

THE INDEPENDENT

SATURDAY, NOV. 22d, 1884.

THE Salvation Army having become a nuisance in England, the authorities are endeavoring to abate them.

PETITIONS are being extensively circulated to have a new county formed out of a part of Wasco, Umatilla and Grant counties.

THE Democrats have the Illinois legislature on joint ballot by one majority. This legislature will choose a successor to General Logan to represent Illinois in the United States Senate.

The Oakland social club will give a grand Thanksgiving Ball at Brown's Hall in Oakland on the evening of November 27th. A pleasant time is anticipated by the young folks of that vicinity.

MR. AND MRS. WM. H. VANDERBILT will give a reception at their residence on Fifth Avenue the first week in December, for which, it is said, 1,000 cards of invitation will be issued. Millions for display, but not one cent for charity.

THE editor of the Chicago News Letter has fallen heir to \$20,000 annual rental in England. This is equivalent to \$100,000 income per year, and the poor Faber pusher can strut with exceeding pride over the graves of his rich ancestors.

THE Democratic party propose to and will protect the laboring men and women of America by making it unlawful for the moneyed kings of this country to import pauper labor under servile contracts. This is the kind of protection the country needs.

THE Election of Cleveland and Hendricks is a verdict of the American people in favor of tariff reform. Will the Republican Senate dare to defeat the will of the American people thus emphatically pronounced at the ballot box on this important question.

THE Commercial traveler has succeeded the coachman as the hero of elopements. The latest case occurred in Rochester, N. Y., where an heiress fled from her home with a dashing drummer, who has already disposed of one woman by way of the divorce courts. It shows the shrewdness of the drummer that he took a girl who had a fortune in her own right. He will thus be troubled by none of the woes which befell the German coachman who carried off Morosini's daughter.

A CASE which shows the hardships of the law is that of John Ainsworth, who arrived in San Francisco not long since. He did business in Alaska and disputed a bill presented by the Alaska Fur-Seal Company. When the collectors of the company called for the coin he bullied them with a pistol. He was ordered to be taken from Oon-alaska to Sitka for trial and was finally taken to San Francisco. He claims that he was never formally tried. In the effort of the company to punish Ainsworth, they will give him a chance to see a good deal of the scenery of the coast.

CONKLING's friends hope by the aid of the Democrats to retain him to the United States Senate. The Mitchell Republicans of Oregon are fighting for a like result for their favorite leader. May the good Lord deliver us from such a coalition. We condemned the action of Democratic members supporting the prince of Republicanism in the past, and will do so in the future. The principals of Democracy are too pure to be contaminated by such a hybrid political monstrosity as Mitchell has shown himself to be. If the Republican party desire to return Hippie-Mitchell to the United States Senate, all well and good, but never let it be said of the Democracy of Oregon, you did it.

WALKER BLAINE is continually giving his papa away. When down to Washington the other day looking out for a house for the old gent to live in, he stated that his father knew of his defeat the morning after the election, and resumed work on his history. It is possible that in reviewing the success of the steal of 1876 in his "Twenty years in Congress" that it suggested to him the dispatch which he sent that day to the National Republican Committee to "claim everything until a new plan can be formulated." The World, Times, Herald and Evening Post charged that Blaine and the National Republican Committee afterward conspired to claim New York state and are daily repeating the charge that the Tribune was a party to the fraud, and that its so called forgery of returns places it at the mercy of the Grand Jury. The Tribune maintains silence on the question.

NEEDED LEGISLATION.

Since the election is over would it not be well for us to turn our attention to needed reformation in our state laws. The time for the legislature to meet is fast approaching. Their are some grave defects in our State organization that need reforming. There are matters of greater concern to us as a state than the fighting for personal preference for a United States Senator. The last term of legislature was occupied almost exclusively over a squabble to elect Hippie Mitchell, a person who can scarcely claim citizenship in this state. It is barely possible that the time thus occupied prevented much vicious legislation; there were many jobs before the legislature that failed to pass. Certain it is that some needed reforms were defeated for want of time. Certain it is that a Federal Court has decided a much needed and necessary law (The Mortgage Tax Law) unconstitutional on a mere technical quibble which could have been obviated by a little care. And this county lost its taxes on the foreign mortgages recorded in this county by reason of this decision and the lack of backbone in our tax collector. Although the supreme court of the state has held the law valid, it needs some action on the part of the legislature to enable the counties outside of Portland to collect the taxes due to them on these foreign mortgages. A mortgage is an interest in the land it covers and the State, of right, has and ought to have jurisdiction for the purpose of taxation. The same protection and the same privileges are extended to the foreign capitalist who has his money invested in our State that is accorded to the resident citizen and there is no reason why they should not be compelled to pay their just proportion towards supporting the State government. What say the farmers to this. Our members of the legislature should well beware of the Portland sharpers they will defeat legislation on this question if they can do so. It is the money sharks who are to be dreaded they will exempt their capital from taxation if they can do so. These money chargers will bear watching. We need a Savior to give them a second scourging.

