ROSEBURG REVIEW

FRIDAY, JANUARY, 15, 1886.

STATE NEWS.

We regret to learn that M. Hanley one of the most respected pioneer citizens of Jackson county, is quite ill at his residence near this place. He is suffering from an attack of paralysis.

During the year just ended 8,300 immigrants passed through St. Paul for points west of Spokane Falls as follows: January 361, February 254, March 998, April 1,263, May 1,204, June 800, July 519, August 590, September 609, October 765, November 620, December 412.

At the Medford town election held on Monday last 125 votes were cast and the following candidates elected: Trustees, Dr. Geary, G. W. Howard, F. Galloway, A. Childers, J. S. Howard, recorder, G. S. Walton; marshal, I. Woof; treasurer, Chas. Strang; street commissioner, E. G. Hurt.

There were confined in the penitentiary on the 31st of December, 1884, 274 convicts. During 1885, 138 were received, making a total under confinement during the year of 412. There were 118 discharged, one died, and one was sent to the asylum. There now remain 292 in the penitentiary.

Hon. Binger Hermann writes to Wm. Steel, of Portland, that several prominent people at Washington have taken an interest in the project having Crater lake set aside as a national park, and that he has enlisted Prof. Dillon of the United States geological survey, who is acquainted with the Crater lake country, who will do all he can to aid the scheme.

Our County Judge and Commissioners have never lost an opportunity to reduce the expenses of the county, and have therefore succeeded in stopping many leaks. But for the heavy run of criminal business that has obtained throughout their term, a material reduction in the county debt would have taken place. Their solicitude for the interests of the people has nevertheless been productive of good results and their efforts are worthy of the highest commendation.—Times.

Hon. W. Lair Hill has declined the judgeship of the seventh district. We learn that a petition for the appointment of Mr. Pierce Mays has been laid before the govenor. It bears the signature of all the members of the bar of the district, save one, and he was absent when the petition was circulated Mr. Mays is a conscientious, competent and worthy young man, and we believe that if appointed he will do credit to himself and to the state.

The Tiuber Gulch Mining Co. have decided on incorporating and at a meeting held Wednesday night elected the following directors to attend to that business: David Linn, H. Pape, Sr. John Orth, Dr. W. Jackson, D. L. Curtis and David Cronemiller. Some rich discoveries have heretofore been made in the hill they propose working and this new company propose giving it a thorough test before quitting. A good paying and well developed quartz ledge can be expected.—Sentinel.

The dead body of John C. Goodwin, an old hermit, who lived for nearly ten years in a hut all alone on the macadam road, near Portland, was discovered Thursday near his hut behind a fence. It is thought that rheumatic gout or heart disease caused his death. He was 65 years old, and has relatives in South Berwick, Maine, and is reported having a wealthy brother in Colorado. Nothing but a few empty bottles, an old bed, and a few valueless articles of household goods were found in his hut.—Statesman.

Mr. Nasburg recently planted a bed of asparagus near his residence on the hill at this place, and his partner, Mr. Hirst, raised this year as fine a row of celery as ever California produced. Now it seems to us that if some of the farmers of this county, in addition to spuds and cabbage, would raise asparagus, celery, scale, cauliflower, brussel sprouts, and such other vegetables, which at present are brought from California by the Chinese merchants to supply the market here, they would have more money at the end of the year, and the town folks could get something fresh to eat once in awhile.—Coos Bay News.

The richest man of the next House is now at Washington. His name is William L. Scott. He is a democrat from Erie, Pennsylvania, and is said to be worth $12,000,000. He is a well formed fellow of medium size, not over forty-five years of age, and he carries about him the general air of a good business man. He has made his own money, and it has not turned him into a snob. He is very popular among his friends, and is known as especially fond of horses. When Scott was there as a page Henry Clay was still in the Senate, Daniel Webster was in his prime, John C. Calhoun had yet many years to live.

VARIETIES.

Honesty is one elememt in the education of office holders that should not escape the attention of Civil-service examiners.

It is a good sign that the Negro in certain Southern States — Georgia notably — takes kindly to prohibition. Whiskey and the negro cannot get along together.

It is said that capital is seeking investment in Atlanta, as never before since it adopted local option. This is not strange; the less of whiskey, the more of everything that is good.

The whites and blacks voting together against drunkenness in Atlanta is a bright streak in the Southern and national sky. The less of whiskey the more of everything good for men, women, and children, of all classes and colors.

The spirit of the age and the happenings of the times, are digging around the roots of the Established Church of England, some day, not very far off, it will fall, A free Church in a free State is the watch-word for every Christian nation.

The temperance people who are now getting into a heated controversy about the best method of accomplishing what all desire have need to be conciliatory in temper and temperate in speech. The Whisky Devil leads a united army.

King John of England when refused 10,000 marks by a Jew, ordered one of his teeth to be drawn every day until he consented. When he had lost seven of his teeth, the Jew yielded. Hence arose the saying, "In spite of his teeth," to do any thing contrary to a fixed purpose.

The Georgia Baptist, one of the papers published and edited by our colored brethren, contains a conspicuous double-column advertisement of "Anti-Curl," a preparation for "kinky, curly, and rigid hair." Among white folks in this section a different taste exists. Crimping and curling taxes their ingenuity.

