

ROSEBURG REVIEW
FRIDAY, APRIL 2nd, 1886.

MILITARIAN LODGE
No. 8, I. O. O. F., meet
on Saturday evening at
7 o'clock. By order of the S. G.

USION ENCAMPMENT, No. 9, I. O. O. F., meet
on the first and third Thursdays
of each month. Visiting brethren invited to attend.

LAUREL LODGE A. F. M. will hold
regular meetings on Wednesday at 7 o'clock
at the hall. G. A. BEATH, W. M.

EMPIRA CHAPTER, No. 11, F. A. M., hold
their regular communication every first
and third Tuesday in each month.

HOUSE TO RENT.—Any person desiring to
rent a house, call at once on Henry Easton.

ESSAY.—The essay read by Mrs. J. B. Horn
before the institute recently held in this
town on newspapers is in this issue, and is an
excellent production, and for kind words in
behalf of poor newspaper men who are doing
their best to elevate the people, we feel de-
voutly thankful.

COVETOUS CAUGHT.—Hannibal Smith, son
of C. W. Smith brought seven young coyotes
to town Friday last and the scalp of the old one
and received \$50.00 from the county for the
same. They were smoked to death in their
den and then dug out. They have the hon-
or now for coyotes, and all the sheep men
are correspondingly happy. Who next?

A PRUDENT JUDGE.—In the case of Mr.
Dumblough who was so badly frozen last winter
the County incurred a large bill of expense.
His rescue and attendance was \$221, surgical
care \$450, bringing to the valley and
care \$2625, amounting in all to \$3297.25.
Judge Fitzhugh by reporting the case to his
relatives in England succeeded not only in
having the County relieved from this expense but
in having Mr. D. provided for in the future.
This shows the characteristic prudence of our
County Judge.

THAT MACHINE.—The agent of the Lamm
dry Queen, Mr. George Munsey washed at
his house and put out a washing in three and
one-half hours which would take my husband
and I ten hours hard work with a washboard.

MATRIMONY.—Our chief went to Corvallis
last Wednesday to solemnize the rites of mar-
riage between W. N. Marsters a leading
attorney of Portland Oregon, and Miss Lizzie
Bell of Corvallis. We learn that this couple
starts out on the voyage of life with all the
conditions, in position and accomplishments to
make a complete success. Mr. Marsters took
a five years course at Corvallis College, taking
the degree of A. M. and Mr. Marsters, mas-
tered all in the whole curriculum. Abundant
success to you.

DEGREE CONFERRED.—We are under many
obligations to the Hindecker for the following
notice: The Board of Trustees of Oregon
State Normal School at Monmouth at their
last annual session, upon the recommendation
of the State Board of Education and the
Faculty of the normal school conferred upon
Rev. J. R. Nell of this city the honorary degree
of Master of Arts, for distinguished merit. Bro.
Bell backed up a few months' study of con-
ferring the degree in income, and as his work
has been a purely literary character he has
received this distinction that is seldom made
especially by Oregon Colleges and high schools.

THE RAIL ROAD SURVEY.—The project of
the survey and location of the line of a rail
road from Coos Bay to a point near Hamlet-
ton is being pushed steadily forward. The
money market in this portion of Oregon has
never been so stringent as at the present time.
Many men in ordinary circumstances find it
almost impossible to call in money and there
fore—hesitate to subscribe stock. However,
the showing already made is truly encourag-
ing and by our next issue we hope to be able
to announce that all the necessary stock
has been subscribed. No enterprise for a number
of years has awakened so much interest among us.
If a good route shall be developed we have
no doubt capital will take hold and the road
will be built. The benefits to be derived there-
from will be simply beyond calculation. Not only
will the Emporia valley blossom as a rose but
it will become a garden of great value.

A BAD PRECEDENT.—Near our office last
week a little party scarcely in his teens held
with the aid of a sling shot one of the beauti-
ful birds of the cross-bird family that, as our
many readers know is a recent immigrant to
this country. Upon examination we found
that the bird was shot through the head and
that at a distance of twenty feet. These things
may be all right enough, but if one of those
elastic sling shots shoots hard enough to send
a pebble through a bird as large as a robin,
we very much doubt the propriety of allowing
boys to shoot such creatures. It is to be
wondered how many of these children, who
see people leave their ears to listen to a lec-
ture or sermon, or other exercises of the kind.
Prof. Crowther while attending his first tem-
perance meeting in this city was shot in the
right temple and it was with much difficulty
that he could sit up. These sling shots are
comparatively as dangerous among boys as the
leaden sling shot is among men and if we tol-
erate this now, the next generation will be sad-
ly peppered with sling shot men.

THE REFORM CLUB.—The attendance at
the Reform club last Tuesday night was large
the hall was crowded to its utmost capacity.
Going to the long programme in view, Mr.
Kimball did not speak as was announced.
The entertainment opened with the temperance
drama of the "Little Brown Jug" which was
very ably rendered, but we think those who
took part should be very careful and learn their
parts more thoroughly in the future when we
can truthfully say they will make a decided
success. Every effort should be made to pre-
vent prompting which makes it very unpleasant
for the audience as well as the actors. Messrs
Stimmins and Baldridge sang the solo "Star
bowed Watch Away" in an able manner. Three
little girls sang a temperance song which was
quite appropriate to the occasion. The close
of the entertainment was a farce entitled "The
Pull Back" which was very laughable indeed.
A trio by George, May and Mr. Langenberg
was excellent. Mr. Kimball was again chosen
to address the Club next Tuesday evening
when we predict a large attendance to listen to
this able and popular gentleman.

A NEW SCHOOL.
Residents of Roseburg and vicinity especially
young people both sexes please take
notice that a rare opportunity is afforded to
acquire a thorough knowledge of the latest
and most improved system of Phonetic Short
Hand at a school to be held in Roseburg.
As has been recently stated, "there never has
been in the history of Stenography a wider
field for its use, or a more urgent demand for
competent writers than at the present time."
The demand is constantly increasing.
Wholesale merchants of all classes, Man-
agers of Railroad, Telegraph and other cor-
porations, Bankers, Lawyers, Clergymen, and
men in every department of business have
realized the great saving of valuable time
effected by this art. To the young of both
sexes this field of labor, indeed, must be most
welcome; and there is every reason why they
should prepare and enter upon the work.
Other kinds of employment suited to them
are supplied, in this demand exceeds the
present supply. In addition to Short Hand, it
must be remembered that pupils attending this
school can obtain an accurate knowledge
from the ground work and foundation up of
Vocal Music, Book Keeping and Education,
and without the expense of books, and the
necessity of attending expensive schools away
from home, or interfering with either business
or school duties at home. To accomplish this
the school will convene on such evening or
evenings of each week as will suit all. Here
the principles of all branches taught will be
repeatedly stated in the briefest manner con-
sistent with clearness, and apply illustrated
one at a time, by engraved blackboard exer-
cises. Besides, every new principle introduced
will be scrupulously received, and copied, and
each pupil's work will be separately criticised
and discussed, until perfectly understood by
all. Persons residing away from town can
receive instructions by mail at same price as
those who attend in person. Persons desiring
instructions in Latin, Greek or Higher Math-
ematics will be required to pay extra. One
term will be of great value to each pupil, in-
asmuch as it will suffice to impart such a
knowledge of the branches enumerated, that
every one who desires can hereafter make
considerable progress without a teacher, and
will be enabled to devote what his or her ca-
pacities are for becoming an expert in one or
more of these specialties. See programme in
another issue. For terms and particulars
inquire of J. H. D. Marcelliani,
Principal
Roseburg, Ore.
