LOCAL ITEMS.

Don't fail to have your photograph taken by Severance. He will be here only a few weeks longer. Gallery one door north of the Plumber's office.

The fourth quarterly meeting of the M. E. church for the Roseburg circuit, will be held in this city upon the last Saturday of this month and the first Sunday of next month. Rev. I. D. Driver will be present.

Crops are looking finely and we sincerely hope that our farmers may realize large results and not be compelled to pay out all they produce in order to get their produce to market. Vote the Democratic ticket and regulate the matter.

An unknown Celestial was found defunct upon the track of the O. and C. railroad at the depot at this place, upon Friday morning. His being there and cause of death are involved in mystery. Enquiry may develop something that perhaps should be known.

The main plank of the Republican party of this county favoring Jones' mineral water, is working to a charm. The candidates look a little pale, but their systems are becoming purified. Milton makes Lucifer say: "What though the field be lost, all is not lost." As soon as they get their systems in order they will of course feel well and become good sinners (not Caro) pure Democrats.

Center Bend reports that Mrs. Bina Benson has returned from California upon a short sojourn with her many friends. She seems delighted with our good old country and we would like to see her remain always provided, we all did. Mr. E. H. Plinston's new residence is in the course of construction. Wonder how we buckskin-glove people will be received at the house-warming. Everything good, true Democracy not behind.

Upon examination of court proceedings it will be found that there are very few fore-closure suits. This argues well for our farmers. We remember the dark years of '61 and '62, when great interests went down beneath the weight of such encumbrances. The people who obtained these benefits outgrown bridges and other valuable improvements, claim that the county is impoverished, set aside five dollars an acre as assessment upon their lands and then refuse to an eager purchaser the cash sum of twenty dollars per acre.

The following we publish with regret: A shooting scrape occurred at Smith river last Saturday, in which three men were more or less injured, as follows: Z. Haines, Samuel Wilton and William Beam. The affair took place in the store of D. Haight at that place. Mr. Haines was shot by a brother of Beam. Mr. Wilton was shot by said Beam, and Beam was shot by Wilton. Haines was not expected to live at last accounts. The other two were not seriously hurt. The Beam brothers were both aggressors and both are under arrest.

Alec. McCurdy has fitted up his saloon in fine order. His billiard table is a good one and those who enjoy this anti-card game should test it. We do not desire to encourage the saloon business, but can say if we are to have any at all they should be the best. The gentlemen who are engaged herein are really men. There never has been a robbery in any saloon in this town and with the present proprietors there never will be. Sometimes we regret that there should be any place for such traffic, but we are somewhat of a general free trader. So long as the boys are kept away from these places we have nothing to say and as soon as we observe a violation of this law we shall resort to an adequate remedy. Keep the boys out of saloons and let the men take care of themselves.

The following interesting article appeared in the Oregonian of the 25th inst.: "Now that the voting day of the year is close at hand, the foreign born male individuals who are in our midst hasten to furnish the necessary proof which shall enable them to have equal rights with all other citizens of the United States. Three such aliens were admitted to full citizenship yesterday, one in the county court and two in the State circuit court." It would seem from this notice that foreigners are only desirous to become citizens in order to become voters at a political election. This is most unjust and in the name of the Democratic party we protest against this encroachment. However that is quite unnecessary. Every intelligent foreigner knows that the Democratic party is his friend. It was Jefferson who best asserted the rights of man and he was the founder of the Democratic party. We guarantee the liberty of religion and conscience.

LUMBER.—I have on hand and offer for sale 200,000 feet fencing lumber and 75,000 feet flooring and rustic of A 1 quality. Cash purchasers will find it to their interest to get quotations before placing orders. Orders for all kinds of lumber solicited and promptly filled. Address B. A. BOYD, Yoncalla, Oregon.

ACCIDENTAL SHOOTING.—On last Thursday Mrs. N. Noffsinger who resides on the Siuslaw river, in the northwestern part of the county, was seriously wounded by the accidental discharge of a Winchester rifle, while in the act of lifting it from the ground. The ball passed entirely through the leg, about three inches below the knee, and lodged in the fleshy part of the hip. Dr. Mackey of Gardiner, rendered the unfortunate lady the required surgical aid and expressed strong hopes of saving the leg without amputation, although the smaller bone is badly fractured.

Tombstones for Sale.

