O. E. S. CHAPTER No. 1. ASHLAND OREGON. Regular meetings 1st and 3rd Tuesdays. All members in good standing are cordially invited to attend. Mrs. Anna Carter, W. M. W. H. Atkinson W. P.
MISS ANNA ANDERSON, Secretary.

LEG BROKEN.—Wm. Gorsline met with a serious accident last Sunday while driving logs in Looking Glass creek had his leg broken (above the ankle joint. Dr. Marsters was summoned and reduced the fracture, and the young gentleman is getting along as well as could be expected at last accounts.

SURGICAL OPERATION.—An operation of considerable difficulty was successfully performed by Dr. Graham assisted by Hoover on the boy, six years old, of John Strader on Deer creek for necrosis, on the 27th of January and the child is doing nicely as we go to press. Necrosis is dead bone and in this case it was removed from the upper third of the right femur.

ACCIDENT NEARLY.—Willie VanBuren drove his team attached to his wagon into Deer creek to wash off the horses last Monday evening and the surging waves ran so high that they lifted the bed of the wagon up, drawing the king bolt, and in this condition of affairs Willie did just make the shore without any serious damage. When will non-amphibious animals learn that water will wet and drown?

THE NEW FIRM.—John Chase and Timothy Ford are the successors of A. C. Marks on the corner. These young gentlemen will no doubt succeed well as they ought for they have standing in the community in which they are to transact business. T. Ford is the City Recorder second term and John Ghase is our City Treasurer late salesman in S. Marks and Co's large General merchandise store. A. C. Marks retires with the best wishes of his many patrons.

CRATER LAKE SET APART.—Commissioner Sparks telegraphed W. F. Benjamin Register of the Land Office at this place last Tuesday to withdraw all the land from settlement surrounding Crater lake. This means being interpreted that Crater lake has, or will be in the immediate future created a national park. Whoop up the wagon road to Klamath from Roseburg. Prosperity is dawning upon us, if we had sense enough to see it. Our Congressman Hon. Binger Hermann is making his work tell. We are glad that he is not a promisory paper man, not payable until the end of the war. But his checks are payable on sight.

THE WRONG GIRL.—Nothing more amusing has occured in our town for many days than a small incident that transpired last Friday evening at the literary society. There was a strain of seriousness connected with the episode as well as amusement. It seems that one of our verdant youths approached two young ladies of the same Christian name and asked to see one of them home, the one not intended replied in the affirmative and at this juncture the janitor had blown out the lights and the mistaken parties proceeded together as far as the Odd Fellow's Hall when the young gentleman discovered his mistake and exclaimed "Oh my! you are the wrong girl," and broke away abruptly and ran up street. The deserted young lady realized how verdant her escort was to leave her to wend her way home all alone even though a mistake was made; and the other girl was almost dying with laughter because she alone saw the point.

ADELPHIAN SOCIETY ANOUNCEMENT.—At an adjourned meeting last Monday afternoon the Adelphian Literary Society adopted the following resolution, "that only members in good standing and their parents or guardians be admitted without tickets to the meetings of the society when held at the school-house. Further, any other person desiring to visit the society may do so by obtaining a ticket signed by the President, and such tickets shall be presented to the door-keeper at the next regular meeting before admittance will be granted. Tickets will be issued Fridays only; and not more than ten shall be granted for any one meeting. In no case shall any charge be made for any such tickets or admission to the society's regular meetings." Owing to the fact that the society has a membership of fifty members and comfortable seats for but a limited number of other persons it has seen fit to adopt such a course. Public meeting will occasionally be held in some hall large enough to accommodate all who may desire to attend.

SAM MOORE, President, DORA LEWIS, Secretary.

