

ROSEBURG REVIEW

FRIDAY, SEPTEMBER 8, 1886.

WOOD WANTED.—Two foot wood and stove wood wanted at THE REVIEW office on Sub. description. Bring in your wood, and do not let us freeze.

BOOTH.—Crater Lake roads, Coos Bay railroads, water works, wooden mills, with a few more suggestive enterprises, such as a new school house, City park etc. etc., will make Roseburg loom in the near future.

DENTAL WORK.—Have you any old teeth that won't fit, any teeth that needs filling, or teeth extracted and a plate put in the next day? Our dentist, Dr. Davis, in Roseburg is the one to do it, cheaper and we guarantee as good as in Portland.

TO REMAIN.—We are pleased to state that Mr. Pague, signal service officer at this place, received orders this week to remain permanently at this station. Mr. and Mrs. Pague have taken quite an interest in our local society here and are correspondingly appreciated.

BAD MANNERS.—This misbehavior at church almost every Sunday is a shame. Dear young people, you say that you go to the dance to learn manners, but you fail to practice at church what you claim to have learned in the dance room. We are sorry for you, you will you desist?

A CURIOSITY.—A botanical curiosity in a garden at Earling, Eng., is a rose tree whose blossoms are entirely green, the flowers, in fact, being composed of similar leaves to the ordinary foliage. This is evidently a reversion to the earlier stage of terrestrial plant life in which flowers had not yet become specialized organs.

A GOOD WORD.—Roseburg held a meeting on the 1st inst. in the interests of a wagon road from that place to Crater Lake. Wagon roads are the friends of the people. As the land becomes rich from crops allowed to remain up, so does a county get rich by patronizing wagon roads for they leave all the money paid out along them, among the people to their benefit.

SAD ACCIDENT.—One day this week while Oliver Vincent of Sam's valley was hauling wood near his place the rope attached to his brake bar broke the sudden jar throwing him to the ground and striking on his head, his neck was broken. One of the hind wheels of the wagon also passed over his body but the first fall was no doubt the cause of his death. Deceased was over 50 years of age leaves a family.—Oregon Sentinel.

THE PUBLIC SCHOOL.—The public school of Roseburg will be opened next Monday with a full corps of teachers. Remember that the school is free to all children who are residents of this district and are between the ages of four and twenty years. If possible let your children commence with their classes at the beginning of the term. A thorough education received early best qualifies children for the responsibilities of life.

READ THIS TOO.—The Unquie River railroad project moves ahead in good shape. Sufficient funds have been secured to complete the survey, and it is hoped to have the surveyors in the field within ten days. The details of the organization of the company are not yet completed, but are being arranged as fast as possible. This enterprise seems to be touching the latent energies of our people; they are taking hold of it with a will. Let the ball roll on. We must have a railroad to the coast.—Drain Echo.

GOOD BYE.—Abbie and Maurice Abraham start this week for the University of California. Abbie has a certificate from the faculty of the State University as to his proficiency, and Maurice boys are highly recommended by the University and the County Sup't. F. W. Benson. Abbie goes to take a scientific course, while Maurice will complete the Commercial course. The efforts these boys are making indicate that their future will reflect credit upon their parents and this community. We speak for these boys as being of good moral standing, and we have no reason to believe that they will give their teachers trouble. Take our best wishes boys, for your success.

BANG WEST THE PISTOL.—Last Wednesday John A. Freeman and Wm. Bushnell had an altercation upon Wm. Freeman's place in Ten Mile about some wheat, their blood got warm, and it seems Freeman struck or struck at Bushnell, whereupon Bushnell drew a pistol and fired at Freeman. At this point parties interfered and no damage was done, for the bullet missed the victim. Bushnell was fired by Judge Gannon \$15.00 and costs for carrying concealed weapons, and Mr. Bushnell was also bound over to the grand jury for shooting, in a bond of \$200.00 which he gave, and Mr. Freeman confessed judgment for striking Bushnell, and was fined \$10.00 and costs. When will civilization learn to put away the pistol? Will we never learn anything?

SMALL SOULS.—We once read of a man who was so stingy that he carried water and put it in his will to prevent it from running to waste. A woman was in the habit of washing dishes without soap in order to skim the water afterwards for the grease. An old man walked 23 miles to court out of the jail and one cent in his favor, then walked back and died from effects of exhaustion and exposure. We could enumerate many similar cases but a word to the wise is sufficient. There are many who are coming to a miserable existence on account of their avarice and penuriousness, who seem to be strangers to true economy, or the enjoyment of life. They are the reverse of the spendthrift. These are extremists. If a man intends to give a penny for a charitable purpose, and through a mistake he gives \$5, heavily deserves credit for a penny. L. C.

