SUCCESS.—The meeting at the Court House last Saturday in the interest of building a wagon road to Klamath basin from this place was a decided success.

SICK.—John Lyons one of the men who is implicated in the forgery perpetrated at Oakland not long since, is very sick at the County jail of cerebro spinal meningitis.

Next Thursday evening at half past seven o'clock the Chapter of the Eastern Star will meet in the Masonic hall. All members are requested to be on hands as business of importance will be transacted.

SOLD.—Sol Abraham has sold all his interest in Grants Pass property except the mill, to Jonathan Bourne Jr. of Portland. Thus ends a dispute which we think shows good judgement an thereby prevents much litigation.

DISCUSSION CLOSED.—All parties have been heard fairly and to the satisfaction of every one, hence we will close the controversy this week, going on for sometime, G. W. Genger vs. Douglas County et al. We make our bow, and ask pardon of every one for this conclusion.

A BEAUTIFUL SONG.—At the banquet last Tuesday evening given by the members of Roseburg Chapter No. 8, Order of the Eastern Star, to their guests from Jacksonville, the climax of the entertainment was reached when the two misses Linn sang with such artistic merit the song entitled "Forget me not," and e'er they had closed we concluded to forget them never.

SERENADE.—Our Y. D. Band gave our Jacksonville friends a serenade at the McClallen House Wednesday evening. Hon. T. G. Reams made a very fitting speech to the Band, and kindly thanked the citizens of Roseburg for their hospitality, and Bro. Sargent Dunlap was tickled almost to death over the splendid music our Band discoursed, yet our boys did not know that Mr. Dunlap was a connisseur in this line. Bros. Cammeron, Love and the ladies looked on smilingly and appreciatively while the serenade was going on. Some of our band boys cast a sly glance at the ladies too during this event. Bad boys you.

NEW SCHOOL HOUSE.—Quite a number of our citizens met at the Court house Wednesday evening pursuant to a call by the school directors to take preliminary steps towards building a new and commodious school house in this district. And by a large majority it was ordered that the directors appoint a committee of five to submit at a subsequent meeting plans, specifications etc., and at which time it will be determined whether we shall or not build a new school house this year. We must have more room some way to accommodate our children. The Directors appointed the following as a committee: S. Hamilton, Thos. Grisdale, W. F. Owens, Andrew Jones, Asher Marks.

WALLULA HOTEL.—Bill Nye, the famous writer, visited the northwest coast a few weeks ago, and had occasion to stop over at Wallula Junction. On his return he tells his experience in his usual inimitable fashion. Those who are acquainted with the place appreciated his article, or that part of it in which he says: "I laid there and listened to the soft sigh of the bath tub, the loud defiant challenge of the athletic butter down stairs, the last weak death rattle in the throat of the coffee-pot in the dining room, and the wail of the condemned souls who had formerly stopped at this hotel, but who had been rescued at last and had hilariously gone to perdition, only to come back at night and torment the poor guest by bragging over the superiority of Hades as a refuge from the Wallula hotel.—Oregon Sentinel.

ROSEBURG REFORM CLUB.—The regular meeting of the Roseburg Reform Caub passed off at the new hall and as usual every seat and foot of standing room was at a premium. In the absence of A. C. Jones the selected speaker the Rev. E. A. McAlister addressed the club in a most convincing and logical argument in favor of Prohibition. The drama entitled The California Uncle, was most perfectly rendered in every part and elicited praise from all parties. The recitations and dialogues, added much to the pleasures of the meeting. The Rev. I. D. Driver was chosen as the next speaker to address the club. No pains will be spared to make this one of the most impressive and positive Prohibition meetings ever held in the state. Mr. Driver is one of the advanced thinkers of the nation; is profound, logical and convincing. The best accommodations will be furnished and perfect order maintained.