REFORM CLUB.—It is estimated that over five hundred people from Roseburg and all parts of the county assembled to listen to an address on prohibition by the Rev. I. D. Driver. The new hall of the Reform Club was densely packed and outside standing in every direction was occupied. All intent to catch the ringing words of logic on an unanswerable argument in favor of the anihilation of the vile liquor traffic of our country, as they fell from the lips of one of the deepest thinkers and reasoners of the day. This meeting will long be remembered and many express a belief that when such men as I. D. Driver throw their their mighty influence into the Prohibiton cause that the liquor traffic has enlisted a foe worthy of their steel. T. F. Campbell professor of mathematics in the State Agricultural College was, by unanimous vote, on motion of Rev. J. R. N. Bell, chosen as speaker of next meeting. Mr. Campbell is also a noted citizen of our state, a scholar and a profound reasoner, who is counted among the Prohibitionists who have enlisted for the war. Remember Mr. Campbell at the next meeting and every exertion will be made to further increase the accommodations of the hall and make the meeting of grand importance. The exercises of the meeting were good, the select reading excellent; the prohibition gatling guns was a happy hit at the politicians of Oregon, and contrived much more truth than poetry in this place. We make (while sayiag every one did well) special mention of Master Claude Cannon not only being a brick but a whole brick building. The dialogue was good and well rendered and effected praise on all who took part.

H. W. LUHR.
Secretary, Pro tem.

"Handy Andy" will be put on the boards at the Reform Club, in a couple of weeks. This vigorous play could be handled to advantage by slight modifications in certian parts, and by skilful touches in others.

The Misses Inez Gilliland, Edith Imbler, and Sallie Hamblin floated into our sanctom yesterday like fairy zephyrs and departed leaving the impression upon some of our typos that "angels visits are too few and far between."

E. P. Farnsworth special agent for Hutchinson and Mann, General Insurance agents San Francisco Cal. was in our town recently and continues to make friends among us. W. N. Moore is the local agent of this company at this place.

J. T. Hinkle got the first bounty($7.50) for killing a coyote last Thursday. His dog is a terror, and actually ran the "varmint" down and killed it. The reason dogs do not kill coyotes is, they have not the grit. Hurrah for Bro. Hinkle.

R. L. Cavit's call at our sanctum last week proved a source of much information to us in regard to the proposed road to Klamath Basin. The gentleman has been over the route time and again and what he says about it ts worth hearing.

T. G. Reams Grand Master of Masons laid over one night here enroute for lodges below which he is now officially visiting. He has made and is making more fraternal and officiat visitations than any Grand Master ever elected in Oregon.

The wedding cards of Miss Moda Abraham daughter of Mr. and Mrs. Hyman Abraham, and Louis Selberstein of Portland are out. The wedding will take place Feb. 14th, at the brides residence in Portland Oregon. We advance congratulations.

Hall's Vegetable Sicilian Hair Renewer imparts a fine gloss and freshness to the hair, and is highly recommended by physicians, clergymen, and scientists. It removes dandruff, makes the scalp white and clean, and restores gray hair to its youthful color.

Trains for the present will come from the north on their usual time, and lay over here until seven o'clock in the morning, when they will leave for Ashland and reaches here from Ashland in the afternoon. All day travel south now until otherwise ordered.

There will be a protracted meeting commencing at the Day School House on the Calapooia near Thos. Winnifords Thursday night the 11th of Feb. and will embrace the following Sabbath. E. G. MICHAEL P. E.
P. A. MOSES P. C.

C. A. Price, of Colfax W. T. who has been visiting friends and relatives in this county for a few weeks, returned last Wednesday accompanied by his brother John, who goes with the intention of purchasing a farm. Their many friends here wish them success in their new home.

Mrs. Col. Shields returned from Portland last Monday whither she had gone with Col. Shields who was called to the metropolis on official business and he will remain in that city until to-day. Mrs. Shields said "it rained" while she was below, a thought that scarcely ever occurs to the average Oregonian.

The sale of pews in Brother Talmage's Brooklyn Tabernacle last evening showed a decided increase of revenue over last year. It will be remembered that Brother Beecher's Plymoth Church pews showed a slight falling off in market value recently. Are we to understand by this that Brother Talmage is the most popular clergyman in Brooklyn?—Daily World.

Our city marshal was telegraphed Wednesday to arrest one Ed. Jackson on the train bound north, for stealing two children from Talent Oregon by D. A. Taylor. The marshal succeeded and the gentleman is now in durance vile. Some misunderstanding in the family induced Jackson to leave home and he took this opportunity to take these children which he supposed he had a lawful right to we suppose.

