LOST.—An umbrella, a large one 16 ribs, it was taken from the hall last Monday night. Return to the REVIEW office and you will be suitably rewarded.

NEW ARRANGEMENTS.—We have made arrangemnts for 1886 to give the New York World and the REVIEW to all subscribers the same as for 1885. Three dollars in advance secure both papers for one year. 1886 will be a great political year in this country.

CLARA FOLTZ.—Clara Foltz, every paper in Oregon nearly has Clara Foltz in its columns. We do not wish to cast a reflection on the fair name of Col. Baker, but in some of her panegyric flights, why does she not come down long enough to tell the whole truth, and give us the particulars about his election to the United States Senate from Oregon.

THE DRAMA.—"Above the Clouds;" was played well last Monday evening. We might speak of all singly, but we thiuk such an invidious distinction would be out of place when all did finely. The Y. D. Band is an energetic company, and they generally make things go. The songs by monseurs, Walsh and Clements as usual, were good. The Ochestra gave good satisfaction.

A RAILROAD.—A railroad to Coos Bay and Port Orford, a woolen factory, a tannery, and a few other factories here would be a help to this country. Then farmers would get sale at home for their products and a wave of prosperity would pass along the coast of this Southern Oregon country. Then farmers would see that they ought to make butter, for you can not find enough of the article in this place for sale to grease one side of your bread, and it is worth from 35 to 40 cents per pound. Now what?

RAIL ROAD WRECK.—The north bound freight train, ran into a tree that had been blown down three miles north of West Fork, and ditched the engine tender and two box cars. No one hurt. The south bound pasenger train went that far Tuesday evening, and met the north bound train, and transfered the passengers and baggage, and this delayed the train some three hours. The embryonic cyclone that passed through our section Thursday last was the cause of all this disaster.

CONDOLENCE.—Charles M. Arrington, died in Looking Glass, last Tuesday week at 2 o'clock P. M., of bilious remittent fever, Aged 22 years. The son of James M. and Catherine Ann Arrington, was buried the 12th at the Civil Bend cemetery. This was a noble yonng man of a noble family. Many are the sympathizers with the family in this their sad bereavement. Charles was respected by all, and highly honored for his integrity in the community in which he grew up. "Surely in the midst of of life we are in death."

THE REFORM CLUB.—The hall was crowded as usual last Tuesday night to hear and see what was going on. The Hon. W. F. Owens, being absent from town, Prof. J. B. Horner delivered the adress. The Program was large but owing to the absence of several of the interested parties some of the dialogues had to be postponed until next meeting and every body is invited to come and enjoy themselves. Come one come all and have a good time, but don't forget to sign the pledge. Hon. W. F. Owens will address the Club next Tuesday evening.

THE VETERANS.—We publish with pleasure the proceedings of the Indian Veterans of the North Pacific Coast residing in this County had at the Court House last Friday. We know of no class of people more entitled to our honor and respect than those who experienced the trials, dangers and hardships incident to the early settlement of the Pacific Coast. To the earlier setlers we are indebted to a favorable solution of the Oregon question with Great Britain and for a number of years the trip across the plains from the Platte to the Pacific was environed with dangers and accompanied with suffering and privations. For years here every hour was one of anxiety and apprehension. The Indians were cunning treacherous and revengeful and to circumvent them required courage, judgement and patience. The General Government has not yet fully paid these old veterans and those who are now enjoying the fruits of their labors and sacrifices owe a debt of lasting gratitude. We wish onr good friends success, and will do all in our power to make their meeting on the 8th. of January next a happy one.

AT REST.—At 8:45 o'clock this morning Wm. Hoffman Esq., one of Southren Oregon's most honored pioneers departed this life after a short illness, aged 84 years, 2 months and 7 days. Mr. Hoffman has been in failing health for two years past and had retired from business about a year since although he continued his active duties in the Church and Sabbath school until attacked with his last fatal illness. He was born in the city of Baltimore, Maryland, Sept. 7th. 1801, where he lived until 1814 and where he received both an English and German education, his parents having been of German descent. He leaves a wife and six daughters, five of whom are married, and a host of friends to mourn his loss. He was attended in his last hours by his family every member being present, and we extend to them our sincere sympathy in their hour of bereavement, trusting that the magnitude of their loss may be the measure of their consolation, for he leaves behind him the good will of the entire community and not a heart but is saddened by the blow of the merciless reaper who has this day garnered a full ripe sheaf, and left us only the memory of a pure upright life, and we feel that the world is the better for his living in it, though the home alter is desolate and the voice of the devout christian forever silent in the dreamless sleep of death. Rest his soul in peace.—Oregon Sentinel. Yes we knew him well, and a better friend we never had in Southren Oregon. He was a model patriarch. Heaven is richer, earth is poorer. We send condolence to the ereaved.