I desire to call the attention of all persons desiring to purchase tombstones that I have a select assortment of dressed marble, which I will sell on reasonable terms. Having disposed of the shop lately occupied by my deceased husband, I have stored the entire stock at the Flood warehouse, near the railroad station, where the same may be examined at any time. Persons desiring to purchase can consult me at my residence, west from the depot, or J. C. Fullerton, at the land office in Roseburg, Oregon. In case of purchase the lettering will be done by William Staiger, of Salem.

Mrs. R. BRACKENRIDGE.

Texas Correspondence.

HUNTSVILLE, Tex., May 7, 1884. Mr. Editor: It has been some time since I last wrote your interesting journal. Your many readers would doubtless like to see something on the vast State of Texas. In area this is the largest State in the Union and in the near future will contain the greatest number of people. Its soil is diversified, as well as its climate. Western and middle Texas contain vast plains of fertile soil. Its inhabitants, outside of the towns and cities, are either in the stock business or in agricultural pursuits. The soil is inexhaustible in the broad prairies. Some have farms that have been cultivated for more than thirty years and the yield is as good, or better, now than it was at the commencement.

There are many men here noted for their wealth in cattle and horses. A man worth fifty or sixty thousand dollars is considered a very small potato among the cattle kings. Fence-cutting was very common a few months since, but now the nippers have been laid aside and wholesome laws are enforced. Many places that were mere villages five or six years ago, are now thriving cities. Fort Worth, seven years ago was a small town of five or six hundred people, now claims a population of 25,000. Dallas, a short time since was a small country town, to-day she claims a population of 27,000. Likewise many other thrifty cities all over this vast State.

The eastern portion of the State is principally wood-land and the people are employed chiefly in farming. The water is very inferior, as a general rule, all over the State. Those who are able use cistern water, which is always pure and healthy.

Eastern Texas is the best poor man's country in the United States. If a man gets here without anything he can go right to work at good wages upon the farm, or if he wishes to rent land he is furnished the necessary supplies for making the crop and then gets half the proceeds. Many people who came here five or six years ago without anything to start on, save energy and economy, are now in splendid circumstances. The climate during the winter is very mild, compared with that of the northern and western States.

The public school system is being gradually worked up to a fine basis. In a few years every child in Texas will be educated laudably on the public school.

Huntsville is regarded as the center of education in this State. It was the home of Gen. Sam. Houston, whose fame is co-extensive with the American continent. His last resting-place is in the Huntsville cemetery. The Sam. Houston Normal Institute, located at this place, was established and named in honor of Gen. Houston. This is the only normal school in the State. Its corps of teachers has been selected from the various States; and the ability, efficiency and energy of each teacher is beyond reproach.

With kindly wishes for the success of the editor and my other friends in Douglas, I am, yours respectfully, J. M. F. H.

The Poplar Approval.

Of the new famous Syrup of Figs as the most efficacious and agreeable preparation ever offered to the world as a cure for habitual constipation, biliousness, indigestion and kindred ills, has been won by the wise plan pursued by the California Fig Syrup Company. Knowing that any remedy truly beneficial in its effects on the system, and at the same time pleasant to the taste, will meet with a rapid sale, the company, through its agent for Roseburg, S. Hamilton, and Page & Dimmock of Oakland, gives away sample bottles free of charge. Try it and judge for yourself. Large bottles fifty cents or one dollar.

Road Work.

The road supervisor is ready for work. Mr. Slemmons will endeavor in every respect to do his duty. Mr. McClanahan made an excellent officer and the present supervisor intends to follow his theory. There is no use in making patch work when we have cloth enough to make a good garment. The road up Deer Creek should not be neglected and some labor should be extended to the main thoroughfare and that portion of Lane street given to the county by our city, ought not to be omitted.

Some people are willing to work out their road tax, but many by reason of other business are unable to do so. We confess we are of the latter class and instead of substituting some idle and imprudent debtor, prefer to pay our dues directly. All who are so circumstanced as not to be able to work, might well pay this assessment to the supervisor and secure some kind of system. All careful work upon our roads will amply repay our investment.

Printer's Picnic.

To members and friends of the craft: You are hereby requested to be present and take part in the picnic to be given by the printers of Salem on Friday, June 6, 1884. Any friends who may invite will also be made welcome. It is proposed to make this one of the occasions never to be forgotten, and we hope every printer in the State will be with us. By order of committee on invitation. SALEM, May 20, 1884.