LITTLE KLAMATH DITCH COMPANY.—An enterprise to be known as the Little Klamath Water Ditch company, has been formed at Tule lake, Klamath county, Messrs B. F. Van Brimmer, J. F. Adams, and Wm. C. C. Crawford have been chosen as a board of directors; J. W. Hamaker, treasurer, and B. F. Van Brimmer, president. The capital stock is $10,000 and most of it has already been subscribed for. The water supply, says an Ashland paper, is to come from the Van Brimmer ditch, which taps Little Klamath lake and the Van Brimmer brothers have agreed to furnish a stated supply of water ninety-nine years for the sum of $5000. The new company will make about eight miles of irrigating ditch, and will have to build a large flume across Lost river. Work will begin soon and it is proposed to have the water running in time for irrigation next spring and summer. The enterprise will be of vast benefit to the country through which the ditch is to run.—Oregonian.

Thos. Hervey of Clarke's Branch gives us the information that he succeeded in poisening one of the largest black grey eagles last week that has infested this county at any time. The eagle measured 7 feet 10 inches from tip to tip. Now let our cotemporary beat us on eagles.

T. Riley, one of the inmates of the Douglas county jail, is an artist of no little ability. He spends his time in drafting ships on pieces of smooth bone or paper which he gives to boys who usually recompense the giver with a bunch of cigarette or some little notion of the kind.

Seven brothers, all raving maniacs, are enroute for the asylum at Jacksonville, Ills., a circumstance that gives rise to the suspicion that there is a taint of insanity in the family blood. Heredity is always nosing about, seeking to make a point out of trifles like the above.

Miss Maggie Linn of Jacksonville has been the guest of Miss Della Party this week. Miss Linn we hope will always cherish pleasant recollections of her visit to Roseburg, as she certainly has made many friends here, who will be glad at any time to extend her a cordial welcome.

According to the Inter-Ocean, "The winte zephyrs of Chicago are so mischievous, impudent and obtrusive that stone walls may not rebuke them, and they can pour in at a keyhole with such persistency as to nullify the good intentions of any fire that ever blazed with ruddy benevolence in stove or grate."

There were 10,383 marriages and 566 divorces in Chicago in 1885. Judging from this ratio about one-twentieth of the people who marry make a mistake. Judging from those who "United jar and yet are loath to part," the matrimonial mistakes are much more numerous than even Chicago statistics indicate.

Under the head of "new to-day" in the Salem Statesman of Wednesday they have an ad. A sheep. Apply at this office for particulars." The editorials of that paper for some time have suggested to us the appropriateness of such an advertisement, yet the acknowledgement of the fact is our only surprise.

The Astorian rejoices that the Cascade tunnel is to be constructed and the Northern Pacific is to go straight through to Tacoma, because, as a consequence thereof, Astoria will become the great wheat-shipping port of the country: The argument is that the O. R. & N. will be compelled to make it such, in order to save itself.

In some parts of the county sheep are dying in large numbers. Our informent says that although the grass is unusually short that the sheep as a rule die fat. As the weather has been comparably mild, it is probable that some insectivora are doing the mischief. It is a great waste to not save the wool of sheep thus lost at this season of the year.

FRESH COMPLEXION.

If you have humors, pimples, boils, eruptions, it is because the system needs toning and purifying. Nothing gives such good health, smooth clean skin and vigorous feeling as Simmons Liver Regulator, purely vegetable and not unpleasant to the taste. The Regulator, stimulates the liver, cleanses the eye of yellowness, improves digestion and makes the breath pure and sweet.

ARE YOU TIRED OF BEING SICK!

We want to say a word to the men, women and girls who work in stores, offices and factories. There are hundreds of thousands of you in the country. Very few of you are well. You are shut up too much and exercises too little. In this way you get sick. Your blood is bad, your digestion poor, your head often aches, you don't feel like work. Your liver, stomach and kidneys are out of order. Parker's Tonic has cured hundreds of such cases. It is pure, sure and pleasant.

