

HEAR HIM VOCIFERATE!!

Radical Boss Misrule Dead!

Ohio Overwhelmingly Democratic!!

The election in Ohio on last Tuesday resulted in a victory for the Democracy.

The dictation of the old Stalwart ring again brought to the front by an assassin's bullet, acts like an emetic on the body politic.

The great tidal wave of 1884 has set in. The result in Ohio is the death knell to Radical misrule and federal dictation in politics.

The Democracy has more to fear in this hour of its prosperity than from these bold, bad men who have ruled and ruined the Republican organization, seeking to join its ranks and seize upon its destinies.

The latest news from Ohio places the Democratic majority at 35,000 and concede to them 15 of the 21 Congressmen.

Georgia has gone largely Democratic. Alexander H. Stephens carried every county in the State for Governor.

Delaware has gone largely Democratic, electing Democratic town officers in nearly every town in the State.

DUTY OF DEMOCRATS.

The Democratic party now, as it ever has been, is essentially the party of the people. It is composed of the great industrious middle classes.

On the 13th of March, 1879, the Governor appointed Mr. Bell. The minority of the committee claimed that the old Legislature could not—for the statute just referred to—elect, because the new body was the one last chosen, and that this one could not elect because it had no authority as a Legislature under the State con-

stitution, until June, 1879. "Mr. Rollins, arguing for the minority report, said: 'As we understand the Lanman case Mr. Bell's application here does not conflict with it at all. It may be summed up in a very few words: In that case a Legislature competent to elect had met and failed to elect a Senator. In this case no Legislature met prior to this appointment that was competent to elect. The Senate of the United States has so decided.'—[Globe, April 7, 1879.]

In fact all through the discussion on the admission of Mr. Bell, it was conceded on all hands that the authority of the Lanman case was decisive upon any case presenting a like state of facts."

The disgraced fall of trying to elect Mitchell still goes on at Salem, to the neglect of needed legislation, and is developing more rottenness and corruption than it seems possible for human society to endure and exist in a state of civilization.

The citizens of Yreka, California, have organized a vigilance committee to rid the town of suspicious characters. Several "roughs" have been invited to leave.

CAN THE GOVERNOR APPOINT.

The question as to the power of the Governor to appoint a United States Senator in case the present Legislature fails to elect, becomes important in view of the present deadlock.

"The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof, for six years."

The decision in the Lanman case was in substance: "When the Legislature has an opportunity of providing a Senator and fails, the Governor cannot appoint." The Oregonian contends that the Ball case from New Hampshire in 1879, reversed the former decision of the Senate, which had been the law since 1825.

"Mr. Bell was appointed under these circumstances. Mr. Wadleigh's term as Senator from New Hampshire was to expire on the 3d of March, 1879. A Legislature chosen in 1878 was to have its first session in June, 1879. By reason of a change in the constitution of New Hampshire there was in that State a Legislature whose term of office began in June, 1878, to terminate in May, 1879, which Legislature was in recess when Mr. Wadleigh's term expired.

The Legislature last chosen, before the expiration of a senatorial term, must elect a successor—by United States statute regulating the manner of election.

The minority of the committee claimed that the old Legislature could not—for the statute just referred to—elect, because the new body was the one last chosen, and that this one could not elect because it had no authority as a Legislature under the State con-
