ROSEBURG REVIEW

FRIDAY, MAY, 20, 1887.

A GRAND

CELEBRATION!

AT MYRTLE CREEK

The 4th of July,

1887.

DENTISTRY.—Dr. C. A. Bonham of Roseburg will be at Myrtle Creek from May 31st until June 4th.

TAKE NOTICE.—All persons having any business with this paper will always direct their communications to "ROSEBURG REVIEW," and not personally to any member of the firm. This observed, will prevent the delay of correspondence.

LOST.—A pocket book some where in the city of Roseburg belonging to J. H. Whitsett. It contained papers valuable to him, and would be to no one else. The finder will be liberally rewarded by returning the same to this office.

DRESSMAKING.—Mrs. J. N. Barker would announce to the public that she is now engaged in the dressmaking business, and will guarantee satisfaction in fitting, character of work and prices as well. Rooms in the Library building near City Bakery.

IN SEARCH.—Mr. Lyons the husband of the woman that Pete Olsen killed, was in town this week in conversation with Hon. F. P. Hogan and we suppose he is after the murderer of his wife. We understand he has lost all track of Olsen, but is determined to be avenged if Olsen can be found.

SCHOOL MEETING.—School meeting next Monday at 1 o'clock p. m. at the old school building. A new school house to accommodate at least 500 pupils and a five mill tax to run the school the coming year, will make Roseburg a center of education that will tell for good for this vicinity. Let everybody attend.

A MISTAKE.—We regret very much the two mistakes we made in our rush last week in going to press in Sheridan Bros. ad. This is the first mistake in a period of over two years, but Sheridan Bros. made no mistake last week in selling those goods at such reduced prices, considering the quality of their wares. Anyone that does not trade at Sheridan Bros. will make a big mistake however, and no mistake about it.

PICNIC.—The picnic at Myrtle last Friday was a splendid success. A large crowd present, music, foot races etc., etc., a speech, and the grand feature, the dinner. This was prepared as only the good ladies of that vicinity can prepare a menu, fit for a king to eat. We were not kings, but we ate all the same. Hearty good will seemed to prevail during the day, and not a trace of the flowing bowl was seen by us during our stay. Good.

APPOINTMENTS.—During the past week Gov. Pennoyer has made the following appointments: Notaries public, E. C. Holden, Astoria; J. A. Applegate, Salem; A. S. Briggs, Cedar Mills; J. E. Magers, McMinnville; L. S. Wood, Weston; Jas. A. Campbell, John I. South, Burns; E. A. Downing, Salem; commissioners of deeds, Jas. G. Sivan, Port Townsend, W. T.; Geo. J. Thompson, Walla Walla, W. T.

TEACHERS EXAMINATION.—The quarterly examination for teachers certificates will be held in Roseburg on Wednesday May 25, 1887, commencing at noon. Applicants shall not be admitted to the examination who were absent at its opening. This will be the first examination under the new law.

Com. of Examiners. { J. B Horner, F. L. Russell, Geo. T. Russell, Supt.

I. O. O. F. ELECTION.—The grand encampment of the I. O. O. F. of Oregon met Monday night at Armory hall, East Portland, D. E. Buchanan, grand patriarch, presiding Reports of officers were read and approved and the usual routine of business transacted. An election of officers resulted as follows: Grand patriarch, R. M. Day; grand high priest, Timothy Ford; G. S. W., A. A. Gambell; grand scribe, J. M. Bacon; grand treasurer, J. G. Wright: grand representative, Phil Metchan; grand junior warden, R. Alexander.

RAILROAD PICTURES.—The railroad photographers went through our section last Monday, getting the most attractive scenery on the route from San Francisco to Portland. They expressed themselves to one of the REVIEW reporters, that Douglas county had some of the most beautiful scenery on the entire line. A Call reporter was in the party. Much more interest will now be taken in our country than ever before. Our county ought to advertise itself more thoroughly than it does. Let us arise to our best interests, and move to the front.

A GOOD BAND.—The brass band at Myrtle Creek last Friday rendered some of as good music as it was ever our good fortune to hear in Douglas county. The band shows a training and proficiency that is really remarkable. We were simply surprised that's all there is of it. Following are the names of the members and horns they play: W. Kramer Eb Cornet, A. Suttmer Solo Bb Cornet, A. F. Cornutt First Bb, W. T. Hall Solo Alto; J. H. Bailey First Alto, Jeff Bailey Second Alto, C. J. Richey Baritone, Nate Selig Tube, Frank Gabbert Tenor, Wm. Powell Tenor Drum, H. Dyer, Bass Drum.