DRAIN ITEMS.

In our town, the supply of items worthy of being reported, has been scarce for a week or two. The storms keep every body indoors and even the farmers do not come to town except for necessary supplies.

Jimmy Sterling is still kept in the house by illness.

The principle signs of life are in the Normal School, which was never so prosperous as it is right now. The next term begins Monday, Feb. 8, and a large number of new students will be enrolled then. The Normal class is a source of just pride to the friends of the school.

There will be an Elocutionary and dramatic Entertainment on Friday of next week, at the Chapel. A crowded house is anticipated.

The students are preparing themselves for Bro. Bell's lecture on Hamlet which they expect at an early day.

Miss Myrtle Russell has just purchased a fine piano, and thereby adds largely to the rapidly growing taste for refining influence of music in our town.

Our good friend Callwell is kept in the house by a lame leg, which gives him a season of leisure to reflect on the errors of his ways. Maybe he will give up being an insurance agent when he gets well. Who knows?——

There was a very pleasant gathering on Thursday evening of last week, at the residence of the Misses McCallister. It was largely attended and the result was a delightful evening.

One of the great blunders of the last legislature, was the bill which endeavored to patch up the method of appropriating school moneys to the several districts. The present plan of giving each district fifty dollars before the per capita distribution, simply offers a premium on the formation of impracticably small districts, while it weakens the power for good of the larger districts. We venture the assertion that the annual report of the county Superintendent will show a large decrease in the number of months of public school taught in Douglas County. The next legislature should repeal this absurd law.

EASTERN STAR CHAPTER.

Organized In Roseburg.

Roseburg Chapter No. 8 E. O. S. was duly instituted by T. G. Reams Deputy Grand Worthy Patron last Wednesday afternoon. There were 61 persons who received the degrees and one who was received by dimit, and eight more to receive the degrees under the title "charter members," making in all just 70 members of this chapter, now the largest Chapter in the State. Valuable members of Adarel Chapter, who are well versed in both the exoteric and esoteric work came to confer the degrees as assistants of Mr. Reams, and are as follows. Mrs. Newman Fisher, W. M. Miss Maggie Linn, C. Cora Linn, Esther; Issie McCully, Ada, Mrs. Cameron, Electa; Mrs. J. G. T. Miller, A. M.; Mrs. Love, A. C., Mr. Love, General Assistant; Mr. Cameron, Warder; and Sargent Dunlap Esq. Generalissimo or Arch Bishop. We hope to soon see our officers as proficient as those who organized us and put us to work. We think Mrs. Fisher confered the degress better than we ever saw done by any one, and Miss Maggie Linn sustained her position with a credit most excellent. These two are mentioned only because they had the most difficult parts to perform. All did well, and we hope our comments will not be considered invidious. To speak of the members at Roseburg we will only say they did their part nobly, especially the ladies. The supper was all we could wish and all went merry as a marriage bell. The following are the officers installed.

Worthy Patron,	J. R. N. Bell,
Worthy Matron,	Mrs. Julia Abraham,
Assoc. Matron,	Mrs. J. F. Beath,

A RESOLUTION OF THANKS.—At an informal meeting of the members of Adarel Chapter No. 8 O, E. S. who came down from Jacksonville to Roseburg on Monday night of the 25th, to institute Roseburg Chapter of the order of the Eastern Star. It was unanimously resolved that the sincere thanks of the party be tendered to the officers and employees of the O. & C. R. R. Co. and especially to Superintendent Brandt for their kind and courteous treatment of the party on their way down under great trials and difficulties.

The whole coterie of visitors from Jacksonville renewed with us the old acquaintanceship of years agone.

REPLY TO J. M. HOCKET.

