James Wright was appointed night watch by the Council of this city at its last meeting. We believe James will do his duty and look to the best interests of the city. John Farquar has just finished constructing the finest sash ever made in Roseburg. It will be appropriately launched Saturday, the juvenile band attending. W. N. Moore went south last Saturday, and for what we are not able to say, positively, but we surmise very strongly. He has returned however, safe and sound. G. C. Mackie traveling for Aiken & Selling boots and shoes was at the McClain House in company with Mr. Jacobs of the Oregon City Woolen mills this week. Sol Abraham has moved up stairs over his store, and now resides near his place of business. The walk was too great we suppose for one of his advancing years. Mrs. R. Breckenridge has a few head stones for children which she will sell cheaper than those ordered from San Francisco. They can be seen at Flood's old ware house. James Aiken gave us a friendly call last Monday. He is sojourning in our city for a few days this week. We were glad to see him for it has been a long time since we saw him. "A handful of earth" is the title of a new song just received from Ign. Fischer Toledo Ohio. The editorial forces of the Plainedealer and REVIEW will favor the friends of Roseburg with it before long. Dr. Herbold D. D. S. has again come to Roseburg to practice his profession. He can do all first class work and does no other kind. He is a graduate from two different Colleges, and therefore has two sheep skins. Call on him. Hon. Henry Rodgers called last Friday on his way home from Ashland, having been in attendance on the Sunday School Convention. His friends at Drain will be glad to see him. He reports that Grants Pass is building up right along. Miss Lillie Page of Oakland, daughter of Dr. E. J. Page, came over Friday on a short visit, and was the guest of the Misses Oora and Xenia Bell until Monday morning. These visits are pleasant to cultivate and encourage among children. From away across the sea and the land of the caravan there comes a letter asking the president of the State Board of Immigration, Chas. H. Dodd, for the rules governing the board and what opportunities Oregon offers the Greeks. It means a great deal when Greece looks up to Oregon. By straightening the railroad between Delta and Roseburg the Central Pacific people claim they can shorten the route about twenty-one miles. One of the main changes is to run it over what is known as the Willow Springs gap, which would bring the road much nearer Jacksonville than it is now.—Sentinel. Mrs. Susan Smith returned from an extended visit to her son Wm. Smith, to her own home near Clark's Branch. She will remain with us indefinitely, while Wm. Smith and wife went to Whateon W. "A Handful of Earth from the Place of my Birth." Sing and Chorus, by Wm. H. Clark. Price 25c. Dedicated to the well-known Fritz Emmett. Sung by him, Murphy & Scanlan, with immense success in their entertainments throughout the country. Mailed on receipt of price, by the publisher, Ign. Fischer, Toledo, O., who will accept our thanks for a copy of this really beautiful song. Rev. T. B. White, minister of the M. E. Church South, who has had his residence for a number of years in this city, and among whose citizens he and his family have formed so many pleasant friendships, departed last Monday for Northern Georgia where he will make his future home. Their many friends in Albany, and throughout the state, regret very much to see them leave, but all earnestly join in wishing them a safe, pleasant trip and success in whatever undertaking they may engage.—Albany Democrat. The Ashland Tidings claims a reputation for fairness and honesty, and we are not prepared to dispute that claim, but we do think that it did transcend the bounds of journalistic propriety, when it did last week take from our columns "How to prepare grapes for winter," without giving due credit therefor. The reason we are so sensitive on this point, you know Mr. Editor is because originality is so scarce an article that when we do "produce," we are anxious about the honor, and more so as a lawyer of this town was the author of that article. Forth "Fine Sheep" we were daily credited.

