LOCAL ITEMS.

The smoke is getting denser. Hon. B. Hermann is again in the city. Hon. C. Ball is absent, attending court at Ellensburg.

Miss Mira Willis has returned to the Sister's school at Salem.

The dense smoke now prevailing in the valley is caused by fire mainly in the Coast range.

Grain is coming in freely. The cleaner at the Grange warehouse commenced work last Wednesday.

The smoky weather, or something else, is having a bad effect on the watermelon crop, which will be light this year.

The last Plaineader has a touching obituary on John Rast's uncle. It is right and very becoming to mourn for one's relatives.

Much as was predicted as to a sparsity of the present crop of wheat in this county, yet the new harvest is developing a yield not at all expected and far in excess of last year's.

Prof. J. D. Hayes of Portland, has been elected as Professor of Natural Sciences in the State Normal School at Monmouth and has accepted. This makes a faculty of eight professors and teachers, besides assistants.

We are requested to announce that Mr. Wilkinson has not resigned his position on the train, nor was he invited to resign as was reported last week by the Plaineader, but is again on duty. His many friends are glad of his return.

G. W. Smith, who was indicted for the murder of Mrs. Mary A. Petch in Yamhill county one year ago, was captured a few days since in the Coast range, on the Napa-tucka river. Judge Boise has called a special term of the District court for his trial.

Judge R. S. Bean arrived at Roseburg during the early part of the week on his way to Ellensburg, Carry county, where a special term of the District court commences next Monday. He was accompanied by a number of our legal luminaries.

We are under obligations to Master Bol-lows, son of A. J. for a compliment about the size of a milk-jen. The contents of the pan looked and tasted like delicious blackberries. The Inspector hopes the lad's future may be as perfect as the fruit he so kindly tendered.

The fourth quarterly conference for the Roseburg Circuit, M. E. Church South, will be held at the Myrtle Creek campground, to commence on Thursday, before the second Sunday in September. The funeral sermon of Rev. J. W. Stahl will be preached on Sunday.

The suit of Charles A. P. Morris against Wallace Struble and other proprietors of the Polaris, for libel, which was commenced in Portland, has been dismissed by the plaintiff. It is said that he will bring a new suit against the author of the alleged libel-ous article.

The Coast range of mountains this side of Camas valley, are still near the road to such an extent as to seriously interrupt travel. Vast quantities of valuable timber is being destroyed. These fires will continue until the rain falls, of which at present there is no sign.

F. A. Smith, the well known photographer of Salem, and a former resident of Roseburg, has established a gallery on Main street, nearly opposite the Plaineader office, where he will remain for some time. His prices are reasonable and all who want first class pictures should embrace the opportunity.

By the authority of the Brotherhood, the telegraph operators have resumed work, or at least a portion of them. The Portland operators, however, refused to do so, when they were required to sign an agreement to withdraw from present membership and refrain from future membership or affiliation with secret or open societies which in any wise attempt to regulate the conditions of service or its payment.

Mr. Reed, paymaster of the O. & C. rail-road, went south to pay off the hands last Saturday. He was accompanied by a guard of 40 men. The Chinese paymaster went at the same time. He went as far as Rogue river and returned last Wednesday. The trip was a pleasant one and was made without any accident. The large number of roughs and desperadoes now congregated at the front made the large escort necessary.

On the site of the recent burned mill at Parkersburg, on the Coquille river, is now being constructed and rapidly nearing completion, a saw-mill, which for perfect work-manship, combination of modern appliances and safety, has no equal on the coast. Captain Parker, principal owner and manager, is entitled to much credit for the energy, taste and convenience of this structure.

Jacob Jones, living two miles west of Roseburg, on last Monday killed a large female coyote that had been making havoc among the sheep in that vicinity for some time. He was out hunting and having his attention attracted to a disturbance among the sheep, saw the monster pounce down upon a lamb that was some three hundred yards distant. He shot and killed the coyote. It measured five feet in length.

The Conclave of the Knights Templar at San Francisco was attended by a large number of the Order, representing every State and Territory in the Union and by an immense concourse of visitors. The religious exercises were held on Sunday at the pavilion, and on Monday the great parade took place. The procession was a brilliant affair. Nearly 4000 Sir Knights, in their brilliant dresses, interspersed with numerous bands of music, marching through the streets decorated with flags and evergreens and densely crowded with people, presented a spectacle such as San Francisco has never before witnessed. The Oregon Commandery made a very fine appearance. It is claimed that there were 70,000 visitors in the city.