From Dr. Hoover we learn that the case of John Lyons in the county jail to whom we refered last week is a peculiar one. Physically he is better, but his mind is impaired to such an extent that on two occasions lately he has tried to kill himself by putting wire taken from the bed tick around his neck and choking himself to death, he is now trying to starve himself to death. Verily the way of the transgressor is hard.

Prof. Wm. Crowhurst, the well known educator and popular lecturer of California will address the citizens of Drain Tuesday and Wednesday, 9th and 10th; Oakland, Thursday 11th; Myrtle creek, if trains are making regular time, Friday 12th; Roseburg Saturday and Sunday; 13th and 14th; on the great issue of Temperance and Prohibition under the auspices of the Grand Lodge of Oregon, I. O. G. T.

Read this. Caro Bros. are now taking an inventory of all their goods preparatory to moving into their new and commodious brick and will sell goods at the very best bargains. They will remove to their new store next Monday or Tuesday. They desire to see all their old customers and many new ones at their new place of business where they will continue to sell in the future as in the past on the most reesonable terms.

The danger that always goes along with a standard family medicine is the counterfeit or fraud which follows as darkness does light. Protection againist this danger lies in careful observation of what, and of whom, you buy. Doubt the honesty of any druggist who states there is any other Simmons Liver Regulator than that prepared by J. H. Zelin & Co., Sole Proprietors; or that there is any liver medicine having like effective curative properties, or containing the same ingredients.

The Atlanta Constitution of January 1, 1886 says: "Prohibition is a very simple matter in Russia. It requires no work on the part of Churches or societies, no elections, no trouble whatever. The Czar issues an order to close the saloons and they are closed. There is no appeal to the courts and no dodging. To-day an order will go into effect all over Russia shutting up the drinking shops. Liquor will be sold nowhere except in restaurants. A high license will have to be paid for the privilege.

DON'T LOOK LIKE A WRECK.

"When a man is going down hill everybody is ready to give him a kick." Yes, that is so. It is said, but natural. Why, many a man and women, seeking employment, would have got it if their hair hadn't been so thin and gray. One bottle of Parker's Hair Balsam is then the best investment. It stops falling hair, promotes new growth and restores color. Clean, highly perfumed, not a die. A great improvement over any similar preparation, and sold at the low price of 50c.

YOU CAN HAVE IT.

"My dear, what would I give to have your hair?" Is often said by middle-aged ladies to young ones. Madam, you may have just such hair. Parker's Hair Balsam will give it to you. It will stop your hair from falling off, restore the original color and make it long, thick, soft and glossy. You need not stand helplessly envying the girls. The Balsam is not oily, not a dye, but is an elegant dressing and is especially recommended for its cleanliness and purity.

A Letter.

OSKALOOSA, IOWA, Jan. 25, 1886.

EDITOR REVIEW: Dear Sir—Find enclosed postal note for fifty cents. for which, please send me the ROSEBURG REVIEW for what time it will pay for, as I contemplate moving to your state and think of settling near your town. If you can give me any information concerning that county, I am willing to pay for it and would be greatly obliged besides. The weather is very cold here the thermometer last night at bedtime was 22 degrees below zero and is 10 below to-day snow about fifteen inches deep and is still trying to snow. Hoping to hear favorable from your state,

I remain,
Yours Truly,
JESSE J. HILL.

FOUND.—A half sack of peanuts found at the church last Monday morning. One half of the peanuts had been eaten, as the floor was covered with hulls. The two hungry young ladies hereafter should take a bite before coming to church or read a book on manners, Lord Chesterfield's letters to his son, for instance. Now don't get mad at this, or we might find out who you are.

"Among the Breakers."

The drama by the Y. D. Band was well put on last Wednesday evening and all did better than in "Above the Clouds, "yet our preference in the plays is for "Above the Clouds." This amateur troupe has improved considerably and evince as much histrionic talent as you find in any of our cities of comparative size. The company appeared better balanced in this play than hitherto, for previously the difference in preparation and precocity was much more perceptible. The "nigger" in the barrel was a good hit, and well executed. The comic farce was rendered to perfection. Songs by D. Clements and Major Walsh were well received by the audience. Now we want to say this, better order was preserved that evening than usual, for which the managers shall always have the everlasting praise of a "protected public"

MYRTLE CREEK.

