

ROSEBURG REVIEW

FRIDAY, AUGUST 20, 1886.

In last week's issue we stated that S. W. Striker had gone to Egypt. We did not mean that far away land but Egypt in Oregon.

WATER WORKS.—How much our citizens need water for sprinkling yards and lawns. It would add health as well as beauty to our city. Let us have them at an early day.

INSANE.—W. H. Delano, deputy sheriff of Lane county, brought Elias King, an insane man, to the asylum on Friday. There are now 425 patients at that institution.—Statesman.

BLACKBERRIES.—Blackberries carefully boxed and delivered at the express office in Salem for 20 cents per gallon. Address all orders to A. W. Strange, Salem, Oregon, or apply at THE REVIEW office.

COMPLETED.—The wagon bridge across Rogue river, at Grants Pass, has been completed. This bridge was built by the appropriation made by the legislature at the special session. The new court house and jail there have also been completed.

FIRE! FIRE!—On the night of the 12th inst., the Hubbard Creek shingle mills, Jordan & Himes proprietors, with seventy-two thousand shingles belonging to J. J. Himes was burned, a total loss. No insurance. Supposed to be the work of incendiary.

WAR OVER, PEACE MADE.—The war is over in Europe, and the Cotton crop in Mexico is about settled, therefore peace reigns supreme, and will during this wheat season. Hence all farmers should sell in the best markets, and at the best prices, and whenever they get ready.

AMPUTATED.—James Bean of Myrtle Creek whose left hand was given him trouble for four or five years cannot be amputated, had it operated upon some few months ago, but now it is discovered that the entire hand will have to be amputated, which will be done to-day by Drs. Graham and Hoover.

FIRST JEW IN AMERICA.—A Jewish paper tells us that the first Jew to come to America was one Columbus's sailors. His name was Louis de Torres and his chief qualifications seem to have been that he understood all the Semitic languages. He and Rodrigo de Gotoz were the first men Columbus sent on shore.

FOUR STEAMERS.—It is understood that four new steamers are to be run out on the route between Yreka and San Francisco, of speed to make the trip in twenty-two and a half hours. This will insure nearly all the travel in this valley over the Yreka route as the ocean travel is so much shorter than the route by way of Portland. It is also said that the road will be straightened so that 35 miles an hour can be made over it right along.

VISITORS.—Captains Dutton and Davis were in Roseburg Monday with their pack train mineralogizing and finding out for their general patrons. These gentlemen are doing good work for the government and for our people in this section. These are the men who sounded Crater Lake recently the greatest natural wonder in the world, except possibly that of the great Colorado chasm, which is 210 miles long, 10 miles wide and as much as 6,500 feet deep.

ANOTHER BRICK.—Parks and Taylor (Gus) will open out in a first-class grocery and general merchandise business just as soon as the new brick is completed on the lot where Parks & Son now keep. The work will all be complete by December if no bad luck gets in the way. Until that time we are authorized to say that Parks & Son will sell nearly the entire stock of first class goods now on hand at cost. Call and get a bargain at once. We will speak of the new firm in the near future and tell you what we think.

CAME HOME.—Congressman Hermann returned home last Tuesday evening. The citizens of Roseburg would have been pleased to have expressed their recognition of his services in Congress by a public reception, but owing to the gloom cast over his family and friends by the late death of his son, the friends had to forego this honor for the present at least. We take occasion to say however, that Mr. Hermann's labors have not been unavailing by his constituency in Southern Oregon.

PIONEERS ASSOCIATION.—A number of citizens of Walla Walla have organized a pioneer association, the jurisdiction of which embraces all that portion of Oregon, Idaho and Washington lying east of the Cascades. The membership is composed of persons, male and female, who settled in the country included in these boundary lines prior to January 1, 1863, and January 1, 1866, are eligible to honorary membership and are accorded all the privileges incident to such an organization, save those of voting and serving on committees.

RICH PLEAS DIGNITIES.—News comes from Idaho City that new and rich placer diggings have been discovered in Long valley. The accounts of their richness is almost fabulous, and they are said to be equal to anything ever discovered in the famous Boise basin. As a result, a general exodus from the basin is made to Long valley, where the best of "being gone in a small way on the tributaries of the Payette and south fork of Salmon river, in that vicinity, but the returns have not been very large. The new diggings are said to be on Spring creek, a tributary of the Payette.—Telegram.

