A. O. U. W. ROSEBURG LODGE No. 16, meets the second and fourth Fridays of each month at 7:30 P. M. in the Old Fellows Hall.

PHILARETIAN LODGE No. 8, I. O. O. F., meets on Saturday evening of each week at 7 o'clock in their hall at Roseburg.

UNION ENCAMPMENT No. 3, I. O. O. F., meets each month. Visiting brethren invited to attend.

LAUREL LODGE A. F. M. Will hold regular meetings on Wednesday on or before each full moon.

EMPIRE CHAPTER No. 11, F. A. M., hold their regular communications every first and third Tuesday in each month.

FIFTEEN COLLS.—John Dixon on North Umqua will show fifteen sucking colts against any other man's fifteen sucking colts in Douglas county for \$100.00.

HOUSE TO RENT.—A good house to rent with good rooms, well situated and all out buildings necessary.

The new county officers will take their seats next week, while the present incumbents will retire, and we say without hesitation these men retire with honor to themselves and their constituency.

COGS FOR SALE.—Stephen Linnbeck has two fresh cogs for sale, at reasonable prices. Inquire at THE REVIEW office or Mr. Linnbeck himself, about one and one half miles south of Roseburg.

MINSTRELS.—The Baird Minstrel troupe for good music is a success, the balance is decidedly snide, and Mrs. Baird is a great feature as business manager.

HOME AGAIN.—We are pleased to see the smiling countenance of our friend C. B. Wilcox on our streets again, he has just returned from a trip up Salt River, Charley says he left the rest of the boys still up there and they are living on "qualls that cost two dollars each," wonder if they get them from the calopauca.

NOT INVITED.—"Why don't you trade with me?" said a dose-fisted tradesman to a publisher, the other day. "Because," was the characteristic reply, "you have never asked me, sir. I have looked all through the papers for an invitation in the shape of an advertisement, but in vain, I never go where I am not invited sir."

THE BIBLE.—Miss Annie Kent is now engaged in canvassing for the Childs Bible. Miss Annie is a most excellent canvasser, and the work she represents, is by far the best arrangement of the Scriptures for study we have ever seen and is adapted to all we are young.

STATE UNIVERSITY.—The State University at Eugene has enjoyed an unusual degree of prosperity during the past year. The prospects for the coming year are even more favorable than last. Let any who contemplate sending their sons or daughters from home to receive a higher education, consider the facilities which the University affords. Read the new ad.

COME HOME.—Frank Hamilton son of Dr. and Mrs. Hamilton of this city came home last Saturday from Astoria, on a month's vacation. Walter has gone to Astoria to preserve the induction during his brothers absence. Frank's many friends here shake him up quite lively when they meet them, he having been absent this time two long years. Now girls "get" it.

PARALYSIS.—J. D. Enright foreman of the telegraph line of repairs, was stricken with paralysis last Sunday night about twelve miles west of this place on the Coos Bay line. On Monday he was brought to the Cosmopolitan hotel where he is receiving medical aid at the hands of Dr. Graham. All attention is given him that can do him any good. He lives in Portland and has no family.

STAGE ROUTE.—Robt. McCullough the stage contractor from Roseburg to Canas valley distance 33 miles, will take charge to-day. It is tri-weekly, leaving Roseburg on Monday's Wednesday's and Friday's returning the alternate days. The Bowens have just completed a new back for this route which is beauty and Davis the painter gave it the finishing touches. Ho for Canas, hold the ribbons Robert.

EIGHTY DAYS OLD.—Joe Carlson has with him a doubt the finest piece of organized horse flesh, that was ever seen in Douglas county, in the shape of a colt 80 days old last Monday. It was sired by Clyde the best made horse perhaps in Oregon, and whose pedigree is unquestioned. About two miles from town at the Howe place, Joe will take great pleasure in showing a large number of fine colts, and mares, to any one who is a lover of horse flesh.

