

ROSEBURG REVIEW

FRIDAY, NOVEMBER 6, 1885.

All persons receiving a sample copy of the Review will consider it an invitation to become a subscriber...

ADDRESS OF WELCOME.—The address of welcome delivered by Miss Dora Lewis last Friday night in Slocum's hall to Supt. McElroy was as follows:—“State Supt. McElroy, the honor of extending to you the greeting of our school this evening has devolved upon me. The duty would indeed be a pleasant one if I were better fitted to perform it, however that may be. I do know that I am fully authorized by all teachers as well as pupils to utter the simple words, “Welcome you.” Standing as you do at the head of the educational system of the state of Oregon we respect you. That you are recognized as earnest and efficient in the performance of your high duties we honor you, and that you are solicitous for the progress, welfare and advancement of all within the periphery of your charge we esteem you. All professions have their vicissitudes and occasions for pride. The soldier enjoys the pomp and circumstance of war and its achievements the physician is happy over the success of his cures, and the lawyer rejoices in the applause of his clients. But all are not subordinate to the educator. A soldier without education is brutal, a physician without knowledge is a quack, and a lawyer without learning is a pettifogger. Without the educator they are nothing. Those who labor in the cause of education deserve the highest meed of praise. At this time I cannot but express our sense of appreciation of the ability, kindness and patience of our teachers. We realize that it is their desire to teach and improve us and to make the acquisition of learning a labor of love and not a task. Words of encouragement to them from you will be well deserved. We predict that in due time you will find in us marked improvement, and now tendering to you our best wishes for your success and happiness I repeat “you are thrice welcome to our school.”

A MINISTER IN TROUBLE.—The Oregonian has this to say of us in last Monday's issue, and to which we plead guilty. We believe the employe did his duty; and hereafter we will try and make our escape out of the “west gate of the temple,” perhaps it will not be so “closely guarded.” “Almost all the persons in Oregon know the Rev. J. R. N. Bell, of Roseburg, now editor and publisher of the Review at that place. He visited the Mechanics' fair recently and there changed to meet his old bachelor friend “Oll” Tompkins in charge of an exhibit of stoves. When he started away “Oll” gave him as a present to his wife a patent pie lifter, which neither thought anything about wrapping up. Shortly after Mr. Bell attempted to pass out at the east gate, which he found strongly guarded by Peter Shulerman, who asked the reverend gentleman to explain how he came by said pie lifter. Mr. Bell stated that an intimate friend and fellow-workman had presented it to him. Peter stated that he was not entirely satisfied, and insisted that Mr. Bell should remain standing until he could call a council of the workmen of the temple. Of course, Mr. Bell quickly established his rights to the lifter, and proved his assertion that he had not lifted it. As he gives an excellent account of the fair in the Review, it is presumed that he had no further trouble in reaching home and that he harbors no malice against a faithful employe.

COURTESIES.—The Adolphian Literary Society in selecting a regular evening for meeting appointed Friday evenings for that purpose, because they thought that evening was not taken up by any other society in Roseburg, and would therefore conflict with the social interests of no one. This forethought on the part of the young people of our community is deserving of marked respect from various directions. Mrs. Clara Foltz deferred her lecture from last Friday night until the next night. The entertainment and union sociable which was to be given to-night has been postponed; also the Yankee Doodle band who had intended to give an entertainment next Friday night, have changed the exercise until another evening. As a token of respect both these entertainments should be greeted with a crowded house.

STATE AGRICULTURAL COLLEGE.—The Board of Regents of the above institution held a meeting on the 28th inst., to elect a successor to Prof. Jos. Emery, who recently resigned the chair of mathematics to take charge of the Klamath Agency. The board elected Prof. T. F. Campbell, A. M., of Eugene City. Prof. Campbell has been eminent in the educational field for many years not only in the Eastern and Southern states, but more especially in Oregon. We consider this a most excellent appointment as Prof. Campbell is a man of great ability and sterling worth.

