LOVE'S KISS.

[L. F. S. B.] Once I refused love's proffered kiss,
Now, alas, I've wiser grown!
The bitterest thought of all is this—
Once I refused love's proffered kiss. To day it would not come amiss,
My life is desolate and lone,
Once I refused love's proffered kiss,
Now, alas, I've wiser grown!

LOVE'S STRANGE DILEMMA.

Fear That Two Lovers May Be Brother and Sister. [Brooklyn Eagle.]

Eighteen years ago a female baby a few months old was found one morning on the steps of a New York residence on East Twenty-third street. It was prettily clothed, and the marking on the garments was "Dubois." She was Boot and Shoe Store
ROSEBURG, OREGON,

adopted, by a singular coincidence, by a woman of the same name, living in Sullivan county. She was educated and given all the advantages of the average child. She was, however, on becoming of a reasoning age told of the circumstances of her early life. She and her the young lady became anxious to know something of her ancestry. She learned that people of her name lived in Brooklyn, and a few months ago Col. McLeer received a letter from her signed "Jennie Dubois," giving the above circum-I use the Best of Leather and Warran all stances, requesting him to find out what he could, if anything, to her advantage, at the same time sending a

The postmaster turned over to him the letter from Jennie Dubois, and

Finally he visited her and it was a clear case of love at first sight, each being equally impressed with the other. JAS. MAHONEY. - - Proprietor The first impressions grew stronger with longer acquaintance, but while progressing in their sincere attachment was almost convincing that they were Time and his scythe remind the be- to supply the waste. of the same flesh and blood. They loved and would marry, but there was the harrowing fear that they might be brother and sister. Thus the case time. stands, and they are making endeavors, very handy to visit during the stopping of the train at futile thus far, to prove their parentage the Calaland Depot. Give me a call. hoping, while each desires to find relatives, that they are in no way related.

Abe Was All Surrounded. [Ben: Perley Poore]

Senator Douglas, who served in the Black Hawk war with President Lincoln, used to tell a good story about "Old Abe's" military exploits. He enlisted in a cavalry company, which started off in fine spirits to engage in the deadly fray. Arriving at a point on the prairies about 200 miles from the FURNITURE. STOCK OF FURNITURE South of Portland. Indian lines, the party bivouacked for the night, picketed their horses and slept on their arms. The method of picketing their horses was that in common use-fastening a huge rope, some eighty feet in length, to a stake firmly planted, and then using smaller lines of considerable length, one end attached to the animal's neck and the other to

the main rope. During the night the sentinel imagined he saw the Indians and immediately discharged his old fusee. The camp was aroused in an instant and each sprang to his saddle. "Old Abe" shot out in the darkness on his charger like lightning, until the ropes "hove This Hotel has been established for a num- taut," when over he went, horse and himself, headlong. Thinking himself caught in an Indian ambush, he gath-FIRST-CLASS SLEEPING ACCOMMODATIONS ered up, mounted, and putting spurs to his horse took the opposite shute, but soon brought up as before, horse and rider tumbling headlong. "Old Abe" got up, thinking he was surrounded, and shouted, "Gentlemen Indians, surrender without a word. I have not

A CURIOUS CLOCK.

The Wonderful Timepiece Which

Was Twelve Years in Building. The Cincinnati Times-Star thus describes a remarkable clock which is now on exhibition in that city: The mechanism is inclosed in a walnut case twelve feet high and five feet wide, and weighs-2,300 pounds. The general design of its numerous figures is to exemplify some of the leading events and characters of American history. It was made by Prof. Wegman at his home, in Frostburg, Md., in his leisure moments, he having been engaged on it for over twelve years.

The base of the clock is about four feet high. At the top is an astronomical dial two feet in diameter, with figures of the planets, etc., showing the movements of the sun and earth, the former circling the dial once each year, and the latter revolving on its axis once every twenty-four hours. The moon's phases, the season, and other familiar astronomical subjects are represented. A large flag is carved in the case on each side of the dial, and above them foster mother removed to Chicago, and are, at the right a cannon and at the left a drum, also carved in bas relief. Below the dials is a scroll bearing the inscription, "E Pluribus Unum," beneath which are two crossed swords and a soldier's cap.