THE GRAND CONCERT.—The grandest vocal musicale of forty voices in full chorus was given in the M. E. Church last Tuesday evening by Prof. C. W. Perkins, conductor, and Mrs. Cora Perkins, organist. Prof. Perkins has done more for Roseburg in the music line in the last few weeks than any man that ever preceded him. His new music method is his own and superior to any yet discovered. The Prof. and his "little wife" as he calls her, are of the best cultured type, and their work always breathes a christian fragrance. Everybody will expect them to return this fall when they will have one hundred students or more.

Mr. Barker the manager of one of the cinnabar mines has gone to Eugene City to get the machinery repaired so they can commence with renewed power. Are looking for him home on every train.

Oakland is one of the nicest little towns in Soutnern Oregon. There seems to be a much heavier country trade than in some of the larger towns of the state and this is what keeps a town up. It supports three hotels two general merchandise stores, two drugstores, two hardware stores, and two barber shops, one livery stable, one cigar and notion store, one butcher shop, and only three saloons, but to counterbalance the latter they have three church houses. There is also I believe two school houses, and milliner shops. There is three large grain ware houses, and in the shipping season are crowded to overflowing. About a mile or so from town are located two grist mills, and it is said there could be obtained water power enough to run the universe at a very trifling expense. Crops in the vicinity look splendidly and taking all in all Oakland stands a chance for lively times in the coming summer. Although the R. R. changing time has injured the place a little, Oakland will soon forget that they ever had the trains for breakfast and supper, and jog along as lively as ants in a bonfire. Oh! we forgot to mention the job printing office, of M. H. Tower and the Oakland Enterprise both of which are doing an enterprising business.

Gardiner News.

Mr. M. M. Melvin has gone to San Francisco to procure the necessary mining tools for those who wish to work in the mine. As soon as he returns it is supposed that Gardiner will open up one of the richest mines on the Pacific coast.

A few days ago there was a mine discovered a short distance from Gardiner City. The discovery was made by W. G. Thompson, J. A. Norton and T. Kelling. They were going along the foothills when Mr. Kelling saw something that glittered like gold. They drew their money and took possession of the place. It was then agreed that W. G. Thompson should be president, T. Kelling vice president, and J. A. Norton secretary, those three own an equal amount, they have sold several shares in the mine, and those who have worked their claim say that they possess valuable ore.

LAZY BEE.

SUICIDE OR MURDER.

The Horrible Death of Mrs. Paul Bruckner.

A TERRIBLE TRAGEDY.

The most horrible event that we have been called upon to chronicle occurred this week. It was the terrible death of Mrs. Paul Bruckner by having her throat cut, the radial arteries of the wrist cut and also by drowning and was either a case of suicide or murder. Mrs. Bruckner who was formerly Elizabeth Limpeck, was twenty-four years of age and has been married to Paul Bruckner some four years. Her husband has been absent in eastern Oregon about six months looking for a new home. During his absence she has lived with her father's family consisting of Stephen Limpeck, his wife and grown son, Paul, who reside on a farm some eight miles south of Roseburg. For the past six weeks, Mrs. Bruckner has been sick, part of the time bedfast. Her husband has been expected home this week and had written that he had started home on horseback. The parties are all Hungarians and have been residents of this section for several years. These are a few of the preliminaries of the dreadful affair, which is gathered from the family as follows: At nine o'clock Monday night the father had retired to bed downstairs, while the son, Paul Limpeck had gone to bed downstairs, leaving the mother and Elizabeth up, the latter bathing her feet, this was the last they saw of her alive. Shortly after they retired and about eleven o'clock the mother went to her daughter's room to see if she was comfortable. She was surprised to find the bed unoccupied and immediately aroused the family and commenced the search. They went to the barn and from thence to the river where they saw foot prints and then returned home, failing to give any alarm. The next morning they aroused the neighbors and Fims Dillard going in a skiff along the river bank discovered the body. When found she was in her night clothes and there were no marks of violence on her person or clothes. This was about 9 o'clock in the morning. Mr. Dillard came to town and gave the news. Coroner Marsters repaired to the scene accompanied by many citizens. A jury was empanelled consisting of B. B. Brockway, J. M. Dillard, Wm. McBee, J. W. Mote, G. W. Cummings and David Lenox. The investigation was assisted by District Attorney Hamilton. The jury on the evidence returned a verdict of suicide by cutting with a razor and drowning.