Farmers, Attention!

There will be a meeting of the citizens of Douglas county for the purpose of organizing an agricultural society for southern Oregon, Saturday 31st of this month.

We are sure this will be a successful Douglas county, in its varied interests and industries, can compete with any portion of Oregon. Jackson county can rival the world in its vine culture and fine fruits, acclimated to Oregon. In splendid stock Lake and Klamath can make good showing. Josephine can evidence the hidden wealth of her bosom. Curry can exhibit the best quality of wool and Coos can present coal and lumber of most excellent quality. Let everybody be at the meeting. The band will be on hand and so will we.

The Railroad Question.

A few days ago a bill to forfeit the unearned portion of the Northern Pacific land grant and open these lands up to settlement, was pending before the United States senate. Dolph, the Republican senator from this State, spoke and voted against the proposition and in favor of the monopoly which he represents. Slater, the Democratic senator from this State, spoke and voted in favor of the bill and the people whom he represents. On this question let the farmers decide. By your votes on the legislative ticket will you decide this question. The return of Senator Slater will compel the railroad companies to live up to the terms of their contract. By the election of Sol. Hirsch as the colleague of Senator Dolph the rights of the people of the Pacific coast will be disregarded and vast sections of our best land tied up for speculation and the settler in search of homes will be compelled to seek them elsewhere.

UNION CAMP MEETING.—A camp meeting is to occur at French settlement, eight miles west of Roseburg, to commence on the 6th of June, 1884, and continue over two Sabbaths. These meetings will be free to all religious denominations, and Christians of all creeds are invited to join in the exercises. This will be the first camp-meeting held in this neighborhood for the conversion of sinners and sanctification of believers. Revs. H. Ashcraft, Alderson and other ministers will be present. Positively no huckstering, or dramsops allowed on the ground, or within the limits allowed by law. Come prepared to stay during the entire meeting. Jos. McKinney, Arthur Cloake and T. S. O'Brien, committee on arrangements.

Platford of the County Democracy. WHEREAS, The principles enunciated by the Democracy of the State of Oregon in their State platform, is a clear declaration of the principles of the Democratic party, therefore be it

Resolved, By the Democracy of Douglas county in convention assembled, that we reaffirm the principles therein set forth, and

WHEREAS, The Republican party has for twenty years, by national and State legislation, fostered encroachments of corporate power on the rights of the people, and

WHEREAS, The Republican party in both county and State conventions refused directly and positively, instructions upon the question of regulating fares and freights on transportation lines in this State, therefore, as an additional guarantee to the people of Douglas county, be it

Resolved, By the Democracy in convention assembled, that our senators and representatives from this county be and they are hereby instructed to use all honorable means to aid in passing such laws as will remedy the evil and such as are just to the corporation and satisfactory to the producing class.

Calapooia Items.

Sheep-shearing is in full blast. One of our Calapooia dudes while shearing sheep for N. T. Day, lost a valuable diamond set ring, worth \$50.

Madam rumor reports a couple of weddings on hand before long, but can't say for certain.

John Mires has a curiosity in the shape of a horse having only three ribs and weighing 46 pounds.

Prof. H. D. Thomas is buying up all the hogs in the country and contemplating starting a packing house at his mill on the Calapooia.

At the residence of the bride's parents, on May 18, 1884, Miss Lilly Star and Mr. John Shook were united in the holy bonds of wedlock. They will soon leave for Washington territory and take with them the hearty wishes of the entire community.

Rev. Enley preached to a large audience last Sabbath and Brother Miller delivered an interesting sermon in the afternoon of the same day.

George Stephens is the happiest man on the creek. It's a boy and weighs 10 pounds.

SALLIE.

TREASURER'S NOTICE.—All persons holding county warrants, endorsed prior to Jan. 31, 1884, are hereby notified to present them at the County Treasurer's office, in the court house in Roseburg, on or before April 19, 1884, as interest will cease from that date. W. N. MOORE, County Treasurer.

FROM OAKLAND.

The roads, under the supervision of Mr. Winecoff, are being put in excellent condition.

Candidates are getting more numerous. Among those we observed during the week were Messrs. Owens, Burnett, Kiddle and Parrott.

Dr. Shambrook and Little departed on Monday's train for San Francisco, where they go to attend a course of lectures at the Cooper Medical college. May success award their efforts.