FARMERS READ.—To the farmers and fruit growers of Douglas county, Oregon, who patronize nurserymen from abroad, when you can get a better variety at home. We have every variety of fruit, shade, and ornamental trees, shrubbery etc. We are responsible for any guaranty that we may make, and we will give you trees suitable to this section and warrant each and every tree just as recommended. Remember that every tree is grown in this climate and warranted true name. North Western Nursery, located at Salem, Oregon.

T. D. JONES, Prop. Chase & Ford, agents, Red Front, Roseburg Oregon.

HOME DEPARTMENT.—From many sources it is ascertained that THE REVIEW is as welcome a visitor to the young readers as to many older ones. It is refreshing to know that the purity of our columns has recommended the journal into so many family circles; for hardly a day passes that many orders are not received for THE REVIEW for new subscribers. When our subscription and advertising list will have so increased that we can well afford to double the present size of THE REVIEW, we shall be pleased to publish "A Home Department" weekly. Until then we shall do the best for our young people that our space will permit. This week we have had written for them, "How Assaying is done," which will be found elsewhere in our columns.

Walter Jackson, that irrepressible Oregon traveler was in town Saturday with his Florida Oregon cigars. He gets always represents the best, therefore he gets the trade.

Burning up straw stacks and grain fields in the Round Prairie county is quite alarming, and it is possible there is some meanness at the bottom of it. Better look a "lecille out." The Clements Restaurant was opened last Saturday by Mrs. John Clements one door south of the Roseburg grocery on Jackson street. We speak for her a liberal patronage.

Those high crosswalks in the streets are a great nuisance which should be abated at once by the city council at street obstructions. When will the people learn how to build walkways.

President Tilden's princely bequest of two-thirds of his immense fortune will prove as envied a monument to his name as could be devised. The great man was far sighted even in contemplating the survival of his reputation after he no longer could guide it personally.

The appointment of Gen. Thos. G. Reames as postal inspector of Oregon, is one that reflects credit upon the administration and on the party. Mr. Reames resides in southern Oregon, is an old and respected citizen and well qualified for the position and a Democrat.—EX.

At the next regular meeting of the county court of Lin county the question of raising the school superintendent's salary will be taken into consideration. Since the Supt. has to devote his entire time to the duties of the office, it is but right that he should be properly paid.

Mr. Albert Parker's place at Rice Hill, Aug. 15, was entirely destroyed by fire on Wednesday last. The neighbors saved his house and barn, but it burned clean every thing else. Mr. Parker has the sympathy of the whole community. The fire originated from burning trees.

The roofs of all our houses should be painted. It is security against fire, it gives durability one third at least, and adds beauty to a house with the roof not painted, resembles a man standing by the street, or on the hill without a hat on. Paint the roofs of your houses by all means.

Pennyroyal since his election as Governor has shown a weakness for picnics, and the people can rest assured that he will keep it up, and have a regular picnic investigating the various and multifarious jobs and steals, like the fish ladder, swamp land, etc., during the coming session of the legislature.

Last week Messrs Rogers, and Gates of this city, and Barker and Britt of North Umpqua were hunting they killed a large conger which, it is reported, weighed about 200 pounds. The supposed mate of the deceased was killed a few months ago and it is believed that the North Umpqua in that region is rid of panthers for the present.

There is bad news for defaulters and dynamiters. A New treaty of extradition between the United States and Great Britain has been negotiated, and will soon be sent to the senate. By the terms of this treaty Great Britain is to surrender our defaulters who rush off to Canada, and we are to surrender the dynamiters who commit outrages in the British dominions. This will be equitable all round. But defaulting and dynamiting will be such pleasant pastimes.

James A. Cardwell the Bronze monument man has just come to Roseburg from the French Settlement cemetery where he has erected a fine monument over the grave of Ueche Hart Woodruff an old Mexican soldier. This piece of bronze work is pronounced by all who have seen it as being the most appropriate in design, and beauty of finish of anything yet produced. This work gives entire satisfaction to all whose mournful pleasure it was to perpetuate the memory of the old hero.

Will our Republican friends, who have so much to say about what congress did or did not, please remember that the senate was largely Republican and acted very effectively as a check on both the house and president, and that whatever shortcomings there are, they must take a full share. The Democracy of this country can never carry out the reforms demanded until both branches of congress and the executive department are placed in its hands. If there has been an eight months' useless session, the Republican senate is responsible for it.—Weekly World.

"The entire legal talent of the interior department has been devoting most of its energies for the last two or three weeks to the solution of the complicated question arising out of the swamp land controversy in Oregon, California and other western states. Three hundred thousand acres are involved in this controversy. Two special agents, one appointed by the government and one by the state of Oregon, reported that 92,000 acres in that state alone, and 45,000 acres that Oregon claimed, was returned as dry land and as belonging to the government."—Hannay Items.