EDITOR REVIEW: The valley of Myrtle Creek is pleasantly located on the east side of of the Umpqua River at the mouth of Myrtle Creek. It is a small town but there is plenty of room for it to spread; all that it lacks to bring it into prominence as a manufacturing town is a few more capitalists, who are not afraid to invest their means and utalize the water power which is afforded by the two streams above named. Already has our little community been enlivened and the busy wheel of industry started in the right direction by an enterprising gentleman by the name of Drake. Having some leisure, your correspondent called on the above named gentleman a few days ago at his manufactory which has recently been started and the sights that we saw will long be remembered. The purpose of this establishment is to furnish labor to the to the poor man and to utalize the many natural products of this vicinity. On our right as we entered we beheld an immense frame work of wheels, pulleys, belts, and levers too numerous and intricate to mention. Mr. Drakeinformed us that this was the turners department. Also that there would be turned on short notice anything in size from the Pillar of Hercules to a cambric needle either in iron, steel, brass, copper or wood. He informed us that he had an order already to turn a rolling pin for the agent of the O. & C. R. R. at Riddles, and was going to apply for a reduction in rates on the O. & C. in view of the extensive business he was liable to get along the line of this railway.

On our left was a machine which we think will surpass all others in the business. After vain endeavors to guess what it was Mr. D. kindly informed us that it was an invention of his own styled, "The endless chasn canine reducer." On the top was an immense hopper which the animals were let into by a trap door from above in the apex of this cone two wheels armed with sharp blades revolved at the rate of 650 revolutions per second, of course the animals when let into this place would expire almost without pain, then by a variety of wheel fulcrums, sieves, etc., the bone, hair, eyeballs, and toe-nails were separated from the mass and the sausages come out in an endless chain stuffed in rubber hose which is sold either by the yard or pound. Mr. D. says that the idea for this machine was suggested by the dog law passed by our recent legislature which if enforced would cause the death and consequently waste of many dogs. He stated that he was now at work on machinery which would, when finished be the means of a still further saving in this line—a machine for cutting the hair and then to this he would add an upholsters department. He said that the claws would make fine glue and he thought he would add a glue factory soon. The eyeballs could not be utalized but the bone could be made into lime. Also he is at work on a soap factory adjoining which when done will furnish labor for several men, The building although presenting a rough exterior, is large and roomy and will furnish labor for many poor people.

Mr. D. is a man of large experience of undoubted varacity and ample means. He stated that no Chinese would be employed in the business except in catching the dogs; that he had found from experience that Chinaman with his wide pantaloons on never got bit while a fashionably dressed young man with tight pants was apt to get injured. He said if he could find any substance to change the color of the eyeball to a pea-green he should immediately proceed to can them for gooseberries and thus save the entire animal from waste. VERITAS.

Oakland Reform Club.

The first regular meeting of the above club (after the organization) was held in Brown's hall Friday evening Jan. 29th and was a grand success; over two hundred persons were present. Rev. E. L. Gittins, the speaker of the evening spoke well and was listened to attentively throughout. Being lately from Iowa he could speak of the workings of Prohibition there from personal observation, and declared it a success though it had not shut up the saloons in quite all the river towns. Mr. Gittins was strongly in favor of a temperance party.

The programme of literary and musical entertainments was good and was well received by the audience. The singing by little Sallie Tibbitts and Orville Tobias was heartily cheered. The Rev. I. D. Driver being present was called upon for a five minute speech and responded in one lasting about three fourths of an hour, but it was able and interesting. About twenty five new names were added to the membership of the club. The following motions were adopted: First; authorizing the president to secure a speaker for the next meeting. Second; appointing Fendel Sutherlin, P. B. Beckley and wife delegates to the meeting of the State Temperance Alliance at Eugene Feb. 17th. Third; Continuing the same committee on programme. The meeting adjourned to meet Friday evening Feb. 12th. E. T. LOCKARD,
Secretary.

EXTRAORDINARY.

A New Star Discovered In Roseburg.

