EASTERN OREGON Weather-The temperature has been con erably below the average for this season of the year. The weather has been cloudy or partly cloudy and general showers prevailed on Thursday and Friday, ranging from 04 of an inch at The Dalles, .07 of an inch at Heppner, to .33 of an inch at Baker City. In the Blue mountains in Union, Wallowa and Baker counties snow fell on the night of the 5th. The temperature was so cool that fires were necessary in the

house for comfort. Crops-The rains delayed harvesting and threshing for two days. No damage was done to the wheat by the rain, though it did some damage to the hay crop east and south of the Blue mountains. In Wasco county, from Dufur to The Dalles, the wheat is shrunken and the yield is poor; some smut is to be found; in other sections the wheat yield is good. In Gilliam county there is some rust. In Morrow county the wheat is yielding even better than was expected. In Umatilla county the yield is better than for many years. Wallowa, Union, Baker, Crook, Grant and other interior counties have excellent prospects.
