

THE INDEPENDENT.

ROSEBURG, SATURDAY, OCT. 21.

The rule of the "bosses will come to an end forever on March 4, 1884.

New York and Pennsylvania will join the Democratic ranks next month.

The Republican party in Oregon will hereafter have a rough road to travel.

FOLGER'S nomination in New York shows the "rule or ruin" disposition of the bosses.

The Ohio revolution is one that will count. The Germans are slow to change, but when they do you may depend upon them.

The course of our contemporary in upholding Mitchellism is openly denounced by many outspoken Republicans.

It is now conceded by many leading Republicans that the next Congress will be Democratic by a good working majority.

ALTHOUGH it is a good way off, one can place his fingers on the ring candidates for county offices two years hence.

The predicted overwhelming Republican gains in the South have turned out to be the usual game of brag. Mahoneism, Republicanism and Arthurism don't take.

The little Roseburg ring that worked up the Mitchell boom in this county, will hear from the true Republicans of the county two years hence.

The rule of the Republican party of this county by three men will come to an end when the people speak two years hence.

The Senatorial question will be settled before this week's issue reaches our readers, but the outspoken denunciation of the course of Douglas county Representatives in supporting Mitchell indulged in by Republicans from all parts of the county during court week, will make the little Roseburg "bosses" quake in their boots, when they try to fix another delegation two years hence.

R. M. PATTERSON, the Democratic candidate for Governor of Pennsylvania, is a young man of sterling worth. He is the present Mayor of Philadelphia and has filled the office so honestly and ably that he will be promoted to the Governorship next month. He is of the right stamp for the young Democracy to gather around as their standard bearer for the Presidency in 1884.

The Standard says: The Republicans are making a great fuss over their victory in the first Congressional district in West Virginia, and claiming enormous gains. The fact is, the present member of Congress, out of a total vote of 36,710, only had a majority of 110 two years ago, and it is probable that Jay Hubbell was able to overcome this small majority with his "soap." Besides, there were cast at that time 1225 votes for a Greenbacker.

The proposed amendment to the constitution of this State prohibiting the manufacture and sale of intoxicating liquors, passed the House yesterday by a vote of fifty-two to six, two being absent on leave who were announced as being favorable to the amendment. The proposition to submit the question to the people has now passed both branches of the Legislature by such majorities as to leave little doubt that the matter will finally be submitted to the people.

It transpires that the liquor question in Ohio was not the main cause of the Republican defeat in that State, as we learn from the statements of Speaker Kiefer, upon his return to Washington, that the prohibitionists acted and voted with the Democratic party, and from the Cincinnati dispatches that the heaviest Democratic gains were in the American wards and precincts. The party tyranny of boss dictation, which is disrupting the party in this State, served to drive the independent voters out of the Republican ranks, while the financial depression caused by the tariff and National banks, contributed more to their defeat than all other causes combined, as the principal gains were in the agricultural counties.

POLITICAL ETHICS.

Political prejudices often blind the people to their own interests and to their country's good. The wholesale abuse of any man who enters public life, by his opponents, has led the people not to make the discrimination which would show the charlatan and hypocrite from the statesman and patriot. Thus to the general reader it is impossible to know for certain the

standing or character of any public man. We have always recognized the principle that it is wrong for a public journalist to impose upon the people. There is no truer friend to the people than an honest newspaper; one whose columns are not in the market and whose columns are not filled with tirades and abuse for the mere sake of temporary party advantage. Of the twenty American journals which stand at the head of the profession, there may be three of this high standard. The others are either conducted in the interest of some ring of politicians or controlled by some unscrupulous capitalist, or worse yet, conducted on the sole basis of a money-making business, regardless of its own honor or the welfare of the people it seeks to mislead. That the smaller fry of newspapers, especially county papers that are supported at the public crib, should pattern after the worst features of the great journals is not surprising. That any man who holds an office of profit and trust of just sufficient importance to earn his bread and butter and is compelled to run a newspaper in the interest of the party that supports him, should use his journal for the purpose of advancing his patron saint and to keep his own lips fastened on the public teat, is prostituting the office of a journalist, needs no argument to substantiate. We are sorry to say that men of such a character are the ones that edit (God save the mark) the average Republican newspaper of Oregon. It is to the interest of these men to mislead the public. They are forever blowing the trumpet of their "boss" and no language is too low, too abusive, or too vulgar to be used against those who may differ from them. The motives of these men should be evident to any one. Bread and butter depends upon dirty work and he who surpasses at it is more liberally supplied from the public funds. It is safe to say that there is not a Republican journal in this State whose editor is an officeholder, an obtainer of government contracts, or an anxious expectant of an office, which is not a supporter of Mitchell and an upholder of Hipplesism. They shout his praises from week to week and take a tighter grip upon the public pap. They have no defense to make for Mitchell. By their silence or senseless tirades they admit him to be all that he is known to be, a seducer, a bigamist, a lobbyist, and O Lord, what is he not that is venial and corrupt! They claim that he is smart and can do more for Oregon than any one else, and that his youthful indiscretions or a period of forty years should be overlooked. Years ago there lived in Portland a very smart man. He made a living in a very easy way, through the aid of 52 little strips of various designed papers. He was never a caucus nominee for Senator, however, probably because thirty-six smart men were never found in an Oregon Legislature before this time. McDonald, the bunko sharp, a man of education, of fine address and pleasant manners was sent to the penitentiary. If he is still there we would respectfully suggest his name to the immortal thirty-six as the only man who possesses any rival claim to their votes.

Ayer's Hair Vigor.

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

It is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often, though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brassy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The Vigor cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair The Vigor is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.

Ayer's Sarsaparilla.

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The science of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Scrofula and all scrofulous diseases, Erysipelas, Boils, or St. Anthony's Fire, Pimples and Face-grabs, Pustules, Blisters, Hives, Tumors, Fetter, Humors, Salt Rheum, Scald-head, Ring-worm, and all eruptions of the skin. It cures Scurvy, Sores, Rheumatism, Mercurial Affections, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Diseases of the Liver, Dyspepsia, Emaciation, and General Debility.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause arrangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give AYER'S SARSAPARILLA a fair trial.

It is folly to experiment with the numerous low-priced imitations of cheap materials and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. AYER'S SARSAPARILLA is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know the composition, and describe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.

Ayer's Sarsaparilla.

Is a purely vegetable bitter and powerful tonic, and is a certain cure for Fever and Ague, Chills and Fever, Intermittent or Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, and all malarial disorders. In malarial districts, the rapid pulse, coated tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and coldness of the spine and extremities, are only precursors of a severe prostration, which terminate in the ague paroxysm, succeeded by high fever and profuse perspiration. It is a startling fact, that quinine, arsenic and other poisonous minerals, form the basis of most of the "Fever and Ague Preparations," "Specifics," "Scraps," and "Tonics" in the market. The preparations made from these mineral poisons, although they are palatable, and may break the chill, do not cure, but leave the malarial and their own drug poison in the system, producing quinine, dizziness, ringing in the ears, headache, vertigo, and other disorders more formidable than the disease they were intended to cure. Ayer's Sarsaparilla thoroughly eradicates these noxious poisons from the system, and always cures the severest cases. It contains no quinine, mineral, or any thing that could injure the most delicate patient, and its crowning excellence, above its certainty to cure, is that it leaves the system as free from disease as before the attack.

For Liver Complaints, AYER'S AGUE CURE, by direct action on the liver and biliary apparatus, drives out the poisons which produce these complaints, and stimulates the system to a vigorous, healthy condition.

We warrant it when taken according to directions.