DIVINE SERVICE.—Most Rev. C. J. Seghers, Archbishop of Oregon City, on Sunday, the 26th of August, will hold divine service at St. Stephen's Catholic church, both morning and evening. J. HENRICH.

BACONINE GEORGE, of one of the far-off precincts, had better be a little more discreet in his attentions to the fair widow of the valley, or his girl will throw him for good this time. A FRIEND.

General Improvement.

"I am feeling quite well. No cough; appetite good; regular in my habits; and I am very much encouraged. I do not feel that difficulty in breathing; nor do I feel so nervous." Our Treatise on Compound Oxygen, its nature, action and results, with reports of cases, and full information sent free. Drs. STARKY & PALEN, 1109 and 1111 Girard street, Philadelphia, Pa. All orders for the Compound Oxygen Home Treatment directed to H. E. Mathews, 606 Montgomery street, San Francisco, will be filled on the same terms as if sent directly to us in Philadelphia.

THE PORTLAND CELEBRATION.—The citizens of Portland are fully alive to the advantages they will derive from the completion of the Northern Pacific and they have resolved to celebrate the occasion in a manner creditable to the city and to the State. For this purpose they have contributed the sum of \$20,000, or such sum as may be necessary. The program will be as follows: On the approach of the train containing Mr. Villard and the guests who were present at the driving of the golden spike, a salute of one hundred guns will be fired accompanied by a general ringing of bells and blowing of whistles. At night there will be a general illumination of the city, which the guests will be escorted in carriages to inspect. The next day will be a universal holiday. The streets will be profusely decorated with flags, evergreens, flowers and arches. In the morning there will be a procession consisting of the military—regular and militia—the old emigrant wagons with the same old loads, the different trades, and citizens on horseback. The procession will march past the guests, who will be seated on a platform opposite Wells, Fargo & Co's express office. After marching around the city they will meet at the pavilion where speeches will be made. In the evening there will be a full dress promenade concert. Gen. Morrow will be grand marshal. The reception committee consists of Judge Deady, Hon. J. K. Kelly, Hon. L. F. Grover, Hon. Geo. H. Williams and a number of the leading citizens to the number of twenty-five. It will be a great day for Portland and Oregon and no doubt there will be a large attendance from all parts of the State. As the 5th of September has been fixed for the departure of the guests from Portland to Montana the celebration will probably occur on the 8th or 9th.

On Friday, the 17th inst., a dwelling occupied by W. A. Luse and located in the northern end of Empire city, was totally destroyed by fire. On Friday the occupants of the premises were absent until late in the evening. When they returned to the house, they lighted a lamp and went away for an hour or so on business that required their attention elsewhere. Again returning, they found the place on fire and it under such headway as to be beyond the control of any means at hand with which to subdue it. It is reported that Luse lost heavily in household effects, clothing, money, books, notes and other valuable papers. Rumor places the greenbacks burnt at from \$1200 to \$2000; the coin melted at from \$600 to \$1000, and Luse's total loss at from \$7000 to \$8000. The original cost of the building was about \$1000. It belonged to the estate of Frank W. Knowles, and was to have been sold at administrator's sale next Saturday.

THE COOS BAY RAILROAD.—A Boston telegram of the 16th states that a company has been formed here with heavy capital to operate in Oregon, California, Idaho and British Columbia, to build docks, elevators and railroads, and to do general transportation and commercial business. Their first move will be to build a road from Coos bay to the eastern line of Oregon via Roseburg, which will probably connect with the Union Pacific short line, to develop mines, cut timber, etc. From this it would seem that this road which southern Oregon is so anxiously awaiting will probably be built in the near future. Speed the day.

It is evident from several samples of Willamette valley wheat received in this city during the past week that farmers are threshing their wheat too soon. Most of the grain so far exhibited is soft to a degree which will seriously hurt its value. Too early threshing can only result in loss and disappointment to farmers when they come to warehouse or sell their grain. This is a very important matter, and we feel it a duty to impress the danger upon the country. Time should be taken to allow the wheat to cure on the stalk before threshing.—[Oregonian.

