The facts did not warrant the establishment of service on the through route pe titioned for, for the reason that the service between Centerville and Goldendale would

TATE SPRINGS, TENN., July 4, 1838. The Swift Specific Co., Atlanta, Ga.: During the spring of 1871, while working in the field at my home in Morgan county, in the field at my home in Morgan county,
Ga. I pulled off my shoes to give my feet a
rest. Unfortunately, I walked into a clump
of poison oak, and in a few days my feet
were in a terrible condition, and I could not
put on a shoe because of the soreness and
swelling. I was treated as poison oak cases

About the same time the following spring,
1872, my feet became sore again, as at first,
and every succeeding spring for five years
brought back the same condition of the disbrought back the same condition of the dis-ease, only each time it became more dis-tressing, because I began to think it was a lifetime trouble. Finally, I was induced to try Swift's Specific. I took six bottles, and to-day am entirely we'l. My improvement was gradual from the first, and no evidence of the disease remains. I shall take pleasure in testifying as to its curative properties. It is the greatest blood purifier in existence. Yours truly, J. L. MORGAN.
