ACCIDENTAL DEATH n Unknown Man Under the Influence of Liquor Falls From the Thirty Feet and is Killed Almost Instantly.

but no one was found who identified the R. B. Moore, an O. R. & N. brakeman estified to having seen the deceased Wednesday at Umatilla Junction, and at The Dalles yesterday morning. He said he believed there was a heaven and a hell, and said he thought he would go to hell. Said he was going to take a walk to cool off-was going to walk down towards the bridge, and he was told not to walk down in that direction that he might get killed. Still he said he would go. In about 20 minutes O'Shea was standing on the corner and saw him walking up the bridge and he was staggering, and he soon disappeared. He went down and was informed by others that there was a man overboard. On being questioned, O'Shea said the man told him ne was from Michigan, and had been out in

Fen Batty testified to having seen the man at the Columbia Hotel, and that he was talking on religion. Said his greatest trouble was, how to get out of this world, and that he did not expect to leave this town alive. He told him that he had been twice out of this world and returned. Met Chinaman on the bridge, talked to him about fifteen minutes. The man passed him then, and was ahead about 500 yards. He saw him stagger, catch his foot on a plank and fall, and at the same time he tried to catch the telegraph wire. He fell about 30 feet on a pile of rocks. Was not quite dead when he got to him.

Dr. Hollister said death was caused by

the one mentioned. Work on the locks will close this month, and it is thought times will be very dull here. But I think it will not make much difference, as Reed, Peal, Hersey and the other Norwegians never spend any money here, and the citizens can live just as well without them. I hear the wish expressed every day that the trio will never be owed to return. But that does not make much difference, as if they did not come back, others just as bad would take their places. If we get an appropriation it is very strange that government will permit such men to control the works. It is currently reported here that Reed gets \$5 per month from all of those Norwegians who are employed on the works, and that Hersey furnishes his family with grub for running them into the mess house. I notice all those who board outside are the first to be discharged. Not one of those who are reported to pay Reed \$5 a month have been discharged; yet l

DRAIN, Or., Nov. 21 .- The tug Fearless, of Coos bay, Captain James Hill commanding, ran on to North Spit, at the mouth of the Umpqua river Tuesday evening, and soon went to pieces, not one of the crew or the passengers escaping. She was on her return trip from Astoria, where she had to go to take a lot of Chinamen, lately discharged from the canneries on Coos bay. At 3 P. M. Tuesday she was seen off Upper Ten Mile, steaming slowly down the coast just out-side the breakers, which were running very high and at 6 o'clok her whistle was heard off the mouth of the Umpqua. At a quarter before seven she gaya three sharp whistles, which was the last seen or heard of her until the next morning, when her pilot house with the end stove n, a small boat, the stern, one side of her buil and numerous small pieces were liscovered coming up the river with the nde. The steamer Juno at once steamed down to the mouth of the river and put a searching party ashore and the beach was patrolled for miles to the south, but no boules were discovered. Other parties who came down the coast from the north reported that they had seen no bodies in that direction. The general impression of seataring men is that she had sprung a
