DIED. HAMILTON.—On Oak Creek, Douglas county, Or. Oct. 18th, 1887, Malissa A. Hamilton, daughter of Richard and Agnes Doggett. Was born in Springfield, Sangamon county, Ill., June 30th, 1821.

At the age of twelve, she with her parents moved to Washington county, Arkansas. She died on Oak Creek, June 18th, 1859. She had an amiable and happy life, and her death laid his icy finger upon her aged brow. She was converted just after having attained her majority, and at the age of twenty-one, united with the Cumberland Presbyterian church, since which time she has lived a consistent christian life. She and her faithful husband have trodden the path of duty together for more than 48 years. Up the rugged steps in sunshine and in storm, in prosperity and in adversity, they have walked as one, they have been united in the great battles of life. The triumph of one was the victory of the other. Her life stretched over a period of 66 years 3 months and 18 days and truly a noble life to the latest hour. Her death was sudden, supposed to be caused by neuralgia of the heart. She leaves only one surviving child, Mrs. Barker, five having one before her and have, no doubt ere this welcomed her home with good cheer. Rev. J. R. N. Bell says of her: "She had a heart as true as steel, and a will as strong as iron. She was a woman of God, and her life was a constant offering to Him who is the author of our mercies. Her death is a great loss to the church and to the community. Her memory will be a blessing to all who know her." Her remains were followed to their last resting place by a large concourse of people. In tears we laid her to rest, to sweetly rest, till eternity shall dawn.

The Aspect of Prohibition.

If we have prohibition we want it fairly, squarely and rationally by the people, we do not want it by a select party with special privileges by a claim to rule by Divine authority and by the authority of Divine Revelation.

Such a party would be revolutionary which would end in the ultimate overthrow of our government and civil institutions, besides its policy conflicts with its alleged revelation and authority. It uses alcoholic wine regularly in its most solemn institution. It claims that the whole of the Bible is Divinely inspired and is therefore infallible. It admits that Christ turned water into wine at the marriage feast of Cana of Galilee which was the best wine on the occasion. Besides by the same authority a little wine is recommended for the stomachic sake and "give strong drink unto him that is ready to perish, and wine unto those that have a heavy heart. Let him drink and forget his poverty and remember his misery no more." Prov. 31, chap. 6th and 7th verses. "Drink thy wine with a merry heart; for God now accepteth thy work." Eccl. 10, chap. 17th verse. Those few quotations are sufficient to demonstrate that the Bible is an ecclesiastical body assuming the leadership of the prohibition party. Not long since we heard the argument adduced by an advocate of prohibition from a theistic and christian foundation (at least he is a representative) that if prohibition carries in Oregon it will not necessitate loss or confiscation of liquors because they can be sold in some other state or country not prohibitory, and if any other country will import from any state or country to have and use at home, he can do so with impunity. He appears to reason like those who say that their kinsmen and friends will not go to hell, but their enemies and others will.

If it is wrong and immoral to sell liquors in Oregon it is equally wrong and immoral to take them out of the State and sell them to other people. If it is good and wholesome to abstain from alcoholic drinks as a beverage, when physicians and teachers, and when priests and preachers become teachers of science and all teach the legitimate effect of alcohol, then and not till then will the worm of the still become harmless.

EXPLANATORY. Rev. F. M. Culp came to us from the M. E. Church and was used by Rev. D. C. McFarland P. E. of Washington District, Columbia Annual Conference, M. E. E. saw fit to move him from Walla Walla to Albany where he remained the rest of the year.