THE SCHIEFFELIN brothers, formerly of Jackson county, who made a million of dollars in Tombstone, Arizona, have again struck it rich in Alaska. The new discovery is on the Yacon river. Owing to the extreme cold—twenty degrees below zero—it was impossible to do much prospecting.

A number of the citizens of Portland will give a reception to Gen. Wm. T. Sherman in the Mechanics' Pavilion on Monday evening, the 27th inst. All the citizens of the State are invited to be present. A reduction of forty per cent has been made in the railroad fare, round trip tickets, good for the 27th and 28th.

A Splendid Show.

We clip the following, regarding the minstrels who open at Marks Hall Friday, from the Trinity (Cal.) Journal. See elsewhere their advertisement: Ainsley Scott's Jubilee Singers comprise the very best traveling combination that has ever visited this section. Their entertainments on Wednesday and Thursday evenings drew crowded houses and vast audiences went home delighted, feeling that they had received much more than their money's worth in the way of amusement and entertainment. Where all did so well, it would be manifestly out of order to draw comparisons. To our northern neighbors we would say, if you can appreciate a real good show, such as seldom travels, do not fail to patronize the Jubilee Singers and you will surely get value received. The program presented by this excellent company is entirely new, refined and of the highest order, the vocal and instrumental music being of a high standard. The choruses were rendered in a manner which shows much practice and a high order of ability, while the funny business is enough to break a man all up. Mr. Scott not only deserves praise, but the most liberal patronage for his efforts to please the public. The Brass Band is a notable feature and deserves great praise.

THAT GROUSE HUNT.—A reporter of this paper interviewed Jones, of mineral water fame, and he (Jones) does not deny that he went hunting without ammunition, but says when he made the discovery his feelings must have been akin to those of Mr. Conn (the athlete) when he first drank the mineral water. During last summer and before Conn had sold his wool, he went to the spring, and after drinking of the water for the first time he said everything seemed to look brighter, and it appeared to him that about a dozen wool buyers were standing around bidding on his wool. By the time they had run it up to 40 cents per pound, the mirage vanished and those wool buyers went from his gaze, like a beautiful dream, and Conn looked upon his unsold wool with about the same feelings that Jones did upon his empty \$80 gun. We suppose this accounts for the imputation in his item that there is some witchery about the spring. The effects of the water are truly wonderful and we would advise all athletes to avoid wrestling with patients who have been drinking it.

SAD SUICIDE.—On the evening of the 15th inst. Grant Chenowith, second son of Judge F. A. Chenowith of Benton county, committed suicide by hanging himself in his father's barn, in Kings valley, 18 miles from Corvallis. He was eighteen years of age, very intelligent, of a cheerful disposition and the cause of his rash act is unaccountable. He had been at work in the harvest during the day, and had shown no unusual sign of mood or manner. He was missed at supper and a search found him a lifeless corpse. Judge Chenowith and his family have the heartfelt sympathy of the whole community in their terrible affliction.

FROM RICE HILL.

"Harr," how is Mandy? Pete Thiele has killed 16 deer in his grain field this Summer. Ten F. Rice had 17 acres of wheat which averaged 25 bushels to the acre. His entire crop is far below the average of former years. I understand that G. A. Taylor, one of the best postmasters Oakland ever had, has resigned his position as postmaster and will hereafter act as city painter. I thought that Cus was too cute for that. Ten Rice has about 50 head of hogs which he wishes to sell. They are a fine lot of young hogs and can be purchased at a reasonable figure. Uncle Fred White, California Rice and Al Parker have adopted the old style of tramping out their grain with horses. The latter has his crop all in the granary and the two former will be done soon. In this road district we have no bridges, no road supervisor, and in fact no roads, for without a supervisor we can't have a road. Just now it is almost impossible to get to town with a wagon, and how the farmers will get to Oakland in the winter is a question. The County Court failed to do its duty in appointing a supervisor who was eligible for that high and honorable position. Ten F. Rice desires that your correspondent should mention the fact that J. S. Wagner, whose family resides at Drains station and who was employed on the O. & C. R. R. extension last fall and winter, has not been heard from for over five months. His son, who had been working on the railroad and not finding steady employment, returned home about the middle of April leaving his father at Wolf Creek, since which time they have been unable to hear from him. Mrs. Wagner is a very affable lady and his family are highly respected. Mr. Samuel Carr, of Scotts valley, has the nicest, cosiest little place we have seen in this section. He deserves credit for the taste he has displayed. He has good barns, sheds, etc., also the best house in the valley. Sam is a "rustler," everything is always in the right place and his surroundings speak volumes for him. He is a farmer that should be patterned after. Good management is a sure road to success.