Every man has a right to his views, and are liable to differ. So we must look at the circumstances, and see which is the nearest right, is my rule. Mr. J. M. Hockett says that I had better mind my own business in regard to the poor farm. I think he has forgot something about the farms purchased. It is our farm. I will have to pay more for it than Mr. H. will. Now I know if Mr. Hockett haden't the poor contract he would be worse off in 3 years than any one that ever owned my place. My place, 389 acres did raise over 800 bushels of good wheat and over 400 of oats, and about 10 tons of hay and kept nearly 300 sheep and pasture for horses and cows to run the ranch, and there was no extra farming done either, friend H. my farm has creek bottom, black soil and all kinds and I hope you will hereafter find out about the men that got broke on my place. The first owner built a large house and got in debt by bad management, and the second one had nothing to start in with, and he came out as he went in from the best I can learn. I had no reference to Mr. Hogan's farm what ever, but if the difference in the price is one $7000 and one $4000 the county commissioners ought, in my opinion bought the $4000 one, and hired a man to take charge of the farm and paid him by the year and furnished the provisions and had the poor to help run the farm and make something out of the business themselves, not give the job to one man at all, but run the concern by the county. Times are hard and men plenty that has no home that are willing to work for low wages; that is my way of thinking but if the county would run the farm then no one would have cause to growl. My letter is long enough.
Yours, old growler,
G. W. GENGER.

Oak Grove Sunbeams.

But what shall I write about?
How many times has this subject
Been pressed on the mind,
As theme after theme with a mountain of thought,
Passes over our senses, refined.

Mr. Mat Ruckle spends his Sundays at home.

Bristow Gabbert's relatives now reside at Civil Bend.

It is rumored that there will be a wedding at Oak Grove soon.

"The charm that in the spirit lives, no changes can destroy."

Jno. Hervey, Jr. was the guest of Ed. Ruckle one day last week.

The frost king smiled on Mrs. Wm. Fitz-Patrick's flowers last Saturday night.

The handsome young man of Oak Grove encountered a large panther a few days ago.

I think that a doctor, after dissection, would say, "Bristow Gabbert has too much affection."

Grandma Stevenson is the recipient of many favors from Willie VanBuren of Roseburg.

The smiling face of Mr. Ed. Hervey was seen on main street, of this place one day last week.

Miss Mollie Ruckle's team gave her a serious fright one day last week, by running away.

Mr. John Bowman of Idaho Ty. is still the guest of Mrs. Wm. Hervey's family of Clark's Branch.

Grandpa Sears' valuable. imported hound was poisoned a few days ago. It is supposed it got strychnine.

Mr. Geo, Stevenson lost two very valuable horses last week. I have heard that they were victims of old age.

Rev. J. B. Smith has located permanently, on his farm on Clark's Branch. His daughter Mrs. Bartel, resides with him.

Miss Clara Stevenson was seen turning the leaves of Mrs. Susie Sears' last Delineator a few days ago. I heard Mrs. Sears say, "your dress will be the nicest dress I have made since I came to Oak Grove." I slipped away determined to tell my ma that Susie was partial. As I was making my way home, I saw Mr. John Coon, the popular traveling merchant, propping his team up against the fence. I afterwards learned that Mr. Coon drove through that bad slide between Mrytle Creek and Oak Grove. His team, wagon and goods were badly damaged. This is the second vehicle that has turned over in this dangerous place, the slide occured Dec. 25th. Is it not time that some one was at work repairing the road?

Roberts Creek Reform Club.

In spite of the rain a full house was called to order by the president. Mr. John Hatfield conducted the singing in which the whole Club heartily joined in the true purpose of the "Armor Bearer." He then acted as chaplain after which the minutes were read and approved. Mr. J. B. Tichenor was again with us and prefaced his address with a statement of the general progress of the work. In his reasoning he drew comparison from experience on the sea, which gave a new tone to the discourse lifting the ideas from the familiar invironment. At recess the pledges were circulated by Miss Mary Aid and Lillie Hatfield and eight new names were added to the list.

