loyal is the best baking powder because it is absolutely pure and wholesome, of the highest strength, and maintains its full leavening power until used.

by the "Royal" is the Best.

There is no other pure baking powder offered to the blic; all others contain either lime or alum,-deleterichs substances,—sometimes both. Lime presence results from impure cream of tartar; alum is added to give strength; the object of the manufacturers in both cases

The Royal Baking Powder is exclusively made from cream of tartar specially refined and prepared for its use by patent processes by which the tartrate of lime and all other impurities are totally removed. Its absolute purity is guaranteed by its manufacturers and certified by all prominent chemists and scientists who have made it the subject of investigation.

The cream of tartar of the market from which other baking powders are made has been tested by Profs. Chandler and Love, for the New York State Board of Health, and found to contain impurities from three to ninety-three per cent of its weight. It is, therefore, absolutely impossible that these powders should be pure, while it is equally as impossible for the Royal, being made as it is from chemically pure materials, to be otherwise than absolutely pure.

There being no inert matter in the ingredients of the Royal Baking Powder, higher strength is, of course, attained: and, the exact value of the materials being ascertainable to an atom, a compound is possible that will maintain its full strength until used, leave no residuum in the bread, and which all chemical tests and practical experience have proved to be the perfection of leavening agencies. This combination in the "Royal" makes it the best, and the only perfect baking powder attainable.

Prof. Mott, late Government Chemist, says: "Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the constituents used in its manufacture, the proper proportion of the same; and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to H. A. MOTT. Ph.D.," etc.