Immediately above the base of the clock is a stage or platform extending the full width of the case. On the extreme ends of the platform are small notice with the request that he should forts, one surmounted by the figure of a sailor and the other by the figure of The postmaster wrote letters to all of a soldier. Between these forts at the back of the platform and resting against a central upright case are ten figures of men, representing ten differfrom a young man of the same name ent nationalities, five being upon one who stated that his early history was side and five upon the other side of an the inquiring young lady. Character in Hand-Shaking.

The different modes of shaking hands will delineate human character better than any other single act can do, and many peculiarities of different persons may be noted in the performance of this social custom. Who would expect to get a handsome donation-or any donation at all-from a man who will give two fingers to be shaken, and keeps the others bent as upon an "itching palm?" The hand coldly held out to be shaken and drawn away again as soon as decently may be, indicates a cold, self-ish character, while the hand which seeks yours cordially, and unwillingly relinquishes its warm clasp, gives token of a warm disposition, and of a

expression most refreshing and acceptthink of the hospital and other cheerful

we shake hands so we feel, so we are.

It is safe to say that within twenty years New Orleans will have a population of 500,000, despite its drawbacks. Northern industry, northern capital and northern enterprise vill center there. heart full of sympathy for humanity. How much that is in the heart can be made to express itself through the agency of the fingers! Who, having once experienced it, has ever forgotten the feeling conveyed the eloquent pressure of the hand from a dying friend when the tongue has ceased to speak? A right hearty grasp of the hand indicates warmth and ardor, while a soft, lax touch, without a grasp, indicates the opposite characteristics. In the grasp of persons with large-hearted, generous minds, there is a "whole-soul" able to kindred spirits; but when a man presents you with a few cold, clammy, lifeless fingers, feeling very much like a dead fish, and expects you to do all the shaking, it will naturally make you

Contrary to this style, there is a habit among a rude class of giving your hand a crushing grasp, which is often most painful. In these cases there may be great kindness and a "strong" affection, but it is as crude as it is hearty. If a grasp is warm, ardent and vigorous, so is the disposition. If it is cool, what the labels were for. At last, in formal and without emotion, so is the sheer desperation, he sent the volumes of a machine capable of hurling twenty dynacharacter. If it is magnetic and animating the disposition is the same. As

THE WAR TURTLE.

A Terrible War Engine Invented by

a Yankee Genius. [Boston Cor. Chicago Tribune.] Up to this date nothing has been written or printed about it, but the inventor, a wellknown builder of locomotives and the originator of many valuable and famous machines, has so far developed his plans that he is willing to speak of them in a general way while he holds back for the present the secret details of manufacture. To fully appreciate the invention one must imagine a huge steel monster, turtle-shaped, impreg-nable to the most forcible missiles of the At Jalapa the coffee interest is abartillery, creeping over the face of the earth and raining from the machine guns within it showers of bullets and dynamite bombs which work terrible havoc among the enemy. The shell of this "war turtle," as the inventor has patios-figs, cranges, da'es and other fruits are here found in perfection-and christened it, is to be made of tool steel the city is accessible by the Mexican customer recently said to me, frankly Central railroad. It is connected with thick, heavy and massive, which no missiles Vera Cruz by a street railroad ninety can penetrate. It will move on broad wheels miles long which passes through one shod with black rubber bands, which can miles long, which passes through one of the most historical parts of Mexico, take a strong hold on the ground, establishing so great a traction that the turtle can climb steep hills, driven by an enormous engine concealed within its body. notably the route of the United States soldiers on the march from Vera Cruz