SENATOR LOST.—Hon. J. M. Siglin coming on the stage from Coos last Tuesday morning, concluded that he would walk a short distance with some fellow passenger, and wait for the stage to overtake them. But the fog obscured the way and they took the wagon road this side of Looking Glass, and were “picked up” by a kind hearted man and brought to Roseburg.

MONUMENT.—The Bronze Monument standing over 11 feet high in the court house yard, which will be put in the spring over the grave of Curly Campbell was brought to this city recently by Jas. A. Cardwell, and erected this week by Henry Bowen and it is a magnificent piece of work.

ON BYRANCE.—The law of the state of Oregon explicitly says that no person who is divorced can marry again for the space of six months, or until the time for an appeal has expired; and any person violating this express statute is liable under the law.

OCTAGON BUREAU.—Herman Anlauf of Josephine county has just finished one of the most beautiful as well as convenient revolving bureaux to hold boots and shoes, for his uncle Louis Langenberg the leading boot and shoe man of this city.

WALK ON YOUR TOES.—Some people coming in church or elsewhere walk on their heels, not knowing that to walk on their toes they would make comparatively no noise create but little disturbance by their entrance or exit. Walk on your toes.

DEBAR.—John W. Williams our efficient department and L. C. Bardsley our boss lumberman took to the woods this week to hunt bears, grizzly bears, not bucks, no, just simply grizzlies, and nothing more!

THANKS.—Mr. and Mrs. Courtney tender thanks to Rev. Mr. Smick for his church in which their marriage ceremony was performed last Sunday evening.

LOCAL BREVITIES.

“Above the Clouds.” Oregon mist this week. Try the Eldorado mineral water. Moore's is the leading Restaurant. Dumpey whipped Campbell, and we don't care. Leonard Stinger has moved to Whatcom W. T. H. C. White from Bonanza was in town this week.

An Eastern Star Chapter will be formed in Roseburg soon. T. Ford's fruit tree: are to name and don't you forget it. W. B. Clarke's little girl has been quite sick with the typhoid fever.

Timothy Ford sells the best trees, fruit and ornamental to be found. Gen. G. B. McClellan, the brave, the wise, the patriot, is dead. Dr. Raymond will locate in Oakland soon, so we are reliably informed.

The Medford Monitor comes to us an 8 page paper. Good improvement. Read our variety column, it will make you smile, and furnish information.

Ohio is Republican with a majority of three on joint ballot in the Legislature. Mrs. Dr. Hoover is still in the lead as usual in her line of first class millinery goods.

Dr. J. B. Wilkinson—will be at the McClellan House, all day Saturday Nov. 7th. One man told us this week that he read last week's REVIEW advertisements and all.

Many thanks by the REVIEW office attaches to B. F. Ramp for those delicious apples. The Horse Shoer Oyster Restaurant is O. K. we tried some, not horse shoes but oysters.

Times are improving. We saw a man the other day turning up a fine lot of shavings. Rev. E. A. McAllister preached to a good audience at the Court house Wednesday evening.

Read the advertisement by the County Court in reference to bids for keeping the county poor. Charles Arrington, of Civil Bend, is dangerously ill with typhoid fever. His recovery is doubtful.

At Moore's Restaurant can be had for 25 cents a good dinner as you pay 50 cents for in some places. James Moore ex-night watchman, now occupies his leisure time in the clock and watch tinkering business.

The McClellan House is the best house on the road, and its continual patronage proves the assertion true. The prohibition vote in Ohio increased from a little of 8000 votes to something over 28000 votes in two years.

Gov. Chadwick and wife returned from the South last Thursday evening, and report having had a good time. Our Junior Band met Prof. McElroy at the Depot last Thursday evening and gave him a fine musical recital.

Owing to the recent change in the atmosphere there is considerable sickness, but nothing of a serious character. T. S. Mills will go South to the mines in a few days. He has been visiting his son-in-law J. K. Raymond our J. P.

Hon. L. F. Lane introduced Mrs. Foltz to her audience last Saturday and Sunday evenings in most elegant style. Next Monday week Nov. 16th the Drama “Above the Cloud” will be produced in Slocum's Hall by local talent.

