6 o'clock yesterday morning a woman was seen to ascend the hill to the reservoir, and after walking around the enclosure several times disappeared. Suspecting all was not right, the authorities were notified and it was found that the gate had been broken open and everything pointed to a suicide. A report crept into our columns Saturday A report crept into our columns Saturday that the third party convention held here that day went into session with closed doors. This error resulted from a motion having been made to that effect, and upon its being presented many left the room thinking they were intruders, but the motion was wisely voted down. In some of the primary meetings that were held those not in sympathy with the move were invited to leave. But the time has passed when men in this country are considered mere machines to respond to the dictations of a few who assume to lead, and our citizens will not support at lead, and our citizens will not support at the polls men who have been named in delegates who assembled here were wise enough to know it, and the motion was voted down.

The high bluff of rock at the junction of Ninth and Bridge streets, is now blown out and the rock placed along Ninth street from Garrison to Hood, making a solid street bed. The excitement now is election and railroad, mostly railroad. The people of Wasco and vicinity held a grand railroad rally last week and there is to be one at Moro thus

Wasco is going to have a motor line from Biggs Station, and, of course, we intend to extend it right on to Moro. Grants will not be outdone, so we hear rumors of a line from there. This line will follow up the Scott canyon leaving Wasco a few miles to the west and so on to Moro. We hope this is true as we need two roads, for Moro is situated near the center of the best farming country in Eastern Oregon.

The DeMoss postoffice will be disconinued on April 15th. The people of that section will then get their mail at this place. Dr. Walters, of Erskineville, contemplates moving to Moro soon and opening a drug store.

We understand there will be a tri-weekly stage started between The Dalles and Moro early in April. We hope The Dalles people will give this enterprise a little help as it will benefit them more than any one else. George Hamilton, of Scott & Hamilton. of Grass Valley, and wife, were in town this week; and Mr. Connelly, school superintendent of Wasco county, and wife, were in town last week.

GOULD RANCH, MORO, March 29, 1890.

Editor TIMES-MOUNTAINEER: In the issue of your paper of March 22d appears a letter from your Moro correspondent under date of March 10th, stating that A. McIntosh & Son had propably lost 30 per cent. of their sheep. That statement is a base and malicious lie, as your Moro correspondent well knows. Your Erskineville correspondent wrote a letter to your paper under date of February 17th, stating that

our loss then was 300 head of sheep. As your correspondents seem to think that our you the truth as to our losses during the past winter. Mise Heppper sang "Milking the Cow," and although some of the tones were high for her with rousing applause, The most povel feature of the entire evening was the "Virginia Reel," danced by Misses Enright, Clara Story, Etta Story, Maie Atwater, Nanny Cooper, Freeman, Alice Keys, Mrs. Phirman. They were masked with double masks and wore aprons front and back, so that they made an appearance of looking at direction. The applause that greeted them when they danced away behind the scenes, indicated the approval of the spectators. Their encore was a quadrille. This was followed by some simple amusements, such as "Musical Chair," "Boston" and "Grab," all of which were enjoyed equally by old and young. Every one present had a pleasant smile, especially when the collation It was all that could be desired.
