LOCAL ITEMS.

Severance; the artist. Mr. S. Beckley of Drain, was in Roseburg Wednesday.

John Emmet, senator elect, was in the city the fore part of the week.

John G. O'Sullivan's hotel, near the depot, is rapidly approaching completion.

The carpenters are roofing the new theater building of H. C. Slemm.

The addition to the Cosmopolitan hotel will soon be ready to receive guests.

Webb Parker Esq. presented the Independent office with a beautiful walking stick.

Rev. H. P. Webb visited Portland this week as the representative from Canyonville to the grand lodge of Masons.

There are many new buildings and improvements being made in the city this summer. Roseburg can be said to have a building boom.

James A. McCormack of the United States land office service, was with us again this week. We like him much personally, but ding doing his politics.

Col. Burside, the disbursing officer of the postoffice department, has defaulted to the tune of \$40,000. But that is nothing; it is Uncle Sam's money and the Colonel is loyal to Blaine.

A. Nashburg, late candidate for joint senator for Coos and Curry, was in our city on last Sabbath. He was on his way to attend the meeting of the grand chapter of Masons, and left Monday morning for Portland.

Pon. Binger Hermann, J. C. Fullerton, J. S. Purdom and W. I. Friedlander are now in Portland attending the grand lodge as representatives from the subordinate lodge of Masons at this place.

It has been decided by the Supreme court in the cases of Oliver Sessions and H. Schneider, that the city council of Portland has the right to increase the liquor license and bonds after the laws had been executed.

Paul, son of Judge Mosher, who is farming on the west side of the river from Roseburg, left at this office a bundle of oats, the stalks, which he cut above the ground, being six feet high and have just headed out.

News reach this week and in fact, since the election and the Republican presidential nominations, the people seem to have gone to sleep, to be revived when the Democracy at Chicago make their nominations. Wake up, then.

The Yankee Doodles are indefatigable in their efforts to make the forthcoming celebration a success. We have no doubt it will be more largely attended than any other ever held in Roseburg, and in every respect well conducted.

Why this hull in the matter of the railroad from here to Coos Bay? We have heard nothing of it since Hermann was elected and perhaps never will. Still we are measurably hopeful and will sit, "like patience on a monument, smiling at grief."

Our friend Geo. Taylor, sheriff elect, was in town this week. We made an honorable, straight-forward fight against him and he beat an honorable, good man. We wish Geo. continued happiness and success in the performance of the arduous duties of his office.

The Hook and Ladder company and the Umpqua Hose company were invited by the managers of the fourth of July celebration, to parade in uniform. This invitation was accepted with thanks. Members are expected to be on hand at 8 o'clock sharp.

The ladies of the Presbyterian church are to give a strawberry festival on this (Friday) evening, at Mark's hall. They have made great preparation for the occasion, and we bespeak for all who attend a pleasant time. The purpose is a good one and should be well patronized. Let there be a good attendance.

A dispatch from San Jose, Cal., says: Mrs. Louisa A. Woods was to-day granted a divorce from ex-Gov. George L. Woods, on the ground of abandonment. Custody of the minor child is awarded to Mrs. Woods. The parties were married in Yamhill county, Oregon, in 1852. Abandonment is alleged to have occurred in August, 1882.

Theo. Bernheim, representing Koshland Bros., pioneer wool depot at Portland, was in this city this week. He is an active, energetic business man and a close observer. He thinks Blaine and Logan can be defeated by a good Democratic selection. Meanwhile he is willing to pay the top price for good wool.

The following persons were elected officers of the grand lodge of Free and Accepted Masons of Oregon, at the recent annual meeting in Portland: Grand Master, D. P. Mason of Albany; Deputy Grand Master, J. C. Fullerton of Roseburg; Senior Grand Warden, A. Nashburg of Marshfield; Junior Grand Warden, B. Van Deusen of Astoria; Grand Treasurer, Samuel Hughes of Forest Grove; Grand Secretary, F. J. Babcock of Salem.