TIME FOR AN END OF IT.

The Oregonian of last Saturday says: "Immediately after the election the Oregonian saw that Cleveland had a plurality in New York, and readers will bear in mind that it has had no faith in assertions to the contrary. Newspapers desire to publish facts; they use great diligence and expend much money in getting at facts; and when the Sun, Herald and other journals found that Cleveland had a plurality in New York, and agreed substantially as to the amount of the plurality, there was no reason to doubt. There has been no sense in the action of the Republican Committee. All this time it has only been monkeying and making faces. Two days after the election it was sufficiently clear that Blaine was beaten. As soon as this was apparent, the Oregonian stated plainly that, though it desired another result, it saw no reason to doubt that the election had gone against Blaine; nor could it find anything to support the claim of the Republican Committee to the contrary. No newspaper worth the name is willing to make a fool of itself by trying to maintain a claim in opposition to facts. It was nothing less than insanity to nominate Blaine; it has been nothing less than idiocy to claim his election after his defeat. Let us have some judgment in the management of the Republican party hereafter, keep down the uproarious bumpkins who want "brilliant" and "magnetic" candidates and who cry out against every man of solid reputation and substantial character as an "old fog" or an "iceberg," and see if the exercise of good sense will not once more bring the Republican party to the front as a instrument of good government. Let us hope that there have now been "networks" enough to satisfy "enthusiastic masses" of the party. Now let us have, as formerly, a course of action that will satisfy the sober judgment of the country. No more glitter and tinsel, no more mirage, no more magnetism, no more electrical phenomena, but a policy suited to the people. In this policy heretofore, the Republican party has been invincible. In its return to it lies its only hope of future success. The first thing for it to do is to give up idle hopes of an election which it foolishly threw away in its nominations, get down out of the picture clouds of a vain imagination, and plant itself on the solid ground of truth and common sense. The Blaine episode is over. It was a spree which the roustabouts of the Republican party were determined to have. Had they hurt themselves only, small would be the regret." We have in this community certain individuals who keep up monkeying and making faces and are unwilling to ad-

mit the truth of the election. They allow their party prejudice to blind their mental vision and really make themselves look ridiculous in the eyes of all sensible people. In their blind bigotry they seem to lose sight of the last twenty years and want to fight the battles of the war all over again. True this is not a very numerous class in our community and is chiefly confined to verdant youths who were in their swaddling clothes when the sound of the last gun died away on the plains of Appomattox, or old gray headed sinners whom thousands of miles from the scene of action afforded them perfect security from alflight from the rebel yell they are now want to talk about. These poor fellows are truly to be pitied. If they will only reflect upon the fact that these horrid Democrats are citizens with themselves of our common country whose interests are identical with their own; that the country grew and prospered under their administration and party policy for more than sixty years; that the territory upon which we now live and breathe was procured for us by a Democratic administration; that the principal tenet upon which the party is organized is the greatest good to the greatest number, with security to all and oppression of none. They can banish from their thoughts these horrid boghearts that haunt their walks by day and disturb their nightly slumbers, and they too will rejoice with us all that the country is safe.

CAMPAIGN FUNDS.

Gorman Says They Were Not Supplied by Vanderbilt or Corporations. New York, Nov. 14.—Senator A. P. Gorman, Chairman of the Democratic National Executive Committee, states that Wm. H. Vanderbilt has not made any contribution to the National Democratic Campaign fund. "My reasons for wishing to deny the statement that Vanderbilt contributed \$150,000 or any other sum," says Mr. Gorman, "is that the story is put out with the malicious intent of creating a false impression that Cleveland and Hendricks received aid from that class of contributors and set of influences whose aid, when given at all, was wholly and unreservedly devoted to the service of Mr. Blaine, while the campaign of Cleveland and Hendricks was dependent wholly upon popular support, given for the most part in small sums. Some wealthy Democrats did their fair share, as did also some Independent Republicans of large means, but there was no aid from the large institutions likely to seek from the National Government new favors in the future or a continuance of the valuable privileges already enjoyed by them. Any part in the campaign taken by such bodies and parties was entirely on the side of Blaine and Logan."

New Orleans Exposition.

The World Industrial and Cotton Centennial exposition will open in New Orleans on the 1st day of December, 1884, and continue until May 31st, 1885. This will be the grandest and most magnificent exhibition and display of Manufacturers art and natural products of the world that has ever taken place. The beautiful City Park fronting upon the Mississippi River has been assigned for the use of the exposition. The main building is the largest ever erected and covers 33 acres in space, being three times the space occupied by the great pyramid of Egypt. And a much larger space than that occupied by the tower of Babel. The arrangements are so perfect that complete harmony is expected from the confusions of all tongues. Products and manufactures from every part of the world. Much good will surely result not only to the City of New Orleans and the State of Louisiana but to the United States and the World at large. We have posted up in this office large sized pictorial representations of the main buildings and grounds which we received from the managers of the exposition. Persons desiring to visit or send exhibits to the exposition will do well to call and examine these drawings as they contain full directions.

