HOUSES TO RENT.—A good house to rent, with good rooms, well situated and all out buildings necessary. Apply to Mrs. Snyder, the dressmaker on Main street near the engine house.

SAD AFFLICTION.—Jesse Applegate, an old pioneer of Oregon, is rapidly losing his mind, and has to be continually watched at his home in Klamath county.—Sunday Welcome.

POLICE GAZETTE.—Would some of the authorities on the West Side explain how, right in the face of the law, the peanut boys are selling vulgar sheet on the trains. Better look a "fiddle out," some day you will come up shags.

THE HOG LAW.—There were 829 votes cast at the last election in Douglas county for swine running at large, and 727 against, therefore the hogs have a majority of 102 votes to root where they please. Three cheers for the hogs.

TEACHERS EXAMINATION.—A regular quarterly examination of applicants for teachers' certificates will be held in Roseburg on Tuesday June 30th, 1886.

STATE CERTIFICATES.—The state board of education has recently granted first grade certificates to Miss Ida Burnett, of Benton county, on examination, and to Edward S. Haselstine, of Jackson county, on like certificates from other states.—Statesman.

NOTICE TO NEW COMERS.—Readers of THE REVIEW who have located in this county since March 1885 will confer a favor, and hear of something to their advantage by sending their post-office address to the State Board of Immigration, Portland, Oregon.

ACCIDENT.—Last Sunday as the stock and stages for the new stage line at Grant's Pass were starting out from Roseburg one of the horses tried to run back when Albert Cole tried to head it, his saddle turned throwing him, and his horse ran off with the saddle. Fortunately Mr. Cole was not bit slightly hurt.

CORVALLIS COLLEGE.—The Corvallis Gazette does not seem to be in sympathy with the Agr. College in its midst. Of the whole commencement exercises and proceedings it had scarcely a word to say. Such a spirit is far from commendable in reference to local enterprises, as well as state interests. To entertain my brother, too narrow.

LETTERS.—A great many inquiries come to this office about our country and climate. A few specimens we publish this week in order that our readers may see the work that newspaper has to do for the benefit of the country and then some of our citizens do not appreciate the labor, and yet, we are glad to say, many of our citizens do, for which we feel thankful.

LIME.—W. G. Woodward who leads all in the harness and saddle business, is also fortunate in discovering a large ledge of first class lime rock. The test so far proves successful, and he will turn a small kiln in a few weeks in order to know beyond a doubt whether or not he has struck a bonanza. A fine marble vein is also discovered near Mr. Woodward's, so low cost on anything he undertakes.

A NICE HOME.—We were shown through the entire residence of Geo. Hayden this week. His house is delightfully arranged by a syntery of angles that almost causes one to pass through it. His groves of locusts, maples, catalpas, etc., are as radiant in their arrangement. All the appointments are felicitous, as well as unique, especially his gallery. To say the very least, he has a beautiful home and, at which he treats his friends most royally.

FARMERS READ.—To the farmers and fruit growers of Douglas county, Oregon, who patronize nurseries from abroad, when you can get a better variety at home. We have every variety of fruit, shade, and ornamental trees, shrubbery, etc. We are responsible for any quantity that we may make, and we will give you trees suitable to this section and warrant each and every tree just as recommended. To be remembered that true is grown in this climate and warranted true to name. North Western Nursery, located at Salem, Oregon. T. D. JONES, Prop.

Dart, of Pendleton. To be commissioner of deeds for Oregon, to reside at Walla Walla, W. H. Up-ton. To be notaries public, W. V. Lippincott of Myrtle Creek, J. E. Condon of The Dalles, Chas. H. Caulfield of Oregon City, F. R. Strong of Portland, and C. F. Beckus of Umatilla.

Last Monday was the longest day in '86 and the shortest night of '86 followed, there being only one hour of absolute darkness, from half after 11 o'clock P. M. to half after 12 o'clock A. M. Not many folks get up before day about now. Avoid, by all means, the use of calomel for bilious complaints. Ayer's Cathartic Pills, entirely vegetable, have been tested forty years and are acknowledged to be the best remedy for torpidity of the liver, costiveness, and all derangements of the digestive apparatus. Look out for the finest job press at THE REVIEW office in a short time that has been brought to southern Oregon. We shall soon be prepared to do the finest job work ever done in this county. Reserve your work until our type, press and fixtures arrive.

J. E. Ragon and Alpheus Fields have returned from their trip to Harney valley. Mr. Ragon speaks of the valley in glowing terms, and says the valley is about 60 miles wide by 90 miles long. The climate will grow splendid vegetables and is a great stock country.

