There was made at Mrs. Compton's dressmaking establishment in Roseburg during the ninety days preceding the 4th of July, eighty fine dresses for women and young ladies. This is truly encouraging to marriageable young men to know that the young ladies of the period lack the accomplishment of being able to make their own clothing, but have to resort to this popular establishment in order to get a perfect fit.

One Deering plow, and one Wood's twine binder. The reason of the property being resold is. that Van Horn, one of the mertgagers of the property made bids on the same high enough te take it, but failed to make payment, a very essential part of the transaction. He evidently thought it a good idea to bid on the property and try to borrow the money to make payment with afterwards. The tourists to the Coquille and coast mountains are returning slowly, and various are the stories they tell of the slaughter of the trout. Frank was the first to get back filled to overflowing, while somewhat modest in his declarations, the stories that he teld of the cool retreats and swarms of the finny tribe would cause one to wish an adieu to the dust and smoke of the valley and be off for the mountains, only if he could. Mrs. Anna G. Fourgurean, of San Marco Texas, wife of a well-known and influential citizen of that place, writing under date of May 28, 1881, says: "In the spring of 1878, a deep cold settled on my lungs; I had a dreadful cough, accompanied by daily fevers. sleepless nights, indigestion, less of flesh and strength, mental depression, and hemor. rhages from the lungs. This state continued for eighteen menths, notwithstanding I had the treatment of good physicians. By this time I had lost all vitality, spent most of the time in bed, coughed centinually, raising a large quantity of deep yellow mucus, and after a little sleep in the latter part of the night, I would awaken drenched by night sweats, and so prostrated that I could not raise myself in bed until I had taken a little brandy. I began to lose hopes of life. My husband and my neighbors thought I could not possibly live. About this time your 'Compound Oxygen Treatment' was brought to our notice. My busband immediately sent for it; I stopped the use of all medicines an began the 'Treatment.' I was too weak at first to take it for as long a time as two minutes; but gradually the inhalations increased in length and strength, and would leave such a delightful sense of relief to my lungs that I loved to inhale. My fevers grew lighter each day until I had none. Two weeks from the beginning of the treatment I begun to feel like a new person; could take walks; found myself singing while at my work; indeed I scarcely recognized my own self; my flesh increased, and I felt and looked younger. I used the 'Treatment' four months faithfully; after that irregularly for several months, and at the end of twelve months from the time I began it, I had no cough, no sign of lung disease; in other words I was WELL. It is more than a year since I left off taking the Oxygen, and I have had no return of the disease."