Ed. REVIEW: Since my last my lip has been hanging down and I have had the "balks," and have been out of sorts in every way; just to think after my making my brain to try to write something for your paper that would be of interest to the hundreds that read the REVIEW and then to have the cream of my article taken off and consigned to the waste basket, and then a little editorial note by way of apology is simply outrageous. But your editors take great liberties and we have to submit. During the last few weeks, I have been over considerable of our valley, and have some notes for the REVIEW. Our valley is filling up very fast with solid substantial men from the East, and our towns along the railroad are building up very fast, and almost every acre of land that will do for a garden spot or a chicken ranch is being taken up and the wonder is how so many families live in our small towns and more especially our new towns for the soil, where they are built is so poor that it will hardly sprout black-eyed peas, and still they appear to live and dress well. Medford, the principal town in the valley, is steadily growing, new buildings are going up every day, and car and wagon loads of lumber are continually arriving; but the people of Medford are not satisfied with wooden shanties, they are putting up a number of substantial brick buildings, beside a number of wooden buildings. W. W. Barber of this place cut his arm with an ax. One M. D. of this place has had a number of cases of diphtheria this fall. Charley Leavelle living near Brownsborough cut his foot very badly a few days ago. Brownsborough has a cooper shop in connection with the blacksmith and wagon shop. Wood layers are getting in earnest in our valley and a large amount of wood is changing hands at from 12 1/2 to 13 cents. Central Point after her long struggle has at last raised her head and shows signs of life and energy; there are several new buildings going up for stores, blacksmith and wagon shops, offices, etc. besides a very large number of private residences, and it is thought that Central Point will in a short time become the leading business town of the County, in fact they are talking of moving the Court House from Jacksonville to that point. But while other points are improving Eagle Point still holds her own. Dr. L. L. Whitney is erecting a very fine residence and is making preparations to plant about 1000 fruit trees this winter, in making to establish a cannery in the near future, and our town is steadily improving, and we expect to have a daily mail route established before long and then it will not take from Saturday mail Tuesday night to get a letter from here to the county seat. Use.

How many women there are of whom those words are true; they feel languid and tired, hardly able to bear their weight on their feet, the bloom all gone from their cheeks, brittle and cross without meaning to be nervous at all, work all the while, fretted over little things, a burden to themselves, and yet with no acute disease. What's ails it? In a few bottles of Parker's Tonic will drive all this away, and relieve the trouble peculiar to their sex. DRINK PARKER'S TONIC. Charley and I have shaken hands lately, and I have agreed to say no more about his growth and mistake. As I walked down Fifth Avenue yesterday, who should I meet but Hon. Henry Rogers, who, like the other professed son, had returned to the fish ponds of Dr. Deane—There that shade maybe a little mist, but it's far away. Then I turned into Broadway, and the first man I met in that crowded thoroughfare was Ostering, and his dog Mike, fully equipped for a deer hunt. This did not startle me, for he frequently kills that way, and he never hurt my feelings by lifting the innocent deer, I did not stop them. Having business at the produce exchange, I crossed over into Montgomery Street, where I met several prominent dealers, Charles D. Dr. K., and others buying cargoes of beef, triticum, etc., on a margin. It then occurred to me to go over into California street and instruct my broker to sell a few shares of Normal School Stock and hastening thither, I was assured by him that the aforesaid stock was steadily rising and bound to go "away" tomorrow, so I ordered him to buy a few more shares instead of selling any. I felt safe in so doing, because of the constant increase of the most desirable class of patronage. I then turned to my private office on Van Ness Ave. and having sent myself for three-quarters of an hour, was suddenly interrupted by a fine looking young man, who rushed into my presence saying: "where is the man who writes for the REVIEW?" I modestly assumed him that I was the man, and he continued: "I want you to tell them that the Commercial College, of Prof. Booth, is the best in Oregon, and that Douglas county boys need not go away from home for a business education." Of course I assured him that I had already done this, and then I proceeded to write. Shortly after this, I started down the street to borrow a postage stamp, and was delighted at meeting my old friends Mr. and Mrs. Coates of Fen Mill, who are visiting their daughters Mrs. Jennie Palmer and Miss Minnie Coates. At the time of this writing, I have just heard of the illness of our Jimmy, which is, I hope, only temporary. Mrs. Jackson was called to Junction City, early in the week, by our old friends, Mr. and Mrs. Geo. Estes, whose little child has been dangerously sick, but is now improving. Will Hendrick is well again and at his school work once more. Dr. Ges. Kuykendall of Pomeroy W. T., has been visiting friends and relatives here this week. CASARILAN.

MURDER!

Just one hundred yards this side of the rock cut beyond the Deer creek trestle has long been the camping grounds of tramps. On Wednesday evening at this camp a tramp named Sullivan was murdered, being shot near the left temple by a pistol in the hands of another tramp. Some of the tribe came to town and told of the dead man but pretending to know nothing of the affair. A coroner's jury was summoned, five tramps arrested and at this writing the individuals have broken silence and are presumably telling the truth. They claim that the murderer has not been arrested and that he is one of a company of three who went south Wednesday night and were seen at Green's station Thursday morning. He will doubtless be captured. The town has been full of tramps for a long time and the REVIEW advises our citizens to beware of them.