We like music—we are sufficient of a savage to be soothed by it, but the opposite thereof is perfectly horrible. The fellow who scrapes the intestines of a belligerent billingsgate Tomcat from the hairs of the tail of a bucking jackass, is a seraphic angel compared with those who keep on toot, tooting on some kind of a horn, morn, noon and night—everlastingly tooting. We can't edit a paper and we will be compelled to suspend, unless there is some law that this inharmonious noise should cease at midnight and not begin before daylight.

The meeting of the Umpqua Hose company last Friday evening was very largely attended. The following officers were elected for the ensuing year: President, L. F. Lane; vice president, R. S. Sheridan; secretary, John Sheridan; treasurer, W. S. Humphrey; financial treasurer, W. N. Moore; foreman, L. A. Sanctuary; first assistant, Charles Halphey; second assistant, John McCormack; Alderson Langenberg was nominated assistant engineer, leaving the Hook and Ladder company to name the chief. The following were appointed delegates to the department: L. A. Sanctuary, A. W. Slimmons and L. C. Wheeler.

What is the use to buy trees from stranger, when you can secure a better character and quality from our fellow-citizen Tim Ford. He guarantees what he sells and he is here and if we find him false we can put our hands on him.

The Moon Inhabited.

At the astronomical observatory of Berlin a discovery has lately been made which, without doubt, will cause the greatest sensation, not only among those not adepts in science, but even among the most learned. Professor Beldmann, in that city, has found, beyond a doubt, that our old friend the moon, is not a mere lantern which kindly furnishes light for the loving youth and gas companies of our planet, but the abode of living intelligent beings, for which he is prepared to furnish proof most convincing.

This question has agitated humanity from time immemorial, and has been the object of the greatest interest. But the opinions have always differed very widely, and no two minds held one and the same. Already in ancient times the belief prevailed that the moon was inhabited with some higher organized, intelligent beings, somewhat resembling man, and in order to communicate with them the early enthusiasts planted rows of trees several miles in length, so as to form the figure of the Pythagorean theorem. The celebrated astronomer, Schroder, in the beginning of the present century, fancied that he could detect places on the surface of the moon which periodically grew lighter and darker, and from this fact he derived the conclusion that the phenomenon was a proof for existing vegetation. During the last few decades, however, the idea of life on the moon has been held up to ridicule, and totally scorned by men of learning. But nevertheless it has been proven to be correct.

By accident Dr. Beldmann found that the observations of the moon gave but very unsatisfactory results, owing to the intensity of the light power of the moon's atmosphere, which is that strong that it effects the correctness of the observations in a very high degree. He then conceived the idea to make the object glass of the refractor less sensitive to the rays of light, and for that purpose he darkened it with the smoke of camphor. It took months of experimenting before he succeeded, to find the right degree of obscurity of the glass, and when finally found he then with the refractor took a very accurate photo of the moon's surface. This he placed in a sun microscope, which gave the picture a diameter of fifty-five and one-half feet. The revelation was most startling. It perfectly overturned all hitherto entertained ideas of the moon's surface. Those level plains which formerly were held to be oceans of water proved to be verdant fields, and what formerly was considered mountain-tops turned out as deserts of sand and oceans of water. Towns and habitations of all kinds were plainly discernible, as well as signs of industry and traffic. The learned professor's study and observations of old Luna will be repeated every full moon when the sky is clear, and we venture to predict that the time is not far off when we shall know more about the men in the moon than as being an agent in English politics.—[Ex.]

Murder at McMinnville.

On Sunday last at 2 o'clock John Wardle, a farmer and shoemaker residing about three miles from McMinnville, was shot and killed by his stepson, G. R. A. Farris, of McMinnville. The facts of the case appear to be these: Wardle is a man about 70 years of age, a cripple, and has been living on unpleasant terms with his wife, Farris' mother, for some time past. He has children of his own by a former wife, and it seems that Farris objected to the manner his mother was treated. Sunday afternoon he went out to Wardle's house to remonstrate with him, but was ordered off the premises. He refused to go away and lingered around for some time. Finally the old man became enraged, and as Farris says, came at him with a shoe knife as if he was determined to make him leave or take his life. Farris then shot him with a pistol he was carrying, the ball going through the breast passing near the heart. Farris then returned to McMinnville and at 4 o'clock was arrested and taken to Lafayette, where he was lodged in jail. Mrs. Wardle, the mother of Farris, became so frightened when the act was committed, at the fear of vengeance from the sons of Wardle upon her, that she ran all the way to McMinnville, arriving there in an exhausted condition at her son's house. Wardle died at 10 o'clock from the effects of the wound. Farris was a young man and has always borne an excellent character. Wardle on the contrary, was of a very quarrelsome disposition and continually in broils with some one.