The miscellaneous exercises were brief. On motion Miss Carrie Rose was elected one of the executive committee. W. F. Owens was chosen to address the next meeting, which was fixed for Saturday, Jan. 30, 1886. The propriety of an immediate third party is no question here; though some tread the way with careful feet. The reports from Ten Mile and Looking Glass are encouraging indeed. We expect to see Oakland's signs of the times next week, and their murmurings from the grand impetus of the general mind, like the voice of many waters sound all along the shore, and the surges of old Ocean symbolize the sweeping, cleansing waves of popular thought, whose momentum gathers from those sequestrated vales.
W. H. WALKER, Secretary,
J. H. WHITSETT, President.

NOTICE TO DEMOCRATS.

To the Democratic County Committees of the State of Oregon—Gentlemen: It is advisable that each county committee hold a meeting and select good and responsible Democrats to attend to the registration of Democratic voting in their respective counties and precincts. Let the Democrats be up and doing; see that every Democrat who is entitled to vote registers in his proper precinct. E. J. JEFFERY,
Chairman Dem. State Central Com.

The trains going south have been layed over here, as no travel can go farther than West Fork. By tomorrow the trains will try and make a through trip. The slides have been numerous and heavy.

MARRIED.

FRENCH. HARVEY.—At the residence of G. A. Taylor in this city, Jan. 27th, H. S. French to Miss Ellen Harvey, Rev. John Howard officiating. This happy pair will receive the very best wishes of the REVIEW office. No cards, no cake.

ELKTON NOTES.

After a silence of a fortnight we will again try to apprise you of some of the doings in this locality; although with the usual scarcity of items.

Hon. D. W. Stearns of Oakland was down to his old farm a couple of days last week probably on business.

Mr. John Hancock killed two panthers, week before last, on his range on Elk Creek about five miles from here; these varmints had been creating a disturbance among Mr. H's flock of goats.

Mr. Chas. McGuire returned home from Dram on Friday last where he has been to receive medical aid; his case is paralysis of the left side with which he was stricken some two weeks ago, we are glad to state however that his condition is very much improved and hopes are entertained for his complete recovery.

Wm. Stark has his wood saw all ready for operation as soon as he can procure a motive power; anyone in the neighborhood having wood to saw would do well to call on him. He also contemplates fitting up a sawing machine to rip fir poles for fencing and other purposes.

Mr. Darius Wells and family who it appears started ostensibly for Eastern Oregon some two months ago to spend the winter, but in reality to go to Iowa and Missouri, have been heard from in those states. From recent accounts Darius has no doubt been enjoying a different style of weather from what he has always been used to.

We are glad to note from time to time the onward march of the movement for Prohibition of the liquor traffic. We think the leaders in this glorious movement may well feel proud of their calling, and there is every evidence that their efforts will be crowned with success in the very near future. The Prohibition Star very ably edited and published at Salem in this state, is the main spoke in this wheel which rolls grandly on toward victory.
R. E. PORTER.

TWO NARROW ESCAPES.

We chronicle some events which occured last week at Camas valley, as near as we can ascertain, are about as follows: Mr. H. M. Dumpleton with others went out into the mountains to hunt game, Dumpleton followed an elk track a long distance from his companions and a heavy fall of snow obliterated the elk track and not being able to follow it further and consequently unable to retrace his own, became lost and wandered about in the mountains for four days, when he was found in an exhausted condition by a search party that was organized in the valley. His hands and feet were frozen and he was finally carried in a litter to the residence of Messrs. John and Henry Stanley where he was properly cared for; Dr. Graham of Roseburg was called to attend him and found it necessary to amputate part of the left foot and thinks his hands and the other foot can be saved. After Dr. Graham was able to leave Dumpleton for a short time he was called to see a sick lady two miles distant. Mr. Wiley who was present having two horses and a buggy at the gate, proposed to convey the doctor to the residence of his patient and back. All went well until they came to the middle fork of the Coquille River. Mr. Wiley mistaking the depth, of the water at the ford which was over ten feet in depth, drove into the stream, the swift strong currant turning the swimming horses and buggy down the stream, the buggy turning over. Dr. Graham caught hold of some small boughs from an over hanging tree on the bank of the stream, which enabled him to keep his head above water, for a long half hour, when he was rescued from his perilous position by parties residing near the ford. Without their timely assistance he would not have been able to reach the shore. Mr. Wiley and his team floated down the stream considerable distance and coming in contact with drift-wood succeeded in cutting the harness from his horses when they swam to the banks of the stream; when he succeeded in gaining the land, leaving his buggy and harness in the water.