Such are the leading outlines of the mysterious affair, the details, however, are of a very suspicious character to say the least. We will attempt to give you a few. The barn is some 200 yards from the house. It is evident from the blood shed that here is where the wounds were inflicted. There is a great quantity of blood on the floor and on the barn door, showing that the latter was shut at the time of the commission of the deed. An attempt had been made to wash out and wipe out with dirt and grass the blood stains. The girl, then on the suicidal theory must have opened the door, after the wounding, and shut it again. From the barn on the river trail, one hundred yards from the barn, is a gate; this has blood upon it, which has also been somewhat obliterated. This gate was also opened, shut and latched. Very thoughtful for a bleeding-to death-suicide. It is at least one third of a mile to the river from the barn, and along this trail the blood is invariably to the left of the trail and in blotches as though congealed from a dead body, not in a stream as from a fresh flowing wound. "The wound in the throat is a superficial one," says Dr. Marsters, "extending almost from ear to ear, severing the two external veins and about half through the wind pipe. It would not have caused death. The radial artery of the left wrist was severed, which would have caused death from bleeding but probably have taken hours. The ulnar artery is uninjured." The razor was found by the father one hundred yards from the barn where he buried it. A note in German was also produced by the family claiming to have been found in the girl's room the morning after the deed. It said she was sick, could not recover and it was best for all that she should die. It also said that her parents had always been very kind to her. We are of the opinion from the mysteriousness of the sad affair that a more thorough search should have been made of the house in order to find if there is no bloody clothing or other evidence of guilt. Surely if the poor girl has been murdered the crime should not go unpunished. An autopsy should have also been held on the body to show whether the deed was committed to cover the most terrible of crimes. As the matter now rests, public opinion is very much divided. It does not seem probable that the girl could have committed suicide in the manner indicated and the matter should not be allowed to rest here.

MILITARY APPOINTMENTS.

General Siglin Announces the Members of His Staff.

Baigadier-General Siglin, of the Oregon National Guard, has announced the following officers of his staff: Assistant Adjutant-General, Thos. G. Owen, of Marshfield, Coos county; Quartermaster General, L. B. Montanye, of Albany; Aids de-Camp, Palmer Wheat, of Portland, and Isaac A. Manning, of Salem.

These appointments have been sent to Gov. Pennoyer, and it is expected that he will immediately issue the commissions. The date of the commissions will be May 20th, when the new military law goes into effect. The two first named officers will be given the rank of Captain, and the two latter that of First Lieutenant. The Brigade Quartermaster will also be commissionary of subsistence.

Capt. Thos. G. Owen is an old newspaper man and an ex sheriff of Coos county. He has held the position of Assistant Adjutant-General under "Pap" Price in the Confederate service. He was on the electoral ticket. Capt. Montanye is a prominent attorney of Albany, is an ex-Union soidier and a member of the Grand Army of the Republic. He was a member of the Legislature of 1884. He distinguished himself as one of the Democratic supporters of J. H. Mitchell for U. S. Senator in the special session of 1885. Lieutenant Palmer Wheat, of Portland, is about 20 years of age, and has something of a military education. He is a member of G company, and is an accomplished shorthand reporter. This latter will probably make him valuable to the military board. Lieutenant Isaac A. Manning is well known as a member of the Statesman staff. He is a member of Co. B, and has acceptably served a term as Second Lieutenant of that organization.

These appointments are all good ones, and reflect credit upon General Siglin's judgement in making them.—Salem Statesman.

Overland to California.

The Oregon and California R. R. have made further reduction rates to Sacramento and San Francisco to-wit: Portland to Sacramento or S. F. immigrant rate a through continuous passage $15.00. First class 3 day continuous $22.00. First class unlimited $30.00. This route will hereafter be known as the Mt. Shasta route, running as it does under the shadow of the noble peak. More snowy caped mountains can be seen from the line of the Mt. Shasta route than any other road of similar length in America, beginning in the Sacramento valley, opposite Red Bluff. Lassens Butte is first seen, then Shasta and the Scott mountains. To the east of the line through Rogue River valley can be seen Mt. Pitt covering its snow capped summit far above the Cascade range. On first entering the Willamette, Mt. Thielson puts in an appearence, further on comes Mt. Jefferson, the Three Sisters and beyond looms up Oregon's pride, Mt. Hood together with the cone-shaped Mount St. Helens, affording to tourists one if not the finest views in America. The valleys traversed by the Mt. Shasta route are gems commencing with the Willamette, which stretches to the southward over 100 miles, verdant with fields of waving grain, hence through the Calapooia mountains to the valley of the Umpqua which is a series of valleys and rolling hills covered with grand old oaks, which at this season are resplendent in their spring costumes, and to wind up in the state of Oregon comes the gem known as Rogue river valley a fitting departure to Oregon nestled among the hills it appears like a park placed by the devine hand as a pleasing contrast to the arid plains which one meets on the first entry to our sister state, but which soon disappear on entering the noble valley of the Sacramento, which valley is too well known to discuss now. We look forward to a larger travel and hope some of our eastern brethren who on visiting California will not neglect the opportunity to visit Oregon and see for themselves the very many fine openings for industry and pleasant homes.

Brewster Valley Note.

Salem, May 17th, 1887.

CAPT. B. S. PAGUE, Roseburg, Or.

