

THE PRESIDENT'S MESSAGE.

We give our readers the President's message this week in full in supplement form, convenient for filing for reference. The Review is determined to keep abreast of the times in furnishing the news in the most substantial manner. Our large and increasing patronage, warrants us good returns for these new and satisfactory departures. The message is a straightforward document, touching all the important national and international subjects for the consideration of the present session of Congress. Mr. Cleveland and his able cabinet have done well in administering the affairs of our Government. The confidence the people repose in him, will be hard for the politicians to dislodge. Read the message for yourself, and then judge.

Congressman McKinley, of Ohio, says the issue of 1888 will be a pure ballot and protection for American labor and industry. The republican corruption of the ballot and of the poor voters of the country with money raised by monopolists and high protective tariff men is what the people voted upon in 1884, when they put Cleveland in the presidential chair. So McKinley means we are to have the same thing over and perhaps the people will have forgotten the Republican machine corruption which they once declared against.

JOSEPH PULITZER'S profits this year, as proprietor of the New York World, will, it is said, reach \$600,000. The number of legs packed in Chicago since October 30th is about 135,000, against 314,000 for the corresponding period a year ago, the difference being accounted for by the prevalent strike in the packing houses. —World

The Government of Japan has forbidden lecturing against Christianity. DEMOCRATIC PROSPECTS.

The total vote in the Electoral College is 401, thus requiring 201 to elect. The Democrats at the recent election carried their State tickets in States casting 215 Electoral votes, while the Republicans came out ahead in States casting 186 Electoral votes. Thus has this been a Presidential year, the Democrats would have had fourteen votes to spare, while the Republicans would have been fifteen short. In other words, the Democrats would have had a clear majority of twenty-nine over the Republicans in the Electoral College. The Administration carried this year every State but one that Mr. Cleveland had two years ago and took away from the Republican column. Indiana was the only State then carried by the Democrats which this year gives a questionable Republican majority on the State ticket, but makes things even by a Democratic Legislature. Colorado and California, giving Republican majorities in 1884 are now carried by the Democrats. It is noticeable that in what are usually called the important November States the Democrats have far more than held their position of two years ago, while the Republicans have lost. For example: In 1884 New Jersey gave a Democratic plurality of only about 4000, while this year the plurality is 8,000. New York was barely saved two years ago by 1,000 plurality but this year it came to the front with over 9,000 Democratic plurality. Connecticut's plurality of 12,000 two years ago is now replaced by one 50 per cent larger. On the other side of the column the Republican plurality of 80,000 in Pennsylvania shrinks this year to 50,000 or less, and Ohio's 32,000 Republican plurality in 1884 is now less than half these figures.

It is not at all surprising that a study of these figures discourages the republicans and elates the democrats. This was the year of all years, if the teachings of history were to be relied upon, when the opposition party should have been expected to sweep the country, and coral every doubtful state, instead of that the democrats have not only held their own, but have made important inroads upon the enemy; and have made such a stir in Massachusetts, Minnesota, Nebraska and Colorado as has not been known before in a generation. With good management the democrats two years hence will be able to repeat the Democratic achievement of 1852, when the Whigs were virtually swept from the face of the earth. S. F. Ex.

THE letter which we publish today from Mr. Grant to Mr. Buick explains itself, and shows that much interest has been elicited by the car Mr. Buick had in charge. All this work shows the benefit which arises from our State Immigration Board. Our next legislature should take firm steps to sustain in a liberal way the means to induce a healthy immigration to Oregon. More on this subject anon.

Mayor Hewitt of New York supplied politics with a new idea when he said that there was no longer a conflict between labor and capital, but there is a conflict between labor and laziness.

SALEM elected a Democratic mayor last Monday.

The Right Kind of Talk.

General John B. Gordon yesterday took the oath of office as Governor of Georgia. During the war he was a conspicuous and brilliant Confederate officer. These extracts from his speech, reported by the telegraph to the Herald, will therefore be read with great interest. He said:—

"From political confusion, angry controversies and bloody conflicts have come a national life more robust, a national union more enduring."

And further on:— "There is nowhere in this Republic either disloyal citizens or disloyal sentiment. But everywhere all hearts, voices and arms are ready for the preservation of the general government in all its constitutional vigor as the pledge of our peace and safety."

And once more:— "I repeat that for defence against the outside world our nation is simply omnipotent; that our Union is to be as lasting as time, and that race freedom among us is everywhere established and defended."

If such sentiments as these represent the South the occupation of certain republican orators is gone. Their whole capital in trade, a "bloody shirt," will be confiscated and they must needs go into political bankruptcy.

BLAINE passed Conkling at Arthur's funeral without seeing him. Blaine's friends say it was an "oversight." How about a wriggle!

A LETTER.

ST. PAUL, MINN., Nov. 26th, 1886. D. S. K. BUICK: Dear Sir,—Mr. Gay Hayden, is here to-day and has made a trip down into Minnesota, stopping at several places. He takes with him fine samples of grains in the straw, grasses and threshed grains, and has left nice displays at two three points where he has been. He is doing efficient service for your section of the country on the lines where he is operating, calculated to result in much good in the future. He leaves to-day with an additional supply of material for a trip through Wisconsin and Illinois.

The pass which you promised to send to him over the Oregon Railway and Navigation Company's line from Wallula Junction to Portland, has not been received. You stated when you were here that you would secure a pass for him and send to this office, you also stated that you would secure a pass for Mr. Prettyman, and send to Wallula Junction, I have never heard whether you did or not, but so far as Mr. Gay Hayden's pass is concerned it is not here, and he is anxious that there should be no disappointment in this respect. Yours truly,

P. R. Groat, Genl. Emgt. N. P. R. R. Co.

Two distinguished Republicans, or ex-Republicans—whichever you please—were interviewed on the late elections. Roscoe Conkling was in Boston the other day, and he expressed the opinion in conversation with General Banks that the recent elections were an indication that the Republican party is falling to pieces under unwise management. About the same time Robert G. Ingersoll, in a Chicago interview, said: "The Republican party seems to have no definite aim, seems afraid to grapple with the questions of the day; afraid to express an opinion; and we have got to that point that the principal men in the Republican party are seeking office." "Alas, alas!—Times.

POOR PAY, POOR REACH. The Times takes a high position in reference to our poorly paid public officers. We say "them our sentiments." We ought to be ashamed of ourselves for such low salaries. Our present constitution could be helped in many points we believe. Here is what the Times has to say.

The regular pay of Oregon legislators is very niggardly, beyond doubt, says a valued exchange. So it is as to the governor's salary and that of other state officials. Starving salaries are the gateways to bribery by the great monopolies of the country. The people—the masses—demand adequate salaries for their high officials, to whom great interests are entrusted. In this way they are more to be the people's servants instead of corporation tools. Nowhere on the coast are such mean and bribery breeding salaries paid as in the Oregon to our high functionaries. There are many other crudities in the constitution which do not suit our present advanced condition. It needs a thorough revision.

In about thirty days The News will furnish its readers with the most complete telegraphic report ever published on the Pacific Northwest. The days of Associated Press and Western Union Telegraph monopoly are speedily drawing to a close in this country. Thanks to John Mackey and the Postal Telegraph. The new year will be a good time to celebrate the great event.—News.

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmonds Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy. NEVER BEEN DISAPPOINTED.

A general family remedy for Dyspepsia, Torpid Liver, Constipation, etc. It hardly ever fails to give relief, and has never been known to do harm. It is a perfect cure for all diseases of the stomach and bowels. W. J. McCLURE, MASON, GA.