A. J. Rockeford of Ashland was on the train going South last Friday evening, having been to Portland on business. The Grand Jury at Blackfoot Idaho, has found twenty-nine indictments against Mormons for unlawful cohabitation.

“Above the Clouds” is being rehearsed almost daily. You may expect a treat in the recitation of this popular drama. Hon. W. F. Owens went below this week, taking in Corvallis, Portland, Salem, and other points of lesser dimensions.

Mr. David West, our newly appointed Treasurer, will immediately move from his home in Cleveland to this place. The Hubbard Creek saw mill is leading all in the lumber line. The proprietors are men whom you can afford to deal with.

The West Side has failed to connect. What is the matter Bro. Parry? We cannot afford to do without your news sheet. Ward & Co. at the old Horse shoe store can be found giving their customers oysters, coffee, cake and pies. A fine place to lunch.

Dr. Schreible in Abraham's brick, can be found at all office hours to alleviate pain, and add beauty by his excellent dental work. The Eldorado mineral water at S. Hamilton's drug store cures the most obstinate cases of catarrh, rheumatism and all blood maladies.

The firm of Shultz Bros. of the South Umpqua Mills have been closed since the 31st day of September 1885. L. A. Shultz sole proprietor. The entertainment and union sociable to be held to-night is postponed for the present, but due notice will be given when the fun will commence.

Prof. Benson is a carpenter of no mean ability, as we judge by the new sidewalk he is building with his own hands in front of his residence. Thomas L. Gannon is certainly one of the very best workmen among us. He never turns out a job until it is first-class, no matter how trivial.

Bring your job work to the REVIEW office, we can print anything from the tiniest card to the largest poster in first-class style, and at living rates. Prof. McElroy State Supt. was invited by the public school of Roseburg to address them last Friday night, and they made no mistake by so doing.

Hyman Wollenburg, Canyonville's leading merchant and his family are in Roseburg visiting for a few days, and are guests of Mr. and Mrs. Friedlander. Medford held last Saturday night a very large and determined Anti-Chinese meeting. From the Monitor we learn that the “Chinese mus” got away from Medford at last.

Prof. Rigler at present principal of the Walla Walla public schools, formerly Supt. of Polk county schools, is Prof. Raly's successor of the Portland high school.

Sple Rice, our old school-mate, is in Roseburg manipulating the lightning for J. W. Williams at the depot for a few days. Sple used to live here, and he is acquainted with the girls.

Trial proves that honesty is the best policy in medicine as well as other things. Ayer's Sarsaparilla is a genuine preparation, an unequalled blood purifier, decidedly superior to all others.

Hon. Binger Herman's family is preparing to leave with him for Washington city soon. We regret this very much, for the members of his family have become indispensable factors in our Roseburg society. But if you will, go, boyvage. Hon. John Roberts of Coos county called on us Monday. He goes to Eugene hence to Salem next Monday to attend the special session of the Legislature of which he is an honored member.

R. C. Hunter M. D., who is now located at Canyonville Oregon, comes well recommended having graduated at Glasgow University Scotland, and is an ex-Sergeon of the British Army. Success to him. Boys should not roll rocks down the hill on the other side of the river, because it is very dangerous. A boy lately came near losing his life by one of those rollers let loose above by some careless boys.

An erudite gentleman not long since pronounced the word “conversant” with the accent on the last syllable, when it should have been on the first as we thought at the time. Better look a “leelle out.” Now that McClellan is dead, we suppose Mr. Chauncey Dewey, or some body else, will treat the American public to a few more revelations on conspiracies, which no one else ever heard anything about.

S. F. Flood left us last Tuesday morning for Salem to engage in the new enterprise of the “Prohibition Star.” The REVIEW and its archives certainly deplore your departure, but wish you abundant success. John Aiken, A. O. Rose, V. Wheeler and Wm. Howard, brought in two big bucks Oct. 31st, which was the last day of grace. They will kill only once hereafter. We feel thankful for that mess of venison they sent us.