Ex-Governor Chadwick has requested me to write you concerning the status of your company as a part of the Oregon National Guard. I have talked with the Governor about the matter, and it is his understanding that inasmuch as your company was regularly organized, and its officers duly commissioned, it will be entitled to recognition as a part of the Oregon National Guard, upon compliance with the conditions of the new militia law, a printed copy of which I sent you a few days ago. As the militia fund will not be available for several months, I presume the Adjutant General will not be able to furnish uniform, arms etc., for some time.

Yours Truly,
GEO. W. MCBRIDE,
Sec. of State.

IN MEMORIAM.

In memory of Mrs. Wm. Langenfeld who passed this life away February 20th, 1887.

I cannot say, I will not say
 That she is dead, she is just away,
With a cheery smile and a wave of her hand
 She has wandered into an unknown land
And left us dreaming how very fair
 It needs must be since she lingers there.
And you, O you who the wildest yearn
 For the old time step and the glad return,
Think of her faring on as dear
 In the love of there as the love of here,
And loyal still as she gave the blows
 Of her warriors strength to her country's foes
Mild and gentle as she was brave,
 When the sweetest love of her life she gave
To simple things: Where the violets grew,
 Pure as the eyes they were likened to.
The touch of her hands have stayed
 He reverently as her lips have prayed,
When the little brown thrush that hoarsely
 Was dear to her as the mocking bird [chirred
And she pitted as much as a man in pain
 A writhing honey bee wet with rain.
Think of her still as the same I say,
 She is not dead—she is just away.

THE CLERKSHIP SETTLED.

Judge Jones ended the contest by announcing at 1 o'clock yesterday the retention of James Seavey as Clerk of the District and naming W. E. Ledgerwood as deputy at Seattle. The latter position is the one most sought after, even though it be made subordinate to the office at Port Townsend, for with but a single exception it is the best paying office in the Territory. The appointment is certainly a good one. Mr. Ledgerwood, who was at one time agent of the Wells, Fargo Express Company in this city, is a young man of excellent character, well qualified for the duties of the office and a courteous, industrious gentleman. Politically, the Post-Intelligencer and Mr. Ledgerwood are as far apart as the poles of the earth, nevertheless his manhood forces respect. He is a partisan democrat, and has no apology to make for his benighted condition. And since from the very nature of things a republican made of the right kind of metal could not hold the office, we are glad that it is a democrat, because anything is better than a morality-mugwump would be. It is generally understood that the appointment was brought about by Oregon influence. Mr. Ledgerwood is an Oregon man, but has resided in this Territory nearly five years; hence in the appointment it may be fairly stated that Judge Jones has risen above the policy of his party in recognizing the "eternal fitness of things" by an appointment from the district over which he presides.—Seattle Post Intelligence.

To Be Happy and Prosperous.

Men have talked much of a universal brotherhood of mankind, but we are convinced that the persuasive means of the thumb-screw of the rack, the fagot or the inquisition can never accomplish it, neither can ecclesiasticism in any form. Men have also talked of turning the sword into the plow share and the spear into the pruning hook but this cannot be done while partisan and sectarian strife endures. Men have strove to secure happiness both here and hereafter but they can never do so while they despise the means which insure their happiness, they cannot sin and go unpunished. To become happy and prosperous we must depose error and let truth come to the front and legitimate sphere.

The Effects of Mental Exhaustion.

Many diseases, especially those of the nervous system, are the products of daily renewed mental exhaustion. Business avocations often involve an amount of mental wear and tear very prejudicial to physical health, and the proffessions, if arduously pursued, are no less destructive to brain and nerve tissue. It is one of the most important attributes of Hostetters's Stomach Bitters, that it compensates for this undue loss of tissue, and that it imparts new energy to the brain and nerves. The rapidity with which it renews weakened mental energy and physical vitality is remarkable, and shows that its invigorating properties are of the highest order. Besides increasing vital stamina, and counteracting the effects of mental exhaustion, this potential medicine cures and prevents fever and ague, rheumatism chronic dyspepsia and constipation, kidney and uterine weakness and other complaints. Physicians also commend it as a medicated stimulant and remedy.

Cure for Piles.

Piles are frequently precededby a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture, like perspiration, producing a very disagreeable itching, after getting warm, is a common attendant. Blind, Bleeding and Itching Piles yield at once to the application of Dr. Bosanco's Pile remedy, which acts directly upon the parts effected, absorbing the tumors, allaying the intense itching, and effecting a permanent cure. Price 50 cents. Address, The Dr. Bosanco Medicine Co., Piqua, O. Sold by Dr. S. Hamilton.

S. Hamilton.

The Verdict Unanimous.

W. D. Sult, Druggist Bippus, Ind., testifies: 'I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Bellville Ohio, affirms: "The best selling medicine I have ever handled in my 20 years experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at Marsters & Co's. drug store.

Excitement In Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; every body said he was dying of consumption. A trial bottle of Dr. King's New Discovery was sent him, Finding relief he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds.
