D. has, so we are informed, accepted a call to the pastorate of the First Presbyterian Church of this city, and will fill that pulpit for the next year. Dr. Thompson is one of the ablest pulpit orators on the Pacific coast, and a very able gentleman. We congratulate the Presbyterian Church and the people of Corvallis upon his accession.—Corvallis Gazette.

TWO HORSES KILLED.—Last Tuesday afternoon a Mr. Limbeck, wife and daughter were returning home on the bridge at the foot of the mill a blast was fired near them, and the horses became unmanageable and fell from the bridge, killing the mother horse, and the neck broken, the other had a rod of iron run entirely through him. The wagon was badly used up, and the strangest feature of the matter is, Mr. Limbeck and daughter were not hurt at all while Mr. Limbeck was somewhat injured but not seriously, yet they all went over with the wagon and nothing was said so severe that the plastering in some of the houses is disturbed. Don't put in so much powder.

NEW MAIL ROUTE.—The new mail route from Roseburg to Millwood in Douglas county has been granted, and sealed proposals for carrying the mail will be opened at the post office in Roseburg until Dec. 9th 1886. Blanks will be furnished upon application to the P. M. No greater advantage has been shown these routes than the Hudson Creek section, than the granting of this new mail route. Also it puts them in direct communication with the county seat, and does not cut off a great territory by these increased mail facilities. This is a saving to the government of 400 miles travel annually, and supplies the same number of letters, moreover all ferris is dispensed with, all going via the bridge at Roseburg.

REPORT ON THE FISH LADDER.—Wallace Baldwin, the fish commissioner, has filed his report on the fish ladder with the secretary of state. He gives the following inventory of changes that the structure sustains, "The drift-breaker slightly damaged, from which three tons loose rock filling and five planks are gone; head-gates and piers in which were worked all gages appear slightly damaged, mostly by filling with loose rock; upper dam slightly damaged; slack water pool between sections of ladder somewhat raised, but not to materially affect workings of same; lower section of ladder badly damaged; side walls and steps down to No. 14 all gone, and the stone washed into the ladder, filling it up. He suggests two plans for repairing the ladder, one to cost \$2500 and the other \$3500. He says that both salmon and trout ascended it in large numbers.—Oregon City Courier.

IN MEMORIAM.

At a meeting of Umpqua Camp No 6 Indian War Veterans held at Roseburg Monday Nov. 29th, 1886, Capt. L. F. Mosher presiding, the death of comrade J. J. Whitsett was formally announced. Whereupon the following resolutions were presented and adopted.

RESOLVED, That we have heard with deep regret the death of our late comrade J. J. Whitsett a member of this camp; that we remember him in the early days of Oregon as a young pioneer and a true citizen who in the darkest hour of gloom, when dangers from savages surrounded and the horrors of the tahowahk and fire brand were in our midst, was a brave soldier and cheerfully exposed his life to protect the defenceless and prepare secure homes for those that might come after. We remember him as a frugal, industrious farmer and an honest man and regret that his last days were those of sadness and that weary of the obstacles around, foot sore and tired he surrendered. But we rejoice in the fact that he will be remembered by the sublime commander from the post of duty on earth to rest within the camp of peace above. That a copy of these resolutions be transmitted to the family of deceased. That as a mark of respect the members of this camp wear the usual badge of mourning for the period of thirty days.

LONG GREEN, Grant Co., Nov. 19, 1886. ED. REVIEW: After an absence of two months I thought that a few lines from an old Douglas boy would interest some of the readers of THE REVIEW. We (I say we) John Livingston, Robert Vinson, myself and family left Cleveland Sept. 16, 1886, for Gilliam Co. Oregon. Had a pleasant trip, weather very nice, all had good health throughout the trip, arrived at Mayville Sept. 28th, and found Jasper Livingston and family well and doing well, formerly of Douglas county. After laying over for two days Jasper and John Livingston, Robert Vinson and myself started for the Middle Fork of John Day river 100 miles east of Mayville, looked at the country, found plenty of vacant land to take up. There are not many settlers in this part of the country; it is not a farming country though adapted for stock raising, cattle and horses wintered without any feed at all in the winter.

Myself and family went back to Gilliam county after my family. There is a large number of families moved in since I came here. As this is my first attempt at newspaper corresponding I will close by subscribing.

NEW LIVINGSTON. A Painless Medical Treatise. The edition for 1887 of the sterling Medical Annual, known as Hostetter's Almanac, is now ready and may be obtained, free of cost, of druggists and general country dealers in the United States, Mexico, and indeed in every civilized portion of the Western Hemisphere. This Almanac has been issued regularly at the commencement of every year for over one half of a century. It combines, with the soundest practical advice for the preservation and restoration of health, a large amount of interesting and valuable information, and the standard astronomical calculations, chronological items, &c., are prepared with great care, and will be found entirely accurate. The new edition of the Almanac for 1887 will probably be the largest edition of a medical work ever published in any country. It is a most interesting and valuable work, and is a receipt of two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood.

UMPIQUA ACADEMY.—Wednesday Nov. 24th, held the fall session of Umpqua Academy. The school is in a most prosperous condition than it has been for some time and a full school is expected next term. The scholars did well in their examinations showing that they have mastered thoroughly the studies which they have gone over during the past term. In the evening an entertainment was given in the Academy Chapel by the students. The Chapel was soon filled. There were several present from Oakland and surrounding neighborhoods. The program was not lengthy but it was a good one. The music was good especially a piano solo by Nellie Stange and a quartette by the Misses Stange and Messrs Edwards and Sutherland.

CORVALLIS COLLEGE.—The Corvallis people have gone to work in good college mood to raise the \$20,000 for the new college building as required by the last legislature. They are succeeding well we are glad to know. By all odds Corvallis is the place for the Agr. College, and the State the proper custodian; mark it when the State takes full control at its next biennial session of the legislature, the college people will be entitled to a vote to do so. The Representatives of Douglas with whom we have talked are in full accord with this phase of the question.

Startling Fire True. WILLS POINT, TEXAS, December 1, 1886. After suffering for more than three years with disease of the throat and lungs, I got so low last spring that I was unable to do anything, and my cough was so bad I scarcely slept any at night. My Druggist, Mr. H. F. Goodnight, sent me a trial bottle of DR. BOSANK'S CURE FOR ASTHMA AND LUNG AFFECTIONS. I found relief, and after using six \$1.00 bottles, I was entirely cured. J. M. WELDEN. Sample bottle 5 cents at W. A. Hamilton.