Drain, Nov. 13 1885.
Casaraltan's column was sent by Wednesday's mail. It does not appear. Why is this thusly? CASARALTAN.

We simply answer we did not get it until Friday morning, and was as much disappointed as "Casaraltan" could possibly have been. This is not the first time this thing has happened. You will hear something drop some of these rainy days.

Two gentlemen made a bet yesterday, one wagering that $160,000 would weigh over 1000 pounds. They went to the First National bank and had $1000 weighed. It tipped the beam at 4.48 pounds. At that rate the sum named in the wager would weigh 716.8 pounds. Those who have such an amount to carry around can now compute the strength necessary for their pockets to have in order to successfully stand the strain.—Portland Standard.

We were made to call up reminisences of the past this week, when we received a letter from Dr. C. H. Merrick, now located at Seattle W. T. The Doctor is Prof. of Materia Medica and Therapeutics, in the medical Department of the university of Washington. He says incidentally, that after all, there will be no serious difficulty about the Chinese. He is a strong advocate of the decimal system to be used in pharmacy. He sends us a pamphlet, but it is too profound for our education. We have handed it over to the craft.

He most emphatically denies that he has changed his headquarters but wants it distinctly understood that his headquarters are firmly established and will continue during the holidays as announced in last week's issue of this paper at J. Jasqulek's Bargain store unqualified reports notwithstanding.

Indian War Veterans.

The Indian War Veterans of the North Pacific Coast residing in Douglas County Oregon, met at the Court House in Roseburg Friday November 13th. 1885 at 2 P. M.

L. F. Mosher Chairman Pro Tem presiding

W. G. Hill Secretary Pro Tem acting.

The following Company Officers were elected.

James D. Burnett	Captain
I. B. Nichols	1st. Lieutenant
W. G. Hill	2nd. Lieutenant
B. Brockway	Orderly Sergeant.

Hon. Binger Hermann was unanimously elected an honorary member.

It was ordered that a full meeting of the Company and all entitled to become members be held at the Court House on the 8th. of January 1886 at 10 o'clock A. M. at which time proceedings of former meetings will be subject to rescision and revision.

W. G. Hill, Secretary Pro Tem
L. F. Mosher, Chairman Pro Tem.

ATTENTION

Members of the Company and those entitled to become members and so desiring are required to attend at time and place above mentioned.

By order Commanding Officer
B. Brockway
Orderly Sergeant.

The Unprotected Public.

When people go to an entertainment, and pay their money therefor, they expect those having charge to keep such order as those attending will be able to hear. There is no use to depend upon marshals, secret police, or sheriffs, not that they are inefficient, but in all public assemblies under the statute any person having charge, is clothed with authority to keep order. Such dissatisfaction has been expressed by persons attending that beautiful play, "Above the Clouds," last Monday night at the Hall, that these lines are called forth. The Y. D. Band gave us a good play, but they are responsible for the inexcusable bad conduct of the hoodlum element. One concentrated, double and twisted American hoodlum can mar a whole evenings enjoyment. Hereafter if those in charge of public meetings can not restrain the unnecessary noise, and annoying confusion, which prevents people from getting the value of their money, let the money be returned, or else we must consider that money has been obtained under false pretenses. We have heard an almost universal complaint this week about the noise interfering with a proper appreciation of the drama last Monday evening. Sentence after sentence was lost, by the audience not being able to hear. Of course no well bred boy or girl, man or woman will misbehave on such occasions. And since the present generation cannot afford to wait for the "evolution" of a better race, or the "survival of the fittest," (and the "fittest" might possibly be the element that is giving the people now on the stage of action so much trouble,) a higher intelligence should at once restrain, and correct these "tendencies," or faults. More anon if necessary.

DRAIN ITEMS.

Sol says that Bro. Bell can say more good things, full of practical sense, in a brief lecture than any other man in Doulas County. All of the students of the Normal School concur, and Ratliff goes on to state that the lecture last Friday evening was not only full of solid thought, but was also replete with poetic expression, and flights of eloquence. Casaraltan was charmed with the lecture, and concurs in all of the above.

Vint., spends his leisure hours working in Charley Stephens' saddler-shop and is rapidly getting to be an expert leather manipulator, which reminds me that I heard a dialogue like this, the other day:

"What's the matter? How is it that Charley Stephens sells so many saddles?" "Oh, that's easy, its because he sells so cheaply."