LUMBER.—I have on hand and offer for sale 200,000 feet fencing lumber and 75,000 feet flooring and rustic of A 1 quality. Cash purchasers will find it to their interest to get quotations before placing orders. Orders for all kinds of lumber solicited and promptly filled. Address R. A. Booth, Yoncalla, Oregon.

FOUND.—In Roseburg on Tuesday morning the 3rd of June, 1884, one large sized revolving pistol. The owner can have the same by calling at this office.

The Election.

The meagre official returns from the various counties show Binger Hermann, the Republican candidate for congress, to be elected by about 1500 majority, and W. W. Thayer, the Democratic candidate for supreme judge, to be elected by about 700 majority. The Republicans will have a small majority on joint ballot in the legislature. The official vote of Douglas county is as follows:

Table with 2 columns: Candidate and Votes. FOR CONGRESS: Binger Hermann 1290, John Myers 1116. JUDGE SUPREME COURT: Hermann's majority 174. L. Flinn 1220, W. W. Thayer 1185. Flinn's majority 35. From Canyonville. Miss Lucy Burnett and Miss Zigler of Roseburg, arrived here on Thursday, on a short visit to the family of Mr. Wm. Carr.

Charley Manning arrived on Wednesday evening from Washington territory, to attend the funeral of his brother, who died on Tuesday morning.

Mrs. Colwell and her daughter, Mrs. Stinger, departed for east of the mountains recently.

Lee Ingraham was elected constable and Charles Beaman justice of the peace for this precinct at the late general election.

Mr. Shultz is manifesting a good deal of interest and making great preparations to supply the town with water, by means of a hydraulic pump.

The firm of Cornelius Cornutt and George Quinne is doing a rushing business in the hardware business.

All who are fond of ginger pop, smoked herring, etc., should not fail to call at the "Barn" store, Main street.

Miss Cal Levins is doing a flourishing business in the dressmaking art, sewing for those who are preparing for the Fourth.

Extensive preparations are being made to fittingly celebrate the coming fourth of July. No means or labor will be spared to make the affair enjoyable to all. Rev. H. P. Webb of Roseburg, will be the orator of the day. Miss Della Jackson will read the declaration of Independence. Dr. C. L. Walk has been chosen president of the day. All who desire to enjoy the national holiday should not fail to come to this town. It is intended to make the coming celebration a complete success in every particular. For amusement and attractions Canyonville will certainly eclipse the world.

Keep your eyes peeled and look out for the broom brigade.

REPUBLICANS claim that Blaine is strong on this coast, but whatever strength he possessed was diminished by his companion, Logan. The former is an adroit politician. The latter boasts that he is an Indian and we have too much respect for the great place he holds to deny it. Blaine blusters and weakens. Logan yells and fights. Logan will show the tomahawk and Blaine the white feather.

Insurance Swindle.

The San Francisco Chronicle of June 6th has an extensive article exposing a certain self-constituted benevolent society, styled the "Pacific Coast Department of the Mutual Self Endowment and Benevolent Association of America." The main office of said concern is located at Longview, Gregg county, Texas. The Chronicle exposes the fact this branch concern has not complied with the law of California and is entirely unreliable there being no funds, bond or deposit to insure the good faith of the concern. If we mistake not this is the same institution which was inaugurated by one of these traveling agents in this place. If so, the individuals who have paid their money to become members of the institution would do well to enquire of the secretary of state and ascertain if the bonds required of foreign corporations are on file here, before paying out any more money for that which can do them no manner of good. According to the Chronicle there is nothing tangible from which benefits may be collected, by those who may be entitled thereto. If this be true and there is no deposit with the secretary of state of the bonds required by our statute, the glib-tongued agent who obtained your money is nothing but a swindler and obtained the money from our citizens by false pretenses, and should be called to account for ill-gotten gains.

