## OVER-WORKED BUSINESS MEN.

As a restorer of exhausted nerve force, it has been largely shown during the past thirteen years that the New Vitalizing Treatment dispensed by Drs. Starkey & Palen, 1109 Girard street, Philadelphia, Pa., is the most prompt and efficient agent yet discovered by the medical profession. Its use by over-worked business and professional men would save many hundreds of lives every year, and to give to thousands more the ability to work without the weariness, exhaustion, and peril which now attend them. A pamphlet containing full particulars in regard to the nature and action of this remarkable Treatment will be mailed free. Write for it.

All orders for the Compound Oxygen Home Treatment directed to H. E. Mathews, 606 Montgomery Street, San Francisco, will be filled on the same terms as if sent directly to us in Philadelphia.

It's a queer coincidence—but nearly all defaulters are "fly" fellows.

## AN ARMY EXPERIENCE.

### How an Old Veteran Escaped Annihilation and Lived to Impart a Warning to Others.

(National Tribune of Washington.)

A pleasing occurrence which has just come to our notice in connection with the New York state meeting of the Grand Army of the Republic is so unusual in many respects that we venture to reproduce it for the benefit of our readers.

Captain Alfred Rensom, of New York, while pacing in the lobby of the armory, previous to one of the meetings, suddenly stopped and scanned the face of a gentleman who was in earnest conversation with one of the Grand Army officers. It seemed to him that he had seen that face before, partially obscured by the smoke of battle, and yet this bright and pleasant countenance could not be the same pale, and death-like visage, which he so dimly remembered. But the recollection, like Banquo's ghost, would not "down" at command and haunted him the entire day. On the day following he again saw the same countenance, and ventured to speak to its owner, The instant the two veterans heard each other's voices that instant they recognized and called each other by name. Their faces and forms had changed, but their voices were the same. The man whom Captain Rensom had recognized was Mr. W. K. Sage, of St. Johns, Mich. a veteran of the Twenty-third New York Light Artillery and both members of Burnside's famous expedition to North Carolina. After the first greetings were over, Captain Rensom said:

"It hardly seems possible, Sage, to see you in this condition, for I thought you must have been dead long ago."

"Yes, I do not doubt it, for, if I am not mistaken, when we last met I was occupying a couch in the hospital, a victim of 'Yellow Jack' in its worst form."

"I remember. The war seems to have caused more misery since its close than when it was in progress," replied the Captain. "I meet old comrades frequently who are suffering terribly, not so much from old wounds as from the malarial poisons which ruined their constitutions."

"I think so myself. When the war closed I returned home and at times I would feel well, but every few weeks that confounded 'all-gone' feeling would come upon me again. My nervous system, which was shattered in the service, failed me entirely and produced one of the worst possible cases of nervous dyspepsia. Most of the time I had no appetite; then again I would become ravenously hungry, but the minute I sat down to eat I loathed food. My skin was dry and parched, my flesh loose and flabby. I could hold nothing on my stomach for days at a time, and what little I did eat failed to assimilate. I was easily fatigued; my mind was depressed; I was cross and irritable and many a night my heart would pain me so I could not sleep, and when I did I had horrid dreams and frightful nightmares. Of course, these things came on one by one, each worse than the other. My breath was foul, my tongue was coated, my teeth decayed. I had terrific headaches which would leave my nervous system completely shattered. In fact my existence, since the war, has been a living death, from which I have often prayed for release."

"Couldn't the old surgeon do you any good?"

"I wrote him and he treated me, but like every other doctor, failed. They all said my nerve was gone and without that to build upon I could not get well. When I was at my worst, piles of the severest nature came upon me. Then my liver gave out and without the use of cathartics I could not move my bowels at all. My blood got like a stream of fire and seemed literally to burn me alive."

"Well you might better have died in battle, quick, and without ceremony."

"How many times I have wished I had died the day we captured Newberne."

"And yet you are now the picture of health."

"And the picture is taken from life. I am in perfect condition. My nerve tone is restored; my stomach reinvigorated; my flesh is hard and healthy; in fact I have new blood, new energy and a new lease of life wholly as the result of using Warner's Tippecanoe. This remarkable preparation, which I consider the finest tonic and stomach restorer in the world, has overcome all the evil influences of malaria, all the poison of the army, all traces of dyspepsia, all mal-assimilation of food, and indeed made a new man of me."

The Captain remained silent for awhile evidently musing over his recollections of the past. When he again raised his head he said:

"It would be a godsend if all the veterans who have suffered so intensely and also all others in the land who are enduring so much misery could know of your experience, Sage, and the way by which you have been restored."

And that is why the above conversation is recounted.