Mollie Flood came to our town last Saturday to assist the winter with her parents. We suggest modestly, that as she is a first class pianist her talent ought to be brought into requisition at our literary entertainments this winter. W. G. Woodward and wife went to Grant's Pass last Friday to visit their son James, and on business as well. Mr. Woodward is building a fine harness and saddle shop at that place. He will succeed, now mark what we tell you.

The address of welcome by Miss Dora Lewis found in this issue shows what our young ladies of Roseburg are capable of doing when they try. This brief address is of a most excellent one. Miss Lewis deserves much credit for this effort.

David West of Cleveland was appointed by the county court last Saturday to fill out the unexpired term of County Treasurer vice W. N. Moore resigned. This is a first class appointment and all seem well pleased with the selection made.

Our Oakland correspondent corrects us rather sharply in last week's issue on our printers error. Well now we will have to stand it, for we cannot prove to the contrary unless we had a witness, of which we are minus. Hit us again.

T. J. Critzer went on a business trip to Kerbyville last Friday evening on the south bound train, and Hon. J. C. Fullerton followed on Saturday. There must be a rich lead in that section to attract those gentlemen so far from home unprotected.

Hundreds of letters from those using Ayer's Hair Vigor attest its value as a restorer of gray hair to its natural color. As a stimulant and tonic, preventing and curing baldness, and cleansing the scalp, its use cannot be too strongly recommended.

The lectures delivered by Mrs. Clara Foltz at the Court House on last Saturday and Sunday evenings were well received. The deserved tributes that she paid to the life and character of Col. E. D. Baker was repeatedly answered with applause, and the address on “Mother and Son” was equally meritorious.

In favorable seasons California counts its honey-crop by the thousand tons, and beekeepers find a good profit when extracted honey commands no more than four or five cents per pound, and comb-honey seven or eight cents. This year, however, the honey yield will be light—flowers are few and not very scant.

Our worthy correspondent in Drain did not write or suggest a word in reference to Mr. Perkins the depot agent. It was from another source entirely that we learned of Mr. Perkins' accusations about the complicity of the Democratic party with the Prohibitionists. The Democrats seem to be doing very well in America at present anyway.

ROSEBURG, Ogn., Nov. 3d, 1885.—By a late ruling of the Commissioner of the General Land Office at Washington the odd numbered sections within the indemnity—between the twenty and thirty mile limits are now subject to settlement under the pre-emption and homestead laws.

It is a burning shame in a civilized community to have courtneys and their followers to flout their unblushing audacity on the streets and in public assemblies, before the refined and intelligent. In all well regulated municipalities this element is forbidden an intrusion even in all respectable public gatherings. Suppose the City Council speak in this matter.

New facilities are being added to the REVIEW office every few days. This week we received a new proof roller, a card and paper cutter, and have just completed a remodeling and overhauling of our job press by a first-class workman. Now we can do as fine job work as you would wish to see. We have also added this week rolls of new breviter type for our local press.

We are pleased to notice the manner in which the patrons are co-operating with the school authorities in securing remarkably regular attendance at school. The street corner is the poorest place in Douglas county at which children may obtain a proper education, and parents are taken time by the forelock in seeing that their children do not loiter on the way to or from school.

We perceived a handsome young lady going down Main Street the other day, who unconsciously came in contact with some obstruction on the sidewalk, (we presume that Peck's bad boy placed it there) and for a moment disaster appeared to be eminent. When that young lady picked herself up, it was plain to see that if that boy had been within reaching distance, he would undoubtedly, have been a candidate for a crematory.

To whom it may concern. We, the undersigned take great pleasure in saying that we have received a beautiful White Bronze Monument from Detroit, Michigan, through the agency of J. A. Cardwell, and have placed it for the present in the court yard in Roseburg, where it can be seen and will show for itself. We consider it the most enduring, highly finished and the best means of preserving family records of any known material. We are well pleased with our monument.

D. C. McClellan and wife.

OAKLAND ITEMS.

