Tired And Languid Women.

How many women there are of whom these words are true: 'they feel languid and tired, hardly able to bear their weight on their feet, the bloom all gone from their cheeks, irritable and cross without meaning to be, nervs all upset, worried the with children, fretted over little things, a burden to themselves, and yet with no acute disease." What a pity it is. But a few bottles of Parker's Tonic will drive all this away, and relive the trobles peculiar to their sex.

A Walking Skeleton.

Mr. E. Springer, of Mechanicsburg, Pa., writes: "I was afflicted with lung fever and abcess on lungs, and reduced to a walking skeleton. Got a free trial bottle of Dr. King,s New Discovery for Consumption, which did me so much good that I bought a dollar bottle. After using three bottles, found myself once more a man, completely restored to health, with a hearty appetite, and a gain in flesh of 48 lbs."

CROWDED.—Over a column and a half of new advertisements in the REVIEW this week, and our reading space is consequently crowded. By a re-arrangement next week we will do better but if our space keeps on being taken by live advertisers we will certainly enlarge. There is much good matter however in the present issue but our local brevities were encroached upon by other necessary matter. Read the "Mound Builders," "Teachers," "Reform Movement, etc., etc.

DIED.—Waite, son of Wm. H. and Cleopatra Bush died of dyphtheria at Round Prairie Douglas Co. Oregon on the morning of the 21st inst. after a short illness of only 5 days. Little Waite was born in Bloomingdale Van Buren Co. Michigan, April 27th 1875 making him at the time of his death aged 10 years 4 months and 24 days. His parents came to Oregon in the Summer of 1882 and have since lived in Round Prairie where they have a large circle of friends and relatives who sympathize with them deeply in this sad bereavement. This child possessed a remarkable sweet disposition, and was beloved by all his playmates.

SCHOOL LITERARY SOCIETY.—To-night the school literary society will convene in the Principal's room at 7:30 P. M. The following is the programme for the evening: Declamations, Claud Canon, Ruth Jones and Addie Briggs; Duet by Miss Eva Oakes and Agnes Hermann; Essays Louis Belfils, Washington Moore, Mary Langenberg, Lizzie parrott, Nettie Bell, Esther Owens and Mary Callahan; Lecture, J. B. Horner; Discussion of the question: "Which was the greater general—Grant or Lee?" Sides arranged as follows: Affirmative—Stonewall Caulfield, Abbie Parrott, B. Douden and Dora Lewis: Negative—Leonidas Wright, Homer Jones, Lizzie Parrott, Lee Bell. The Junior Brass Band will furnish music As the members are all beginners, their meetings will not be public at present; but in the near future they hope to be able to appear in open debate before the citizens of Roseburg.

MUSIC IN THE AIR.—The Junior Band of Roseburg, consists of the following members: Leon Jones, leader, 14 years old, B flat cornet; Geo. Langenberg, 14 years old, B flat cornet; Louis Belfils, 14 years old, B flat cornet; Albert Bitser, 14 years old, first alto; Dan Langenberg, 10 years old, second alto; Roscoe Oaks, 14 years old, tenor; Carl Jones, 12 years old, baritone; Cole Stanton, 11 years old, B bass; Fred Haynes, 14 years old, tenor drum; Schrilller Herman, 14 years old, bass drum; Grant Parrott, 13 years old, cymbals. These young boys are an honor to our town. They can be found nearly every evening in their room practicing their music. They have been only about two months organized, and can now make creditable music. How much better for our citizens to encourage such laudable enterprise among our boys, than to have them running riot about the streets of evenings. Let us all give a sanction to these youngsters that they may feel they are appreciated. Leon Jones will lead to success these embryos, and from what we saw at their practice the other night, they will not falter. Go on boys with the good wishes of the REVIEW.

M. Dean of Cow Creek made the REVIEW office a very pleasant and profitable call as well. He brought us from his young orchard a specimen of his Holland pippin apples. Mrs. Dr. Page of Oakland, has been with us for several days this week, in attendance upon the W. C. T. U. convention. She makes an annual visit to this place to visit some of her old Virginia friends, and they are always glad to see her, and on this occasion Mrs. Page combines business with pleasure. She is the guest of Mrs. J. R. N. Bell.