FROM OAKLAND.

A number of our citizens are doing the mountains for health and recreation. Mr. M. Williams, an old and highly respected citizen of this place, took his departure for Eastern Oregon a few days since, where he intends to permanently locate. The grain-hauling season has just commenced and our town will soon be crowded by the honest farmers, who are always welcomed to our midst. Dr. Shanbrook informs us that Miss Brockington, who has been very low with typhoid fever for several days, is now improving. The foot-race, which occurred last Saturday, was well attended by many of our sporting men, who, of course, made money by the operation. May the good work go on pleasantly. Since the threshing season has ended it is a well known fact that the crops are as good, if not a little better, than they have been for many years. The country is prosperous now and may it remain so to the end of time. Gary's hogs returned from the front in good condition physically and morally, and well informed in the construction of railroads. Gary is well pleased with their improvement. Mr. Wilson had a little trouble with a wild and vicious horse last Sunday that he was driving to a buggy. The animal completely wrecked the buggy and demoralized the driver. Wilson must be more careful with the old mare and pay more attention to the lines and less to the contents of the buggy. X. X. X.

Teaches and watermelons. Buggy rides and sore cheeks. Charles, we would like to have some venison. The horse-race was a success; ditto foot-race. Our esteemed friend and County Treasurer, Wm. Moore, favored our city with a visit Sunday, but on account of its dullness proceeded to Jaw-bone. J. H. Howard and John Bayless have gone to Portland; also, our leading merchant, A. F. Brown. Our old friend, Robert Hutchinson, returned recently from Spokane county, W. T., and reports everything flourishing. Glad to see you, Bob. Some of our young bloods were flourishing their pistols rather recklessly on the Sabbath. Our papas had better attend to them. M. A. Cozad paid us a flying visit Sunday. Come again, Marion, but mind your eye. Wilson says if you think the old Bisk ain't a high kicker, you're "way off." Our old friend, D. B. Hamlin, started for Portland this morning to spend a few months with relatives and friends. YONCALLA ITEMS.

Divine services last Sabbath at the old court house by the Rev. Deboy. He left an appointment for the fourth Sabbath. Church goers will please take notice. Milton Applegate's fine residence is fast reaching completion. "Chief Justice Miller, of Yoncalla" we understand will do the painting, and as he is an excellent hand with the brush we look for some fine work. "Johnathan is hard to beat." The Applegate saw mill has closed down for about six weeks, to remove the mill about half a mile from its present site where timber is more plentiful. The Applegate Bros. will put up an excellent mill, adding more capacity. We hear that the grain is turning out much better than was at first anticipated. Yoncalla warehouse men are ready to receive. Our merchants seem to be doing a thriving business and we are sure they are willing to sell goods as cheap as any other two firms in Oregon. Charlie Wolfer, of Elk Creek, is the happiest man in this section of the country, as his wife has presented him with a fine son. Charlie says the youngster is Democratic to the backbone, weighs an even ton, and that his name will be Samuel Tilden, or after some other Democratic light. We see that W. I. Record has been doing your town. We knew him lack in "old, old Pike," down in California and a great many other places, and we always found him to be "square toed." Use him well, as we will need a good many like him next fall. If we ever need a tombstone we would rather he would furnish it than any other man. Is it a fact that he has lost his speech? We can't believe it. Impossible! The Drain Academy with an excellent faculty will open sometime in September, and parents having children to send to school should avail themselves of the services of Prof. Benson, as such instructors are not always so conveniently located and are hard to find. Mr. Berl Smith, teacher of the Scott Valley school, contemplates a trip to the Puget Sound country. Berl is a "tip top" fellow, and will leave a host of friends in this neighborhood. He is a first class school teacher and fortunate will be the school district that secures his services. Success to him. Mr. Samuel Carr, of Scotts valley, has the nicest, cosiest little place we have seen in this section. He deserves credit for the taste he has displayed. He has good barns, sheds, etc., also the best house in the valley. Sam is a "rustler," everything is always in the right place and his surroundings speak volumes for him. He is a farmer that should be patterned after. Good management is a sure road to success.