SAUNDERS AGAIN.—For several days, says the Albany Herald, Sheriff Smith and Richardson, Saunders' guard, have been aware that he was not going on as it should with the prisoner at jail, and have been keeping a close watch over Saunders and tamper. Saturday in searching through the straw of a bed-tick which they had taken out of the jail and emptied, they found a small saw, which had evidently been laid away by the prisoner for future use. The saw was a fine steel blade of the best make and had been used on one end, making it probable that it is the same saw with which Saunders cut his way out of the jail in July. Three pieces of wood were also found, which had been fitted as handles for the saw blade and showed that they had been used. Sheriff Smith says that these are the same tools Saunders used in sawing out, and that he was only keeping them until a favorable opportunity offered to try again. A few days ago, the sheriff started a knife with the blade made into a saw and small file were also found concealed in the jail. The officers at present are keeping a close guard, and it is not likely that the Captain will be able to saw his way out a second time.

During the six years since July 1, 1880, according to state censuses compiled by the Railroad Gazette, the population of the United States has increased 9,800,000 giving a present total of 59,961,000. The same ratio of increase being maintained during the ensuing four years, will give to the country in 1894 a population of 66,300,000.

"Simmons Liver Regulator has done me more good than all the physic I ever took. I suffer from indigestion for the last five years, at last I was induced to try the Regulator by Dr. Thos. Mason, and it cured me. I am a painter by trade, and suffered with lead colic; since taking the Regulator I do not suffer at all.—A. P. Telford, Master Painter, Macon, Ga."

WASHINGTON, Aug. 30.—The following circular was issued by the treasury department this afternoon: "Notice is hereby given that on the 15th of September, 1886, or at any time prior thereto, the department will redeem at the treasury of the United States, in the city of Washington, or at the office of the assistant treasurer at New York, paying par and accrued interest to date of redemption, any uncalled United States 3 per cent bonds to an amount not exceeding \$10,000,000. Bonds forwarded to Washington for redemption should be addressed to secretary of the treasury, division of loan, Washington, and all bonds should be assigned to the secretary of the treasury for redemption."

CIRCUS AND PARADE SATURDAY. Saturday morning Cole's Colossal circus will reach Roseburg. During the morning the usual parade will take place through the principal streets followed by the two performances, afternoon and evening. Cole's circus was here two years ago and was then voted the best and most orderly conducted one that ever visited Roseburg. Everybody is waiting for the promised visit when a genuine festive under canvas will be enjoyed by old and young. Mr. Cole never deceives the public, what he promises on paper will be found under his tents. During the past winter we have had two agents in Europe engaging novelties for this season foremost among whom are the famous Sylvest family without doubt the peers of any gymnast ever on the coast. Dr. Carver the wonderful fire shot and his band of cowboys, Indians and Mexicans and a Roman hippodrome with a stud of \$20,000 running horses and all new features. The show is in short a wide and deep departure from the conventional circus. Even to the older inhabitant there is a charm about going to the circus, getting a front seat on the bottom row and with feet on the sawdust telling the rising generations how things were when they went to the circus in the days long ago, and to impress upon the youthful seeker after innocent pleasure the wonderful improvement made in the saw dust ring and in the general conduct of the employees of the present day. Bring all the little ones and see the grand parade at 10 o'clock.

Proper Treatment for Coughs. The reader may fully understand what constitutes a good Cough and Lung Syrup, we will say that Tar and Wild Cherry is the basis of the best remedies yet discovered. Lightning Strikes a Powder Magazine in the Suburbs.

SURROUNDING HOUSES RUINED.

Several Persons Killed and Fatally Injured.—The Shock Creates a panic in a Church—A Scene of Ruin.

CHICAGO, Aug. 29.—At 9:15 o'clock this morning, in the midst of a heavy thunder storm a powder magazine belonging to the Laffin & Kandel Powder company was struck by lightning.

An explosion followed which destroyed property valued at \$75,000, besides killing one person almost instantly, fatally injuring four and contending painful injuries to nearly twenty-five others.

The combined effects of a hard fought battle and the withering influence of lightning could not have presented more abject desolation and destruction than did the country for half a mile in all directions from the exploded magazine. The day had opened gloomy.

At 8 o'clock rain began falling furiously from immense banks of clouds. Flashes of lightning were soon chasing each other across the whole firmament, until the heavens seemed ablaze. The thunder was deafening.

About 9:15 a flash, which all agree was much brighter than those preceding, was followed by a report that shook the greater part of Cook county. It was a sharp report, but strange to say, by most of those who lived in the vicinity of the explosion it was hardly distinguished from the series of thunder claps which had been the order of the morning.

There was a tremendous shaking of the earth and articles of furniture, not stationary, were thrown about rooms as if they were playthings in giant's hands. Men, women and children were tossed around and willed by the terrible resistless force released by the explosion.