We have been provoked about enough at the carelessness of the mail agent from Drains to Roseburg on Sept. 23d, carrying important matter to Woodville south, and not reaching here until after we go to press. The authorities at Portland will be called upon to investigate, if this negligence is repeated. The matter will appear next week however.

The childrens Temperance meeting at the Presbyterian Church last Sunday evening was quite interesting. Mrs. S. C. Flint certainly deserves much credit from our citizens for the excellent music she is so often called upon to furnish. We have this much to say, that her renditions are always classical, even the most ordinary hymns rendered by her.

Rev. N. M. Skipworth and family passed through Roseburg last Friday, from Corvallis on their way to the Klamath Agency, whither he has been sent by the M. E. Church, as missionary and teacher to the Indians. They had their camping outfit, and seemed as cheerful as could be. They bade us farewell and went on their way rejoicing with our best wishes for their success.

A lengthy letter from Althouse has been crowded out of this issue. We make the following extract: "We see by the REVIEW and Portland papers that Johnathan Bourne instead of being a millionaire is pleading bankruptcy. He is not therefore such a dangerous man for Josephine county to law with and it all goes to prove that it is simply a suit of annoyance in which Mr. Bourne is being backed by Grant's Pass parties. He should wirhdraw the suit and not be a cat's paw.

Hon. W. R. Smith of Oakland, the man who sat in the Legislature of Missouri 100 days trying to elect the immortal Thos. H Benton to the U. S. Senate in the fifties called this week, and while he has grown some older, yet the fire is still in his eye, and he would no doubt successfully wield the battle-axe in defense of the principles advocated by Benton, to the honors of which he afterward succeeded; and Mr. Smith is yet a safe counselor. It is useless to say that he endorses the cause of the REVIEW.

The REVIEW is growing in favor with the reading public, and for no other reason we believe than that we give them good, healthy, crisp articles editorially, and contributionially. We have secured some ten or twelve of the best writers in the State, including southern Oregon, Portland, Salem and other parts. We shall give scientific scintillations of the latest discourses, points in natural history and in fact most all subjects of any interest to the public. This shall be a clean sheet and one worthy of your patronage. The extra session will not be neglected even.

From this time forward I assume the agency of Douglas County for Gen. Grant's memorial book, vice H. S. Strange. All orders addressed to me at Glendale Douglas County Oregon, will receive prompt attention. Agents wanted. C. W. BROOKS.

From Eagle Point, Jackson County.

Last Saturday we had a Sunday School picnic on Rogue river just below the new bridge in which a number of the Sunday School took a part the speeches were very good and the singing and speeches by the children were excellent.

Last Sunday night we had a Temperance meeting, Rev. M. A. Williams opened it with reading two passages from the book of Proverbs, singing and prayer, after which he led off with one of his characteristic speeches in which he presented the moral and financial phase of the subject advocated prohibition and denounced the license system. A call was then made for Rev. A. C. Howlett, and although the call was unexpected he said that he was always ready to speek on the subject of temperance and Christianity; he presented the mental and physical side of the question and was afterward called upon to give his ideas of the hereditary effects of alcohol, which he did showing clearly and conclusively that the effect is transmitted from parent to child, advocated prohibition and laid the sin of the liquor curse at the door of the men who vote for liquor men or to perpetuate the liquor parties. Geo. Brown one of our merchants was then called to the stand, he spoke of the effect of a mother's influence in his own case and that of his six brothers, and refered to the fact that our geeat men our Websters etc. have drank their liquor, passed away and their children have been lost sight of but our great men, Lincolns, Garfields etc. spring from men of temperate habits. The name of A, L. Haselton was then called, he came foward and read an essay, setting forth some of the intemperate customs that prevail among the fair sex; for instance squeezing a number seven foot into a number two shoe and encircling a number twenty four waist in a no. sixteen corset, etc. We had a very enjoyable time and the exercises closed with the benediction by A. C. Howlett.