MUSIC.

Miss Nettie Ware is ready to receive all those desiring to be instructed on both Piano and Organ. Terms reasonable. Call at residence of W. S. Conser. MARRIED.—Mr. Eugene Hansen and Miss Hattie Gilliland were married at the Presbyterian Church in this city on Wednesday evening last. Our best wishes and those of a host of friends go to the happy couple. MARRIED.—John W. Miller engineer on the O. & C. R. R., familiarly known as "big Jack" was married last Thursday in Eugene to Mrs. Emma Griswold by Dr. Lindsey of Portland. Jack is our old time friend, and we wish him unalloyed bliss as he goes driving along on the voyage of life, and to complete his happiness here, and to enhance his prospects hereafter, he should now subscribe for the REVIEW.

PUBLIC SCHOOL LECTURE.

In compliance with a recent invitation, the Hon. E. B. McElroy Supt Public Instruction, will on Friday evening the 30th, lecture before our public school assembled in Slocum's hall. His highly instructive address will be upon the important subject, "The Literature of Our Public Schools." All friends of education are invited to be present. No charges made, or collections taken. Come out with your children. ADMITTED.—Charles Bennett Wilcox returned from Salem last Friday evening whether he had some days previously to pass the ordeal of an examination before the Supreme Court of Oregon for admission to the bar. We are pleased to say that Mr. Wilcox did pass an honorable examination, and received his papers. Most certainly we rejoice when such steady young men are coming before the public, to become the custodians of our confidence, that we can safely entrust to them our business. Look out for his shingle, and we wish success in abundance to you.

TO CAMPMEETING.

Last Saturday evening as we walked out of the REVIEW office on to the street we were met by an old time friend who said, "are you going to campmeeting down at Cleveland." We responded that we might if an opportunity presented itself. "You may go with me," was the quick response. So we put on our coats and mounted in to the vehicle and sped away toward the setting sun. About 9 o'clock we arrived at our destination and partaking of a hearty repast, some one suggested that if we wanted any dinner next day we must sing a song, I began to think my chances for dinner very slim but with the others to lead we did sing a song and retired to quiet slumber to be awakened with some one rapping on our door and saying, "if you want any breakfast you had better get up. After breakfast we went to the camp-ground and there found Revs. Jones and Sails striving hard to bring sinners to repentance. They were having good success. Several had already professed sanctification. We listened to three able sermons during the day. The singing was par excellence. After the evening service we returned to the house of our host feeling that it was good for us to have been there. We were informed that the meeting would continue over next Sabbath. We predict that a great deal of good will be accomplished, as Revs. Jones and Sails are both able and zealous workers.

FOUND OUT AT LAST.

Oakland, Ogn., Oct. 1st, 1885. EDITOR REVIEW: Sir—We enclose you herewith an article which we hope may prove to be of interest to the good people of Oakland and vicinity. A short time ago a letter containing sundry items published in the Sunday Mercury of Sept. 6th, under the title of "Oakland Oleomargarine," was found near the suburbs of our town. For some time past the people of this place have been annoyed by low and uncalled for items tending to create a disturbance and reduce respectable people to a level with the Mercury reporter. That the people may know the source from which such writing emanates, we will say that on comparison, the writing was found to be the same as that of a pocket-book found early one morning—about three weeks ago—in the lane between the gardens of Messrs. Brown & Morris; also, that on the night previous to the finding of this book, the vegetables growing in the above named garden were almost totally destroyed. The parties engaged in this work were seen running from the garden. For this time we refrain from giving names. Should any such doings again come to our knowledge you shall certainly be exposed. To the Mercury reporter we will say your identity is no longer a question of doubt, and your denials in the past have been false. We have learned of a disgraceful letter of a similar hand-writing to the above mentioned one that if proven to be such will doubtless put the man where he will have no opportunity to write such letters. In conclusion we would advise you, "Geo." to drop the saloons. Quit lounging away your time, arouse your energies and try to be a man, and you may yet be respected. CITIZENS.