The gossips have had a relapse, from all appearances, as they have been somewhat silent during the past few days, but, judging from the manoeuvres of some of our young folks, there may be chance for a renewal of their favorite indulgence.

There does not seem to be much interest manifested in political matters as yet. And we feel safe in saying that there will be little respect paid to the nominations of either party. It seems everybody will vote for their favorites and while we believe the best men should fill our offices, yet any estimate cannot be well made how the thing will result.

A son of A. W. Cone, who lives near here, was accidentally shot by a pistol which he was carrying in his pocket, Wednesday evening about four o'clock. Dr. Harris was called, but up to the time of writing we are not informed of the extent of the injuries. This is one more addition to the string of serious injuries that have happened by carrying pistols and it seems that it should be a warning for the guidance of others.

Eldorado Mineral Water.

CHEMICAL ANALYSIS. CHEMICAL LABORATORY, ASSAY OFFICE, BULLION ROOM AND OIL ROOMS, 224 Sacramento Street, San Francisco, Nov. 25, 1883. Messrs. Kolbrosch, Merrill and Sitton, Gentlemen. I have submitted to qualitative analysis the sample of Eldorado water handed me for examination and find it to consist of the following substance: Chloride, Ferric, Carbonic Acid, Iron, Alumina, Lime, Magnesia, Soda and organic matter. THOMAS PRICE, Chemist.

Eldorado. Gaily be light, a gallant knight, In sunshine and in shadow, Had journeyed long, singing a song, In search of Eldorado.

Pat he grew old, this knight so bold, And o'er his heart a shadow Fell as he found no spot of ground That looked like Eldorado.

And as his strength failed him at length He met a pilgrim shadow, "Shadow," said he, "where can it be, This spring of Eldorado?"

Quoth the shadow: "For the benefit of suffering humanity I will state that the Eldorado spring is situated three miles west from Roseburg, and a supply of the water is kept constantly on hand and for sale by Dr. S. Hamilton, agent, Roseburg, Oregon."

MR. GEO. W. JONES, Dear Sir: I have been troubled with neuralgic pains in my head and cheek bones for several years, and had given up all hopes of ever getting cured. I went to your medical spring with my son James and got some of the water, and drank it freely and found that it was a mild physic. I used it three times a day for a little more than two months, and the pains left me and I have not felt them since, and that has been 17 months ago.

Roseburg, Jan. 25, 1884. JULIAN JOSEPH, JR. Julian Joseph, of the well known firm of Hoffman and Joseph, of Albany, bears the following testimony: ALBANY, OGN, December 30, 1883.

GEO. W. JONES, Dear Sir: I would here state to you that a year ago I suffered untold agonies on account of piles (hemorrhoids) and went to get relief from doctors there. I met Mr. Apple of Roseburg, who advised me before seeing the doctors to try your Eldorado Mineral Water, and I have used one dozen bottles sent to me by A. E. Champagne. I used one-half dozen bottles, taking right before every meal, one small glass full. I not only was relieved, but I am certainly cured by what I used, and thank God, because I suffered more than I can express. I would advise any one suffering from this disease to try your Mineral Water, and I have no any occasion to use this statement do so. You are at liberty on my account. I think this is the best I can do for you, as I was cured by it. He respectfully yours, JULIAN JOSEPH, JR.

ROSEBURG, Dec. 3, 1883. GEO. W. JONES, Dear Sir: From sheer curiosity I was induced to try Eldorado Water and was not only surprised but highly gratified. I have for many years been a sufferer from dyspepsia and have tried every kind of special known to pharmacy and without result. The country was my experience from the use of your mineral water. Taken according to directions it produced immediate relief and in a short time, if continued, would secure permanent cure. To any who will avoid irritating stimulants, I am satisfied it will prove of valuable comfort and benefit. As a general regulator I found it most excellent. DALLAS, Dec. 2, 1883.

From Mr. W. W. Parsons, last August, I received one bottle of the Jones Eldorado water, from Dr. Hamilton of Roseburg. Used but one or two carthans and can fully recommend it for that dreaded disease, as I have not been troubled with the complaint since. D. T. SEARS.

I have also used the Eldorado spring water from Jones' spring, Douglas county, Oregon, and am fully satisfied with the result, as I was bothered with colic. W. C. BROWN, merchant.