ALL ABOARD FOR COOS BAY.—We understand that our Yankee Doodle Band and Minstrel Company are making preparations for a trip to Coos Bay, on or about the 16th inst, for the purpose of giving a few entertainments and otherwise enjoying themselves among their friends in that section. We are satisfied that the boys will have a jolly good time among the hospitable people of Coos county, and we will also say, that our friends on the bay will be favored with as good music and as fine a minstrel performance as they have seen for many a day.

FARMERS ROAD.—To the farmers and fruit growers of Douglas county, Oregon, why patimize yourselves from alcohol, when you can get a better variety at home. We have every variety of fruit, shade, and ornamental trees, shrubbery etc. We are responsible for any guaranty that we may make, and we will give you trees suitable to this section and warrant each and every tree just as recommended. Remember that every tree is grown in this climate and warranted true to name. North Western Nursery, located at Salem, Oregon.

T. D. JONES, Prop. Chase & Ford, agents, Red Front, Roseburg, Oregon.

It leads the list as a truly scientific preparation for all blood diseases. Do not forget that the State Teacher's Association meets at Vapina City next Tuesday, Wednesday and Thursday. Let everybody get ready and go. Mr. McRoy is at the helm, and that is equivalent to success. No injurious effects can follow the use of Ayer's Eye Cure in malarial diseases. It contains specific and unfailing antidote for miasmatic poisons, with remedial agents which expel the poisonous humors, purify the system and leave it healthy and reinvigorated. On page 40 of the Oregon State University catalogue will be found the law in respect to county scholarships. Everyone should examine well into these requirements before making application. The law is equitable and just and none need go without a good education. As we understand the work of a Normal School is not only a school in which to educate teachers, but its advanced methods of instruction make it the best place for every person to procure a good, practical education. If you wish to know more about it, it would be well to send to the State Normalist at Monmouth for a catalogue. Mr. Geo. Deale, of Coos Bay, who is visiting friends and relatives in this county for a few days gave us a call last Tuesday and subscribed for THE REVIEW. He is an old time friend of ours. He says his brother Graham has recently returned from San Francisco where he has just finished the course in the Business College. G. A. Taylor is a good one. We handled him our call for printing for Bird's troupe, and told him to collect, and in fifteen minutes he had the whole show at his command, and they panged. They refused us twice, but Gus's portly appearance brought them to time, or rather they saw fire in his eye and they succumbed. Thank you Mr. sheriff. H. W. Scott, Messrs. Fittick, Callwell and Irvine of the Oregon staff were in Roseburg last Saturday night. They were on a recreating tour through the hill country of Southern Oregon and to get a fresh breath of our healthful breezes. Our citizens called on these gentlemen, and all seemed glad to see each other. Now brethren do not fail in making up your "notes of Oregon" very well to say a word about old Douglas, which has furnished Portland with her best and most brilliant talent. Don't forget us. What renders tea strong and of even quality? The rays of the sun which have fostered the tea-plant through its early imperfect stages to maturity and ripeness. Can an article of this class be secured with absolute certainty? Yes! "Sunbeam Tea," just imported only by Mr. Abraham is an article natural, uncolored, strong, and pure. To these qualities it adds unsurpassed aroma and pure delicacy of flavor. "Sunbeam Tea" can only be purchased in the Perfection Tea Can—an absolute guarantee that each of its qualities are preserved in the highest degree.

