SOMEWHAT DANGEROUS .-- Our attention has been called to the ledge of rock on the west side of the Umpqua bridge. The rocks are very loose and broken by blasting out the road bed and as the rainy season approaches a great portion of them may fall. As this is a favorits walk for the citizens it looks exceedingly dangerous especially as children are permitted to be near the ledge. A day or so of work would give the ledge a safe slant.

ENTERTAINMENT - An entertainment was given at the Presbyterian church last Sabbath evening by the members of the Sunday School, the proceeds of which are to be used in purchasing papers for the school. The capacious room was filled to overflowing and all were very much pleased with the exercises. At the close Rev. J. R. N. Bell made a few happy remarks and asked for contributions for the purpose state l. Twenty dollars were subscribed, that being the amount required. More would have been subscribed had it been necessary.

Charles Davis was knocked down and care. robbed in the streets of Ashland last Thursday shortly after dark the robbers getting away with something like \$180 in gold coin. Davis was also robbed of a valuable gold watch which the attacking party dropped in their hurry to get away. At last accounts no arrests were made. Our citizens should be on their guard at all times as there are numerous hard cases around that will take desperate chances for a very small amount of money. Be prepared to give them a warm reception.

BIO POTATOFS .- Henry Landers left at this office last Saturday the largest petatoes that we have seen this sesson. Many men past the meridian of life pronounce them the largest they have ever seen. Victory is ours is the echo.

The election was the most important in the history of the government. It was regarded as having an important bearing on the destiny of our country. If Blaine had been elected president there would never have been another and make a 'stake' off the ignorant honest election until the Republican party had been overthrown by revoluspare change invested and my pockets tion. We regard his defeat as one of more importance to the people of the United States than any discovery or invention that has been made for the last five hundred years. It is not simply the triumph of one political party over another but is the triumph of people over "ways that are dark and tricks that are vain." It was a god-send to the Republic that Blain e was mistaken when you were right there send to the Republic that Blaine was nominated by the Republican party, for it was such an open and defiant disregard of honesty and decency that the people could not be waipped into the support of such a man by the senseess cry of danger to the business interests in case of his defeat. The battle has been fought and won and we pronounce it the greatest victory ever achieved by any people, the result of which will be telt and appreciated by the generation for 1000 years to come.