I. B. Williams little girls while playing on the upper floor of his new house, which is in the course of construction fell through the unfinished part of the floor, one of them had her arm broken and one tooth knocked out, and the other was caught in a man's arms and consequently saved from being hurt. Teachers, No. 3.

The teacher should have a love for his work. It is a very poor reason for engaging as a teacher, that the young man needs money to carry him along another year in college, and the best chance he can see to earn it is to teach school for a term; or that the young lady finds a necesity to earn a living, and thinks teaching more genteel than housework or mill work. The result is often—yes, generally—disastrous to the school and not creditable to the teacher. If the teacher has no higher incentive to work than the dollars it brings him, he can have no reasonable hope for aught but failure. He should teach because he loves to teach, because it is a pleasure to him to exercise his endowments and acquirements in rousing the dormant energies of his pupils, quickening their perceptions, to watch the unfolding and developing in a human soul of a power it was before unconscious of. He must do this often despite the ignorance, vicious tendencies, and low intelligence of the pupil. Perhaps one day's labor so painfully accomplished, will be sadly marred or wholly destroyed ere the next by the evil influences of parents or associates at home. It may be that the sins of the fathers, visited upon the children, have entailed disease that makes life a burden and continued mental effort impossible to the child, and the teacher is expected to "teach" it when there is not mind enough in its cankered body to respond intelligently to the teacher's questions and suggestions. And it may be that the bright, precocious child, whose promise of genious so interests the teacher in its welfare is surrounded at home by intemperence and licentiousness, so that labor determinedly as he will, the teacher finds that vice is gaining ground upon the child's character faster than he can eradicate it, and so the teacher always finds that he has need of patience that is as near infinite as human attributes can be. If the teacher is hasty, illtempered and violent, the school room is no piace for him.

It has been assumed, as a matter of course, that the teacher has sufficient knowledge of the studies pursued in the schools to tach them properly. If, in addition, he has a wide range of knowledge, so much the better; but scholarship alone never made a good teacher. A certain amount of scholarship is necessary and the more the better, especially whatever is necessary to teach the school should be thorough, A teacher whose elementary education is not thorough is not worth much and no amount of "advanced" learning will make up for the lack. As a rule, however, the best scholars are not the best teachers. Indeed their failure as teachers of the ordinary school is the rule and success the rare exception. The habit of intense and long continued application of the mind to one thihg, necessary for successful scholarship, unfits for teaching where versatility and perception of a great many things in a very short time are essential to success. There are few more pitiful things than the brilliant scholar, whose professor in college has recommended for a teacher par excellence, because he stands first in his class, and whose life has been correct enough to make it a fit subject for a model Sunday school book, making a failure of the first serious work of his life— in the attempt to teach a common school. He never dreams of failure when he is such a scholar, and so exemplary. With all his learning, how can he fail? But the big boys do not appreciate his scholarly accomplishments nor respect his authority. His sensitive soul revolts at the idea of corporal punishment. He trusts to the honor of the scholars to maintain order, and the order they do maintain is disorder. While he is solving an example at the blackboard and giving his whole attention to it, the sagacious small boy sees his opportunity and executes some piece of deviltry with brilliant success. Failing to maintain proper discipline, he loses the respect of his pupils, the parents do not like him because his gentlemanly ways are more refined than their uncouth ones, and they call him stuck up, he don't get the good will of the scholars, and the poor teacher soon learns that while by years of toil he has acquired great stores of knowledge, the possession of all kinds of sense but common sense doesn't fit him to teach a common school. There is no danger of too much learning, but the possession of the learning of Erasmus or Lord Bacon, cannot compensate for the lack of common sense, and for practical use in instructing a common school a thorough knowledge of the spelling book and mental arithmetic is worth more than all the learning of Harvard or Yale would be without it.

Do you say that the paragon teacher here outlined is found only in Utopia. Admitted. But if in practical life we never go beyond our ideals, we cannot aim too high. These finite wings of ours must strive to soar as best they may, if, as we are told, we are one day to reach the Infinite. W.