A REPUBLIC THAT FEARS ITSELF CANNOT SURVIVE

A few days ago the French Government saw fit to expel from its territory to Scions of the Houses of Orleans—Bourbon and Bonaparte. The decree was a perpetual exile and for what? Simply because the Count of Paris and his sons were born of the Orleans—Bourbon House and Jerome and his son, Victor Bonaparte were related to the great Napoleon Bonaparte. As a citizen of a great and wise Republic we look upon this action as fraught with distress to France. The Count of Paris was known as the most indolgent and forgiving man that lived within the province of the Seine. His sons were quiet, good, honorable citizens of France. There was no cause of fear from them. Of Jerome Bonaparte there could be no concern whatever. He is essentially a literary man and under the name of "Plon Plon," has written much that is interesting. He was without aspiration. As for his son, Victor it is different. He is disposed to be aggressive. Under the will of young Napoleon, who died in the English Service fighting the Zulus, he was nominated successor to the Imperial throne of France. He believes that he is entitled to it and he enjoys his expulsion because of the attention it invites. His farewell was characteristic of the Great Napoleon. It sounds much like the voice of "Plon Plon," "I go but to return." The Napoleon or Bonaparte House is not legitimate as that of the Count of Paris but it is far more popular. In no house or hut in France outside Paris is there the absence of the likeness of Napoleon the Great. His picture is almost worshipped. With this cause in the hands of the plucky Victor it is not improbable he will return again with England that overthrew him. He expressed grave apprehensions as to the result. He was a native of Maryland, and a little over seventy-one years old. He was one of the early settlers in Illinois, locating in Bloomington in 1836. He was a Whig in politics in his earlier years, but his political life was mainly confined to holding judicial positions. He was made Judge of the Supreme Court by President Lincoln, the appointment being purely a personal one on the part of the President, who had the greatest confidence in Judge Davis's integrity and political conservatism. Judge Davis was elected to the United States Senate in 1874 by a political combination which it was afterwards ascertained, was a Republican trick in order not to have him chosen as a member of the Electoral Commission, as it was generally conceded he would be if he remained on the Supreme bench. The Judge never became a very active Senator, though at one time he filled the position of President of the Senate and ex-officio Vice President. He generally voted with the Democrats, though occasionally he acted with the Republicans. He always seems to have regarded himself as a kind of conservative influence necessary to preserve the equisense between the partisans of both organizations, and usually did his best to hold things level. He was immensely wealthy late in life in Chicago and other Illinois real estate. He was one of the largest landholders in the state. He leaves a wife comparatively young in years, whom he married a short time before he retired from the Senate.—News.

HON. DAVID DAVIS

In the death of Judge Davis, of Illinois, who breathed his last on Saturday morning, at his home in Bloomington, Illinois, another of the old school politicians of the country has passed away. His death was not unexpected. Several weeks ago he was reported to be seriously ill with a carcinoma, and when first attacked he expressed grave apprehensions as to the result. He was a native of Maryland, and a little over seventy-one years old. He was one of the early settlers in Illinois, locating in Bloomington in 1836. He was a Whig in politics in his earlier years, but his political life was mainly confined to holding judicial positions. Auto Detention Policy

Give no encouragement to an immigrant, cheat all you can, betray confidence, get all you can and pay nothing for it. Charge exorbitant prices, boycott the mechanic, the shoe maker, the tailor, the washer woman, and everyone you can. The farmer should buy every thing he eats and wears, and have little to sell. The merchant should boycott the gardener and the farmer all he can, by locking up his store and becoming a producer himself. The stock raiser should put a big fire brand on his cattle and cut their ears off and cut their throats enough to make a large dewlap, knock off one horn, and turn them out to starve, and treat his other stock in proportion, etc. ECCLESIASTICS.

G. A. R. READ

Reduction for G. A. R. Grand Encampment at San Francisco August 2, 1886. The Oregon Pacific Railroad and Oregon Development Companies have issued a circular giving round trip rates from the principal points in Western Oregon to the above named meeting. These rates which are extremely low are extended only to members of the G. A. R. their families and members of the Woman's Relief Corps. Fare from Corvallis or Vapina to San Francisco and return \$16. If over 25 years a rebate of \$2.00 on each full ticket will be given thus reducing the round trip rate to \$14. These rates can be obtained at the Company's Station in Corvallis upon presentation of proper certificates for which apply to your Post Commander. Place your name on file as soon as you determine to go as there will be a rush at the last moment.