Marriage Ceremony.

At the M. E. church on Monday evening Rev. H. P. Webb united in marriage Mr. Wash. Bales and Miss Susie Davis, both of this city. A great deal of interest was manifested in the affair by the friends of the contracting parties, and before the hour announced for the ceremony there was a very large congregation assembled. About nine o'clock the organist hushed the hum of conversation by commencing the "Wedding March," during the rendering of which the bride party walked up the aisle and took their places at the altar, where the ceremony was soon said nothing in a common dress and two happy souls, the bride and groom have received many congratulations and will commence housekeeping at once in a snug little home of their own. The Independent joins with their many friends in wishing them joy and prosperity through a long life.

The Popular Approval.

Of the now famous Syrup of Figs as the most efficacious and agreeable preparation ever offered to the world as a cure for habitual constipation, biliousness, indigestion and kindred ills, has been won by the wise plan pursued by the California Fig Syrup Company. Knowing that any remedy truly beneficial in its effects on the system, and at the same time pleasant to the taste, will meet with a rapid sale, the company, through its agent for Roseburg, S. Hamilton, and Page & Dittmeck of Oakland, gives away sample bottles free of charge. Try it and judge for yourself. Large bottles fifty cents or one dollar.

ESTERLY Twine-Binding Harvester.

Newest and most complete harvester on the market, with all the modern improvements. The binding apparatus is so simplified that seven parts do the complete work of the forty-seven pieces used in all other binders. The sickle rim has pinion gearing and does away with the chain, making it lighter and more durable. The main drive wheel is made of the best hickory, with heavy wrought-iron tire, welded and shrunk on. The raising and lowering apparatus is so arranged that it is raised and lowered on a level, so that grain can be cut within two inches of the ground, or at any height desired. The upper draper is arranged on springs, so as to carry the thinnest or thickest grain without choking. It binds the sheaves in uniform size desired. It is so simplified that it can be worked by a boy. For sale by Bowen Brothers, at their shop on Main street, in Roseburg. Call and examine this machine before purchasing elsewhere.

Tombstones for Sale.

I desire to call the attention of all persons desiring to purchase tombstones that I have a select assortment of dressed marble, which I will sell on reasonable terms. Having disposed of the shop lately occupied by my deceased husband, I have stored the entire stock at the Flood warehouse, near the railroad station, where the same may be examined at any time. Persons desiring to purchase can consult me at my residence, west from the depot, or J. C. Fullerton, at the land office in Roseburg, Oregon. In case of purchase the lettering will be done by William Staiger, of Salem.

Notice.—Rev. E. C. Hamilton of San Diego, Cal., will preach in Roseburg next Sunday, June 15th, in the Presbyterian church, both morning and evening at the usual hours.

THE national Democratic convention meets at Chicago, on July 7th.

Miscellaneous Items.

Portland is soon to have a new evening paper.

Firmers are marketing their spring clip of wool.

There are plenty of new potatoes in the market.

The crop prospects for Douglas county are better than for many years.

The market is well supplied with strawberries, currants, cherries and all kinds of small fruits.

Tilden is out in an open letter over his own signature, absolutely declining to become the candidate for president.

The statement is now going the rounds of the press that the only dark horse who was successful in the Chicago convention was Lynch of Mississippi, the temporary chairman.

There is much speculation as to who will be the Democratic nominee. There are many acceptable candidates who will make a good president if nominated. Only wait until on or about the 9th or 10th of July and you will hear something "drrp" that will frighten the Republican politicians worse than Sammy Tilden's ghost.

The Blaine ratification Saturday night proved a grand fizzle. Speeches of condolence were made by Messrs. Hermann, Carroll, Baum and Jaskulek. Simon Caro was in better business and failed to respond. The audience also failed to go, and the Yankee Doodle band had to endure the punishment of listening to the speeches alone. The orators were likewise punished.