The poorly formed and general features of Rev. J. R. N. Bell were noticed in town on Saturday and Sunday. Bell is always welcomed here. He is a man of the people and has the friendship of all.—West Side. "Kind words never die." Thanks, [ED. REVIEW]. The problem of bettering our school system can only be properly solved by having a better class of teachers—that is teachers who understand their work from a scientific standpoint. The State Normal School is preparing teachers for this high class of work, and should receive the support and encouragement of every friend of education.

DISTRESS AFTER EATING will not be experienced if a half-tablespoonful of Simmons Liver Regulator is taken. It is as good as a glass of wine after a hearty meal to insure good digestion, and is so used by the stomach, and unlike any other medicine, when its use is discontinued, the system is not left constipated. Anthony Comstock is making war on immodest advertising cards. We hope he will succeed in stamping them out. We have in Oregon a law prohibiting the circulation of "flash" illustrated papers like the Police Gazette. But there is no law against immodest pictures, and photographs and cuts which would put the Police Gazette to shame are exposed in the most public places with impunity.—Oregonian.

The Most Appreciable. As well as the most effective method of dispelling Headaches, Colds and Fevers, or cleansing the system, is by taking a few doses of the pleasant California liquid fruit remedy Syrup of Figs. 50c and \$1 bottles for sale by S. Hamilton. In the stomach develops an acid which stings the upper part of the throat and palate, causing "heartburn." It also evolves a gas which produces "wind in the stomach," and a feeling of oppression. For both this acidity and swelling Hostetter's Stomach Bitters is a much better remedy than alkaline salts, like hartshorn and carbonate of soda. A wineglassful of the Bitters, after or before dinner, will be found to act as a reliable cathartic or preventive. This fine specific for dyspepsia, both in its acute and chronic form, also prevents and cures malaria fever, constipation, liver complaint, kidney troubles, nervousness and debility. Persons who observe in themselves a decline of vigor should use this fine tonic without delay.

From Gardiner. DEAR REVIEW: As times are dull and times scarce we took a stroll around town the other day to see if we could collect a few interesting notes. Entering the mill first place on our tour of inspection, we found that there were half a dozen chinamen making lathes; they, too, seemed to be industrious. For we saw none else. The mill is running fourteen hours a day, as the schooner, Peerless is lying in wait for a load of lumber, for some port in California. It is the only vessel in although another is daily expected. Strolling through the suburbs we noticed several neat and comfortable looking houses, one of which your old friend J. I. Enteser has lately purchased and moved into. As the shades of evening began to fall we retraced our foot-steps to the wharf and entering a boat, were soon out on the tranquil waters of the Umpqua. Gardiner, from our point of view, presented quite an attractive appearance; the hills in the background, rising abruptly and covered with evergreens seemed to make the picturesque dwellings stand in bolder relief, and present a more striking appearance than elsewhere.

Returning to our place of abode, recounted our adventures and otherwise spent a pleasant evening. Sunday morning the Sabbath School held out loud and clear, so we let our cars bring us to that place of worship, and came away with grateful feelings in our hearts that we were in a Christian land where such privileges could be enjoyed. As there was no programme for the afternoon Mr. Wade, our obliging landlord, took a party to the beach, which trip was enjoyed by all who were fortunate enough to be along. We noticed, among the other things in town, that the Mackay, our new Post Master had built an office adjoining his drugstore, and had assumed charge. We also heard that the Misses Leeds will soon take their departure for the city, to be gone several months. Their many friends will miss them very much, and hope they will soon return. ZEPHYRUS.

RESIGNED.—Prof. T. F. Campbell has resigned the Chair of Mathematics in the Oregon State Agricultural College, at Corvallis, and Prof. Wimberly, from the East, was elected to fill the vacancy by the Board of Regents. FLOWER DAY.—The last Saturday Statesman says, the W. C. T. U. ladies of Albany sent a bouquet of flowers to every prisoner in the penitentiary, last Wednesday. Each was presented with scripture or temperance quotation and words of encouragement to lead a better life. The Salem W. C. T. U. visited the county jail and insane asylum. They will visit the penitentiary to-morrow at 3 P. M.

Portland Visitors. The Prince of hoteliers, C. W. Knowles of the St. Charles Hotel, and his accomplished wife were the guests of this city yesterday. The Junior Band tendered them a serenade at the McClallen House on their arrival, which Mr. and Mrs. Knowles duly acknowledge with complimentary. Charles has more friends in Southern Oregon than you can "shake a stick at," and the reason is he treats the guests of St. Charles so superbly. Come again.

East Umpqua Items. Hay harvesting has commenced. Mr. S. J. Shrum's house is nearing completion. The spring term of school under the management of Prof. Duncan will close next Thursday. Master J. E. Atterbury while practicing gymnastics on a "char" fell and broke one of the bones of his right shoulder. One day this week Mr. Wm. Britt killed a large black bear. After he shot it he shut his eyes and ran and said good by to it. The arrangements and programme for the celebration on July 3d, are nearly completed, the grounds will be prepared next Saturday. A good time is anticipated.