ERRATA

Our proof in last issue was not as perfect as it might have been. When in our leader we wrote that the President had appointed in Oregon a few untainted Democrats to barely remunerative offices, this word "bassly" takes the place of "barely." This was not right, no good Democrat ever accepted anything that was base. We also used a Latin quotation which translated into English meant "to go slow in order to make speed." When it appeared in the paper nobody could determine whether it was Greek, Latin or Sanscrit and in fact it is no manner of language whatever. We are glad of this mistake, for no intelligent writer editing a paper to be read by English speaking people ought ever to use any other language. It is rich enough to supply every reasonable demand and really contains more words than the average editor comprehends. In our local notice of the arrival of Mrs. Dr. Matthews of Louisville Kentucky, we are made to say that she was the mother of Dr. Graham of this City whereas in truth and fact she is the mother of Mrs. Graham. We are glad of this mistake also, because it gives us an opportunity to say that Mrs. Matthews is still with us, is delighted with our climate and is improving in health. What a blessing it is to have an opportunity to correct mistakes.

THE MOST AGREEABLE

As well as the most effective method of dispelling Headaches, Colds and Fevers, or cleansing the system, is by taking a few doses of the pleasant California liquid fruit remedy, Syrup of Figs. 50c and \$1 bottles for sale by S. Hamilton. J. C. Fullerton will address the visitors and citizens at Snowden Springs as fourth of July oration next Saturday. We have heard him, and he is good.

The Oregon Pacific Railroad and Oregon Development Companies have issued a circular giving round trip rates from the principal points in Western Oregon to the above named meeting. These rates which are extremely low are extended only to members of the G. A. R. their families and members of the Woman's Relief Corps. Fare from Corvallis or Vapina to San Francisco and return \$16. If over 25 years a rebate of \$2.00 on each full ticket will be given thus reducing the round trip rate to \$14. These rates can be obtained at the Company's Station in Corvallis upon presentation of proper certificates for which apply to your Post Commander. Place your name on file as soon as you determine to go as there will be a rush at the last moment.

ERRATA

Our proof in last issue was not as perfect as it might have been. When in our leader we wrote that the President had appointed in Oregon a few untainted Democrats to barely remunerative offices, this word "bassly" takes the place of "barely." This was not right, no good Democrat ever accepted anything that was base. We also used a Latin quotation which translated into English meant "to go slow in order to make speed." When it appeared in the paper nobody could determine whether it was Greek, Latin or Sanscrit and in fact it is no manner of language whatever. We are glad of this mistake, for no intelligent writer editing a paper to be read by English speaking people ought ever to use any other language. It is rich enough to supply every reasonable demand and really contains more words than the average editor comprehends. In our local notice of the arrival of Mrs. Dr. Matthews of Louisville Kentucky, we are made to say that she was the mother of Dr. Graham of this City whereas in truth and fact she is the mother of Mrs. Graham. We are glad of this mistake also, because it gives us an opportunity to say that Mrs. Matthews is still with us, is delighted with our climate and is improving in health. What a blessing it is to have an opportunity to correct mistakes.

THE MOST AGREEABLE

As well as the most effective method of dispelling Headaches, Colds and Fevers, or cleansing the system, is by taking a few doses of the pleasant California liquid fruit remedy, Syrup of Figs. 50c and \$1 bottles for sale by S. Hamilton. J. C. Fullerton will address the visitors and citizens at Snowden Springs as fourth of July oration next Saturday. We have heard him, and he is good.