You Can Have It.

"My dear, what would I give to have your hair!" is often said by middle-aged ladies to young ones. Madam, you may have just such hair. Parker's Hair Balsam will give it to you. It will stop your hair from falling off, restore the original color and make it long, thick, soft and glossy. You need not stand helpless, envying the girls. The Balsam is not oily, not a dye, but is an elegant dressing, and is especially recommended for its cleanliness and purity. For Jane Back, Side on Chest use Shiloh's Porous Plaster. Price 25 cents. For all kinds of groceries and clothing take your cash and go to Hogan's

CIVIL BEND STORE!

V. L. ARRINGTON, DEALER IN Dry Goods, Groceries, etc.

All Kinds of Produce Taken in Exchange. CIVIL BEND, DOUGL. CO., OREGON.

Eldorado Mineral Water.

Eldorado. Gaily bedight, a gallant knight, In sunshine and in shadow, Had journeyed long, singing a song, In search of Eldorado.

But he grew old, this knight so bold, And o'er his heart a shadow Fell as he found no spot of ground; That looked like Eldorado.

And as his strength failed him at length, He met a pilgrim shadow, "Shadow," said he, "where can it be, This spring of Eldorado?"

Quoth the shadow: "For the benefit suffering humanity I will state that the Eldorado spring is situated three miles west from Roseburg, and a supply of the water is kept constantly on hand and for sale by Dr. S. Hamilton, agent, Roseburg, Oregon."

Julian Joseph, of the well known firm of Hoffman and Joseph, of Albany, bears the following testimony:

ALBANY, OGN., December 29, 1885. Geo. W. Jones, Dear Sir: I suffered three years ago a year ago I suffered under an ailment of the eyes (blind) and went to doctors to get relief and was cured by what I used, a medicine you advertised before seeing the doctors. I try your Eldorado Mineral Water. I did so and had one bottle sent to me by A. E. Chapman, Roseburg, who advised me before seeing the doctors. I used one-half ounce bottles, taking right before every meal, one small glass full. I not only was relieved, but my eyes were cured. I feel that I am a thankful debt, because I suffered more than I can express. I would advise any one suffering from the disease to try your Mineral Water, and you have any occasion to use this statement do so. You must liberally on my account. I think this is the best I can do for you, as I was cured by it. Be specially yours, JULIAN JOSEPH.

ROSEBURG, Dec. 3, 1884. GEO. W. JONES: Dear Sir: From sheer curiosity I was induced to try Eldorado Mineral Water, and I was surprised but highly gratified with the result. I have for many years been a sufferer from dropsical and liver troubles, every kind of "water" known to pharmacy and without result. The country was my experience from the use of your mineral water. Taken according to directions it produced immediate relief and in a short time, if not sooner, would secure permanent cure. To any who will avoid irritating stimulants, I can confidently recommend it for its comfort and benefit. As a general regulator I found it most excellent. L. F. LANE.

CHEMICAL ANALYSIS. CHEMICAL LABORATORY, ASSAY OFFICE, BELLBLOOM HOUSE AND ONE BLOCK, 224 BROADWAY STREET, N. B. FIDELITY, Nov. 23, 1885. Messrs. Hamilton, Merrill and Nelson, Gentlemen, I have submitted to my private analysis the sample of Eldorado water handed me for examination and find it to consist of the following substances: Chlorine, Iodine, Carbonic Acid, Iron, Alumina, Lime, Magnesia, Soda and organic matter. THOMAS PRICE.

Mr. Geo. W. Jones Dear Sir: I have been troubled with mercurial poisons in my head and cheeks for several years, and had give up all hopes of ever getting cured. I went to your medical springs with my son James and got some of the water, and drank it freely and found that it was a mild physic. I used it three times a day for a little more than two months, and the pain, but me and I have not felt them since, and that has been 17 months ago. H. COXN, SR. Roseburg, Jan. 25, 1884

DALLAS, Dec. 2, 1885. From Mr. M. W. Parsons, late Agent, I received one bottle of the Jones Eldorado water, from Dr. Hamilton of Roseburg. Used half a bottle for catarrh and can fully recommend it for that dreaded disease, as I have not been troubled with the complaint since. D. T. SEARS.

I have also used the Eldorado spring water from Jones' spring, Douglas county, Oregon, and am fully satisfied with the result, as I was bothered with catarrh. W. C. BROWN, merchant.

COUNTY FAIR OR NO county fair.

We are in receipt of a new and choice lot of spring goods, of all kinds and suitable for all classes, making our stock of