FRED. We were pained to learn of the sudden illness of Mr. S. D. Chapman, and hope to soon learn of his complete recovery.

DEMONSTRATED.

EDITOR REVIEW: Please correct in next issue your account in last issue of my cow eating the contents of a night Keel's pocket book. That the cow (perhaps imagining herself the editor of a country newspaper) did completely clean out a pocket book is true. But that afterwards attached increased value to the cow and hunted her with a compass is not true. Of course soon after an election you could not be expected to tell things just as they are the change would be too radical, but we are in hopes you will do better afterwards and occasionally tell things as they are. I may have been seen that time with a compass but instead of trying to ascertain what exactly troubled you, you exceedingly before the election. What kind of a geometrical figure or trigonometrical angle would describe me politically so anxious were you to know that you repeatedly appealed to me through the columns of THE REVIEW to answer you. Pardon me for not answering you earlier but I wished to be absolutely correct and thoroughly satisfied in my own mind that I had the questions correctly solved. I could not demonstrate the solution to you at that time. The geometrical and trigonometrical solutions both give the same result viz 165 majority. You will find the demonstration in election returns for Douglas county June 1886. I trust this solution and demonstration is clear as mud even to your understanding. Of course in the solution of this problem many unknown quantities had to be considered and a value given them and then that value ascertained in accordance with the conditions of the problem. Among these unknown quantities was the value to a candidate of continued support by THE REVIEW. This value was represented by a and then in accordance with the conditions of the problem the value of a determined and found to be 165. Demonstration same as before.

N. E. BRITT. While Bro. Britt is working out unknown quantities, let him explain the general effect THE REVIEW had upon the general result in Douglas county. If it equals 165 majority for surveyor, what will equal the majorities for the Democratic ticket as a whole in Douglas county?

Yonocah Items. Hurrah for the Democratic ticket. Wild strawberries are about all gone. Uncle Jesse Applegate is improving slowly. The Red Hill turnaround is still on the go.

Haying is in full blast in this part of the county. The celebrated dog, Brimmer tree a squirrel last week, a fine dog. Dr. Scary will get through assessing in finding THE ROSEBURG REVIEW for the gentlemen.

I wonder if the young lady succeeded in finding THE ROSEBURG REVIEW for the gentlemen. Mrs. McClure is slowly improving under the skillful treatment of Dr. Harris of Lane county.

Crops are looking rather sorry in these parts. Wheat will all the way from nothing to ten bushels per acre. The last dish pan was found long ago, but the bucket that was tied to the collar tail and the deer skins that was tied to the collar tail have never been found.

The dance about two weeks ago was well patronized; the host and hostess were well pleased; and quoting the bogus Red Hill items to their guests. DICK.

Remarkably Cheap Excursion to the Sea. The Christian church at Portland gave an excursion over the O. & C. R. R. and the magnificent floating palace Olympian to the ocean and return, commencing June 30, and ending July 6, 1886. The tickets go to go and come for a week, giving either 1, 2, 3 or 4 days at the ocean at Fort Canby and Ilwaco at the mouth of the Columbia. A trip to the Cascades will also be thrown in for only 50 cents junior grand weather, James F. Robinson, of Eugene; grand treasurer, D. C. McKeen, of Portland, and grand secretary, E. J. Babcock, of Salem.

Grand Good Templars. On Wednesday the grand lodge, I. O. O. G. T., met at the hall of the G. A. R., Portland. Z. T. Wright, the only nominee, was unanimously elected grand master of Newburg, chief chaplain; Samuel Holson, of Newburg, grand councillor; Mrs. E. M. Vandervort, of Salem, grand vice-templar; J. E. Houston, grand secretary; re-elected; J. H. Lambert, treasurer; Jane E. Weelen, superintendent of juvenile temples; J. W. Webb, W. S. James, representatives to right worthy grand lodge to be held at Saratoga Springs, N. Y.; J. E. Houston and Z. T. Wright, alternates.

A Note. CHICAGO, ILL., June 16th, 1886. ED. REVIEW: I have been thinking of making the southern part of Oregon my future home and had rather fixed upon Roseburg. I can send me a couple of papers with a description of the town, suburbs and climate, I shall be thankful. Enclosed find stamps for same, direct to O. F. Godfrey, 901 West Madison St., Chicago Ill.

Entertainment in Texas. Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. K. Corley, who was so helpless he could not turn in bed, or raise his head, every lady said he was dying of consumption. A trial bottle of Dr. King's New Discovery was sent him, finding relief he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds. This Great Discovery for Consumption is for sale by all Druggists.

