Sometimes we see an old piano standing in a house, and hear parents say, "we thought it would do well enough for the children to learn to play on." They have imbibed the idea that to run the fingers over the keys is to play on the piano; and, no matter how much out of tune the instrument may be, "it will do to learn on," Such people forget that a musical education is more an education of the ear than of the fingers; and that every time a child touches one of these instruments that "answer just as well to One day not long since, though the weather was bitterly cold, there was a lull in the storm, and word was brought of correct musical sounds is rendered learn on," so far as fingering is con-cerned, the ear is vitiated, the musical over to the saloon that there was to be a impossible.
