He ran until being cornered, when he pulled a pistol and called immediately, and probed for the bullet, and found it lodged in the back. Mr. Cloutman on being interviewed dis-claimed any debt to Powers, and said on the contrary Powers owed him \$15. As soon as the shot was fired, Cloutman came lown street and delivered himself to the sheriff. This morning a reporter of the TIMES-NOUNTAINEER called on Mr. Powers and found him resting easily. While there Dr. Donne came and extracted the bullet and gave his opinion that the wound was not in any manner serious. For some time past Mr. Cloutman has had trouble in his family relations, and his wife alleges very cruel treatment, which is denied by Cloutnan. About five years ago Mr. Powers worked for us as foreman on the TIMES-MOUNTAINEER and we always found him skillful, peaceful, industrious and honest and we regret very much this unfortunate occurrence. Salem Statesman. Word came to the city Sunday evening that W. C. Rigge, a married man about 40 resided on the Charles Eggert farm, one and a half miles eastward from Sublimity, had been shot and killed about noon that day Thomas Hammond, of Stayton, a man nearly the same age also married. The report proved true, as far as the death of Mr. Riggs is concerned, but the manner of the death is shrouded in mystery which will re-

quire the inquiry of the courts to solve. The killing occurred on a farm belonging to Hammond's father and which was occupied by Hammond for a time, but he left it and has been living at Stayton. This farm joins that occupied by Riggs and the latter had some cattle on the Hammond place grazing. At the time of the killing there were present only Mr. Riggs, Mr. Hatomond and a son of the latter ten or twelve year old, so that the full facts may never be known, although the tender age of the lad

Hammond claims that the shooting was accidental, while the gon was in the hands of the boy and occurred in this wise: All three were standing around the premises, Hammond having a double-barrel gun, one of which Hammond shot, and then the hoy begged to be allowed to shoot one. The father handed him the gun, whereupon it was accidentally discharged by the boy, the charge lodging in Mr. Riggs' neck, killbegged to be allowed to shoot one. The Statesman's informant says that Ham-

mond has been telling some contradictory fuses to talk, so there is not full faith placed n the accidental theory in the neighborhood of the tragedy. It is not known, nor does he youchsafe to say, what Mr. Hammond's four miles, that morning. It is asserted that he and Mr. Riggs had some hot words in relation to some matters connected with the premises in the early part of the day. It is also said that the first man who arrived upon the scene-some relative of Mrs. gun which it is claimed did the shooting and which is claimed to have been the only firearm in the crowd. arrest, and there will be an examination o

A number of gentlemen met at the town hall last Tuesday evening to talk over the advisability of organizing a land company, the prime object of which would be to advertise the resources of Crook county with a view to induce a portion of the expected immigration of 1890 and succeeding years to come to this county. But it is to be regretted that nothing was done, and from the present outlook there seems to be little hope that anything will be done in this di rection in time to catch any of the immigra-tion that will come west next year. The people who are in business here and those who have land for sale are certainly neglect-ing their interests by not taking hold of a or homes to turn this way.