Your correspondent started out this morning on a tour for items, and in his perambulations, passed the hardware and tinstore of Paul Schlosser. He found the handsome proprietor as busy as if he had never expressed any liking for sauer Kraut. Paul suggested that if Casaraltan would go to Mrs. Blackwood's excellent hotel, he would see a man who is the great and only original "Great American Piebiter." I followed his advice, went to the hotel, ordered a plate of soup, and slyly requested Mrs. B., to point him out. She did so. I wouldn't for the world have it generally known, but if you'll promise, "honor bright" not to tell, I'll whisper his name: 'it was Hite Mattoon.' While I wait for him to cool off, my head quarters will be at the office of the Stage company, who, by the way, have the best road, the best teams, and the most obliging drivers to be found in Oregon. I've tried them and ought to know.

Drain & Co. have filled up their shelves again, and are selling at remarkably low prices, They can afford to do it, as they sell for cash only.

Casaraltan finds it hard to come down to every day business this week. on account of the advent of a ten and a half pound boy: of course, he's handsome and smart and will some day write for the REVIEW. Right here, I wish to forestall the fiend who writes "the father's case hopeless," etc., by expressing the modest opinion that something fresh in that line would be appreciated by a long suffering public. I have whetted my tomahawk preparatory to butchering the first newspaper-wretch who perpetrates any thing of that sort in connection with the birth of our boy.

Mr. Cellars would look lonesome without Jimmie, but for the fact that he is too busy selling goods to look sad.

Elmer Palmer and the boys were up the canyon the other day, running logs. They had fair success, and soon the saw-mill whistle will be waking us at the unseemly hour of 5 A. M. The mill men are rustlers, and deserve prosperity which comes of industry.

Mr. Ostertag's blacksmith shop is a busy place, because he is a good natured, obliging man, a first-class workman, and like Paul only eats sauer Kraut three times a day.

I mention these facts, to let people know that Drain is a thriving busy town, with a goodly number of business houses, and plenty of thrift and industry. Besides those already mentioned, I cannot fail to mention our ladies, Mrs. and Miss Palmer, who keep a fashionable milliner store, and are supplying our pretty girls with winter outfits that are "awfully lovely." Time forbids my mentioning all, this week, but hereafter I shall tell you of other attractive features in the business line.

Among the new students at the Normal school this week, I notice the names of Frank Saylor of Rice Hill, Miss McGuire of Elkton, and Joseph Cellers of Scott Valley.

I met our old-time friend J. Taylor of Cottage Grove on the street yesterday.
He was making final arrangements for sending three students to our school. The prosperity of this institution and its rapid increase of students from abroad is something remarkable.

A man was in town this week looking for encouragement to start a gin-mill. We are very greatful to Divine Providence for the existing fact, that our people are firm as the everlasting hills in opposition to any such scheme. I do not know of a single man who is friendly to such a blighting curse in our village. If the special session of the legislature does not put at rest all doubts as to the effectiveness of our license laws, they should be held in perpetual odium for their dereliction of duty. That's the sort of St. John man I am.

There have been several improvements in our village during the past week, notable among which are the new sidewalks around Dr. DeVore's brick, and from Mrs. Blackwood's Hotel to the depot, and also around the Normal School building.

A. new feature in our school worth mentioning, is the fact that the state series of vocal music lessons has been adopted, and free lessons in this science are given to the students every day.

Prof. Booth's Commercial College is rapidly growing in number, and popularity.

CASARALTAN.

LATER.

The second term of school opened Monday with the largest attendance on record. Among the new faces, we noticed Messrs Casebeer and Dunham of French Settlement, LaRaut, of Garden Valley, Burt of Yoncalla. The Misses Powell and Taylor of Cottage Grove, and the Misses Walker of Elkton.

Hugh Callwell has received his commission as a Notary public, from Gov. Moody, and is again ready to transact all kinds of Notarial business.

Charley Stephens went to Roseburg Tuesday: guess he went for more saddles, to supply the increasing demand in his line.

The prizes won at the Normal School last term, were carried away by W. A. Bean, of the Academic department, and Eva Woolley of the model school.

Sol says he'll just go up there, join that class, and show them how to spell! Wes intends to let his girl take the cake this term.

The young people are all reading Hamlet, preparing to appreciate Bro. Bell's next lecture. Miss Minnie says he mustn't say anything derogatory to Willamette Valley farmers next time.

Schlosser says that sauer Kraut is a good thing for him and Ostertag, but it don't excuse Hite for spoiling so much pie.

J. C. Drain says he don't care much for such food, but is better pleased, when people realize the extent of his stock of goods, and the low cash prices at which he sells.

We had a blizzard this week, during which some fencing was demorlized, and Palmer Hall was blown down, and totally wrecked.

On Sunday morning the Academy pulpit was filled, very ably by M. C. Johnson. In the evening, Dr. Kuykendall did the preaching. Both sermons are very highly spoken of by all who heard them. Dr. K.'s subject was the "Insignificance of man, without an Immortalty."