The Art of Getting Vigorous

is comprised in one very simple piece of advice, improve digestion. No elaborate system of didactics is needed. If you lack vigor, use systematically that pleasant promoter of it, Hostetter's Stomach Bitters. It you take this hint, and do not commit any excesses, there is no reason why you should not gain in strength, appetite and weight. Hosts of whilom invalids are to-day building a foundation for years of vigorous health with this sound and thorough renovator of a dilapidated physique and failing energy Dyspepsia is eradicated by it, and the constitution fortified against disorders to which if it were exposed, it must surely succumb—notably malaria fever, Rheumatism, inactivity of the kidneys and bladder, nervousness, and their various symptoms, disappear when it is used with persistency, not abandoned after a brief and irregular trial.

Cure for Piles.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture, like perspiration, producing a very disagreeable itching, after getting warm, is a common attendant. Blind, Bleeding and Itching Piles yield at once to the application of Dr. Bosanco's Pile remedy, which acts directly upon the parts effected, absorbing the tumors, allaying the intense itching, and effecting a permanent cure. Price 50 cents. Address, The Dr. Bosanco Medicine Co., Piqua, O. Sold by Dr. S. Hamilton.

S. F. Floed is duly authorized to transact all business concerning the ROSEBURG REVIEW. J. R. N. BELL.

STATE FAIR.

The Oregon State Fair opened Monday under most favorable circumstances. It is a fact that thus far we have not had a drop of rain and no indications of rain. A state fair without rain seems almost impossible, but old Sol's rays are a little too warm for comfort and from present indications will continue to shine bright during the entire week. It is not posible to give a report of much of the fair at this writing. The first day was lively, as people began to pour in at an early hour in all kinds of conveyances ready for camping and taking in the fair each day and the trains from both directions were well filled. To give some idea of the success of the first day we mention the fact that 600 season tickets were sold, which with the tickets sold for the day brought to the association $1,850 and that amount added to the money paid on entries make the proceeds about $3,000.

An interesting feature of the fair is the fine stock, this exhibet is larger than for years and is very creditable. Among the finest on the ground we we notice some fine Durham cattle entered by Mr. Richards, and fine merino sheep entered by Hon. D. W. Stearns of Oakland. The pavillion is well filled with almost every variety of grains, grasses, fruit, etc. D. D. Prettyman is on hand with samples of grain and grasses collected from Baker city to Ashland, he has 124 samples of grain and 100 samples of grasses. We notice in this exhibit fine specimens of wheat from the barns of J. R. Dodge and Thos. Brown, excellent exhibits of grain and grasses are also made by A. F. Miller of Multnomrh county, N. W. Randall of Clackamas, and Wilkins and Belshaw of Lane. Some fine dried fruit is also seen from L. C. Hill of Myrtle Creek and corn from R. D. Sanford of Grant's Pass. Mr. Sanford also has on exhibition and in the different stores of the city the finest watermelons we have ever seen, some of which weigh fifty pounds. He has here a carload of such melons which is the seventh car load shipped from four acres. The floral exhibit has but four entries but is very tastefully arranged and attractive.

The races of Monday were, first, trotting race, five eighths of a mile for which there were five entries, and was won by Jim Merritt; second, trotting race, 2;50 class best three in five; there were six entries, the race was won sixth heat by Maud time 2;38.

We notice in attendance from Douglas, Hon. D. S. K. Buick, member of the Board of managers, and Miss Jennie Buick both of whom are busily engaged and are among the most active workers. We also noticed Hon. D. W. Stearns, Hon. E. G. Hursh, and Messrs. Richards, Cannon, Parrot and McCurdy,

The officers and members of the Boardof Directors are active, and work faithfully for the success of the association. The Secretary Hon. J. T. Gregg is capable and deserves credit for the manner in which he performs the duties of his office.

Parties having Real Estate for sale or those wishing to purchase will find it to their interest to call at my office in Marks building, Roseburg Or. J, C. Fullerton.