A San Francisco lady taught a Chinaman how to cook and she showed him how to make coffee for breakfast clearifying the coffee with an egg. The first egg she broke was a bad one; so she threw it away and went on with the next. She learned three months afterwards that her imitative cook regularly threw away the first egg and used the second.

Dutchman temperance lecture. I dell how it vas. I drunk mine lager; den I put mine hand on minehead and der vas a pain. Den I put mine hand on mine body and dere vas anoder pain; den I put my hand on mine pocket and der vas nothing. So I jine mid de demperance beebles. Now dere is no pain in my head, and de pain in mine body vas all gone avay. I put mine hand on mine pocket und dere vas dwanty dollars so I stay mit de demperance beeples.

An ignorant fellow who was afraid to get married resolved to make himself perfect in the responses of the marriage service, but by mistake, he committed the office of babtism for those of riper years; so when the clergyman asked him in the church, "wilt thou have this woman to be thy wedded wife" the "bridegood answered in a very solemn tone, "I renounce them all" the astonished minister said, "I think you are a fool" to which he replied "all this I steadfastly believe."

The Astorian, which has about as much respect for the signal service weather predictions as a hen has for a meeting house, delivers itself of the following "predikshons" of its own: "The wind to day will blow from the south, unless it should happen to veer around to the east; if the barometer falls we will have falling weather; if it goes up, the weather will trump or follow suit; if the mercury goes below zero, we will have ice in the Columbia: a very rough bar will prevent vessels crossing; should the sun shine all day, we will ha ve clear weather."

There are two kinds of girls, says the home visitor: "One is the kind that appears best abroad—the girls that are good for parties, rides, visits, balls, etc., and whose chief delight is in such things. The other is the kind that appears best at home——the girls that are useful and cheerful in the dining-room, sick-room, and all the precints of home. They differ widely in character. One is often a torment at home, the other a blessing; one is a moth, consuming every thing about her; the other is a sunbeam, inspiring light gladness all around her pathway. To which of these classes do you belong?"

About eight men suffer from nasal catarrh where one woman is a victim. One reason for this difference is that men keep their heads in a sensitive condition from the moisture and heat of the hat. A man with a vital constitution walks into the garden with his delicate wife. They both start bare-headed, but he stops and runs back to the house to get his hat lest he take cold, while his dalicate wife goes on without the slightest fear. A man cannot wear his hat all the time, for he must take it off when he eats and when he sleeps. The difference between the temperature under the hat and a well ventilated room during the day or at night give many a cold.

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are **Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas, Purulent Ulcers, Nervous and Physical Collapse, etc.** If allowed to continue, **Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption,** and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effectual an alterative that it eradicates from the system **Hereditary Scrofula,** and the kindred poisons of contagious diseases and mercury. At the same time it enriches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

Is composed of the genuine *Honduras Sarsaparilla,* with *Yellow Dock, Stillingia, the Iodides of Potassium* and *Iron,* and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe **AYER'S SARSAPARILLA** as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.

FOUNT LAMP.

POSITIVELY NON-EXPLOSIVE!

THE CHICAGO ELECTRIC LAMP!

52 CANDLE POWER!

"SEE ONE AND BE CONVINCED."

ADDRESS:
CHICAGO ELECTRIC LAMP CO.
Cor. First & Washington Streets, Portland, Or.

Among its MANY advantages may be enumerated the following

1. The lamp, by the laws of nature, is POSITIVELY NON-EXPLOSIVE.
2. It cannot break or smoke a chimney.
3. An ordinary chimney can be used.
4. The lamp burns at a cost of ½ cent per hour.
5. The wick is furnished free with every lamp. One wick will last 6 to 8 months.
7. The lamps being made of brass cannot break, but one lamp will last a life time.
8. What you save on chimneys in one year alone will suffice to pay for a lamp.
9. This lamp has the only wick movement that requires no lieing of wick, and also the only movement that brings the wick up perfectly even.
10. The wick trims itself if turned down until the stop work acts and permitted to go out without being blown, a minute or less being all the time required.
11. The top of the fount is so constructed as to hold any small quantity of oil that might accidentally run over, thereby preventing damage to furniture, carpets, etc.
12. The insurance companies recommend their use, because they they are non-explosive, etc.

THE BRILLIANT AND STEADY LIGHT

Produced by these lamps because of their peculiar codstruction, the main principles being a double draft, the outer air tube giving abundant supply of oxygen, which is necessary to insure perfect combustion (and thereby burning the odorous and poisonous matter which escapes in other lamps) and the inner or "spreader" air tubes steadying the flame ane presenting its coming in contact with the chimney.

Made by a prominent authority gives the following result:

THE TEST OF LIGHT.

Ordinary lamps, 8—11 candle power.
Gas lamps, 20 candle power.
Improved new Chicago Electric lamps, 52½ candle power.
Are made and can be had either in Brass, Nickel or Gold Bronze:

THE FOLLOWING STYLES

FOUNT LAMP—Can be attached to any gas or oil fixture, side bracket, etc., colds 1 quart of oil and burns 7-3 hours. Price $2.50 to $3.00
STAND LAMP—For table or desk use. Holds 1 quart of oil and burns 7-8 hours. $3 to $3.50
LIBRARY FOUNT—Made expressly fibrary extension hangers. Holds 1 quart of oil and burns 7-9 hours. Price $2.75 to $3
ALL NIGHT FOUNT—Same as Fount Lamp only has a larger oil reservoir and consequently will burn longer. Price, $3 to $3.25.