Calapooia Notes.

Rainy weathef.

Times dull and nothing to do.

Mrs. Stephens is now spending a few days with her friends near Primrose Hill.

Mr. Jesse Shambrook spent last Saturday and Sunday visiting friends on the Calapooia.

Hon. Tim Barnard went to English Settlement last Monday on business.

Mr. J. M. Ellison has purchased a fine beagle gun that dazzles the eye of any sportsman.

We understand that N. T. Day has bought a fine horse which will be of great value to the stock raisers in this vicinity.

Mr. James Star has his road all completed and has now purchased a fine hack in which he proposes to ride high and dry, rain or shine.

We also understand that G. N. Gorrell has appointed Thomas McNabb as his deputy to serve as supervisor on the North division of his road.

J. L. Shamlarook has been visiting his many friends on Calapooia for the last few days. Come again Jesse, next spring when you can stay longer.

The Chinook wind which the almanac spoke of on the 21st must have blown our friend Kerly off, for we have not seen him out since. May good luck go with him, I can't.

Several school teachers have been visiting our vicinity looking for schools, but too late, they have already employed Prof. John N. Davis to teach the spring term at the lower school house.

Farmer Richards' wolf, which has been killing so many sheep for him in the last two or three months, has proved to be a gray fox. The Green mountain boys had quite a chase after him on Saturday last but it got so dark they had to give it up.

PUBLIC MEETING AT THE COURT HOUSE.

Speeches by Prominent Citizens, and Money Subscribed.

A large and enthusiastic meeting of the citizens of Roseburg and vicinity, took place at the Court House in this city on Saturday last, for the purpose of ascertaining whether or not the citizens of Douglas county thought that a wagon road to Klamath Basin, would be of sufficient benefit, to warrant them in making a survey of the route and if practicable, to construct a wagon road from Roseburg to said point.

We are happy to say that the meeting was a success in every particular. Roseburg has never held a public meeting in which the citizens of the county took so much interest and to which they subscribed so liberally. Nature has contributed her share, both in climate and beautiful scenery to make this portion of Douglas county the garden spot of southern Oregon and it now only remains with us to complete the good work by building a road to Crater lake, which kind Providence has placed within a few miles of our lovely city.

The following is the report of the meeting. Meeting called to order by Hon. W. F. Owens, who, after making a few appropriate remarks, which were received with enthusiastic applause by the audience he nominated Hon. D. S. K. Buick as chairman, which was carried unanimously. On motion E. F. Walsh was chosen Secretary. Mr. Buick on taking the chair addressed the meeting at some length, showing the immense benefit that Douglas county would derive by building the proposed road to Klamath Basin and gave such a lucid geographical discription of the proposed route and the large track of country tributary to it, that those present felt that they were as well acquainted with the road and its benefits to the city of Roseburg and surrounding country as if they had individually traversed every foot of it.