The Star Restaurant, formerly known as the New Restaurant is again under the management of Mr. T. C. Ward, who announces to his former patrons and the public at large that this resort will be conducted on a first-class basis with everything in style—neat and clean. Meals at all hours, day or night. You get what you order and pay only for what you get.

PERCHERON STALLIONS. WHY FARMERS BUY THEM.—During these hard times, when nearly every farm product is so low in price that it hardly seems worth raising, we see many of our most intelligent and progressive farmers, who have not hitherto been interested in horse breeding, buying finely bred high priced Percheron stallions. This to many is a source of astonishment, but is the result of observation that large, well-formed active horses always have been, and necessarily must continue to be, in active demand at large prices on account of the scarcity in the United States of suitable stallions for their production, all such having to be imported. The yearly increasing demand for such stallions is the best evidence that such investments are profitable. And to this fact is due the developement of large importing and breeding establishments, notable among which and largely exceeding all others is that of Mr. M. W. Dunham's "Oaklawn Farm," at Wayne, Illinois.

ELKTON NOTES.

February broke in upon us very pleasantly Monday morning after a three days almost continuous rain.

Coyotes and jack-rabbits are "non sunt" in this part of the country to the great satisfaction of sheep raisers and farmers.

Old father Smith was in town on Friday last. The old man appears quite hale for his age, he says stock up on the mountain are doing finely.

Will and Jimmy Beckley and Frank Kent came down from Drain on Saturday but were unable to return Sunday as they had intended on account of high water.

Levins boys are said to have lost seven or eight hundred head of sheep since shearing last fall. Considerable losses are also reported from other parts of this valley.

The log boom above town broke on Sunday night last and some two hundred logs passed quickly out of reach of the mill. This is quite a considerable loss to those interested.

A petition is being presented to and very generally signed by citizens in this locality asking aid from the government through Congress to open the Umpqua river for navigation from Scottsburg to this place.

Mr. Henry Beckley contemplates making quite extensive improvements in the way of barn and shed room the coming summer. He says he must have more shelter for his stock. Many others should follow his example.

R. E. PORTER.

Calapooia Notes.

Still it rains.

The Calipooia is about four feet higher than it has been this winter.

Mr. E. E. Barnard has gone to Oakland to attend school.

Miss Amanda Kerley spent Saturday and Sunday with her parents but will return to Oakland to-day where she is attending school.

Mr. William Deardorf and family have been visiting friends and relatives in this vicinity for the past few days. Come again Uncle Billy we are always glad to see you.

Mr. B. L. Barnard came home last Friday from Coles valley where he has been attending school and he will have to stay with us until the river falls so he can get across.

We are sorry to say that Mr. George Winniford had the misfortune of losing a very fine race horse which he got from Mr. J. E. Kerley but we understand that Mr. Kerley is going to help him bear the loss.

The surprise party at J. M. Ellison's and Mr. Winniford's was a pleasant affair, every thing passed off nicely, but the water and that we are not able to say which way it is to go but it is generally supposed that it would go down stream.

We are sorry to know that H. McNabb has gotten a little out of sorts about the items which has been written in this vicinity. I know there hasn't been anything written to make anyone mad or any thing of the kind and as H. is the most enterprising young man in this vicinity therefore it is naturally supposed that we have to write more about him than any one else. We write for the interest of those who can't stir around during this bad weather and we hope no one will get offended at what we have to say. We catch some of our items as they fly through the air but we don't write anything but what we are pretty sure is true. NOW-WITKA.

Proper Treatment for Coughs.

That the reader may fully understand what constitutes a good Cough and Lung Syrup, we will say that Tar and Wild Cherry is the basis of the best remedies yet discovered. These ingredients with others equally as efficacious, enter largely into Dr. Bosanko's Cough and Lung Syrup, thus making it one of the most reliable now on the market. Price 50 cts and $1.00. Samples free. Sold by S. Hamilton.

IN MEMORIAM.

Whereas: by the sudden death of our esteemed brother Oliver M. Beals who departed this life January 2nd A. D. 1886. South Umpqua Lodge has sustained a great and severe loss, made doubly so by his faithful record, christian character and kind spirit. His zeal and devotion to the Order has developed in our hearts for him a warm regard and brotherly love.

