SILVER va. GOLD.

The silver dollar of our daddies is essentially the money of the poor man it is the measure of the value of his labor and forms the standard of what he is compelled to buy to sustain himself and family. As it is driven out of circulation by artifice and legislation so will squaller, poverty and hard times follow in the path of its retraction. We have for the last eighteen months or two years heard the complaint of hard times, and during this time it has been difficult to get a twenty dollar gold piece changed here in Roseburg, even at our most prosperous business houses. The capitalists of the East understand its purchasing power and the great leveler it is for equalizing the burthens of society when in circulation and in the hands of the great mass of our people.

The Gold Kings of the eastern states readily foresee the lever which a free coinage and circulation of the products of the silver mines of the West will be no uncertain sound. The people prove in equalizing the burthens of labor and capital. They look upon the development of the silver mines of the West as a stumbling block to their concentrated and organized purpose to control the wealth of the entire country, and from their moneyed cen ters dictate the price for labor and compel both soil and muscle to pay tribute to their overloaded coffers.

It is from these sordid motives that goes forth the lamentations and clamor for a single gold standard. The Republican administration, since the passage of the silver bill, under survielance to the moneyed power, and in disregard of the law of Congress, have successful- Oregon. When the next regular ses ly prevented the free circulation of the silver money which they were compelled to coin.

Whilst we heartily endorse the main features of President Cleveland's administration, we are compelled to view with grave apprehension his present attitude on this important question lest he should follow in the wake of his predecessors and under the leadership and dictation of Daniel Manning, Secretary of the Treasure, join the gold bugs of the East in their clamor for the repeal of the Silver Coinage Act, and a return to the single gold stand and inflated with paper rage

The principal argument made use of against the passage of the silver bill was that its coinage would create double standard of values and drive the gold coin out of circulation and force it into foreign countries. So impressed did people become with this fallacions argument that soon after the silver bill in 1876 here on this coast, they gave twenty-one dollars and ten cents of their money for a twenty dollar gold piece; and they have never been able to get this money which they sold at a discount back at par, and have in some instances been compelled to pay a premium for change.

We have recently viewed with alarm both the Republican and Democratic parties of the great state of New York in their State conventions declare against the further coinage of silver

The legislative assemblies of both this state and the state of Nevada at their recent sessions voiced the sentiment of the people of this coast upon this issue, by passing almost unanimously joint resolutions to the effect That our Senators in Congress be instructed to urge upon Congress to enact such laws as will provide for the free and unlimited coinage of silver and restore it to its former relative value with gold." Whenever we attempt to get a twenty dollar gold piece changed, and have to walk all over town and then pay a premium for the accomodation, we can readily appreciate the relative value of the coms and the fallacy of the declaration that the silver dollar is only worth eighty cents.

Let silver be made a legal tender for all dues, debts and demands the same as gold, and a free and unlimited coin- is crowing over the prospect of another age; and every dollar that is minted Republican Senator, showing full well and placed in circulation in the hands | that was the only issue they were inof the people adds that much material | terested in. A \$30,000 Senator may wealth to the country and places with- be worth having but the people think in the people's grasp, freed from the differently. locks and bolts of the moneyed power, means to carry on the industries of the land and develope the resources of our

HOADLY made the mistake in Ohio of striving for the whiskey support. The result was that Democrats voted such good fortune. in large numbers for the Prohibition candidate. Hoadly is a man of force but his mistake cost him a re-election. We shall see what Gov. Moody's mistake in calling an extra session will cost him. It will cost the people many thousands of dollars.

PARTY pressure was too strong for Gov. Moody, The people will elect a Governor with plenty of backtone next THE FALL ELECTIONS.

The stress with which Republican organs attempt to show that the Republican victory (so-called) in Ohio has been a denunciation of President Cleveland is amusing. The fact remains that three years of President Cleveland's administration is still before him. The elections this fall can not be remotely connected with the campaign of 1888. The policy of President Cleveland will not be in the least affected by the results of the approaching election and why a victory in Ohio for the Republicans is more worthy of note than the "Dutch taking Holland" we cannot see.

In New York the matter is in the same light. The result there will not effect affairs in 1888. The Presidential contest is too far off. The people are now settling up old local scores, without any reference to the national administration. The administration is not interfering with state politics. The administration of President Cleveland is moving so harmoniously in the interest of the people that when his course is up for endorsement there will are heart and soul for Cleveland and

THE SENATORSHIP.

The following complimentary remark about our distinguished fellowcitizen the Hon. L. F. Lane we clip from the Klamath "Star." The Governor has called an extra session and the Republicans are in power, but the fact remains that Mr. Lane is the choice of a large number of the citizens of the

"But should the Governor fail to appoint or call an extra session of the egislature J. N. Dolph will occupy the position of double senator from sion of the legislature convenes next September, who the candidates will be or which party will be in the ascendency are questions we are not able to answer. But no matter what party is in power we would like to see the peo ple honestly represented. If democratic no better man than L. F. Lane can be selected as United States senator. The first man in the State to ask for and secure an appropriation for the Cascade locks. Not a citizen of eastern Oregon, but a friend of the entire peo-

A Lack of Backbone

The position of the REVIEW upon the extra session was universally known and the state press is indulging in complimentary remarks to the effect that we opposed long and faithfully. The position of the REVIEW will never be doubtful as we propose to view and review all subjects that come within our notice for the benefit of the people. Since Gov. Moody has committed the blunder that will retire him to private life we still hope and trust that the Legislature reconvened will promptly do its work and adjourn. We are sorry for the Governor's weakness but it takes a very strong man to resist party pressure. The Governor lacked the firm back-bone that stiffens our distinguished President-Grover Cleveland. We are sony for the Governor!

A Mistake.

"Bad spelling pays, sometimes. Josh Billings (H. G. Shaw) accumulated \$100,000 by it. There was little wit or thought in his productions. Bad spelling was their attractive feature."

This comes from the Oregonian, nevertheless we think it is a mistake, for, anyone to say there was neither "wit nor thought" in the productions of H. G. Shaw. It was just that, that made him famous, not simply his bad

It is now universally conceded that the power backing Parnell and mapping out the plan of the future policy of Ireland towards Great Britain, is no less a person than-Leo, Pope of Rome. He is making his influence felt in political circles in all Europe and as a diplomat and politician is as shrewd and farseeing as the old world possesses.

Now that the Governor has called the extra session the Republican press

FREDERICK O. PRINCE, a sterling Democrat and able statesman, a former representative in Congress and ex-Mayor of Boston has been nomination for Governor of Massachusetts. He should be elected but we doubt any
