### A NEW WAY TO PAY OLD DEBTS.

Shakespeare tells how this can be accomplished in one of his immortal plays; but debts to nature must be paid on demand unless days of grace be obtained through the use of Dr. Pierce's "Golden Medical Discovery." It is not a "cure-all," but invaluable for sore throat, bronchitis, asthma, catarrh, consumption, and all diseases of the pulmonary and other organs, caused by scrofula or "bad blood." Scrofulous ulcers, swellings and tumors are cured by its wonderful alterative action. By druggists.

One bushel of ashes represents about two and a half tons of dry wood.

"THE CIVIL WAR," IN THE CENTURY.

A series of graphically illustrated papers on the great battles of the Civil War, written by generals high in command upon both sides (including Generals Grant, Longstreet, McClellan, Beauregard, Hill, Pope, Rosecrans, Admiral Porter, and many others), is begun in the November number of The Century Magazine with an article on
"BULL RUN"
By Gen. G. T. BEAUREGARD.
The aim is to present interesting personal experiences, with full and accurate illustrations. Accompanying papers on "Recollections of a Private" will add value to a series which the conductors of The Century believe to be the most important ever undertaken by them. In the December number is a fine portrait of General Grant, and an article on
FORT DONELSON, by Gen. WALLACE.
This number also contains a capital short story by Mark Twain, and many other features. In an early issue will appear the paper on "SHILOH," by Gen. GRANT.