Furniture Stock for Sale. E. B. Berg, Oakland, Oregon, will sell his entire stock of furniture, including cabinet makers tools at cost. He prefers to sell the entire business stock and tools to some mechanic wishing to engage in the furniture business. Otherwise he will sell in lots to the citizens of Oakland and vicinity at bargain never before offered in this market. Come and obtain bargains. This offer will stand open to the public for two weeks only.

CRATER LAKE.—Capt. Arrington said "Ho, for Crater Lake!" this morning with his party, consisting of James Moore, Paul Mosher, W. W. Walker, L. D. Carlisle, Jake Lehner, and Creed Flood to be gone forty days, more or less. We hope to have good news from there. Boys be good to yourselves and look out for deer.

A man's ambition is satisfied only when he stands a little higher in the scale than his fellow men. One way to occupy a more exalted position is to climb still higher than the others and another way is to stand and kick the others down.—S. F. Norton.

DRAIN ITEMS.

Frank Smith has returned from Salem. Grant W. Harry came down from Roseburg Tuesday. A delightful shower on Wednesday restored nature to its former beauty.

Mrs. Maggie Beckley and Mrs. Brown of Elkton were in town Wednesday. Miss Lizzie Rapp, of Elkton has been visiting Mrs. L. McAllen of this place. Dr. J. D. Payton is now happy in possession of a little daughter. The Dr. steps high.

Protracted meeting in the Academy chapel begins this evening. May good and lasting work be done. Joseph Kirley is very proud and happy of late. Why is it? Why they have a little girl at their house too didn't you know it?

That alkali at the new hotel is an important factor our Paul thinks so at any rate, "but for goodness sake don't say I told you."

Messrs. James Friedman and Will Turrell of San Francisco spent a day of pleasure and recreation in our town recently rowing, fishing and laying.

Anton Lau who will be remembered by many as the insane man who was taken from this place to the State Insane Asylum is said to be recovering.

Messrs. Dolan and Winter two young gentlemen from Minneapolis were in town Tuesday giving as their reason for leaving the East they were "afraid of those cyclones."

Campmeeting over, those of this place who attended have returned home with renewed religious ardor and are still better prepared to overcome the evils of Satan.

Mr. J. Hunt living near this place came near being drowned recently while attempting to cross Pass Creek on the logs above the mill dam. In running and jumping from one log to the other his foot struck on a snag and he disappeared beneath the water, upon coming to the surface one of a party of fishermen near by threw him the end of a pole and was soon safely landed on terra firma.

The Oregonian. This paper is by odds the best paper in the great Northwest, and its editorials are equal to any anywhere. While the paper is Republican as without doubt, yet it has enough of independence about it to make politicians feel that a nomination is not always equivalent to an election. It is not a Blaine paper, it will support Blaine if nominated as it did before. We do not see men and things many a time as the Oregonian does, but this is no reason why we should not appreciate the efforts of good journalism even in our opponents. The character of its editorials, and particularly the number of last Tuesday, is not excelled by any of our eastern exchanges. Take the following subjects, "Self-made and made for self," "Washington Irving," "The fight with and legs," "The soldier in politics," "Emmett and Parnell," "The end of Satan" and "False teaching," and these would dignify any magazine, and would be acceptable to the most critical schools. Such questions discussed in our journals means to teach the people something, such reading is truly exhilarating, and will not lose its hold upon the intelligent public.

Grand Masons. The Grand Chapter of Royal Arch Masons convened at Masonic hall, Portland, Monday, about seventy-five delegates from various parts of the state were present. The following officers were elected for the ensuing year: Grand master, Col. T. B. Wait, re-elected; Col. John Kelsey, first vice, and Capt. U. E. Hicks, second vice commander; Dr. R. O. Ollson, suggested; Jennings Smith, grand marshal.

Col. L. F. Mosher was requested to furnish a copy of his address for publication. COL. T. B. WAIT, Presiding. J. G. CHAPMAN, A. A. Adjutant. We should have published the foregoing last week but deferred hoping to obtain Col. L. F. Mosher's address in full. It was reported to us whilst below as admirable and the organization of Umpqua Camp No. 6, headquarters at Roseburg was the most perfect. We wish this organization utmost success.

Elkton Notes. Haying in full blast. Blackberries ripening. Mr. John Smith has a new Buckeye mower. Mr. Rhodes and Mr. Kent have each a new Osborne twin binder. Mr. Frank Smith of Drain is at present in this part of the county.

Mr. and Mrs. P. B. Beckley of Oakland made a flying visit to this part last week. Miss Nancy Drain and Miss Etta Seymour of Drain were visiting in this neighborhood a day or two last week.

John Kent has returned home from Montana a very satisfied man. He is better satisfied that there is no place like home.

Miss Maggie and Master Phil Beckley of Oakland who have been visiting relatives and friends in this locality for a couple of weeks returned home last Friday, their cousin Maggie going with them.