Hon. L. F. Mosher was the next speaker. Mr. Mosher called upon Mr. Rafe Dixon, S. C. Flint and others, who were well acquainted with the country to correct him, if he made any mistatements. Mr. Mosher then proceeded to go over the route which is well known by Messrs. Dixon, Flint and others, giving a graphic discription of the grades, dips, spurs, and angles, and wound up, by stating that a road could be built for a mere trifle, compared with the benefits that would accrue to this section, he said that by opening the road, Roseburg would be the Metropolis of Southern Oregon. Mr. S. C. Flint who has surveyed a large portion of that section, stated that in his opinion, the only trouble would be, in making a grade on this side of the summit, and even that, could be avoided, by going around it, which would make the road from two to three miles longer, and that on the other side of the summit, the ascent was so gradual, that one could hardly tell, without the aid of an instrument, when the summit was reached.

Hon. L. F. Lane presented the following resolution, which was read and adopted.

RESOLVED: That it is the sense of this meeting, that an earnest effort should be made by the citizens of Douglas county, Oregon, toward locating and constructing a wagon road, from the eastern terminus of the present traveled road, on the East fork of the North Umpqua River to the Klamath Basin, Oregon, and in an able and eloquent speech, showed the advantages to be gained by Douglas county in the construction of the proposed road, and moved the following resolution which was read and adopted.

RESOLVED: That a committee of six consisting of Asher Marks, W. F. Benjamin, Rafe Dixon, Aaron Rose, A. A. Engles and W. F. Owens be and are hereby appointed, who shall have full power to make all contracts and supervise all things relating to the survey and location of said proposed road and by warrants drawn upon the Treasurer of the fund subscribed, disburse moneys for the same. That said committee shall keep a true, full and correct account of their transactions and report the same to a full meeting of the subscribers on Saturday 3d day of July 1886.

Short speeches were next in order, and were indulged in by Hon. W. F. Owens, Asher Marks, W. I. Friedlander, S. C. Flint and others. J. R. N. Bell of the REVIEW made some interesting remarks, in his jolly good natured way, which were to the point and which brought down the house.

W. I. Friedlander prepared and read an Iron clad subscription list, which was adopted and readily signed by those present.

Hon. D. S. K. Buick of the Plaindealer, chairman of the meeting and J. R. N. Bell of the ROSEBURG REVIEW were appointed a committee of two, to raise the necessary funds to defray the expenses of the survey, and right royally did they do their work, in a few minutes they had raised $250.00 and before this report reaches our citizens, they will have several hundred.

The Chair drew the attention of the meeting to the fact that Douglas county remains unrepresented at the Board of Immigration rooms at Portland and suggested that steps be taken as soon as possible to perfect an organization for that purpose. He thought that as this meeting represented the substantial men of the county, that now was the proper time and place to make this suggestion.

After electing S. C. Flint as Treasurer, the meeting adjourned subject to call by the chairman.

ROSEBURG PUBLIC SCHOOL.

The Benton Leader says, that the total number of persons attending the State Agricultural college, two public schools and one private school all of Corvallis is 362, which is less than the attendance of our public school. And we are informed that our school attendance will soon reach 400, with a probability of 500 or 600 next year. Yet Corvallis boasts of 2000 inhabitants and we claim only 1400, For educating those 362 persons Corvallis and the State pay annually over $8,000: for educating a like number. Roseburg and the State of Oregon pay less than $2,400, and we hold ourselves ready at any moment to compare the quality of the school work actually done in this city with that done in Corvallis. We intend no disparagement of the good work done there, but mean to say that we have struck upon the economical plan.

Under the present management the school is costing the district about $2.50 per scholar and there are about 30 non-resident pupils in attendance, most of whom pay seven dollars per quarter. Two non-resident pupils that together pay fourteen dollars pay for educating themselves and three of the district pupils also. Thus it may be seen that a large patronage of non-resident pupils would overpay the cost of teaching them enough to pay for teaching the pupils of this district.

Eugene would have been of no importance yet but for her schools; and our school will next year bring more pupils to Roseburg than the State University ever has in one year brought to Eugene, or the State Agricultural College ever has in a like time attracted to Corvallis. Geography, surroundings and enterprise will put Roseburg far ahead of either of the other above mentioned cities.