CASARALTAN.

Prof. Russell's academy was crowded to overflowing last Friday night. The audience was well entertained. The exercises of the literary society of that institution being of the most interesting character.

Look out for Page & Dimmick's immense stock of holliday goods. They will be open for inspection in a few days. Head quarters for Santa Claus, as usual when on his annual trip to supply the little folks with every thing to insure them a Merry Christmas.

OBSERVER.

Oakland Nov. 15th 1885.

MR. EDITOR. Will you permit a non-resident of the city of Oakland to say a few words through your columns in reference to Professor Russell's school, called out from attending the exercises of the Literary Society of that school given on Friday evening last. To say that the delivery of the various exercises were perfect, would be incorrect, there were partial failures as there always have been and always will be on such occasions, but I am confident that the citizens who attended, will sustain me when I say that the exercises as a whole were excellent, above the average, and betokened on the part of the teachers, a painstaking care that should be, and no doubt is gratifying to the parents of the children.

Space will not permit me to individualize to any extent. The address of Rev. Mr. Lockard was very appropriate, and should be remembered when selecting pieces for future entertainments. The trio "Welcome Spring," The duet "Sweet Violets," and the "Lord's Prayer," as sang by twelve or fifteen of the little folks are all worth special mention. The declamations and dialogues were well memorized and fairly delivered—but—yes it must come,—the successful surgeon uses the knife when the case calls for it—but, there was lack of jesture in all of the pieces that detracted much from the excellence of the delivery—a fault that I hope to see amended at the next entertainment.

Do the citizens of Oakland and vicinity appreciate this school as it deserves? The attendance at the entertainments would indicate that they do for the room was filled to overflowing, many having to stand the entire evening. The attendance at school would indicate it, for Prof. Russell informs me that it is larger now than at any previous Fall term of the school. It is to be hoped that they do, and that in the future, they will give it that earnest and hearty support that it deserves.

We all welcome the REVIEW.

What will become of the tramps this winter, I do not know.

Mr. Thomas Mahoney has taken up a homestead on Sugar Pine lately.

Mr. Isaac Morrison of Healdsburg Cal. has been guest at 19 mile house the past week.

Thomas Newland of Ten Mile flouring mills is running in full blast. He has fine flour.

At the head of Wilson creek Arthur Woodin killed a deer and a large panther. His dog treed it.

It has been raining for the past ten days but has stopped now and we are glad to see the sunshine again. The grass is growing nicely.

George Wilson of the 19 mile house has a Bartlett pear with second crop of pears on it now. Who can beat that in this County?

The Coos Bay Stage upset the other night just after crossing Wilson creek, there were four passengers on board, fortunately no one was hurt.

Mr. Bunch of Coquille City passed by on his way to Roseburg a few days ago. His son and two daughters are going to Portland to attend school.

Sanctification.

For the benefit of our religious readers, and others as well, who may take an interest in the subject, we give below a definition of the term, which to our mind is the best we have yet seen, in so short a space, and exactly accords with the standards on that subject. Sanctification is defined by Bishop Foster thus:

"When a soul is regenerated, all the elements of holiness are imparted to it, or the graces are implanted in it, in complete number, and the perfection of these graces is entire sanctification; and hence, we insist that entire sanctification does not take place in regeneration, for the graces are not then perfected. And again; though in regeneration all the elements of holiness are imparted, all the rudiments of inbred sin are not destroyed; and hence, again the absence of complete sanctification, which when it occurs, expels sin. Regeneration is incipient sanctification in this sense—it is of the same nature as sanctification; and, so far as it extends, is sanctification; it is included in entire sanctification, but is not so extensive; it is a degree, but not the whole of that work."

Ague Shaken Sufferers

who resort to Hosteter's Stomach Bitters, experience speedier and more complete relief than they can hope to do by the use of quinine. This well authenticated fact is of itself sufficient to have established a high reputation for the Bitters. But the article is not a specific merely for the various forms of malarial disease, it endows the system with a degree of vigor, and reforms its irregularities with a certainty that constitutes its best defense against disorders of the stomach, liver and bowels, specially rife where the atmosphere and water are miasma tainted. Fever and ague, bilious remittent, dumb ague and ague cake are remedied and prevented by it, and it also removes dyspepsia, constipation, rheumatism &c. Take this medicine on the first indication that the system is out of order, and rest assured that you will be grateful for the hint.

The students of the Normal school have the pleasure of listening each morning in chapel to a short lecture by one of the Faculty or by some co-worker in education. Prof. Yates gave the student some very good advice on the concentration of thought, so also did Pres. Stanley on silent influence, showing their power, mode of working, how to use them and so on.
