

"Gogue," you who are familiar with the laws of etymology know, upon strictly philosophical grounds, that the letters of a word, or a syllable become transposed permanently for reasons that, in some cases, seem almost unexplainable. Now, it is self-evident that in the root "g-o-g-u-e" the "u" and "g" have been thus transposed, that its original spelling was "g-o-u-g-e."

There are weighty reasons in favor of a different derivation of the syllable "gogue." These reasons lead me to infer that it is quite possible that the syllable had originally in place of the "g" the letters "h," that these letters according to the laws of euphony became in time changed to "g" hard. The word would then have been "pedagogue" or "boy-floger."

A half century since the common schools of the country, almost without exception, were in no flattering condition. Scholarship, experience, fitness for the work of the school room were not the considerations that usually decided the choice of teaching.

The only classes were in reading and spelling, the only object in their formation being to acquire accuracy in "toeing the mark." Ye pedagogues usually passed around the room two or three times a day to show the big boys and girls how to do their sums.

After these preliminary steps were taken, he filled his lungs, opened his mouth wide and irregular and seized upon each letter in turn, with a succession of monotonous, unearthly, diabolical howls, till the perspiration oozed at every pore, and his lungs collapsed.

But the shortcomings of "re ancient pedagogue" was due, a good deal to the circumstances by which he was surrounded. But little honor or respect was attached to the teacher's work. When a man proved himself incompetent for ordinary business, it was positive proof that nature intended him for a pedagogue.

when school was out. The teacher, over hearing the remark, "warms the wax in the ear" of the remarker, who, thereupon, resolves to lick "ye pedagogue" when he is "big enough."

It was generally understood that the quiet, solemn, sad eyed who whose toes adhered to the mark during the entire exercise was to be a missionary to the heathen when he became a man. But if "ye ancient pedagogue" was not remarkable for book-learning or ability to teach he was ingenious in suppressing the spirit of rebellion.

When a mere child, curiosity often led me to test his ability to eradicate juvenile rascality, usually to the complete satisfaction of my curiosity. On such occasions I was sometimes "tricked out" by the morbid taste of "ye pedagogue" with the most singular devices.

My tangled curls were shrouded in a fools-cap; my ears ornamented with spilt goose-quills; another spore quill was attached to the tip of my tongue; another still was appended to my nose, all the above members thus sharing in common grief.

One of my first teachers was an older sister. Her besetting weakness was a fear that she would be suspected of showing partiality to her little brother. Some vicious pupils knowing this weakness forged scandalous tales against me, when my sister showed her partiality for me by inviting me to the middle of the room, when she beat time for me and I danced.
