EL DORADO

Mineral Water

S. HAMILTON, Agent, Roseburg, Or.

Geo. W. Jones:

DEAR SIR—I have delayed answering your letter in order to send you the enclosed certificate. Mr. Bart

Steele declines to give a testimonial at present for the reason that he has been under the treatment of a number of Physicians and thinks that they might not like it if he were to make the affirmation of the effect your Mineral Water had upon him. I will describe the case to you as near as I can: He had been sick about two years and as a natural result had formed around him just below the ribs. He drank your Mineral Water three or four days and the next evening he was able to get up and move about. He had not been able to get up for some time. I think it is the best remedy I ever knew of. Please send me five gallons of the water. Respectfully, E. A. HANSEE

FOREIGN GOSSIP.

—The courts of France, it is said, consider it a libel to overestimate a lady's age.

—A Nuremberg chemist says that paste made of starch, glycerine and gypsum will retain its plasticity and adhesiveness longer than any other cement.

—The modified Constitution of Holland provides that the crown shall pass to the Princess of the House of Orange who is nearest related to the last King when there is no direct issue.

—At a recent meeting of the supporters of the Home for Lost and Starving Dogs in London it was stated that the number of dogs brought into the Home during the year ending the 31st of December last had been no fewer than 14,772, being eighty-five in excess of the preceding twelvemonth.

—In the Tower of London are twenty-one specimens of shields, with a pistol attachment in the center, the weapon being a breech-loader, and slightly projecting, so that it would hardly be noticed by an enemy until it was discharged. All these shields were carried in former times as "concealed weapons."

—Two Frenchmen, the brothers Forre, have invented a new kind of harp made entirely of wood. Instead of strings the inventors use strips of American fir. The sound is produced, as in the ordinary harp, by the contact of the fingers, but the player wears leather gloves covered with rosins. The tone of the instrument is said to be one of remarkable purity.