REMEMBER the firemen's election next month, first Monday in July. Let every fireman take interest enough to be present and vote. As heretofore mentioned the Hose company has very graciously left the nomination of chief engineer to the Hook and Ladder company. Mr. Alphonse Langenberg, their nominee for assistant, is well qualified. The department is acting in perfect harmony. The Hose is now working to get a good fire engine.

TREASURER'S NOTICE.—All persons holding county warrants, endorsed prior to Jan. 31, 1884, are hereby notified to present them at the County Treasurer's office, in the court house in Roseburg, on or before April 19, 1884, as interest will cease from that date. W. N. MOORE, County Treasurer.

Administrator's Notice.

In the County Court of the State of Oregon for the County of Douglas. In the matter of the estate of Frederick Steele deceased.

NOTICE IS HEREBY GIVEN THAT THE UNDERSIGNED was by order of the County Court of Douglas County, Oregon, made and entered in said court on the 20th day of May, 1884, duly appointed administrator of the estate of Frederick Steele deceased, and that he has regularly qualified as such administrator. Now therefore all persons having claims against said estate are notified to present the same, duly verified, within six months from the date hereof, to the undersigned at his residence in Gardner, Douglas county, Oregon, and all persons owing said estate are hereby requested to make immediate payment to said administrator.

Eldorado Mineral Water.

CHIEF MEDICAL ANALYSTS: CHEMICAL LABORATORY, ASSAY OFFICE, BULLION HOUSE AND OIL HOUSE, 224 Government Street, San Francisco, Nov. 23, 1883.

Measrs. Hillbrook, Merrill and Silson, Gentlemen. I have submitted to qualitative analysis the sample of Eldorado water handed me for examination and find it to consist of the following substances: Chlorine, Iodine, Carbonic Acid, Iron, Alumina, Lime, Magnesia, Soda and organic matter.

THOMAS PRICE, Eldorado. Gaily bedight, a gallant knight, In sunshine and in shadow, Had journeyed long, singing a song, In search of Eldorado.

But he grew old, this knight so bold, And o'er his heart a shadow Fell as he found no spot of ground That looked like Eldorado.

And as his strength failed him at length He met a pilgrim shadow. "Shadow," said he, "where can it be, This spring of Eldorado?"

Quoth the shadow: "For the benefit of suffering humanity I will state that the Eldorado spring is situated three miles west from Roseburg, and a supply of the water is kept constantly on hand and for sale by Dr. S. Hamilton, agent, Roseburg, Oregon."

Mr. GEO. W. JONES. Dear Sir: I have been troubled with neuralgic pains in my head and cheeks, for several years, and had given up all hopes of ever getting cured. I went to your medical agency with my son James and got some of the water, and drank it freely and found that it was a mild physic. I used it three times a day for a little more than two months, and the pains left me and I have not felt them since, and that has been 11 months ago.

H. COON, SR. Roseburg, Jan. 25, 1884. Julian Joseph, of the well known firm of Hoffman and Joseph, of Albany, bears the following testimony:

ALBANY, OGN., December 30, 1883. GEO. W. JONES. Dear Sir: I would here state to you that a year ago I suffered untold agonies on account of piles (hemorrhoids) and went to Portland to get relief from doctors there. I met Mr. Apple of Roseburg, who advised me before seeing the doctors to try your Eldorado Mineral Water. I did so and had one dozen bottles sent to me by A. E. Chamagne. I used one-half dozen bottles, taking one glass every meal, one small glass full. I not only was relieved, but I am certainly cured by what I used, and thank God for it, because I suffered more than I can express. I would advise any one suffering from this disease to try your Mineral Water. Should you have any occasion to use this statement to your advantage, I am satisfied it will prove of valuable comfort and benefit. As a general rule, I found it most excellent. D. T. SEARS, D. F. LANE.

I have also used the Eldorado spring water from Jones' Spring, Douglas county, Oregon, and am fully satisfied with the result, as it was combined with castor oil.