RESOLVED: That in the death of Oliver M. Beals each member of South Umpqua Lodge mournes the loss of a personal friend.

RESOLVED: That while we bow to the chastening rod we desire to express our deep sorrow and love in the death of one who so fittingly illustrated the cardinal principles that constitutes the foundation upon which rests the superstructure of our order and as an upright man entrenched himself in the hearts of those who knew him, thus forming a silver lining to the cloud that overshadows us.

RESOLVED: That we share deeply in the sorrow of the widow, children and relations of our deceased brother and tender them our heartfelt sympathy and commend them to the loving care of him who has promised to be a father and helper who maketh all things work together for good to those that love him and keep his commandments.

RESOLVED: That this lodge be suitably draped in mourning for the period of sixty days as an expression of our grief in the loss of our brother.

RESOLVED: That these resolutions be spread at large upon the minutes of the lodge, a copy transmitted to the family and a copy to the Roseburg papers for publication.

Attest.

I. WOLLENBERG, Secretary, JOHN L. ARSNER. Worshipful Master.

PRACTICAL SUGGESTIONS.

MR. EDITOR: Hearing some talk of reviving an effort to get a wagon road throngh the the mountains east of Roseburg and believing that great benefits would result from such a road, knowing the most accessible sources which such a road might pass in the first place the distance from Roseburg east through to the old Rogue river and John Day's wagon road on the east bank of Rogue river is not near as great as many suppose. The last thirty miles of this old road could easily be opened to the roads east of the mountains; a road could strike this old road a little south of due east of Roseburg on the bank of Rogue river; in the second place the cost of making such a road would not be over half as much as many might think; at the present time ask stock men with big pastures "how is your range holding out?" most of them would say in reply, it is not half as good as a few years ago. A road opened up east would give us a big summer range on the best of bunch grass. A certain cavalry officer after passing through this bunch grass country went to Ft. Klamath and told the other officers that Skookum prairie was set in Kentucky blue grass; in reality some grass there favors it, especially the seeds on tops so it resembles that grass very much. Such fine summer ranges would give us fine beef for fall and winter, also rest our home pastures, thereby enable us to keep more stock than at present, besides opening up a trade with the people east of the mountains.

Looking Glass Items.

Plows all standing still.

The wet weather still keeps the farmers in doors.

Mr. Hawn also has been very sick since Wednesday last but at this writing is better.

A grand soiree will be given at Looking Glass on the 12th, a good time is anticipated.

Mrs. Denning has been quite sick for several days past but is some better at this time.

The Carter brothers have purchased their old homestead and are going to settle down to be steady grangers. It is rumored that one of them intends to take a partner to share his joys and cares. We are inclined to think the boys mean business. Success attend them.

A couple of our noted nimrods took a trip over in the French Settlement on a hunting tour. They spent a week in the mountains, the trophies were two bucks, one of them was old and decrepid, when he saw the valiant hunters he laid down and gave up the ghost. For further information ask our friend Newt.

We attended the Referm Club and was pleasantly entertained. The exercises were excellent, the young folks did exceedingly well. There were several dialogues omitted on account of some of the participants being absent, the night being stormy and waters high prevented many from attending. The next meeting will be on Sunday the 7th inst at 11 o'clock A. M. when there will be a good speaker to address the people of this place on the Prohibition question.

The Plaindealer has fallen into a habit of making mistakes in some of its publications. One instance in printing the Secretary's report from the Looking Glass Reform Club, it gives the name of Miss Mary Denning as Sec. in stead of Alice B. Denning. Another instance it states that Mr. T. Strater died in Looking Glass Jan. 15th, at the residence of Mr. D. Gansau. The facts are Mr. Strater died at the residence of David Grenot in the French Settlement on Jan. 22nd, and was burried in Looking Glass burying ground on the 24th. The body was followed to its last resting place by a large concourse of friends and relatives. Mr. Strater was a young man well known throughout the county. He was cut down in the prime of life by the fell destroyer about a a year ago, he was taken with a cold which settled on his lungs and terminated in consumption and cut off his young life on the 22nd. of Jan.