WASHINGTON LETTER

Washington D. C. June 21st 1886. The summary disposal of the tariff bill during the past week is taken by many to indicate that the Congressional session will be of shorter duration than was supposed a week ago. But it is not impossible that the tariff bill may come up again. It would be strange indeed if the forty or fifty Congressional Bonhomers who have spent both time and money in the composition and purchase of speeches will be content to carry this pent up undelivered eloquence; but unless the pent up flood of tariff talk shall be let loose in the halls of Congress, the session will probably be shortened by from two to three weeks. The weather has been exceedingly warm, and members and senators are very anxious to get away from the city. The Senate is not disposed to give the President any rest but keeps sending up to him bills by the basketful, for his examination and approval. Saturday when he went to bed he had on his table 54 bills, the constitutional time for his examination of which expires on Monday, and he has not looked at one of them. There is another bill embracing as many more than will become laws on Tuesday unless he vetoes them, and still more on Wednesday, and it is scarcely possible for him to read the text. Thursday and Friday the Senate passed 212 bills, about half of which have gone through the House, and they will be dumped on his table to-morrow. Some of these bills are saved by their numbers. They would certainly be vetoed if the President had time to examine them. There is still considerable talk in political circles about changes in the Cabinet. There is a rumor, I give it for what it is worth, that Don M. Dickinson, of Mich., is to succeed to the place of Attorney General Garland. It is thought that the recent visit to the country of Hon. Robt. M. McLane, our minister to France, if connected with the Secretaryship of the Treasury Department, and that if, when Secretary Manning returns, he is compelled to tender his final resignation, Mr. McLane will be his successor. The Treasury Department is very ably managed at present by Assistant Secretary Fairchild who is carrying out many reforms that were commenced by Secretary Manning. The clerical force in the Sixth Auditor's Division of this department has been much reduced and there will be a still larger reduction on the first of July. It was at first intended to allow the dismissed clerks the fifteen days due them up to the first, but then it was thought that this time would be occupied in efforts for reinstatement, so, in order to prevent all annoyance and bother, the dismissals and appointments of successors will be made on the same date. The Civil Service Commission has furnished a list of names with which to fill the vacancies that will exist in the office on the first of July, so that the Auditor will be able to say to all those seeking reinstatement, that the vacancies have already been filled. The number to be dismissed is thought to be twenty-six at present to which number more or less will probably be added by the expiration of the month. Since Mr. McClellan has been the Sixth Auditor, there have been opened eighty-five vacancies in his office and the twenty-six or more yet to be made will bring the total up over one hundred and six—a third of the entire force. This is by far the best record of dismissals yet made in the department. Last week Mr. Hearst, of Mass. submitted a resolution proposing a constitutional amendment to provide that the term of the President's office and of the next Congress shall be prolonged until the last Tuesday of April 1889 instead of the present date of March 4th, 1889 but would otherwise expire on March 4th, 1889 shall continue in office until noon of the last Tuesday in April succeeding such expiration. The last Tuesday of April shall therefore be substituted for the 4th of March as the beginning and ending of the official term of the President. Vice President, Senators and Representatives in Congress. The most noteworthy social events during the past week were the two receptions given by the President and his wife, the first being a card reception to the army, navy, diplomatic and other officials, the last to the general public on Friday evening, which was probably the largest reception ever held at the White House. No other announcement was made than the one in the daily papers and in these the hours named were from nine till eleven, but at that hour there was such a line of eager faces anxious to shake hands with the President and his bride, that Mr. Cleveland sent word that he would see them all if it took until daylight. This was the last reception Mrs. Cleveland will hold until the opening of the next season and until then she will be at home only to see her personal friends.

Death of a Rhinoceros

New York, June 27.—Bomlay, the \$5,000 rhinoceros that arrived in this city a week ago died suddenly last night at 8 o'clock, in the pen at central park. A post mortem examination will be made. He had not yet been paid for, and had not been approved by the park commissioners, consequently the loss will not fall upon the city, but on Thompson the importer. The dead rhinoceros, Bomlay, weighed two and one-half tons. Three elephants this morning dragged the carcass from the pen cage where it lay, away on to the track which carried it to a retired spot where the post mortem was held. The brute died of pneumonia. The skeleton and stuffed hide will be placed in the museum of natural history.

LATE EXCURSIONS

DEAR FRIEND: You will no doubt be glad to hear from me and other excursionists who arrived at this place only a few days ago. You know I expected to sail on the steamer "Democrat" from Roseburg on June 30th but owing to a misunderstanding with parties in Multnomah county, the aforesaid vessel did not sail and as I was ticketed "through" and fare paid there was no use "kicking" so I had to "change boats." I tell you it was "agin" the grain, not so much against the boat, but the company I was forced to keep. There was T. Cornelius, Judge W