Of course I assured him that I had already done this, and then I proceeded to write. Shortly after this, I started down the street to borrow a postage stamp, and was delighted at meeting my old friends Mr. and Mrs. Coates of Fen Mill, who are visiting their daughters Mrs. Jennie Palmer and Miss Minnie Coates. At the time of this writing, I have just heard of the illness of our Jimmy, which is, I hope, only temporary. Mrs. Jackson was called to Junction City, early in the week, by our old friends, Mr. and Mrs. Geo. Estes, whose little child has been dangerously sick, but is now improving. Will Hendrick is well again and at his school work once more. Dr. Ges. Kuykendall of Pomeroy W. T., has been visiting friends and relatives here this week. CASARILAN.

Ed. REVIEW: Since my last my lip has been hanging down and I have had the "balks," and have been out of sorts in every way; just to think after my making my brain to try to write something for your paper that would be of interest to the hundreds that read the REVIEW and then to have the cream of my article taken off and consigned to the waste basket, and then a little editorial note by way of apology is simply outrageous. But your editors take great liberties and we have to submit. During the last few weeks, I have been over considerable of our valley, and have some notes for the REVIEW. Our valley is filling up very fast with solid substantial men from the East, and our towns along the railroad are building up very fast, and almost every acre of land that will do for a garden spot or a chicken ranch is being taken up and the wonder is how so many families live in our small towns and more especially our new towns for the soil, where they are built is so poor that it will hardly sprout black-eyed peas, and still they appear to live and dress well. Medford, the principal town in the valley, is steadily growing, new buildings are going up every day, and car and wagon loads of lumber are continually arriving; but the people of Medford are not satisfied with wooden shanties, they are putting up a number of substantial brick buildings, beside a number of wooden buildings. W. W. Barber of this place cut his arm with an ax. One M. D. of this place has had a number of cases of diphtheria this fall. Charley Leavelle living near Brownsborough cut his foot very badly a few days ago. Brownsborough has a cooper shop in connection with the blacksmith and wagon shop. Wood layers are getting in earnest in our valley and a large amount of wood is changing hands at from 12 1/2 to 13 cents. Central Point after her long struggle has at last raised her head and shows signs of life and energy; there are several new buildings going up for stores, blacksmith and wagon shops, offices, etc. besides a very large number of private residences, and it is thought that Central Point will in a short time become the leading business town of the County, in fact they are talking of moving the Court House from Jacksonville to that point. But while other points are improving Eagle Point still holds her own. Dr. L. L. Whitney is erecting a very fine residence and is making preparations to plant about 1000 fruit trees this winter, in making to establish a cannery in the near future, and our town is steadily improving, and we expect to have a daily mail route established before long and then it will not take from Saturday mail Tuesday night to get a letter from here to the county seat. Use.

How many women there are of whom those words are true; they feel languid and tired, hardly able to bear their weight on their feet, the bloom all gone from their cheeks, brittle and cross without meaning to be nervous at all, work all the while, fretted over little things, a burden to themselves, and yet with no acute disease. What's ails it? In a few bottles of Parker's Tonic will drive all this away, and relieve the trouble peculiar to their sex. DRINK PARKER'S TONIC. Charley and I have shaken hands lately, and I have agreed to say no more about his growth and mistake. As I walked down Fifth Avenue yesterday, who should I meet but Hon. Henry Rogers, who, like the other professed son, had returned to the fish ponds of Dr. Deane—There that shade maybe a little mist, but it's far away. Then I turned into Broadway, and the first man I met in that crowded thoroughfare was Ostering, and his dog Mike, fully equipped for a deer hunt. This did not startle me, for he frequently kills that way, and he never hurt my feelings by lifting the innocent deer, I did not stop them. Having business at the produce exchange, I crossed over into Montgomery Street, where I met several prominent dealers, Charles D. Dr. K., and others buying cargoes of beef, triticum, etc., on a margin. It then occurred to me to go over into California street and instruct my broker to sell a few shares of Normal School Stock and hastening thither, I was assured by him that the aforesaid stock was steadily rising and bound to go "away" tomorrow, so I ordered him to buy a few more shares instead of selling any. I felt safe in so doing, because of the constant increase of the most desirable class of patronage. I then turned to my private office on Van Ness Ave. and having sent myself for three-quarters of an hour, was suddenly interrupted by a fine looking young man, who rushed into my presence saying: "where is the man who writes for the REVIEW?" I modestly assumed him that I was the man, and he continued: "I want you to tell them that the Commercial College, of Prof. Booth, is the best in Oregon, and that Douglas county boys need not go away from home for a business education." Of course I assured him that I had already done this, and then I proceeded to write.
