gland Homestead how he treats choking cattle. When a cow chokes on apples he pushes down the animal's throat a hand for this purpose a one and one-quarter inch rubber hose four or five feet long. When the hose is not very stiff a stick may be put inside to give it the required tension. The rubber being HOSIERY, TRIMMING &c. smooth, causes the animal no pain.

BOYS AND COLTS.

and range of intelligence of the colt. wanted when taken in hand for special "righted." Children he regarded as training is the hope of reward. The the totally depraved. His face was boy who expects to be a farmer, raising a few horses only, or a horse-breeder cadaverous, his look down-cast, and raising many, or any one who is neither sinister, his tread cat like, his voice of these, but expects merely to keep a team or single horse for his personal use, is interested in knowing what he may expect of the average horse. When may expect of the average horse. When the compound of saw filing and the colts are taken up from pasture for the winter—and we take this occasion to say that this should not be so long dolayed as to permit the young thing to feel the discomfort of the first cold blasts, much less to remain out in the snowstorm—it will be a etc., and made emphatic with such them over, and give their mental characteris- phrases as "I'll smash you" "I'll jerk tics a little careful preliminary study.
Having had their liberty during the summer, mainly away from the touch of he would startle his pupils by announcehuman hands, it will be easy to discover ing his intention to "take off their which individual colts will take kindly to the restraints that await them in their hides" asserting that if he did not "he winter quarters, and which will be apt hoped to squeal" or "to scratch gravel." and willing pupils in the lessons pro-posed. Older heads than boys' heads would be profited by giving more attention to the mental capabilities of the lary, and were ready, one and all, "to young horse stock coming on, as these are destined to cut so important a figure in the daily movements upon the farm Some horsemen teach that the brain of the horse can entertain but one thought at a time. We do not coincide with this idea, yet suggest that when the young stock is brought in they be tested in a very gentle manner as to tendency to timidity, or, on the other hand, the extent of their confidence in their keepers. - National Live Stock his hand till they rang with the "music Journal.

CARE OF THE TEETH. Food.

have ever handled. Eggs one setting \$4 two settings \$7 three settings \$9. The dentists are again flaunting the specter of toothlessness in the faces of the men and women of the future, and they claim as their reason that parents will not teach their children to properly masticate their food. They assert furthermore, that there is an excessive tendency to select meats that can be easily eaten, and so proper exercise is not given to the mouth and teeth; thus the latter become weak, the gums spongy and the lips dry. Of course, this may be exaggerated, but there is certainly much that is true in it. Witness the quickness with which a person will choose tenderloin rather than sirloin steak. "So much easier to eat," is the excuse. It does not have to be chewed me to caution you to keep close to my is the real reason. If the mothers will only give attention to this, how grateful will be their sons and daughters when middle age is reached, and they have cate labyrinth through which I am still a sweet, clean mouth and strong healthy teeth. Give a child food that needs chewing; forbid its being swallowed in lumps, and see that it is not done. Teach him to brush and care for his teeth, and there is no reason why they should not remain with him until they have performed the duty for which they were designed.—Delineator.

And I think as you chide and contend o'er

You quaffed the same strain in years past.

You spend your time scolding. He, good, no-Tush? no, I have started and I'll say my say If I do give you what you descree,

You'll bring him to time? I'll see if you do

While he's good and true and coolly does o I'm going to say ( you may hear and reflect flour, one tablespoonful each of cloves, cinnamon and all spice, half a nutmeg, one teacupful of raisins, one teaspoon-That young folks can't do just exactly like

THE PEDAGOGUE OF YORE. As Delivered before the last Douglas Conn-

ty Institute held in Roseburg, by Prof. H. J. Tobias: I am moved by an impressible desire to draw aside, for a moment the curthem out in biscuit, raise an hour and take one loving, lingering look at that most conspicuous, important personage gogue, and if possible, to seize upon commenced the study of this remark--E. H. Hanley tells in the New En able personage when I was younger by several years than I am new, when my locks were considerably thicker, my rubber hose until the obstruction is voice sweeter, and my step more elasforced into its stomach. He keeps on tic. Even when I was a beloved, cherubic, promising infant of eight summers, in that uneasy, enterprising, aggregation called the district school. The genus that presided over that nursery was a remarkable piece of humanity. He was bow-legged, crosseyed, Why Young Persons Should Be Interested crocked-kneed, humpbacked, and when It has occurred to the minds of but he looked at you he appeared to look few boys on the farm how much real, out from under himself, and if he had unalloyed amusement they can get by ever possessed any of the milk of hustudying the varying degrees, diversity man kindness, it had long since turned The most powerful incentive that can be sour. He started wrong in life and used with colts to induce them to do as at the age of forty years had not got

> encourage my juvenile feet to tread the path of fame by fondling my semiof the spheres." I believe that is what they call it. Sometimes he varied this slight encouragement by placing his hand on my coat collar and adjusting my interesting countenance to the different points of the compass several times in rapid succession, to my own edification and the great satisfaction of my fellow cherubs. I think I appreciated these slight encouragements; still my ardent nature required deep sympathy from my youthful companions. Now, having thus pleasantly introduced my subject to your favorable attention, it devolves on me to present to you, as learnedly as I can, the etvmology of the word pedagegue. Allow mental heels, in following me, for
