it would otherwise be. As a result of the tariff the produce is carried from the seaboard to market in foreign bottoms, under foreign flags, under a jobber's charter contract at from one hundred and fifty to three hundred per cent. advance on the actual cost. These years' experience have succeeded in loading the industrious farmer with debt and burthening the land with heavy mortgages from Maine to Oregon.

Notwithstanding the country is awakening to the situation and demanding a revision of this unequal and exorbitant system of taxation, the present congress of the United States, to prevent action on this question and enable the manufacturers and jobbers to continue to replenish their coffers at the expense of the farmer, mechanic and laborer, has appointed the so-called tariff commission for the ostensible purpose of revising the schedule list of duties. It has been in session for a long time at Long Branch, at great expense to the government, listening to the twaddle and sophistry of hired advocates for an increase of duty on specific articles of manufacture, mostly upon those articles of greatest necessity to the laborer and farmer, with the real purpose and intent of blinding the people to their rights and interests, and to manufacture public sentiment in favor of this system of robbery. During this time the Republican majority in congress is seeking by this "coup d'etat" to escape the responsibility of delayed action on this question for which an outraged public will, sooner or later, call them to an account.

THE HARBOR OF REFUGE.

An extract from a prominent San Francisco paper is not very flattering to the people of Southern Oregon nor to the shipping interests of the North Pacific slope. It is no doubt attributable, in a great measure, to jealousies and action of the people of the little seaport towns in the vicinity of Port Orford, in their representations to the engineers. But if numerous disasters and loss of life in these waters, taken in connection with the growing importance of the commercial interests of Oregon and Washington Territory, is not sufficient evidence to these verdant engineers, it should be proof positive to all liberal-minded statesmen and representatives who hold the interest and commercial welfare of the country at heart. The San Francisco Merchant of July 14th, says:

"The result of the discussion on the best location for a harbor of refuge between this port and the Columbia, which occupied so much space in the commercial journals of California and Oregon, two or three years ago, and which developed considerable acerbity in some writers, has ended in nothing. Port Orford, it was generally understood, was the point agreed upon as the location of the refuge, and the decision, when made, was generally acquiesced in. In the debate in the Senate on the appropriation, we learn that the Board of Engineers appointed to examine the matter had not determined on Port Orford as the locality, and indeed had not decided upon the necessity of such a harbor at all. Senators Grover and Miller asked for an appropriation of \$150,000. That was a modest sum, just enough to start the work; but the Senate refused. Yet, we can hardly blame the Senate, if what Senator Miller said is correct, that the Board of Engineers were not unanimous on the necessity of such a harbor; but we have the right to criticize the judgment of engineers who can see no necessity of a harbor of refuge midway between the Bay of San Francisco and the Columbia River. A few days' anxiety in a disabled steamer contending with winter gales would probably work a radical change in their views on this subject, and if any unfortunate are to be so exercised, we hope the non-consenting members of the Board or their dearest relatives may be among the sufferers."

Last night's dispatches inform us that the River and Harbor bill was passed by the necessary two thirds vote over the President's veto, by both houses of Congress. The increased appropriation for Oregon proposed by Senator Grover's amendment, was passed with the bill.

THE RIVER AND HARBOR BILL

The telegraph informs us the Cabinet decided to recommend that the river and harbor bill be vetoed. We have no means of knowing upon what grounds the veto is based, except what we know from the dispatches to the associated press. From these we learn that the principal objection is that the bill is too extravagant. The bill appropriating \$100,000,000 for the pension list was passed in both houses without a division when it was well known that three-fourths of this appropriation would never reach the hands of those who were really deserving, the balance being "robbed up" by pension sharks. While it may be true that the veto bill contained useless appropriations it undoubtedly contained many of vital importance, especially to the people of this coast. In Oregon alone the damage effected by the veto is incalculable. The work already done on the Columbia, Yaquina, Coos Bay, and the Coquille harbors amounting to millions will be wholly lost by the failure of the appropriations to continue the work. It is said that Conkling procured this veto as he did that for the protection of immigrants for a large fee. Whatever induced the act, it is a fatal blow at the material interests of the Pacific Coast, and can never be forgiven. We forbear further mention until we receive the veto message.

Secors Robeson openly boasted in the house of representatives that every ship that now floats the American flag and carries her guns were the product of his corrupt jobbery, by which millions were filched from the United States treasury, all of which he openly admits. For this he claims immunity from punishment on the ground of limitation, and yet he has the brazen effrontery to ask congress to appropriate millions more to be pocketed by this corrupt navy yard ring, of which he is the acknowledged head.

An Extraordinary Offer.

There are a number of persons out of employment in every county, yet energetic men willing to work do not need to be. Those willing to work can make from \$100 to \$500 a month clear, working for us in a pleasant and permanent business. The amount our agents make varies, some make as high as \$500 a month, while others as low as \$100, all depending on the energy of the agent. We have an article of great merit. It should be sold to every house owner, and pays over one hundred per cent profit. Each sale is from \$2.50 to \$10.00. One agent in Pennsylvania sold 32 in two days, and cleared \$64.00. An agent in New York made \$45.00 in one day. Any man with energy enough to work a full day, and will do this during the year can make from \$2,000 to \$5,000 a year. We only want one man in each county, and to him will give the exclusive as long as he continues to work faithfully for us. There is no competition, and nothing like our intention made. Having no inventory of \$200 to \$1,000 to invest, can obtain a general agency for ten counties or a state. Any one can make an investment of from \$25 to \$1,000 without the least risk or loss, as our circulars will show that those investing \$25 can after a 90 days trial return the goods unsold to us and get their money back, if they do not clear at least \$100. They show that a general agent, who will take ten counties and invest \$250.00 can after a trial of 90 days return all goods unsold to us, and have money returned to them if they fail to clear at least \$750.00 in that time. We are not paying salaries, but want men willing to work and obtain as their pay the profits of their energy. Men not willing to work on our terms will not work on any. Those meaning business will receive our large descriptive circular, and extraordinary offer by enclosing a three cent stamp, with their address. The first to comply with our terms will secure the county or counties they wish to work. Address, KESNER MANUFACTURING CO., 118 Smithfield Street Pittsburgh, Pa.

HEFFRON'S SALOON.

ROSEBURG OREGON. The best of wines, liquors and cigars, constantly on hand and a welcome to all. Give me a call.

Young Horses FOR SALE.