Weather stormy. George Dimmick was in town this week. Miss Lillie Banard has gone home for the winter. The Bonanza meat market has closed for repairs. The bridge at Old Town is expected to be finished Thursday.

Miss Allie Mahoney is confined to the house with a serious sore throat. H. A. Johnson of Scio was in town Tuesday on business of the Lewis Jones estate. Partridge the Photographer did a good business at this place, owing to the business.

Mr. Cathcart agent for O. & C. R. R. at Cottage Grove spent Tuesday in our town. Dr. Page was called to attend to one of Jack Howards children down on the river Tuesday afternoon.

A telegraph party under Mr. Crouch are now at this place placing the lines in first class order for the winter. The Ladies Fair held here Saturday night proved a grand success and much praise is due the ladies in charge, the music, sapper and declamations were nice, receipts about \$50.

The lecture delivered by Clara Foltz was very well rendered. I think if she follows in the fall, it would attract a much larger audience for a woman in men's clothing is entirely out of the question, I for one think the place for a woman is attending the household duties and not addressing the public.

AN OREGON BOUQUET IN NOVEMBER.—The following is from Moolaly's Oregonian, and is speaking of Portland: “To look at the gardens around town one would hardly suppose that the melancholy days have come, the saddest of the year.” The gorgeous hues of the foliage still clinging to the trees and shrubs and the brilliant colors of many flowers now blooming show that it was not of Oregon that Washington Irving wrote: “October in her scarlet and her orange liveries clad had passed away and brown November came in.” November is here and the rains have come in earnest, but the scarlet and orange is still vivid and the gardens are gay with bright-hued flowers. There are plenty of roses, dahlias are at their best, petunias are a mass of varied colors, chrysanthemums in gold, white, scarlet and variegated colors and in masses of purple, nasturtiums and morning glories adorn lattices with gay blossoms, geraniums are in full bloom with the marigolds, pansies, heliotropes, tuberoses, mignonette and many other favorites lead the air with perfume. The white waxes and the red pyracantha berries form pleasing contrast with the glossy green leaves around them, and taken all in all, our gardens present a spectacle of beauty that would astonish the dwellers of eastern states in this latitude at this season.

The students of the Normal School have reorganized their literary society, with J. C. Lane for President, Union Boots for vice-President, and Miss Ida Clark for Secretary. R. B. Lane and Miss Olive Morningstar are the Committee on Programme. The society is composed of some of the most intelligent and progressive young men and women to be found anywhere, and excellent work is being done.

The Stryker block, now belonging to Dr. DeVore, of Oakland, is being refitted, plastered and entirely renovated; for what purpose your correspondent cannot say. Five new students entered the Normal School this week—all from a considerable distance. I understand that five or six students are expected from south of Roseburg next week. The present condition and future prospects of this institution of learning are very flattering. Our students and citizens are, at the time of this writing, looking forward with eager anticipations to Bro. Bell's lecture of Friday evening. I will tell you all about it next week.

J. A. Sterling was on Monday for the east. It is not known how long he will remain. We wish him a pleasant visit and a safe return. Have you found out that it rains in Oregon? CASARILAN.

Civil Bend Items. A school has been started at Dillard Station under the successful management of Miss Tate, and although on a small scale, is a grand success. The facts in reference to the Civil Bend school are not so interesting.

Farmers, as a general rule, are making preparations for their winter's work. They seem not to be discouraged by partial failure of crop last year, and present low prices. It is not always safe to judge the future by the past.

Rev. W. M. Hons ton and Woley of Eugene City have been attending the meeting of the Presbytery of the Cumberland Presbyterian Church in this community. They have held several interesting meetings which have been well attended.

Although we are affected only in part by the busy whirl of events in the social and political world around us, we are, nevertheless, not without interest in passing issues; in this, as in every community in which moral worth and true character are ruling elements. Your efforts in favor of temperance reform receive a hearty and almost unanimous support. If a certain class of men hold nothing sacred either living or dead, let them learn by dear experience if by no other means to respect the dead.