"Of course," says the inventor, "the weight of the turtle, which must carry ammunition, like?" you ask. It looks more like a coffee plantation than anything else I have seen—don't look hurt! It slopes ling land craft, will be enormous, but I have to the east; the young plants are taken | carefully studied and calculated and find from the nursery at the age of twelve that I can get enough power from the en-months and planted in squares ten feet gine to move with sufficient rapidity and months and planted in squares ten feet dered a new stand-up show case he was spart; at this period they are about clear away whatever obstacles the enemy going to do the same. Some of these two feet high, with an olive-greet leaf, white blossom and green berry. The sharp, knife-like edges of the monster berry is about the size of a cherry and contains two beans. When ripe the berry becomes a brilliant cormine color substantial barricades. Two pilots, protected from sharpshooters and stray balls by heavy plates, will have positions in the steel To protect the plants from the sun head of the creeping battery and guide it by a peculiar mechanical apparatus; and the the husbandman places a banana or guns, pointing in all directions, will be able castor-oil plant near each coffee plant, to discharge 6,000 balls a minute. In the and the shade of the larger fully pro- tail of the turtle, so to speak, is to be placed of age the coffee plant bears a small mite bombs a minute, throwing them so far they explode,

tinues to bear up to the age of fourteen The inventor, who is no Darius Green with or sixteen years. The profit upon each his flying machine, but is known as a clear, healthy plant is from 40 cents to \$1.20, level-headed man, says that of course the turtle with its guns and dynamite will seem impractical to the average engineer and mechanic, but he insists that he can build it and work it successfully whenever the government shall have need of such a terrible weapon and death-dealer. Until that time, probably, the essential details of manufacture will be kept secret from all banana plants or the castor oil plants. save a few intimate scientific friends who are which are placed between the rows of coffee plants to shield them from the interested in the development of the scheme. The inventor, whose name cannot be given sun. They can be shipped by water to at present, was lead to conceive of his fighting turtle after noticing that, while the most important changes in naval warfare had been made during recent years, the notable improvements in land fighting were few and

He had About two minutes later, a negro to be first told what his eye was wanted for, might have been seen picking himself and then followed the long race for it. At cause you have 'left out the dictionary up, wondering, "whar dat mule went, last it was caught. "Mr. Speaker," said the eager Michigan man excitedly, with one eye on the door of the barber-shop, "I move——" But he never got any further, for at that in-The Phonograph to Be Made Useful.

As the senate committee on educa- haps the most remarkable discovery of The Habit of Sunday Stuffing. M. Sizer in Phrenological Journal.] This habit has grown to be common in our large cities, where men live at a distance from their business places, and therefore take are just now deeply interested-Jack- phonograph is now to be put to scien- a light lunch every day during the week. male apparel and only deals with wealthy and highly respectable people. In answer to a card she drives to the residence indicated in a handsome coupe with a liveried driver in the box.

The Dressed in the successively to 1e-with the bank of the dialects of the figure of a man representing a light lunch every day during the week.

And there wasn't a man in the house but was dry as the citizen walked off to but was dry as the citizen walked off Jackson Schultz, and some still tin-foil "negatives" are then to be sent thus eat twice as much on Sunday as they more frank, who say they have heard too much of him. Mr. Schultz is a great reformer. He study at their leisure the spoken languages of untutored sayages.

stant Holman emerged from the barber-shop,

and there was nothing for the Michigan man

to do but to retreat as gracefully as possible.

does not propose to do that. What he does propose to do is to suppress the bell would identify itself by reproducing the ercise on Sunday. Foreign Note. [Texas Siftings.] An American, traveling in Germany, was shown through one of the ducal palaces, After he had sufficiently admired all the art, treasures, etc., he asked the janitor who was showing him through the edifice:

"Is there anything else worth looking at in this old shebang?" The jan tor drew the visitor to the window and in a mysterious whisper, said: "If you will give me a thaler, I'll let you listen at this window, and perhaps this afterrings him up when he don't want to get shaped like fishes, but breathing air noon you can hear his royal up, and makes him uncomfortable in and having warm blood; in other words, nine-pins in the court-yard." noon you can hear his royal highness roll

A Model Physician.

[New York Sun.] Boston Globe: Until the world gets the physician's hand, "I shall never forget along very much nearer the millen- that to you I owe my life," "You exaggeralong very much nearer the millen-nium than it now is, society must be one vast system of vicarious atonement, I hope you will not fail to remember."

A Patent Bosom.

The New York Morning Journal notices a new paper shirt-bosom, which F. R. H.: The world has no pre-vision of its heroes. Nature gives no torn off when soiled. With good care one of these pads will last six weeks.