CONQUEROR COLE GOMING

SOME STRIKING CIRCUS INNOVATIONS!

REAL HIPPODROME CARNIVAL

—AND—

DR. W. F. CARVER'S

Famous "Wild West"

Approaching events are said to cast shadows before and smelt at least appears to be the case with the forthcoming visit of W. W. Cole's New Colossal Shows, which exhibit here Saturday Sept. 4th. Probably the approach of no other tented exhibition has ever attracted such widespread interest in this vicinity as have the announcements of this engagement. In short, the idea is prevalent that Manager Cole has completely outdone all of his previous great efforts, and some strikingly novel innovations can be anticipated. Fully alive to the requirements of the times, and with a determined purpose to present attractions that have never had a counterpart in this country, Mr. Cole, immediately on the close of his season last November, dispatched a number of trusty agents to Europe in quest of novelties, giving them carte blanche to pay any price, providing the feature possessed sufficient merit and had never been seen in the United States. The result has been that Manager Cole has collected the most brilliant group of circus stars that have ever graced the arena of Europe. Not only is Mr. Cole's personal of performers rich in celebrities from the old world, but he has also imported and noted American artists likewise dispatched themselves under his imposing tents. The menagerie department has not been neglected in this general burlesquing up process. Every Cunard steamer that arrived in New York during the months of February and March brought important acquisitions for the Colossal collection. Prominent among the calling features of the show is a sumptuous revival of the Hippodrome sport of ancient Greece and Rome, and which is said to be the most signal reproduction of classic racing carivals of contemporaneous times. Exciting struggles between a \$30,000 stud of English and American thoroughbreds take place of every performance on the enormous hippodrome track. This race course is also brought into requisition for the presentation of a series of frontier scenes by Dr. W. F. Carver's unrivaled "Wild West" combination, comprising 100 scouts, cowboys, Indians and Mexican desperadoes to present a variety of scenes of the capacity of his tents in this city can be set down as a certainty.

A GRAND OFFER.

That China is Arming for a War With America.

CHICAGO, Aug. 17.—A report which reached here yesterday is that the Chinese Government is increasing its armament in great haste. This is looked upon with no small degree of suspicion. It is interpreted to mean that the Chinese Government proposes to take advantage of the opportunity while the United States is on the verge of a crisis with Mexico, to force the Government through American interests in China, to pay the Chinese Government \$10,000,000, as proposed by the late Congress, as indemnity for depredations inflicted on the Chinese at Rock Springs. The Chinese Government at one time made a peremptory demand for reparation growing out of the tragedy, which by the failure of the passage of the bill, was never granted. The fact that such great arms is manifested in obtaining a supply of arms for China, seems strongly to favor the theory of a possible warfare upon Americans and American interests in that country, with a view to bringing about a recognition from the Government of this demand.

DISPATCHES.

Yankee Doodle Band.

The Yankee Doodle band, on Sunday morning for Roseburg, taking with them the good wishes of our people on the bay. The townsmen on Friday evening was thoroughly enjoyed by a large audience. The music was most excellent and was highly appreciated, and the minstrel performance was in good taste and very amusing. There was no attempt at the absurd caricature of the negro race, so common in minstrel shows, and the low obnoxious epithets and jokes, which are the stock in trade of many traveling troupes, were entirely absent. This speaks volumes for the boys and entitles them to the respect of all decent people. The party on Saturday night was well attended and was composed almost entirely of young people, and nice young people. The hall never looked brighter than when filled with merry dancers all in the joy of life's morning.—Coast Mail.

Curf of Thanks.

ED. REVIEW: Please allow me space in your valuable paper to express my thanks and that of my family for the kindness manifested during the two months that I have been disabled and especially for the liberal donation made up as a surprise on the 12th, consisting of a purse well filled with coin, presented by Hon. D. W. Stearns, Dr. C. P. Devore, Dr. Page and Diamond, A. C. Young and many others who so liberally contributed, and thank you for your kindness and sympathy. "A friend in need is a friend indeed."

S. K. RAYMOND, OAKLAND, OR., Aug. 15th, 1886.

A Naturalist who arrived in Portland yesterday had a rare and beautiful snake, which he had captured alive and at a considerable expense. At the depot the snake escaped from the box it was imprisoned in, and was killed by those who were in that vicinity. The naturalist now threatens to sue those who killed his lengthy pet. He says he would not have taken \$200 for the reptile.—News.
