

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas, Purulent Ulcers, Nervous and Physical Collapse, etc. If allowed to continue, it is the forerunner of contagious diseases and Tubercular Consumption, and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It has effected a cure in every case of Scrofula, and the kindred symptoms of contagious diseases and mercury. At the same time it enriches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great Regenerative Medicine is composed of the genuine *Hibiscus Scrofularicus*, with *Sassafras*, *Silica*, the *Lodules of Potassium* and *Iron*, and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S SARSAPARILLA as a

Regenerative Medicine

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine in the world.

Ayer's Sarsaparilla

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. [Analytical Chemists.] Sold by all Druggists. Price \$1; Six bottles for \$5.

Absolute Cure

A Unique Newspaper Industry. A Washington street newsdealer asked me the other day, "What use do you suppose a man in Chicago would have for 3,500 country papers, daily, weekly and all?" I gave the conundrum up, and he continued, "I was just as puzzled as you until I found out. A year or two ago an acquaintance of mine in a certain line of business—contracting—subscribed for fifty or sixty Illinois weeklies and dailies. From these he kept posted and was able to dispatch an agent to the scene and get in ahead of his competitors. He was in another line—bridge-building—got on to the scheme and offered my friend a specified sum to keep him posted as to the transaction of county boards, the intentions of railroads, etc. Other people found that they could obtain desired information better by this means than by any other, and before my friend had realized how the business was growing he found 1,000 papers on his subscription list and half a dozen girls in his employ cutting out the items. And still it grew, until his list now comprises 3,500 papers and he employs fifteen clerks. Among other services he acts as change editor for one of the blank-sheet dailies. His income from this queer business is about \$3,500. He is full of original ideas, and is always branching out into something new, but that is certainly a unique industry."—Chicago News.

Vinegar in Diarrhoea and Dysentery.

Dr. Amos Sawyer has the following sensible communication in The St. Louis Medical and Surgical Journal: "About a quarter of a century ago, when giving some good advice for a young practitioner to follow, the late Dr. B. F. Edwards, of St. Louis, Mo., whose action in the measurement of the action of remedies, truth in the statement, and justice towards members of the profession, made him a shining light in the early history of our state, among other things says: 'Never make fun of an old woman's remedy, for not only will you give offense and thereby injure your practice to the extent of her influence, but you may throw away what would have proved upon trial, a valuable adjunct in your practice.' He then cited this case to illustrate the importance of his injunction: 'In 1839, while practicing in Madison county, Illinois, I was induced by representations of an old woman to make the trial, in dysentery and diarrhoea, of a table spoonful dose of pure cider vinegar, with the addition of sufficient salt to be noticeable, and it acted so charmingly that I never used anything else.' He was practicing it in 1870, making it a period of forty years."—Medical and Surgical Reporter.
